802. Obtaining of information from persons.

For the purposes of the discharge of his statutory functions in relation to genetically modified organisms¹, the Secretary of State² may, by notice in writing served on any person who appears to him:

- 2000 (1) to be involved in the importation³, acquisition⁴, keeping⁵, release⁶ or marketing⁷ of genetically modified organisms⁸; or
- 2001 (2) to be about to become, or to have been, involved in any of those activities⁹,

require that person to furnish such relevant information¹⁰ available to him as is specified in the notice, in such form and within such period following service of the notice as is so specified¹¹.

It is an offence to fail to comply with a notice under these provisions, or to make a false or misleading statement in purported compliance with such a notice¹².

803. Power to deal with cause of imminent danger of damage to the environment.

Where, in the case of anything found by him on any premises¹ which he has power to enter, an inspector² has reason to believe that it is a genetically modified organism³ or that it consists of or includes genetically modified organisms and that, in the circumstances in which he finds it, it is a cause of imminent danger of damage to the environment⁴, he may seize it and cause it to be rendered harmless⁵ (whether by destruction, by bringing it under proper control⁶ or otherwise)⁷. Before:

- 2002 (1) any thing that forms part of a batch of similar things; or
- 2003 (2) any substance,

is rendered harmless under these provisions, the inspector must, if it is practicable and safe for him to do so, take a sample of it and give to a responsible person at the premises a portion of the sample marked in a manner sufficient to identify it⁸. As soon as may be after anything has been seized and rendered harmless, the inspector must prepare and sign a written report giving particulars of the circumstances in which it was seized and so dealt with by him⁹, and must:

- 2004 (a) give a signed copy of the report to a responsible person at the premises where it was found by him¹⁰; and
- 2005 (b) unless that person is the owner of it, also serve a signed copy of the report on the owner¹¹.

If, where head (b) above applies, the inspector cannot after reasonable inquiry ascertain the name or address of the owner, the copy may be served on him by giving it to the person to whom a copy was given under head (a) above¹².

It is an offence to obstruct an inspector, or falsely to pretend to be an inspector¹³.

C. OFFENCES AND REMEDIES FOR HARM

804. Offences.

It is an offence for a person:

- 2006 (1) to do anything in contravention of risk assessment and notification requirements for importation, acquisition, release or marketing¹ in relation to something which is, and which he knows or has reason to believe is, a genetically modified organism²;
- 2007 (2) to fail to comply with risk assessment and notification requirements for the keeping of organisms³ when keeping something which is, and which he knows or has reason to believe is, a genetically modified organism⁴;
- 2008 (3) to do anything in contravention of the requirements to have a consent⁵ in relation to something which is, and which he knows or has reason to believe is, a genetically modified organism⁶;
- 2009 (4) to fail to comply with specified requirements as to the importation, acquisition, keeping, release or marketing of genetically modified organisms⁷ in relation to something which is, and which he knows or has reason to believe is, a genetically modified organism⁸;
- 2010 (5) to fail, without reasonable excuse, to comply with the requirement: (a) to record the results of risk assessments, or to provide further information to the Secretary of State; or (b) prior to a decision on an application for a consent, to provide further information to the Secretary of State as to risk of damage to the environment⁹;
- 2011 (6) to contravene any prohibition imposed on him by a prohibition notice¹⁰;
- 2012 (7) without reasonable excuse, to fail to comply with any requirement relating to the rights of entry and inspection¹¹;
- 2013 (8) to prevent any other person from appearing before an inspector¹² or from answering any question to which an inspector may¹³ require an answer¹⁴;
- 2014 (9) intentionally to obstruct an inspector in the exercise or performance of his powers or duties, other than the powers or duties in relation to imminent danger of damage to the environment¹⁵;
- 2015 (10) intentionally to obstruct an inspector in the exercise of his powers or duties in relation to imminent danger of damage to the environment¹⁶;
- 2016 (11) to fail, without reasonable excuse, to comply with any requirement imposed by a notice to furnish information¹⁷;
- 2017 (12) to make a statement which he knows to be false or misleading in a material particular, or recklessly to make a statement which is false or misleading in a material particular, where the statement is made: (a) in purported compliance with a requirement to furnish any information imposed by or under any of the relevant statutory provisions¹⁸; or (b) for the purpose of obtaining the grant of a consent¹⁹ to himself or any other person or the variation of a consent²⁰;
- 2018 (13) intentionally to make a false entry in any record required to be kept²¹;
- 2019 (14) with intent to deceive, to forge or use a document purporting to be issued or required for any purpose relating to consents²², or to make or have in his

possession a document so closely resembling any such document as to be likely to deceive²³;
2020 (15) falsely to pretend to be an inspector²⁴.

It is a defence for a person charged with an offence under head (1), (2), (3), (4) or (6) above to prove that he took all reasonable precautions and exercised all due diligence to avoid the commission of the offence²⁵.

Proceedings in respect of an offence under the above provisions may not be instituted in England and Wales except by the Secretary of State or with the consent of the Director of Public Prosecutions²⁶.

A. THE REGISTER

807. Public register of information.

The Secretary of State¹ must² maintain a register containing prescribed³ particulars of or relating to:

- 2021 (1) notices given or other information furnished in relation to risk assessment and notification requirements⁴;
- 2022 (2) directions given requiring persons to apply for consents⁵;
- 2023 (3) prohibition notices⁶;
- 2024 (4) applications for consents (and any further information furnished in connection with them) and any advice given by the advisory committee⁷ in relation to such applications⁸;
- 2025 (5) consents granted by the Secretary of State and any information furnished to him in pursuance of consent conditions⁹;
- 2026 (6) any other information obtained or furnished under any relevant statutory provision¹⁰;
- 2027 (7) convictions for such offences¹¹ as may be prescribed¹²;
- 2028 (8) such other matters relating to the relevant statutory provisions as may be prescribed¹³.

It is the duty of the Secretary of State to secure that the register is open to inspection by members of the public free of charge at all reasonable hours¹⁴, and to afford to members of the public facilities for obtaining, on payment of reasonable charges, copies of entries¹⁵.

The register may be kept in any form¹⁶.

EXCLUSION OF INFORMATION FROM THE REGISTER/810. Commercially confidential information.

810. Commercially confidential information.

No information relating to the affairs of any individual or business may be included in the register¹ without the consent of that individual or the person for the time being carrying on that business, if the Secretary of State² has determined that the information:

- 2029 (1) is, in relation to him, commercially confidential; and
- 2030 (2) is not information of a specified description³,

unless the Secretary of State is of the opinion that the information is no longer commercially confidential in relation to him⁴. The Secretary of State is not required to determine whether any information is or is not commercially confidential except where the person furnishing the information applies to have it excluded on the ground that it is (in relation to himself or another person) commercially confidential⁵. Where such an application has been made the Secretary of State must make a determination and inform the applicant of it as soon as is practicable⁶.

Where it appears to the Secretary of State that any information (other than information furnished by the person to whom it relates) which has been obtained under or by virtue of any relevant statutory provision⁷ might be commercially confidential⁸, the Secretary of State must:

- 2031 (a) give to the person to whom or to whose business it relates notice that the information is required to be included in the register unless excluded⁹ as being commercially confidential¹⁰; and
- 2032 (b) give him a reasonable opportunity of objecting to the inclusion of the information on the ground that it is commercially confidential, and of making representations to the Secretary of State for the purpose of justifying any such objection¹¹.

The Secretary of State must take any representations into account before determining whether the information is or is not commercially confidential¹².

Information excluded from the register by reason of commercial confidentiality is treated as ceasing to be commercially confidential at the expiry of a period of four years¹³ beginning with the date of the determination by virtue of which it was excluded; but the person who furnished it or to whom or to whose business it relates may apply to the Secretary of State for the information to remain excluded on the ground that it is still commercially confidential¹⁴.

The prescribed particulars of or relating to the matters mentioned in s 122(1)(a), (c), (d), (e) (see PARA 807) must be included in the register notwithstanding that they may be commercially confidential if and so far as they are of any of the following descriptions: s 123(7) (amended by SI 2002/2443; and SI 2002/3188). Those descriptions are: (1) the name and address of the person giving the notice or furnishing the information; (2) the general description of

any genetically modified organisms to which the notice or other information relates; (3) the purpose for which those organisms are being imported, acquired, kept, released or marketed (according to whichever of those acts the notice or other information relates); and (4) notices under the Environmental Protection Act 1990 s 112(3), (4), (5) or (7) (see PARA 798): s 123(7)(a)-(f) (amended by SI 2002/2443; and SI 2002/3188). The Secretary of State may by regulations prescribe any other description of information as information which the public interest requires to be included in the register notwithstanding that it may be commercially confidential: Environmental Protection Act 1990 s 123(7) (as so amended). For the purposes of s 123(7), the following descriptions of information are also information which must be included in the register even if commercially confidential: (a) the location of the release of the genetically modified organisms to which the information relates; (b) the intended use of the genetically modified organisms to which the information relates; (c) the environmental risk assessment; (d) the methods and plans for monitoring and for responding to an emergency in relation to the genetically modified organisms to which the information relates; and (e) the name and address of the holder of a consent to which a prohibition notice or other information relates: Genetically Modified Organisms (Deliberate Release) Regulations 2002, SI 2002/2443, reg 33(1); Genetically Modified Organisms (Deliberate Release) (Wales) Regulations 2002, SI 2002/3188, reg 34(1).

811. Advisory committee in relation to genetically modified organisms.

The Secretary of State¹ must appoint a committee to provide him with advice:

- 2033 (1) on the exercise of his powers in relation to genetically modified organisms²;
- 2034 (2) on the exercise of any relevant statutory power to make regulations³,

and on such other matters concerning his statutory functions⁴ as he may from time to time direct⁵. The chairman and other members of the committee hold and vacate office in accordance with the terms of their appointment⁶. The Secretary of State must pay to the members of the committee such remuneration (if any) and such allowances as he may, with the consent of the Treasury⁷, determine⁸.

Transfer and joint exercise of functions and delegation of enforcement functions.

812. Transfer and joint exercise of functions and delegation of enforcement functions.

The Secretary of State¹ has powers to make regulations² under the relevant statutory provisions³, which were formerly exercisable in certain circumstances by the Secretary of State acting jointly with the Minister of Agriculture, Fisheries and Food⁴. Any relevant functions are now exercised by the Secretary of State⁵. However, any function of the Secretary of State in relation to:

- 2035 (1) giving directions in relation to risk assessment and notification requirements⁶; and
- 2036 (2) prohibition notices⁷,

is exercisable, where the function is to be exercised in relation to a matter with which the Food Standards Agency is concerned, by the Secretary of State and the Agency acting jointly⁸. Accordingly, any reference in the relevant statutory provisions to the Secretary of State, in relation to any such function, must be treated as a reference to the Secretary of State and the Agency acting jointly⁹.

The Secretary of State may, by an agreement made with any public authority, delegate to that authority or to any officer appointed by an authority exercising functions on behalf of that authority any of his enforcement functions¹⁰, subject to such restrictions and conditions as may be specified in the agreement¹¹. The Secretary of State must, if and so far as such an agreement so provides, make payments to the authority to reimburse the authority the expenses incurred in the performance of functions so delegated; but no such agreement may be made without the approval of the Treasury¹².

5 See the Environmental Protection Act 1990 s 126(2) (as substituted: see note 4). However, the Food Standards Agency must be consulted before any regulations are made under the Environmental Protection Act 1990 Pt VI, other than under s 113 (see PARA 799): s 126(5)(a), (8) (as so substituted). As to the Food Standards Agency generally see **FOOD** vol 18(2) (Reissue) PARA 225 et seq.

GENETICALLY MODIFIED ORGANISMS/(3) ACTIVITIES INVOLVING GENETIC MODIFICATION/813.
Activities involving genetic modification.

(3) ACTIVITIES INVOLVING GENETIC MODIFICATION

813. Activities involving genetic modification.

The Genetically Modified Organisms (Contained Use) Regulations 2000¹ have effect with a view to: (1) protecting persons against risks to their health, whether immediate or delayed, arising from activities involving genetic modification² of organisms³; and (2) protecting the environment against harm from activities involving genetic modification of micro-organisms⁴.

The regulations⁵ do not apply to the genetic modification of organisms solely by any of certain specified techniques⁶ nor to any organisms so modified⁷. They also do not apply to:

- 2037 (a) any activity in which genetically modified organisms are cultured, stored, transported, destroyed, disposed of or used, where such organisms are or are contained: (i) in a product⁸ marketed in pursuance of certain consents⁹ and in each case, that activity is conducted in accordance with any conditions or limitations attached to the consent¹⁰; (ii) in a medicinal product for human or veterinary use marketed in accordance with certain European Union legislation¹¹; (iii) in food or feed authorised in accordance with the provisions of certain European Union legislation¹²; or (iv) in certain notified food or feed products¹³; or
- 2038 (b) any activity in which genetically modified organisms are released or marketed in cases or circumstances in which the consent of the Secretary of State or, as regards Wales, the Welsh Ministers, is required under the Environmental Protection Act 1990¹⁴.

Exemption may be granted from any or all of the above requirements and prohibitions in respect of any person or class of persons, or any organism or class of organisms¹⁵.

¹ ie the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831.

² 'Activity involving genetic modification' means a contained use; and 'contained use' means an activity in which organisms are genetically modified or in which genetically modified organisms are cultured, stored, transported, destroyed, disposed of or used in any other way and for which physical, chemical or biological barriers, or any combination of such barriers, are used to limit their contact with, and to provide a high level of protection for, humans and the environment: Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 2(1).

'Genetic modification' in relation to an organism means the altering of the genetic material in that organism in a way that does not occur naturally by mating or natural recombination or both and within the terms of this definition:

153 (1) genetic modification occurs at least through the use of the techniques listed in Sch 2 Pt I (ie (a) recombinant nucleic acid techniques involving the formation of new combinations of genetic material by the insertion of nucleic acid molecules, produced by whatever means outside an organism, into any virus, bacterial plasmid or other vector system and their incorporation into a host organism in which they do not naturally occur but in which they are capable of continued propagation; (b) techniques involving the direct introduction into an organism of heritable genetic material prepared outside the organism, including micro-injection, macro-injection and micro-encapsulation; (c) cell fusion or hybridization techniques where live cells with new combinations of heritable genetic material are formed through the fusion of two or more cells by means of methods that do not occur naturally); and

154 (2) the techniques listed in Sch 2 Pt II (ie (a) in vitro fertilisation; (b) natural processes including conjugation, transduction or transformation; (c) polyploidy induction) are not considered to result in genetic modification,

and 'genetically modified' is construed accordingly: reg 2(1).

3 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(1)(a). 'Organism' means a biological entity capable of replication or of transferring genetic material and includes a micro-organism, but does not include a human, human embryo or human admixed embryo: reg 2(1) (definition amended by SI 2009/1892). 'Micro-organism' means a microbiological entity, cellular or non-cellular, capable of replication or of transferring genetic material; and includes a virus, a viroid, and an animal or plant cell in culture: Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 2(1). 'Human embryo' means an embryo within the meaning given in the provisions of the Human Fertilisation and Embryology Act 1990 (apart from s 4A) (see **MEDICAL PROFESSIONS**) by virtue of s 1(1), (6) (see **CHILDREN AND YOUNG PERSONS** vol 5(3) (2008 Reissue) PARA 102); and 'human admixed embryo' has the same meaning as it has by virtue of s 4A(6), (11) (see **MEDICAL PROFESSIONS**): Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 2(1) (definitions added by SI 2009/1892).

4 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(1)(b).

5 Ie except the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 17 (in relation to principles of occupational and environmental safety): see PARA 816.

6 Ie the techniques referred to in the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, Sch 2 Pt III (ie (1) mutagenesis; (2) cell fusion (including protoplast fusion) of prokaryotic species which can exchange genetic material through homologous recombination; (3) cell fusion (including protoplast fusion) of cells of any eukaryotic species, including production of hybridomas and plant cell fusions; (4) self-cloning, where the resulting organism is unlikely to cause disease or harm to humans, animals or plants).

7 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(2).

8 For these purposes, 'product' means a product consisting of or containing a genetically modified organism or a combination of genetically modified organisms: Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(7).

9 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(i) (amended by SI 2005/2466). The consents are as follows: (1) a consent granted by the Secretary of State or, as regards Wales, by the Welsh Ministers under the Environmental Protection Act 1990 s 111(1) (see PARA 797); or (2) a consent granted by the Northern Ireland Department of the Environment under the Genetically Modified Organisms (Northern Ireland) Order 1991, SI 1991/1714 (NI 19), art 8(1); or (3) a written consent given by the competent authority of an EEA state in accordance with EC Council Directive 1990/220 (OJ L117, 8.5.1990, p 15) on the deliberate release into the environment of genetically modified organisms, art 13(4) (repealed) or EC Council Directive 2001/18 (OJ L106, 17.4.2001, p 1) on the deliberate release of genetically modified organisms into the environment, art 15(3), 17(6) or 18(2) (see PARA 46): see the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(i) (as so amended). 'EEA state' means a state, other than the United Kingdom, which is a contracting party to the Agreement on the European Economic Area (Oporto, 2 May 1992; EC 7 (1992); Cm 2073), as adjusted by the Protocol (Brussels, 17 March 1993, EC 2 (1993); Cm 2183) and adopted as respects the United Kingdom by the European Economic Area Act 1993: Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 2(1). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

10 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(i).

11 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(ii) (amended by SI 2005/2759). The legislation referred to in the text is EC Council Regulation 2309/93 (OJ L214, 24.08.1993, p 1) or European Parliament and EC Council Regulation 726/2004 (OJ L329, 16.12.2005, p 4) laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency (see **MEDICINAL PRODUCTS AND DRUGS** vol 30(2) (Reissue) PARA 19 et seq): see the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(ii) (as so amended).

12 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(iii) (substituted by SI 2005/2466). The legislation referred to in the text is EC Parliament and Council Regulation 1829/2003 (OJ L268, 18.10.2003, p 1) on genetically modified food and feed: see the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(iii) (as so substituted).

13 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(iv) (added by SI 2005/2466). The products referred to in the text are food products notified to the European Commission in accordance with EC Parliament and Council Regulation 1829/2003 (OJ L268, 18.10.2003, p 1) on genetically modified food and feed, art 8.1, or feed products notified to the Commission in accordance with art 20.1: see the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(a)(iv) (as so added).

14 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 3(3)(b) (amended by SI 2005/2466). The consent of the Secretary of State or the Welsh Ministers would be required under the Environmental Protection Act 1990 s 111(1): see PARA 797. In the case of Northern Ireland, the required consent would be that of the Northern Ireland Department of the Environment under the Genetically Modified Organisms (Northern Ireland) Order 1991, SI 1991/1714 (NI 19), art 8(1).

15 See the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 25. There is a right of appeal for any person who is aggrieved by a decision of the competent authority to revoke an exemption certificate granted to him or to grant such a certificate subject to a condition or a limit of time pursuant to reg 25: see reg 29, Sch 11 (both amended by SI 2005/2466). 'Competent authority' means, as regards England and Wales, the Secretary of State and the Health and Safety Executive acting jointly: see the Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 2(1). As to the Health and Safety Executive see **HEALTH AND SAFETY AT WORK** vol 52 (2009) PARA 361 et seq.

GENETICALLY MODIFIED ORGANISMS/(3) ACTIVITIES INVOLVING GENETIC MODIFICATION/814.
Risk assessment.

814. Risk assessment.

No person may undertake any activity involving genetic modification¹ of micro-organisms² unless, before commencing that activity, he has ensured that a suitable and sufficient assessment of the risks to human health and the environment has been carried out³. No person may undertake any activity involving genetic modification of organisms⁴ other than micro-organisms unless, before commencing that activity, he has ensured that a suitable and sufficient assessment of the risks created thereby to human health has been carried out⁵. The person carrying out a risk assessment of activities involving either genetically modified⁶ micro-organisms or genetically modified organisms other than micro-organisms must take into account specified matters, and include specified steps⁷. Where there is reason to suspect that an assessment is no longer valid or there has been a significant change in the activity involving genetic modification to which an assessment⁸ relates, the person undertaking the activity involving genetic modification to which the assessment relates must ensure that the assessment is reviewed forthwith⁹. A person who carries out such an assessment must establish a genetic modification safety committee to advise him in relation to that assessment¹⁰.

Exemption may be granted from any or all of the above requirements and prohibitions in respect of any person or class of persons, or any organism or class of organisms¹¹.

2 As to the meaning of 'micro-organism' see PARA 813 note 3.

3 Genetically Modified Organisms (Contained Use) Regulations 2000, SI 2000/2831, reg 6(1). Regulation 6 applies to the transport of genetically modified organisms by road, rail, inland waterway, sea or air, except that, in making the assessment required by reg 6(1), the person undertaking that assessment is not required to include specified steps: see reg 3(5), Sch 3 Pt II para 3(h)-(j).

The person undertaking an activity involving genetic modification: (1) must keep a record of the assessment (ie any assessment under reg 6 or reg 7 (see the text and notes 4-7)) relating to that activity, and any review of that assessment, for at least ten years from the date of the cessation of that activity; and (2) must make such record available to the competent authority when requested to do so: reg 8(2), (3). 815. Notification requirements.

No person may use premises for the first time for the purpose of undertaking an activity involving genetic modification¹, unless he has submitted to the competent authority² a notification informing it of his intention to do so containing specified information³, and he has received an acknowledgement from the Health and Safety Executive⁴ of receipt of that notification⁵. Within ten working days⁶ of the competent authority receiving such a notification, the Executive must send to the notifier⁷ an acknowledgement of receipt⁸.

No person may undertake an activity involving genetic modification of micro-organisms⁹ in class 2¹⁰ unless he has submitted a notification to the competent authority informing it of his intention to do so containing specified information¹¹. Within ten working days of the competent authority receiving such a notification, the Executive must send to the notifier an acknowledgement of receipt¹². The competent authority must ensure that any emergency plan¹³ has been prepared¹⁴. No person may undertake: (1) for the first time an activity involving genetic modification of micro-organisms in class 2 at the premises referred to in a notification unless at least 45 days, or such shorter period of time as the competent authority may approve in writing, have or has elapsed since the date on which the acknowledgement was sent and the competent authority has not within that period of 45 days or the shorter period of time approved by the competent authority, as the case may be, informed the notifier that he may not undertake the activity in question, or he has received the required acknowledgement and consent for activities involving genetic modification in class 3 or class 4¹⁵ has already been granted in respect of the premises to which the notification refers¹⁶; (2) for the second or subsequent times an activity involving genetic modification of micro-organisms in class 2 at the premises referred to in a notification unless he has received the required acknowledgement¹⁷. Where a person submits a notification in respect of an activity involving genetic modification of micro-organisms in class 2 which is not to be undertaken for the first time at the premises referred to in the notification, with the notification that person may request that the competent authority makes a decision whether or not to agree to his undertaking the activity in question¹⁸. The competent authority must make such a decision within 45 days of the date on which the acknowledgement was sent¹⁹. No person may undertake an activity involving genetic modification of micro-organisms in class 3 or class 4 unless he has submitted to the competent authority a notification informing it of his intention to do so containing specified information²⁰, and received the written consent of the competent authority to undertake the activity in question²¹. Within ten working days of the competent authority receiving such a notification, the Executive must send to the notifier an acknowledgement of receipt²². Where a person proposes to undertake an activity involving genetic modification of micro-organisms in class 3 or class 4 for the first time at the premises referred to in a notification, the competent authority must inform that person in writing of its decision to grant or refuse consent to undertake the activity in question not more than 90 days after the acknowledgement was sent²³. Where a person proposes to undertake an activity involving genetic modification of micro-organisms in class 3 or class 4 for the second or subsequent times at the premises referred to in a notification, the competent authority must inform that person in writing of its decision to grant or refuse consent to undertake the activity in question not more than 45 days after the acknowledgement was sent²⁴. A consent may be granted subject to conditions²⁵. No person may undertake an activity involving genetic modification of organisms other than micro-organisms unless he has submitted to the competent authority a notification informing it of his intention

to do so and containing specified information²⁶. Within ten working days of the competent authority receiving such a notification, the Executive must send to the notifier an acknowledgement of receipt²⁷. No person may undertake any activity involving genetic modification of organisms other than micro-organisms, unless at least 45 days, or such shorter period of time as the competent authority may approve in writing, have or has elapsed since the date on which the acknowledgement was sent and the competent authority has not within that period of 45 days or the shorter period of time approved by the competent authority, as the case may be, informed the notifier that he may not undertake the activity in question²⁸.

Where a notification is required in respect of premises which are situated on the border of England and Scotland, or in respect of an activity involving genetic modification which is to take place in premises situated on the border of England and Scotland, the notifier must submit a single notification to the joint competent authority²⁹. The competent authority may accept a single notification in respect of a connected programme of work³⁰ undertaken by the same person at one site³¹, or more than one site, or in respect of a single activity involving genetic modification undertaken by the same person at more than one site³².

The competent authority must examine a notification for: (a) conformity with the statutory requirements³³; (b) the accuracy and completeness of the information provided³⁴; (c) the correctness of the assessment carried out³⁵ and submitted to the competent authority with the notification³⁶; (d) the adequacy of the waste management and emergency response measures submitted with the notification³⁷; and (e) in the case of a notification submitted in respect of an activity involving genetic modification of micro-organisms in class 2, 3 or 4, the correctness of the class assigned to the activity involving genetic modification of micro-organisms³⁸. For the purpose of carrying out such an examination, the Executive may request in writing the notifier to provide such additional information relating to the notification as it may specify, and, in such a case, when so requested by the Executive, the notifier must not begin nor continue, as the case may be, the activity involving genetic modification until the competent authority has given its approval in writing³⁹. Where the person who submitted a notification⁴⁰ has commenced the activity involving genetic modification before the Executive requests additional information: (i) the Executive may give to that person instructions concerning the cessation of the activity involving genetic modification⁴¹; (ii) that person must comply with any such instructions⁴²; (iii) subject to any such instructions, that person must continue the activity involving genetic modification only to the extent necessary in order to store or destroy all genetically modified organisms resulting from the activity since its commencement⁴³. If requested to do so by the Secretary of State or the Scottish Ministers, the Executive must request additional information⁴⁴. Within ten working days, the Executive must acknowledge receipt of all additional information provided in response to a request made by the Executive⁴⁵. Where a notifier has not commenced activity involving or relating to genetic modification, and the Executive requests additional information, and the notifier in question does not provide that information within a period of six months of the date on which the Executive sent the request, the competent authority may return the notification to that notifier⁴⁶.

The competent authority may at any time by notice in writing to the person undertaking or proposing to undertake an activity involving genetic modification:

- 2039 (A) set a limit of time for, or impose conditions with regard to, that activity⁴⁷;
- 2040 (B) require that person to suspend, to terminate or not to commence that activity, as the case may be⁴⁸;
- 2041 (C) revoke or vary a consent granted to that person,

and the person to whom the notice is addressed must comply with that notice⁴⁹. A notifier must forthwith send to the competent authority full details in writing of certain changes in information provided by him⁵⁰. Where a notifier subsequently makes a change in the premises or the activity involving genetic modification to which his notification relates which may have

significant consequences for the risks arising from that activity, or becomes aware of any new information which may have significant consequences for the risks arising from that activity, he must forthwith send to the competent authority in writing full details of the change or the new information, as the case may be⁵¹. A notifier may withdraw his notification by giving written notice to the competent authority, provided that the notifier has not commenced the activity involving genetic modification to which the notification relates⁵².

Exemption may be granted from any or all of the above requirements and prohibitions in respect of any person or class of persons, or any organism or class of organisms⁵³.

GENETICALLY MODIFIED ORGANISMS/(3) ACTIVITIES INVOLVING GENETIC MODIFICATION/816.
Safety, accidents and emergencies.

816. Safety, accidents and emergencies.

A person who undertakes an activity involving genetic modification¹ must ensure that the exposure of humans and the environment to genetically modified micro-organisms² is reduced to the lowest level that is reasonably practicable, and harm to humans arising from an activity involving genetic modification of organisms other than micro-organisms is reduced to the lowest level that is reasonably practicable³. For any activity involving genetic modification of micro-organisms, the measures to be taken in order to comply with that duty include the general principles of good microbiological practice and of good occupational safety and hygiene⁴. For any activity involving genetic modification of organisms other than micro-organisms, the general principles are to be applied in so far as they are appropriate⁵.

A person who undertakes an activity involving genetic modification of micro-organisms must apply certain containment measures, where and to the extent required⁶. Where a risk assessment⁷, or any review of that assessment, shows that a particular containment measure of the appropriate containment level is not necessary or practicable for the activity involving genetic modification of micro-organisms to which the assessment relates, the person undertaking that activity, after providing full justification to, and with the written agreement of, the competent authority⁸, need not apply that containment measure for the activity in question⁹. A person who undertakes an activity involving genetic modification of micro-organisms must review the containment measures applied by him at suitably regular intervals¹⁰, and forthwith if that person suspects that: (1) the containment measures are no longer adequate¹¹; (2) the class¹² in relation to the activity involving genetic modification of micro-organisms identified in the risk assessment is no longer appropriate¹³; or (3) in the light of new scientific or technical knowledge, the risk assessment is no longer valid¹⁴. A person who undertakes an activity involving genetic modification of organisms other than micro-organisms must apply the containment measures selected in accordance with the assessment made¹⁵. That person must review the containment measures applied by him at suitably regular intervals, and forthwith if that person suspects that the containment measures applied are no longer adequate, or in the light of new scientific or technical knowledge, the assessment is no longer valid¹⁶.

Where a risk assessment of activities involving genetically modified micro-organisms¹⁷ shows that, as a result of any reasonably foreseeable accident¹⁸, the health or safety of persons outside the premises in which an activity involving genetic modification is carried on is liable to be seriously affected, or there is a risk of serious damage to the environment, the person undertaking that activity must ensure that, before the activity to which the assessment relates begins, a suitable plan is prepared with a view to securing the health and safety of those persons and the protection of the environment¹⁹. Where a risk assessment of activities involving genetically modified organisms other than micro-organisms²⁰ shows that, as a result of any reasonably foreseeable accident, the health or safety of persons outside the premises in which an activity involving genetic modification is undertaken is liable to be seriously affected, the person undertaking that activity must ensure that, before the activity to which the assessment relates begins, a suitable plan is prepared with a view to securing the health and safety of those persons²¹. Every emergency plan²² must include the measures to be taken in the event of an accident to which the plan relates, and must be reviewed and, where necessary, revised at suitably regular intervals²³. The person undertaking the activity involving genetic modification which is the subject of an emergency plan must inform the emergency services²⁴ and any body

or authority liable to be affected by an accident to which the plan relates of the contents of the plan and of any relevant revisions made and must make the plan and any such revisions publicly available²⁵.

Where an accident occurs, the person undertaking the activity involving genetic modification must forthwith inform the competent authority of the accident and provide the following information: (a) the circumstances of the accident²⁶; (b) the identity and quantity of the genetically modified organisms concerned²⁷; (c) any information necessary to assess the effects of the accident on the health of the general population and on the environment²⁸; and (d) any measures taken in response to the accident²⁹. Where the competent authority is informed of an accident, it must: (i) ensure that any necessary measures are taken³⁰; (ii) immediately inform those EEA states³¹ which could be affected by the accident³²; (iii) collect, where possible, the information necessary for a full analysis of the accident and, where appropriate, make recommendations to avoid similar accidents in the future and to limit their effects³³; and (iv) send to the European Commission: (A) the information specified in heads (a), (b) and (d) above³⁴; (B) information on the effectiveness of the measures taken in response to the accident³⁵; and (C) an analysis of the accident, including recommendations to limit its effects and to avoid similar accidents in the future³⁶.

Exemption may be granted from any or all of the above requirements and prohibitions in respect of any person or class of persons, or any organism or class of organisms³⁷.

15. NOISE CONTROL

(1) IN GENERAL

817. Introduction.

Not only is some noise a statutory nuisance¹ under the environmental protection legislation², but also certain types of noise are subject to specific legislative regimes. The specific types of noise subject to these measures include: noise from loudspeakers in streets³; noise from audible intruder alarms on or in any premises⁴; noise from a dwelling at night-time⁵; noise within a noise abatement area⁶; noise from a construction site⁷; and noise from plant or machinery⁸. Noise produced by motor vehicles and noise produced by aircraft are regulated by specific provisions considered elsewhere in this work⁹. Noise produced from household appliances and lawnmowers has also been made the subject of special regulation¹⁰. Provision is made for the closure of noisy premises which have a premises licence or a temporary event notice¹¹.

No claim for nuisance may be brought arising out of such noise and vibrations provided that they are within the prescribed conditions: see the Civil Aviation Act 1982 s 77(2); and **AIR LAW** vol 2 (2008) PARAS 259, 656. As to the regulation of take off and landing of aeroplanes at designated airports see the Civil Aviation Act 1982 s 78(1); the Civil Aviation (Designation of Aerodromes) Order 1981, SI 1981/651; and **AIR LAW** vol 2 (2008) PARA 260. Noise created by the flight of an aeroplane over land does not found a claim in private nuisance: see the Civil Aviation Act 1982 s 76; and **AIR LAW** vol 2 (2008) PARA 656. Noise created by aeroplanes other than model aircraft is not a statutory nuisance: see the Environmental Protection Act 1990 s 79(6); and **NUISANCE** vol 78 (2010) PARA 165.

818. European Union legislation.

There is European Union legislation relating to noise control, which deals with noise from vehicles¹, construction plant², aircraft³ and household appliances⁴. For the purposes of implementing the EU legislation relating to noise from vehicles in England and Wales the Road Traffic Act 1988 was passed and regulations were made under it⁵. The main means of implementation of EU legislation relating to noise from other sources is by way of regulations⁶.

(2) GENERAL PROVISIONS RELATING TO NOISE UNDER THE

819. Codes of practice.

For the purpose of giving guidance on appropriate methods, including the use of specified types of plant or machinery, for minimising noise¹, the Secretary of State² may:

- 2042 (1) prepare and approve and issue such codes of practice as in his opinion are suitable for the purpose³; and
- 2043 (2) approve such codes of practice issued or proposed to be issued otherwise than by him as in his opinion are suitable for the purpose⁴.

The Secretary of State must approve a code of practice for the carrying out of works⁵ on construction sites⁶.

The powers conferred on the Secretary of State under these provisions are exercisable by order, and include power to vary or revoke a previous order⁷.

1 'Noise' includes vibration: Control of Pollution Act 1974 s 73(1). The provisions of Pt III (ss 57-74) do not apply to noise caused by aircraft other than model aircraft: s 73(4). Cf **NUISANCE** vol 78 (2010) PARA 165.

820. Meaning of 'person responsible'.

For the purposes of Part III of the Control of Pollution Act 1974¹, the 'person responsible' in relation to the emission of noise², means the person to whose act, default or sufferance the noise is attributable³. Where more than one person is responsible for noise, these provisions apply to each of those persons whether or not what any one of them is responsible for would by itself amount to a nuisance⁴, or would result in a level of noise justifying action under Part III of the Control of Pollution Act 1974⁵.

821. Procedure for appeals.

Where there is an appeal to a magistrates' court under Part III of the Control of Pollution Act 1974¹, the procedure is by way of complaint for an order².

The Secretary of State³ may make regulations as to appeals under Part III of the Control of Pollution Act 1974 to the Secretary of State or to magistrates' courts⁴. Regulations under these provisions may prescribe the procedure and practice as respects appeals to the Secretary of State under Part III of the Control of Pollution Act 1974⁵.

In entertaining any appeal under Part III of the Control of Pollution Act 1974, the Secretary of State or (as the case may be) the magistrates' court must have regard to any duty imposed by law on the appellant which concerns the activities in the course of which the noise is emitted⁶.

1 le the Control of Pollution Act 1974 Pt III (ss 57-74).

2 Control of Pollution Act 1974 s 70(1). The Magistrates' Courts Act 1980 (see **MAGISTRATES**) applies to the proceedings: s 70(1); Interpretation Act 1978 s 17(2)(a).

3 As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

4 Control of Pollution Act 1974 s 70(2). This power is subject to s 70(1) (see the text and notes 1-2): s 70(2).

The regulations may in particular: (1) include provisions comparable to those in the Public Health Act 1936 s 290 (see PARAS 125-127); (2) prescribe the cases in which a notice under the Control of Pollution Act 1974 Pt III is, or is not, to be suspended until the appeal is decided, or until some other stage in the proceedings; (3) prescribe the cases in which the decision on appeal may in some respects be less favourable to the appellant than the decision from which he is appealing; (4) prescribe the cases in which the appellant may claim that a notice should have been served on some other person and prescribe the procedure to be followed in those cases: s 70(2).

As to the regulations made see the Control of Noise (Appeals) Regulations 1975, SI 1975/2116 (amended by SI 1990/2276).

5 Control of Pollution Act 1974 s 70(3). The regulations may in particular make provision as respects: (1) the particulars to be included in the notice of appeal; (2) the persons on whom notice of appeal is to be served and the particulars, if any, to accompany the notice; and (3) the abandonment of any appeal: s 70(3). As to the regulations made see note 4.

6 Control of Pollution Act 1974 s 70(4). As to the meaning of 'noise' see PARA 819 note 1. The phrase 'have regard' has no precise legal meaning: *Simpson v Edinburgh Corpn* 1960 SC 313, 1961 SLT 17, Ct of Sess.

822. Penalties for offences.

A person guilty of an offence against Part III of the Control of Pollution Act 1974¹ is liable on summary conviction to a penalty² together with a further penalty³ for each day on which the offence continues after the conviction⁴.

1 Ie the Control of Pollution Act 1974 Pt III (ss 57-74).

2 Control of Pollution Act 1974 s 74(1) (amended by virtue of the Criminal Justice Act 1982 ss 35, 38, 46). The penalty is a fine not exceeding level 5 on the standard scale: see the Control of Pollution Act 1974 s 74(1) (as so amended). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

3 The penalty is a fine not exceeding £50 for each day on which the offence continues: see the Control of Pollution Act 1974 s 74(1) (as amended: see note 2).

4 Control of Pollution Act 1974 s 74(1) (as amended: see note 2). In determining whether an offence is a second or subsequent offence against Pt III, account is to be taken of any offence: (1) under the Public Health (Scotland) Act 1897 by way of contravening a decree or interdict relating to noise; or (2) under the Public Health Act 1936 s 95 (repealed) by way of contravening a nuisance order relating to noise; or (3) under the Environmental Protection Act 1990 s 80(4) (see **NUISANCE** vol 78 (2010) PARA 203), as if it were an offence against the Control of Pollution Act 1974 Pt III: s 74(2) (amended by the Environmental Protection Act 1990 Sch 15 para 15). 'Contravention' includes a failure to comply with the provision in question; and 'contravene' is to be construed accordingly: Control of Pollution Act 1974 s 73(1).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/15. NOISE CONTROL/(2) GENERAL PROVISIONS RELATING TO NOISE UNDER THE CONTROL OF POLLUTION ACT 1974/823. Best practicable means.

823. Best practicable means.

For the purposes of Part III of the Control of Pollution Act 1974¹, it may in certain circumstances be a defence to show that the best practicable means have been used to prevent or counteract the effects of the noise². In construing references to 'best practicable means', the following points apply³:

2044 (1) 'practicable' means reasonably practicable having regard among other things to local conditions and circumstances, to the current state of technical knowledge and to the financial implications⁴;

2045 (2) the means to be employed include the design, installation, maintenance and manner and periods of operation of plant and machinery, and the design, construction and maintenance of buildings and acoustic structures⁵;

2046 (3) the test of best practicable means is to apply only so far as compatible with any duty imposed by law, and in particular is to apply to statutory undertakers⁶ only so far as compatible with the duties imposed on them in their capacity of statutory undertakers⁷;

2047 (4) the test of best practicable means is to apply only so far as compatible with safety and safe working conditions, and with the exigencies of any emergency or unforeseeable circumstances⁸;

2048 (5) subject to heads (1) to (4) above, regard must be had to any relevant provisions of an approved code of practice⁹.

(3) NOISE ABATEMENT ZONES

824. Designation of noise abatement zones.

Under the Control of Pollution Act 1974, there is provision for the setting of a maximum level for noise in certain areas¹. A local authority² may by order (a 'noise abatement order'³) designate all or any part of its area a noise abatement zone⁴. A noise abatement order must specify the classes of premises⁵ to which it applies⁶. A noise abatement order may be revoked or varied by a subsequent noise abatement order⁷.

1 See the Control of Pollution Act 1974 ss 63-67. See also PARA 825 et seq. As to the meaning of 'noise' see PARA 819 note 1.

2 As to the meaning of 'local authority' see PARA 99.

4 Control of Pollution Act 1974 s 63(1) (s 63(1), (3) amended by the Local Government, Planning and Land Act 1980 Sch 2 para 14, Sch 34 Pt II). 'Noise abatement zone' means a zone so designated: see the Control of Pollution Act 1974 ss 63(1), 73(1).

5 Under the Control of Pollution Act 1974, 'premises' includes land: s 105(1). As to the meaning of 'premises' under the Public Health Act 1936, the Public Health (Control of Disease) Act 1984 and the Clean Air Act 1993 see PARAS 1 note 34, 210 note 5.

825. Making of a noise abatement order.

Before making a noise abatement order¹, the local authority² must serve notice³ of its proposal to make the order on every owner⁴, lessee and occupier (other than tenants for a month or any period less than a month) of any premises⁵ within the area and of a class to which the order will relate⁶. The local authority must also publish such a notice in the London Gazette and once at least in each of two successive weeks in some newspaper circulating in the area to which the order will relate⁷. The notice must:

- 2049 (1) state that the local authority proposes to make the order, and its general effect⁸;
- 2050 (2) specify a place in the area of the local authority where a copy of the order and of any map or plan referred to in it may be inspected by any person free of charge at all reasonable times during a period of not less than six weeks from the date of the last publication of the notice⁹; and
- 2051 (3) state that within that period any person who will be affected by the order may by notice in writing to the local authority object to the making of the order¹⁰.

If such an objection is made and not withdrawn, the local authority may not make the order without first considering the objection¹¹, although it need not do so if satisfied that compliance is unnecessary having regard to the nature of the premises to which the order will relate when it comes into force or to the nature of the interests of the persons who have made objections which have not been withdrawn¹². Where the order varies or revokes a previous order, the local authority may also disregard any objection to the order which in its opinion amounts in substance to an objection which was made to the previous order¹³.

A noise abatement order comes into operation on such date after it is made as is specified in it¹⁴. However, if, before the date on which the order is to come into operation, the local authority: (a) passes a resolution postponing the coming into operation of the order¹⁵; and (b) publishes a notice stating the effect of the resolution in the London Gazette and once at least in each of two successive weeks in a newspaper circulating in the area to which the order relates¹⁶, then the order comes into operation on the date specified in the resolution, unless there is a further postponement under head (a) above¹⁷.

1 As to the meaning of 'noise abatement order' see PARA 824.

2 As to the meaning of 'local authority' see PARA 99.

3 As to the meaning of 'notice' see PARA 132 note 3.

4 'Owner' means the person for the time being receiving the rackrent of the premises in connection with which the word is used, whether on his own account or as agent or trustee for another person, or who would so receive the rackrent if the premises were let at a rackrent: Control of Pollution Act 1974 s 105(1).

826. Noise level register.

Every local authority¹ which has designated its area or any part of its area a noise abatement zone² must measure the level of noise³ emanating from premises within the zone which are of any class to which the relevant noise abatement order relates⁴. The premises as to which a local authority is to make measurements under these provisions include those which come within a class to which the relevant noise abatement order relates after the making of the order; and it is for the local authority to determine, both for those premises and all other premises of any class to which the relevant noise abatement order relates, where the measurements are to be made⁵.

The local authority must record all measurements taken in a register (a 'noise level register'⁶) to be kept by the local authority for the purpose⁷.

On recording any measurement in the noise level register, the local authority must serve a copy of that record on the owner⁸ and occupier of the premises in respect of which the measurement was taken⁹. Any person on whom a copy of such a record is served may, within 28 days of the date of service, appeal to the Secretary of State against the record¹⁰.

The register must be open to public inspection at the principal office of the local authority free of charge at all reasonable hours, and the local authority must afford members of the public reasonable facilities for obtaining, on payment of reasonable charge, copies of entries in the register¹¹.

1 As to the meaning of 'local authority' see PARA 99.

2 As to the meaning of 'noise abatement zone' see PARA 824.

3 As to the meaning of 'noise' see PARA 819 note 1. Provision may be made by regulations: (1) for determining, or for authorising the Secretary of State to determine, the methods by which noise levels are to be measured for the purposes of the Control of Pollution Act 1974 ss 64-67 (s 64(8)(a)); and (2) for enabling noise levels calculated in accordance with the regulations, or in accordance with the directions of the Secretary of State, to be treated for those purposes as measured by a method determined in pursuance of head (1) above (s 64(8)(b)). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59. The Control of Noise (Measurement and Registers) Regulations 1976, SI 1976/37, have been made, applying inter alia to the measurement and calculation by local authorities in England and Wales of levels of noise emanating from classified premises: see regs 1, 3. 'Classified premises' means premises of any specified class to which a noise abatement order for the time being applies: see reg 2. As to the meaning of 'premises' see PARA 824 note 5. As to the meaning of 'noise abatement order' see PARA 824.

Under these regulations, the methods by which levels of noise emanating from classified premises are to be measured, or, in so far as they cannot be measured by such methods, calculated are set out in reg 4(1), Schedule. However, if it appears to the Secretary of State, whether in consequence of representations made to him or otherwise, that, in order to facilitate the effective or more effective performance by a local authority of its functions in pursuance of any of the provisions of the Control of Pollution Act 1974 ss 64-66, it is necessary or expedient in any circumstances to provide for the measurement or calculation of noise levels by methods other than those so described, he may in those circumstances determine the methods by which levels of noise emanating from premises are to be measured or calculated by the local authority and may give directions to the authority accordingly: Control of Noise (Measurement and Registers) Regulations 1976, SI 1976/37, reg 4(2). Noise levels calculated in accordance with these regulations or in accordance with directions given by the Secretary of State under reg 4 may be treated, for the purpose of the Control of Pollution Act 1974 s 64 relating to the measurement of noise levels, to the recording of measurements in the noise level register and to measurements when so recorded, as measured by a method determined in pursuance of s 64(8)(a) (see head (1) above): Control of Noise (Measurement and Registers) Regulations 1976, SI 1976/37, reg 5.

5 Control of Pollution Act 1974 s 64(6).

6 Control of Pollution Act 1974 ss 64(2), 73(1).

7 Control of Pollution Act 1974 s 64(2). The register must be kept in accordance with regulations: see s 64(2). Under the Control of Noise (Measurement and Registers) Regulations 1976, SI 1976/37, the noise level register must be kept so as to show, in relation to each of the premises in respect of which an entry falls to be made: (1) the address, or other sufficient identification, of the premises and the specified class to which they belong or, where the Control of Pollution Act 1974 s 67(1) (see PARA 827) applies, will belong; (2) any cancellation or alteration of an entry in the register and the reason for the cancellation or alteration; (3) the date on which each entry, cancellation or alteration is made: Control of Noise (Measurement and Registers) Regulations 1976, SI 1976/37, reg 6(1)(a), (c), (d). Further, the record in the register of a noise level which has been ascertained by methods of measurement or calculation, or by a combination of such methods, must contain particulars, where appropriate, of any methods determined by the Secretary of State under reg 4(2) (see note 3), and the details of all relevant measurements and calculations including: (a) the location (including height) of each point at which the measurements were taken, or for which the calculations were made; (b) relevant details of any equipment used for the purpose; and (c) the dates and times when any such measurements were taken and relevant details of the prevailing weather conditions: reg 6(1)(b), (2). The register must include an index, which may be in the form of, or may incorporate, a map: reg 6(3). Subject to these provisions, the noise level register must be kept in such a form (whether in one or more parts), and may include such additional material (including plans, drawings and photographs) in relation to any of the matters recorded in it, as the local authority considers appropriate: reg 6(4). The register must also record: (i) particulars of any consent (see the Control of Pollution Act 1974 s 65(2); and PARA 828); (ii) particulars of any noise reduction notice (see s 66(6); and PARA 831); and (iii) the level of noise determined for a new building (see s 67(1), (2); and PARA 827).

9 Control of Pollution Act 1974 s 64(3).

10 Control of Pollution Act 1974 s 64(3). Except as provided by s 64, the validity or accuracy of any entry in a noise level register may not be questioned in any proceedings under Pt III (ss 57-74): s 64(5). As to appeals see PARAS 821, 829.

827. Noise levels for new buildings.

Where it appears to the local authority¹: (1) that a building is going to be constructed and that a noise abatement order² will apply to it when it is erected³; or (2) that any premises⁴ will, as the result of any works, become premises to which a noise abatement order applies⁵, the local authority may, on the application of the owner⁶ or occupier of the premises or of a person who satisfies the authority that he is negotiating to acquire an interest in the premises or on its own initiative, determine the level of noise⁷ which will be acceptable as that emanating from the premises⁸. The local authority must record in the noise level register⁹ the level of noise so determined for any premises¹⁰.

The local authority must give notice of its intention to the applicant or, in the case of a decision made on its own initiative, to the owner or the occupier of the premises, and the recipient of the notice may appeal to the Secretary of State¹¹ against that decision within three months of the date on which the local authority notifies him of that decision¹². It is the duty of the local authority to act in accordance with the decision of the Secretary of State on the appeal¹³.

If, within the period of two months beginning with the date when the local authority receives an application under these provisions, the authority has not given notice to the applicant of its decision on the application, the authority is deemed to have given him notice on the expiration of that period that it has decided not to make a determination in pursuance of the application, and the applicant may accordingly appeal¹⁴ against the decision to the Secretary of State¹⁵.

828. Consent for noise exceeding the level recorded in the noise level register.

The level of noise¹ recorded in the noise level register² in respect of any premises³ may not be exceeded except with the consent in writing of the local authority⁴. The consent may be made subject to such conditions, whether as to the amount by which the level of noise may be increased, or as to the period for which, or the periods during which, the level of noise may be increased, as may be specified in the consent⁵. The authority must record particulars of the consent in the noise level register⁶.

If, within the period of two months beginning with the date on which a local authority receives an application for its consent or within such longer period as the authority and the applicant agree in writing, the authority has not notified the applicant of its decision on the application, the authority is deemed to have refused consent⁷.

An applicant for a consent may appeal to the Secretary of State⁸ against the local authority's decision on the application⁹. It is the duty of the local authority to act in accordance with the decision of the Secretary of State on the appeal¹⁰.

The appeal must be made within the period of three months beginning with the date on which the authority notifies the applicant of the decision or, in a case falling within s 65(3) (see the text and note 7), beginning with the expiration of the two month period or agreed longer period there mentioned: s 65(4). 829. Appeals relating to entries in the noise level register, new buildings and consents.

Any person on whom a copy of a record of any measurement in the noise level register¹ is served² may appeal to the Secretary of State³ against the record⁴; an applicant for a consent⁵ in relation to noise⁶ exceeding the level of noise⁷ recorded in the noise level register may appeal to the Secretary of State against the local authority's⁸ decision on the application⁹; and the recipient of a notice relating to noise levels for new buildings may also appeal to the Secretary of State¹⁰.

Any person who brings any such appeal must give notice of appeal in writing, stating the grounds of the appeal, to the Secretary of State¹¹. Within seven days of giving that notice (or such longer time as the Secretary of State may at any time allow) the appellant must send the Secretary of State a copy of:

- 2052 (1) the application, if any, made to the local authority¹²;
- 2053 (2) any relevant plans and particulars submitted to the local authority¹³;
- 2054 (3) any relevant record, consent, determination, notice or other notification issued by the local authority¹⁴;
- 2055 (4) all other relevant correspondence with the local authority¹⁵; and
- 2056 (5) a plan of the premises concerned (unless such a plan is included in the documents mentioned above)¹⁶.

If he thinks fit, the Secretary of State may require the appellant or the local authority to submit within a specified time a further written statement in respect of the matters to which the appeal relates¹⁷. If, after considering the grounds of appeal and any such further statement, the Secretary of State is satisfied that he is sufficiently informed to reach a decision he may decide the appeal without further investigation¹⁸; but otherwise he must cause a local inquiry to be held¹⁹. When he determines the appeal, the Secretary of State may allow or dismiss the appeal, or reverse or vary any part of any record, consent, determination or decision of the local authority to which the appeal relates, or may deal with any application, if any, made by the appellant to the local authority as if it had been made in the first instance to the Secretary of State²⁰. The Secretary of State may give the local authority in question such directions as he thinks fit for giving effect to his determination²¹.

At any time before the appeal is determined, the appellant may abandon it by giving written notice to the Secretary of State²². As soon as may be after he gives any such notice, the appellant must send a copy of it to the local authority²³.

830. Contravention of the requirements of the noise level register.

If noise¹ emitted from any premises² exceeds the level of noise³ recorded in the noise level register⁴ in respect of any premises without the consent of the local authority⁵, or if a condition attached to a consent is contravened, the person responsible⁶ is guilty of an offence⁷. If satisfied that the offence is likely to continue or recur, the magistrates' court convicting a person of such an offence may make an order requiring the execution of any works necessary to prevent it continuing or recurring; and if that person without reasonable excuse contravenes any requirement of the order, he is guilty of a further offence⁸.

After giving the local authority in whose area the premises are situated an opportunity of being heard, the magistrates' court may direct the local authority to do anything which the court has power to require the person convicted to do, either instead of, or in addition to, imposing any requirement on that person⁹.

If an order is made requiring any person to execute any works¹⁰, and that person fails to execute all or any of the works in accordance with the order, the local authority may execute those works¹¹.

Where a local authority executes such works¹², it may recover from the person in default¹³ the expenditure incurred by it in executing the works, except such of the expenditure as that person shows was unnecessary in the circumstances¹⁴.

14 Control of Pollution Act 1974 s 69(3) (as amended: see note 11). 831. Noise reduction notice.

If it appears to the local authority¹: (1) that the level of noise² emanating from any premises³ to which a noise abatement order⁴ applies is not acceptable having regard to the purposes for which the order was made⁵; and (2) that a reduction in that level is practicable at reasonable cost and would afford a public benefit⁶, the authority may serve a notice (a 'noise reduction notice'⁷) on the person responsible⁸. The notice must require that person: (a) to reduce the level of noise emanating from the premises to such level as may be specified in the notice⁹; (b) to prevent any subsequent increase in the level of noise emanating from those premises without the consent of the local authority¹⁰; and (c) to take such steps as may be specified in the notice to achieve those purposes¹¹. The notice must specify a time, not being less than six months from the date of service of the notice, within which the noise level is to be reduced to the specified level and, where the notice specifies any steps necessary to achieve that purpose, a time within which those steps must be taken¹². The notice may specify particular times, or particular days, during which the noise level is to be reduced, and may require the noise level to be reduced to different levels for different times or days¹³. The local authority must record particulars of a noise reduction notice in the noise level register¹⁴.

A noise reduction notice takes effect whether or not a local authority consent¹⁵ authorises a level of noise higher than that specified in the notice¹⁶.

A person who is served with a noise reduction notice may, within three months of the date of service, appeal to a magistrates' court against the notice¹⁷.

832. Appeals against noise reduction notices.

A person who is served with a noise reduction notice¹ may appeal to a magistrates' court against the notice².

The grounds on which a person served with such a notice may appeal may include any of the following grounds which are appropriate in the circumstances of the particular case³:

- 2057 (1) that the notice is not justified by the terms of the provisions relating to reduction of noise levels⁴;
- 2058 (2) that there has been some informality, defect or error in, or in connection with, the notice⁵;
- 2059 (3) that the local authority⁶ has refused unreasonably to accept compliance with alternative requirements, or that the requirements of the notice are otherwise unreasonable in character or extent, or are unnecessary⁷;
- 2060 (4) that the time, or, where more than one time is specified, any of the times, within which the requirements of the notice are to be complied with is not reasonably sufficient for the purpose⁸;
- 2061 (5) where the noise to which the notice relates is noise caused in the course of a trade or business, that the best practicable means⁹ have been used for preventing, or for counteracting the effect of, the noise¹⁰;
- 2062 (6) that the notice should have been served on some person instead of the appellant, being the person responsible¹¹ for the noise¹²;
- 2063 (7) that the notice might lawfully have been served on some person in addition to the appellant, being a person also responsible for the noise, and that it would have been equitable for it to have been so served¹³.

On the hearing of the appeal¹⁴, the court may quash the notice to which the appeal relates¹⁵, or vary the notice in favour of the appellant in such manner as it thinks fit¹⁶, or dismiss the appeal¹⁷. A notice which is varied under these provisions is final and otherwise has effect as varied as if it had been so made by the local authority¹⁸. The court may make such order as it thinks fit with respect to the person by whom any work is to be executed and the contribution to be made by any person towards the cost of the work¹⁹, or as to the proportions in which any expenses which may become recoverable by the local authority²⁰ are to be borne by the appellant and any other person²¹.

As to the meaning of 'premises' see PARA 824 note 5.

833. Suspension pending an appeal.

Where an appeal is brought against a noise reduction notice¹ and:

- 2064 (1) the noise² to which the notice relates is noise caused in the course of the performance of some duty imposed by law on the appellant³; or
 2065 (2) compliance with the notice would involve any person in expenditure on the carrying out of works before the hearing of the appeal⁴,

the notice is suspended until the appeal has been abandoned or decided by the court⁵.

However, such a notice may not be suspended if:

- 2066 (a) in the opinion of the local authority⁶:

191

159. (i) the noise to which the notice relates is injurious to health⁷, or is likely to be of a limited duration such that suspension would render the notice of no practical effect⁸; or

160. (ii) the expenditure which would be incurred by any person in the carrying out of works in compliance with the notice before any appeal has been decided would not be disproportionate to the public benefit to be expected in that period from such compliance⁹; and

192

- 2067 (b) the notice includes a statement that it is to have effect notwithstanding any appeal to a magistrates' court which has not been decided by the court¹⁰.

Save as provided by these provisions, a noise reduction notice may not be suspended by reason only of the bringing of an appeal¹¹.

834. Contravention of a noise reduction notice.

A person who without reasonable excuse contravenes a noise reduction notice¹ is guilty of an offence². In proceedings for such an offence in respect of noise³ caused in the course of a trade or business, it is a defence to prove that the best practicable means⁴ had been used for preventing, or for counteracting the effect of, the noise⁵.

If a noise reduction notice requires any person to execute works, and that person fails to execute all or any of the works in accordance with the notice, the local authority⁶ may execute the works⁷. Where the local authority executes such works, it may recover from the person in default⁸ the expenditure incurred by it in executing the works, except such of the expenditure as that person shows was unnecessary in the circumstances⁹.

This defence does not apply in relation to any premises which, after the coming into force of a noise abatement order, become premises to which the order applies as a result of the construction of a building or as a result of any works carried out on the premises but in respect of which no level of noise has been determined under s 67 (see PARA 827): see s 67(5)(c); and PARA 827. In proceedings to recover any amount due to a local authority in respect of works executed by the local authority, it is not open to the person in default to raise any question which he could have raised on an appeal against the notice: Control of Pollution Act 1974 s 69(4). As to appeals see PARAS 821, 832.

(4) CONSTRUCTION SITES

835. Noise on construction sites.

Noise from a construction site that is reasonably conducted is not a private nuisance, but may be a statutory nuisance¹. In addition, the Control of Pollution Act 1974 provides a special regime dealing with noise on construction sites.

Where it appears to a local authority² that construction works³ are being, or are going to be, carried out on any premises⁴, the local authority may serve a notice imposing requirements as to the way in which the works are to be carried out and may if it thinks fit publish notice of the requirements in such way as appears to the local authority to be appropriate⁵. The notice may, in particular:

- 2068 (1) specify the plant or machinery which is or is not to be used⁶;
- 2069 (2) specify the hours during which the work may be carried out⁷;
- 2070 (3) specify the level of noise which may be emitted from the premises in question or at any specified point on those premises or which may be so emitted during specified hours⁸; and
- 2071 (4) provide for any change of circumstances⁹.

The notice may specify the time within which it is to be complied with, and may require the execution of such works, and the taking of such other steps, as may be necessary for the purpose of the notice, or as may be specified in it¹⁰.

The notice must be served on the person who appears to the local authority to be carrying out, or going to carry out, the works, and on such other persons appearing to the local authority to be responsible¹¹ for, or to have control over, the carrying out of the works as the authority thinks fit¹².

A person served with a notice under these provisions may appeal against the notice to a magistrates' court within 21 days from the service of the notice¹³.

If a person on whom such a notice is served without reasonable excuse contravenes any requirement of the notice, he is guilty of an offence¹⁴. In any proceedings for such an offence, it is a defence to prove that the alleged contravention amounted to the carrying out of works in accordance with a prior consent¹⁵ for work on construction sites¹⁶.

3 I.e (1) the erection, construction, alteration, repair or maintenance of buildings, structures or roads; (2) breaking up, opening or boring under any road or adjacent land in connection with the construction, inspection, maintenance or removal of works; (3) demolition or dredging works; (4) any work of engineering construction, whether or not also comprised in head (1), (2) or (3) above: Control of Pollution Act 1974 s 60(1)(a)-(d). 'Work of engineering construction' means the construction, structural alteration, maintenance or repair of any railway

line or siding or any dock, harbour, inland navigation, tunnel, bridge, viaduct, waterworks, reservoir, pipeline, aqueduct, sewer, sewage works or gas-holder: s 73(1).

The works come to an end with practical completion, so that, if other works on the same site are commenced very shortly thereafter, a new notice will be required: *Walter Lilly & Co Ltd v Westminster City Council* [1994] Env LR 380, 158 JP 805, DC.

4 As to the meaning of 'premises' see PARA 824 note 5.

5 Control of Pollution Act 1974 s 60(2). The local authority does not need to have evidence of the contractual arrangements for the works; it is sufficient if certain matters appear to the local authority to fall within s 60: *Wiltshier Construction (London) Ltd v Westminster City Council* [1997] Env LR D6, DC.

In acting under the Control of Pollution Act 1974 s 60, the local authority must have regard: (1) to the relevant provisions of any code of practice issued under Pt III (ss 57-74) (see PARA 819) (s 60(4)(a)); (2) to the need for ensuring that the best practicable means are employed to minimise noise (s 60(4)(b)); (3) before specifying any particular methods or plant or machinery, to the desirability in the interests of any recipients of the notice of specifying other methods or plant or machinery which would be substantially as effective in minimising noise and more acceptable to them (s 60(4)(c)); and (4) to the need to protect any persons in the locality in which the premises in question are situated from the effects of noise (s 60(4)(d)). As to the meaning of 'best practicable means' see PARA 823. The phrase 'have regard' has no precise legal meaning: *Simpson v Edinburgh Corp'n* 1960 SC 313, 1961 SLT 17, Ct of Sess.

11 As to the meaning of 'person responsible' see PARA 820. The notice must identify the construction site without ambiguity; however, if the notice itself is ambiguous, a court may look at other evidence which resolves the ambiguity: *Wiltshier Construction (London) Ltd v Westminster City Council* [1997] Env LR D6, (27 November 1996) Lexis, DC (where the notice gave an incomplete address, but the covering letter gave the correct address). The notice must be served on the correct person, not a subsidiary or allied organisation: *AMEC Building Ltd v Camden London Borough Council* [1997] Env LR 330, (1996) 55 Con LR 82, DC (where it was held that there was no proper service where the notice was served on the secretary of a related company which shared the same registered address as the company that ought to have been served).

836. Appeals against notices relating to construction sites.

A person served with a notice as to noise on a construction site¹ may appeal against the notice to a magistrates' court².

The grounds on which a person served with such a notice may appeal may include any of the following grounds which are appropriate in the circumstances of the particular case³:

- 2072 (1) that the notice is not justified by the terms of the provisions relating to control of noise on construction sites⁴;
- 2073 (2) that there has been some informality, defect or error in, or in connection with, the notice⁵;
- 2074 (3) that the local authority⁶ has refused unreasonably to accept compliance with alternative requirements, or that the requirements of the notice are otherwise unreasonable in character or extent, or are unnecessary⁷;
- 2075 (4) that the time, or, where more than one time is specified, any of the times, within which the requirements of the notice are to be complied with is not reasonably sufficient for the purpose⁸;
- 2076 (5) that the notice should have been served on some person instead of the appellant, being a person who is carrying out, or going to carry out, the works, or is responsible⁹ for, or has control over, the carrying out of the works¹⁰;
- 2077 (6) that the notice might lawfully have been served on some person in addition to the appellant, being a person who is carrying out, or going to carry out, the works, or is responsible for, or has control over, the carrying out of the works, and that it would have been equitable for it to have been so served¹¹;
- 2078 (7) that the local authority has not had regard to some or all of the matters to which it is required to have regard¹².

On the hearing of the appeal¹³, the court may quash the notice to which the appeal relates¹⁴, or vary the notice in favour of the appellant in such manner as it thinks fit¹⁵, or dismiss the appeal¹⁶. A notice which is varied under these provisions is final and otherwise has effect as varied as if it had been so made by the local authority¹⁷.

837. Suspension pending an appeal.

Where an appeal is brought against a notice relating to a construction site¹ and:

- 2079 (1) the noise² to which the notice relates is noise caused in the course of the performance of some duty imposed by law on the appellant³; or
 2080 (2) compliance with the notice would involve any person in expenditure on the carrying out of works before the hearing of the appeal⁴,

the notice is suspended until the appeal has been abandoned or decided by the court⁵.

However, such a notice may not be suspended if:

- 2081 (a) in the opinion of the local authority⁶:
 193
 161. (i) the noise to which the notice relates is injurious to health⁷, or is likely to be of a limited duration such that suspension would render the notice of no practical effect⁸; or
 162. (ii) the expenditure which would be incurred by any person in the carrying out of works in compliance with the notice before any appeal has been decided would not be disproportionate to the public benefit to be expected in that period from such compliance⁹; and
 194
 2082 (b) the notice includes a statement that it is to have effect notwithstanding any appeal to a magistrates' court which has not been decided by the court¹⁰.

Save as provided by these provisions, a notice relating to construction sites may not be suspended by reason only of the bringing of an appeal¹¹.

838. Prior consent of work on construction sites.

A person who intends to carry out works to which the provisions relating to the control of noise on construction sites¹ apply may make application to the local authority² for a consent³. The application must contain particulars of: (1) the works and the method by which they are to be carried out⁴; and (2) the steps proposed to be taken to minimise noise resulting from the works⁵.

If the local authority considers that the application contains sufficient information for the purpose and that, if the works are carried out in accordance with the application, the authority would not serve a notice as to the control of noise on construction sites⁶ in respect of those works, it must give its consent to the application⁷. The local authority has power to: (a) attach conditions to a consent⁸; and (b) limit or qualify a consent to allow for any change in circumstances⁹; and (c) limit the duration of a consent¹⁰.

The local authority must inform the applicant of its decision on the application within 28 days from receipt of the application¹¹. If the local authority gives its consent to the application, it may if it thinks fit publish notice of the consent, and of the works to which it relates, in such way as appears to the local authority to be appropriate¹².

If the local authority: (i) does not give a consent site within the 28 day period¹³; or (ii) gives its consent within that period but attaches any condition to the consent or limits or qualifies the consent in any way¹⁴, the applicant may appeal to a magistrates' court within 21 days from the end of that period¹⁵.

Any person who knowingly carries out works, or permits works to be carried out, in contravention of any conditions attached to a consent is guilty of an offence¹⁶.

Where a consent has been given and the works are carried out by a person other than the applicant for the consent, it is the applicant's duty to take all reasonable steps to bring the consent to the notice of that other person¹⁷; and if the applicant fails to do so he is guilty of an offence¹⁸.

839. Appeals relating to prior consent for construction work.

A person who has applied for a prior consent for work on a construction site¹ may appeal to a magistrates' court against a local authority's² refusal or failure to give consent or against any conditions attached to a consent³.

The grounds on which a person to whom a local authority give a conditional consent⁴ may appeal may include any of the following grounds which are appropriate in the circumstances of the particular case⁵:

- 2083 (1) that any condition attached or imposed in relation to the consent (a 'relevant condition') is not justified by the terms of the provisions relating to prior consents⁶;
- 2084 (2) that there has been some informality, defect or error in, or in connection with, the consent⁷;
- 2085 (3) that the requirements of any relevant condition are unreasonable in character or extent, or are unnecessary⁸;
- 2086 (4) that the time, or where more than one time is specified, any of the times, within which the requirements of any relevant condition are to be complied with is not reasonably sufficient for the purpose⁹.

On the hearing of an appeal¹⁰ relating to a conditional consent, the court may vary the consent or any relevant condition in favour of the appellant in such manner as it thinks fit¹¹, or quash any relevant condition¹², or dismiss the appeal¹³. A consent or condition varied under these provisions is final and otherwise has effect as so varied, as if it had been given, attached or imposed in that form by the local authority¹⁴.

On the hearing of an appeal¹⁵ relating to a local authority's refusal or failure to give a consent within the specified period¹⁶, the court must afford to the appellant and to the authority an opportunity of making representations to it concerning the application for prior consent to which the appeal relates and concerning the terms and conditions of any consent which it considers to be appropriate¹⁷. The court must then either: (a) adjourn the appeal to enable the appellant to submit to the authority a new application¹⁸ relating to the matters which are the subject of the appeal¹⁹; or (b) make an order giving consent to the application either unconditionally or subject to such conditions as it thinks fit, having regard to the relevant provisions²⁰ and any other matters which appear to it to be relevant²¹.

3 See the Control of Pollution Act 1974 s 61(7); and PARA 838. The provisions of the Control of Noise (Appeals) Regulations 1975, SI 1975/2116, reg 6 apply to an appeal brought by any person under the Control of Pollution Act 1974 s 61(7) in relation to a conditional consent (see note 4) given by a local authority under s 61 or in relation to an authority's refusal or failure to give a consent within the specified 28 day period (see s 61(6); and PARA 838): Control of Noise (Appeals) Regulations 1975, SI 1975/2116, regs 3, 6(1). As to appeals generally, and the power to make regulations, see PARA 821.

4 'Conditional consent' means a consent given by a local authority under the Control of Pollution Act 1974 s 61 (see PARA 838) in respect of which the authority has attached any condition or imposed any limitation or qualification in pursuance of s 61(5)(a), (b) or (c) (see PARA 838); and 'conditions' includes any limitation or qualification so imposed: Control of Noise (Appeals) Regulations 1975, SI 1975/2116, reg 6(2).

7 Control of Noise (Appeals) Regulations 1975, SI 1975/2116, reg 6(3)(b). If and so far as an appeal is based on this ground, the court must dismiss the appeal if it is satisfied that the informality, defect or error was not a material one: reg 6(4). A notice will only be a nullity where it is hopelessly ambiguous or uncertain; and a notice will only be invalid if there is evidence to support that conclusion: *Sovereign Rubber Ltd v Stockport Metropolitan Borough Council* [2000] Env LR 194, [2000] EHLR 154.

(5) PLANT OR MACHINERY

840. Noise from plant or machinery.

Provision may be made by regulations¹:

- 2087 (1) for requiring the use on or in connection with any plant or machinery of devices or arrangements for reducing the noise² caused by the plant or machinery³;
- 2088 (2) for limiting the level of noise which may be caused by any plant or machinery when used for works to which the provisions relating to the control of noise on construction sites⁴ apply, or which may be caused outside a factory⁵ by the use of plant or machinery in the factory⁶.

The regulations may apply standards, specifications, descriptions or tests laid down in documents not forming part of the regulations⁷.

Before the Secretary of State⁸ makes such regulations, it is his duty to consult persons appearing to him to represent producers and users of plant and machinery with a view to ensuring that the regulations do not contain requirements which in his opinion would be impracticable or involve unreasonable expense⁹.

Any person who contravenes or causes or permits another person to contravene the regulations is guilty of an offence¹⁰. In any proceedings for a contravention of a regulation made in pursuance of head (1) above, it is a defence to prove that means were used for the purpose of reducing the noise in question which were not less effective for that purpose than the means required by the regulations¹¹.

1 Without prejudice to the generality of the Control of Pollution Act 1974 s 104(1)(a) (see PARA 61), different regulations may be made for different localities, and it is the duty of each local authority to enforce the provisions of regulations under s 68 within its area: s 68(4). Nothing in s 68 or regulations under it is to be construed as derogating from any other provision of Pt III (ss 57-74): s 68(5). At the date at which this volume states the law no such regulations had been made. As to the meaning of 'local authority' see PARA 99.

(6) LOUDSPEAKERS IN STREETS

841. Restrictions on loudspeakers in streets.

A loudspeaker in a street¹ must not be operated: (1) between the hours of nine in the evening and eight in the following morning, for any purpose²; (2) at any other time, for the purpose of advertising any entertainment, trade or business³. Any person who operates or permits the operation of a loudspeaker in contravention of these provisions is guilty of an offence⁴.

However, neither of these restrictions applies to the operation of a loudspeaker:

- 2089 (a) for police, fire and rescue authority or ambulance purposes, by the Environment Agency⁵, a water undertaker or a sewerage undertaker in the exercise of any of its functions, or by a local authority within its area⁶;
- 2090 (b) for communicating with persons on a vessel for the purpose of directing the movement of that or any other vessel⁷;
- 2091 (c) if the loudspeaker forms part of a public telephone system⁸;
- 2092 (d) if the loudspeaker: (i) is in or fixed to a vehicle⁹; and (ii) is operated solely for the entertainment of, or for communicating with, the driver or a passenger of the vehicle or, where the loudspeaker is or forms part of the horn or similar warning instrument of the vehicle, solely for giving warning to other traffic¹⁰; and (iii) is so operated as not to give reasonable cause for annoyance to persons in the vicinity¹¹;
- 2093 (e) otherwise than on a highway, by persons employed in connection with a transport undertaking used by the public, in a case where the loudspeaker is operated solely for making announcements to passengers or prospective passengers or to other persons so employed¹²;
- 2094 (f) by a travelling showman on land which is being used for the purposes of a pleasure fair¹³;
- 2095 (g) in case of emergency¹⁴;
- 2096 (h) operated in accordance with a loudspeaker consent granted by a local authority¹⁵.

Furthermore, the restriction in head (2) above does not apply to the operation of a loudspeaker between the hours of noon and seven in the evening on the same day if the loudspeaker:

- 2097 (A) is fixed to a vehicle being used for the conveyance of a perishable commodity for human consumption¹⁶; and
- 2098 (B) is operated solely for informing members of the public (otherwise than by the use of words) that the commodity is on sale from the vehicle¹⁷; and
- 2099 (c) is so operated as not to give reasonable cause for annoyance to persons in the vicinity¹⁸.

1 For the purposes of the Control of Pollution Act 1974 s 62, 'street' means a highway and any other road, footway, square or court which is for the time being open to the public: s 62(1) (amended by the Noise and Statutory Nuisance Act 1993 s 7). An open market, visited by a section of the public, is a 'square' and is 'open to the public': *Tower Hamlets London Borough Council v Creitzman* (1984) 83 LGR 72, 148 JP 590, DC. However, such an order may not amend the times so as to permit the operation of a loudspeaker in a street at any time between the hours of nine in the evening and eight in the following morning: Control of Pollution Act 1974 s 62(1B) (as so added). 842. Loudspeaker consents.

A local authority¹ may resolve that provisions enabling a consent to be given in relation to the operation of a loudspeaker² are to apply to its area³. Under those provisions, on an application⁴ made by any person the local authority may consent to the operation in its area of a loudspeaker in contravention of the restrictions on loudspeakers in streets⁵. However, a consent may not be given to the operation of a loudspeaker in connection with any election or for the purpose of advertising any entertainment, trade or business⁶. A consent may be granted subject to such conditions as the local authority considers appropriate⁷.

Where an application is duly made to the local authority for a consent, the authority must determine the application and notify the applicant in writing of its decision within the period of 21 days beginning with the day on which the application is received by the authority⁸. In a case where a consent is granted, the notification must specify the conditions, if any, subject to which the consent is granted⁹.

Where the local authority grants a consent, the authority may cause a notice giving details of that consent to be published in a local newspaper circulating in the area¹⁰.

1 For these purposes, 'local authority' means, in relation to England and Wales, the council of a district, the council of a London borough, the Common Council of the City of London, the Sub-Treasurer of the Inner Temple or the Under-Treasurer of the Middle Temple: Noise and Statutory Nuisance Act 1993 s 8(5). As to the meaning of 'local authority' generally see PARA 99.

Any increase attributable to the Noise and Statutory Nuisance Act 1993 in the sums payable out of money provided by Parliament under any other enactment must be paid out of money provided by Parliament: s 11. This provision does not apply in so far as such a sum is payable by the National Assembly for Wales. As to the National Assembly for Wales and the Welsh Ministers see PARA 59; and **CONSTITUTIONAL LAW AND HUMAN RIGHTS**.

The Noise and Statutory Nuisance Act 1993 does not extend to Northern Ireland: see s 13(3).

2 I.e. the provisions of the Noise and Statutory Nuisance Act 1993 s 8, Sch 2: see the text and notes 4-10.

3 Noise and Statutory Nuisance Act 1993 s 8(1). If a local authority does so resolve, the provisions of Sch 2 are to come into force in its area on such date as may be specified for that purpose in the resolution, being a date at least one month after the date on which the resolution is passed: s 8(2).

Where a local authority has passed a resolution under these provisions, the authority must cause a notice to be published, in two consecutive weeks before Sch 2 comes into force in its area, in a local newspaper circulating in the area: s 8(3). The notice must state that the resolution has been passed; and set out the general effect of Sch 2 and, in particular, the procedure for applying for a consent under Sch 2: s 8(4).

4 An application for a consent must be made in writing and must contain such information as the local authority may reasonably require: Noise and Statutory Nuisance Act 1993 Sch 2 para 3. For the purposes of Sch 2, a 'consent' means a consent under Sch 2 para 1: Sch 2 para 7. An applicant for a consent must pay such reasonable fee in respect of his application as the local authority may determine: Sch 2 para 5.

843. Introduction.

The Clean Neighbourhoods and Environment Act 2005¹ introduced new powers for local authorities to deal with the disturbance and annoyance caused by audible intruder alarms in their areas and includes provisions on designation of alarm notification areas², nominated key-holders³, fixed penalty notices⁴, and powers in relation to alarms⁵.

Provisions of the Noise and Statutory Nuisance Act 1993 relating to audible intruder alarms⁶ are repealed by the Clean Neighbourhoods and Environment Act 2005⁷.

844. Designation of alarm notification areas.

A local authority¹ may designate all or any part of its area as an alarm notification area².

If a local authority proposes to designate an area as an alarm notification area it must arrange for notice of the proposal to be published in a newspaper circulating in the area³. The notice must state: (1) that representations may be made to the authority about the proposal⁴; (2) that any such representations must be made before a specified date⁵. The local authority must consider any representations about the proposal which it receives before the specified date⁶.

If a local authority decides to designate an area as an alarm notification area it must: (a) arrange for notice of the decision to be published in a newspaper circulating in the area⁷; and (b) send a copy of the notice to the address of all premises⁸ in the area⁹. The notice must specify the date on which the designation is to have effect¹⁰. The date specified must be at least 28 days after the date on which the notice is published in accordance with head (a) above¹¹.

If a local authority decides not to designate an area as an alarm notification area it must arrange for notice of the decision to be published in a newspaper circulating in the area¹².

A local authority which has designated an area as an alarm notification area may withdraw the designation¹³. If a local authority decides to withdraw a designation of an area as an alarm notification area, it must: (i) arrange for notice of the decision to be published in a newspaper circulating in the area¹⁴; and (ii) send a copy of the notice to the address of all premises in the area¹⁵. The notice must specify the date on which the withdrawal of the designation is to have effect¹⁶.

1 'Local authority' means: (1) a district council in England; (2) a county council in England for an area for which there is no district council; (3) a London borough council; (4) the Common Council of the City of London; (5) the Council of the Isles of Scilly; (6) a county or county borough council in Wales: Clean Neighbourhoods and Environment Act 2005 s 81(1). 845. Nominated key-holders.

The provisions below¹ apply in relation to premises² if the premises are in an area designated by a local authority³ as an alarm notification area⁴, and an audible intruder alarm has been installed in or on the premises⁵.

The responsible person⁶ must: (1) nominate a key-holder in respect of the premises⁷; (2) notify the local authority in writing before the end of the required period⁸ of the name, address and telephone number of the key-holder so nominated in respect of the premises⁹. A person commits an offence if he fails to comply with this requirement¹⁰. The nomination mentioned in head (1) above must be made¹¹ before the end of the required period¹². A person may be nominated¹³ as a key-holder in respect of premises only if:

- 2100 (a) he holds keys sufficient to enable him to gain access to the part of the premises in which the controls for the alarm are situated¹⁴;
- 2101 (b) he normally resides or is situated in the vicinity of the premises¹⁵;
- 2102 (c) he has information sufficient to enable him to silence the alarm¹⁶;
- 2103 (d) he agrees to be a nominated key-holder in respect of the premises¹⁷;
- 2104 (e) where the premises are residential premises¹⁸, he is: (i) an individual who is not the occupier¹⁹ of the premises; or (ii) a key-holding company²⁰;
- 2105 (f) where the premises are non-residential premises²¹, he is: (i) an individual who is the responsible person, or who is acting on behalf of the responsible person (if the responsible person is not an individual); or (ii) a key-holding company²².

If the responsible person becomes aware that a person who has been nominated²³ as a key-holder in respect of premises no longer satisfies one or more of the above requirements²⁴, the responsible person must before the end of the required period²⁵ nominate another person as a key-holder in respect of the premises²⁶.

2 As to the meaning of 'premises' see PARA 844 note 8.

3 As to the meaning of 'local authority' for these purposes see PARA 844 note 1.

4 Clean Neighbourhoods and Environment Act 2005 s 71(1)(a). As to the meaning of 'alarm notification area' see PARA 844 note 2.

5 Clean Neighbourhoods and Environment Act 2005 s 71(1)(b).

6 'Responsible person', in respect of premises, means: (1) the occupier; or (2) if there is no occupier, the owner: Clean Neighbourhoods and Environment Act 2005 s 81(1). 'Occupier', in respect of premises, means (subject to s 81(2)): (a) a person occupying the premises; or (b) if the premises are unoccupied, a person entitled to occupy the premises (other than the owner): s 81(1). The fact that a person is occupying premises is to be disregarded for the purposes of Pt 7 Ch 1 (ss 69-81) if: (i) the premises comprise a building that is being erected, constructed, altered, improved, maintained, cleaned or repaired; (ii) the person is occupying the premises in connection with the erection, construction, alteration, improvement, maintenance, cleaning or repair; and (iii) the person is doing so by virtue of a licence granted for less than four weeks: s 81(2).

7 Clean Neighbourhoods and Environment Act 2005 s 71(2)(a). Nomination must be made in accordance with s 72: see the text and notes 11-26.

8 The required period for the purposes of the Clean Neighbourhoods and Environment Act 2005 s 71(2)(b) is the period before the end of which the key-holder is required to be nominated in accordance with s 72: s 71(3).

10 Clean Neighbourhoods and Environment Act 2005 s 71(4). The requirement referred to in the text is the requirement under s 71(2): see the text and notes 6-9. A person guilty of an offence under s 71(4) is liable on summary conviction to a fine not exceeding level 3 on the standard scale: s 71(5). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

11 Ie in accordance with the Clean Neighbourhoods and Environment Act 2005 s 72.

12 Clean Neighbourhoods and Environment Act 2005 s 72(1). The required period for the purposes of s 72(1) is: (1) if the alarm was installed before the date on which the designation of the area had effect, the period of 28 days starting with that date; (2) if the alarm was installed on or after that date, the period of 28 days starting with the date on which the installation was completed: s 72(2).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/15. NOISE CONTROL/(7) AUDIBLE INTRUDER ALARMS/846. Fixed penalty notices.

846. Fixed penalty notices.

If it appears to an authorised officer¹ of a local authority² that a person has committed an offence relating to the nomination and notification of key-holders³ in the area of the local authority⁴, the officer may give the person a notice⁵ offering him the opportunity of discharging any liability to conviction for the offence by payment of a fixed penalty⁶. If a person is given such a notice in respect of an offence: (1) no proceedings may be instituted for the offence before the end of the period of 14 days starting with the day after that on which the notice is given⁷; and (2) he may not be convicted of the offence if he pays the fixed penalty before the end of that period⁸.

A notice⁹ must state: (a) the period during which, by virtue of heads (1) and (2) above, proceedings will not be taken for the offence¹⁰; (b) the amount of the fixed penalty¹¹; and (c) the person to whom and the address at which the fixed penalty may be paid¹². Payment of the fixed penalty may be made by pre-paying and posting a letter containing the amount of the penalty (in cash or otherwise) to the person mentioned in head (c) above at the address so mentioned¹³.

In any proceedings a certificate which purports to be signed by or on behalf of the chief finance officer¹⁴ of a local authority and states that payment of a fixed penalty was or was not received by a date specified in the certificate, is evidence of the facts stated¹⁵.

The amount of the penalty payable to a local authority in pursuance of a fixed penalty notice¹⁶ is the amount specified by the local authority in relation to its area¹⁷ or, if no amount is so specified, £75¹⁸. The local authority may make provision for treating the penalty as having been paid if a lesser amount is paid before the end of a period specified by the authority¹⁹. The appropriate person may by regulations²⁰ make provision in connection with these powers conferred²¹ on local authorities²².

A local authority may use any sums it receives in respect of fixed penalties payable in pursuance of fixed penalty notices²³ (its 'penalty receipts') only for the purposes of its functions that are qualifying functions²⁴. A local authority must supply the appropriate person with such information relating to the use of its penalty receipts as the appropriate person may require²⁵.

The appropriate person may by regulations²⁶:

- 2106 (i) make provision for what a local authority is to do with its penalty receipts:
 - (A) pending their being used for the purposes of qualifying functions of the authority²⁷; (B) if they are not so used before such time after their receipt as may be specified by the regulations²⁸;
- 2107 (ii) make provision for accounting arrangements in respect of a local authority's penalty receipts²⁹.

If an authorised officer³⁰ of a local authority proposes to give a person a fixed penalty notice³¹, the officer may require the person to give him his name and address³². A person commits an offence if he fails to give his name and address when required to do so³³, or if he gives a false or inaccurate name or address in response to such a requirement³⁴.

1 For these purposes, 'authorised officer', in relation to a local authority, means: (1) an employee of the authority who is authorised in writing by the authority for the purpose of giving notices under the Clean

Neighbourhoods and Environment Act 2005 s 73; (2) any person who, in pursuance of arrangements made with the authority, has the function of giving such notices and is authorised in writing by the authority to perform that function; (3) any employee of such a person who is authorised in writing by the authority for the purpose of giving such notices: s 73(11).

2 As to the meaning of 'local authority' for these purposes see PARA 844 note 1.

3 Is an offence under the Clean Neighbourhoods and Environment Act 2005 s 71(4): see PARA 845.

4 Clean Neighbourhoods and Environment Act 2005 s 73(1).

5 A notice under the Clean Neighbourhoods and Environment Act 2005 s 73 must give such particulars of the circumstances alleged to constitute the offence as are necessary for giving reasonable information of the offence: s 73(4). The form of a notice under s 73 is to be such as the appropriate person may by order prescribe: s 73(10). At the date at which this volume states the law no such order had been made. 'Appropriate person' is: (1) in relation to a local authority in England, the Secretary of State (see PARA 58); (2) in relation to a local authority in Wales, the Welsh Ministers (see PARA 59): s 81(1).

A power conferred on the appropriate person under any provision of Pt 7 Ch 1 (ss 69-81) to make an order or regulations includes: (a) power to make different provision for different purposes (including different provision for different local authorities and descriptions of local authority); (b) power to make consequential, supplementary, incidental, transitional and saving provision: s 80(1), (2). The power is exercisable by statutory instrument: s 80(3). A statutory instrument containing an order or regulations made by the Secretary of State under any provision of Pt 7 Ch 1 is subject to annulment in pursuance of a resolution of either House of Parliament: s 80(4). At the date at which this volume states the law no such order has been made. As to the power to make orders see note 5.

19 Clean Neighbourhoods and Environment Act 2005 s 74(3).

20 Regulations under the Clean Neighbourhoods and Environment Act 2005 s 74(4) may, in particular: (1) require an amount specified under s 74(2)(a) (see the text and note 17) to fall within a range prescribed in the regulations; (2) restrict the extent to which, and the circumstances in which, an authority can make provision under s 74(3) (see the text and note 19): s 74(5). 847. Powers in relation to alarms.

The following provisions¹ apply if an authorised officer² of a local authority³ is satisfied that the conditions below are met in relation to an audible intruder alarm installed in or on premises⁴ in the area of the local authority⁵. The conditions are:

- 2108 (1) that the alarm has been sounding continuously for more than 20 minutes or intermittently for more than one hour⁶;
- 2109 (2) that the sounding of the alarm is likely to give persons living or working in the vicinity of the premises reasonable cause for annoyance⁷;
- 2110 (3) if the premises are in an alarm notification area⁸, that reasonable steps have been taken to get the nominated key-holder⁹ to silence the alarm¹⁰.

In the above circumstances, the officer may enter the premises for the purpose of silencing the alarm¹¹. However, the officer may not enter premises by force¹²; and must, if required, show evidence of his authority to act under these provisions¹³.

If, on an application made by an authorised officer¹⁴ of a local authority, a justice of the peace is satisfied: (a) that the conditions in heads (1) and (2) above are met in relation to an audible intruder alarm installed in or on premises in the area of the local authority¹⁵; (b) if the premises are in an alarm notification area, that the condition in head (3) above is met¹⁶; and (c) that the officer is unable to gain entry to the premises without the use of force¹⁷, the justice of the peace may issue a warrant authorising the officer to enter the premises, using reasonable force if necessary, for the purpose of silencing the alarm¹⁸.

Before applying for such a warrant¹⁹, the officer must leave a notice at the premises stating: (i) that the officer is satisfied that the sounding of the alarm is likely to give persons living or working in the vicinity of the premises reasonable cause for annoyance²⁰; and (ii) that an application is to be made for a warrant authorising the officer to enter the premises, using reasonable force if necessary, for the purpose of silencing the alarm²¹. The officer must, if required, show evidence of such a warrant²².

Where an officer of a local authority enters any premises under these provisions²³, the officer may take any steps he thinks necessary for the purpose of silencing the alarm²⁴. He may take with him such other persons and such equipment as he thinks necessary for the purpose of silencing the alarm²⁵. The officer and any person who enters the premises with him²⁶ must not cause more damage to, or disturbance at, the premises than is necessary for the purpose of silencing the alarm²⁷. If the premises are unoccupied or (where the premises are occupied) the occupier of the premises is temporarily absent, the officer must: (A) leave a notice at the premises stating what action has been taken on the premises²⁸; (B) leave the premises (so far as is reasonably practicable) as effectively secured against entry as he found them²⁹.

Any expenses reasonably incurred by the local authority in connection with entering the premises, silencing the alarm and complying with heads (A) and (B) above may be recovered by the authority from the responsible person³⁰. A warrant³¹ continues in force until the alarm has been silenced, and the officer has complied with heads (A) and (B) above (if they apply)³². Nothing done by, or by a member of, a local authority or by an officer of or another person authorised by a local authority, if done in good faith³³, is to subject the authority or any of those persons personally to any action, liability, claim or demand³⁴.

(8) NOISE FROM DWELLINGS AT NIGHT

848. Provisions relating to noise from dwellings at night.

The regime established by the Noise Act 1996¹ is intended to complement the statutory nuisance controls², providing a swifter remedy in the form of a summary procedure for dealing with the emission of noise from dwellings at night and powers of entry and seizure³.

The provisions introducing the summary procedure⁴ apply to the area of every local authority⁵ in England and Wales⁶.

1 As to the commencement and extent of the Noise Act 1996 see s 14.

2 See **NUISANCE**. As to statutory nuisances see **NUISANCE** vol 78 (2010) PARAS 115, 155 et seq, 199 et seq. As to the meaning of 'nuisance' see **NUISANCE** vol 78 (2010) PARA 159.

3 See Department of the Environment Circular 8/97 (dated 23 July 1997) para 5. As to entry and seizure see PARA 853.

There is to be paid out of money provided by Parliament any increase attributable to the Noise Act 1996 in the sums payable out of money so provided under any other enactment: s 13. This provision does not apply in so far as such a sum is payable by the National Assembly for Wales. 849. Investigation of noise from a dwelling and warnings.

A local authority¹ in England and Wales may, if it receives a complaint made by any individual present in a dwelling² during night hours³ (the 'complainant's dwelling') that excessive noise is being emitted from another dwelling⁴ (the 'offending dwelling') or any premises in respect of which a premises licence or a temporary event notice has effect (the 'offending premises')⁵, arrange for an officer of the authority to take reasonable steps to investigate the complaint⁶. A complaint may be made by any means⁷.

If, in consequence of such an investigation, an officer of the authority is satisfied that noise is being emitted from the offending dwelling or the offending premises during night hours and that the noise, if it were measured from within the complainant's dwelling, would or might exceed the permitted level⁸, the officer may serve a warning notice⁹ about the noise¹⁰.

A warning notice must:

- 2111 (1) state that an officer of the authority considers that noise is being emitted from the offending dwelling or the offending premises during night hours¹¹;
- 2112 (2) state that the noise exceeds, or may exceed, the permitted level, as measured from within the complainant's dwelling¹²;
- 2113 (3) give warning (a) in a case where the complaint is in respect of a dwelling, that any person who is responsible for noise which is emitted from the offending dwelling¹³ in the period specified in the notice¹⁴ and exceeds the permitted level, as measured from within the complainant's dwelling, may be guilty of an offence; (b) in the case where the complaint is in respect of other premises, that the responsible person in relation to the offending premises may be guilty of an offence if noise which exceeds the permitted level, as measured from within the complainant's dwelling, is emitted from the premises in the period specified in the notice¹⁵; and
- 2114 (4) state the time at which the notice is served¹⁶.

In a case where the complaint is in respect of a dwelling, a warning notice must be served: (i) by delivering it to any person present at or near the offending dwelling and appearing to the officer of the authority to be responsible for the noise¹⁷; or (ii) if it is not reasonably practicable to identify any person at or near the dwelling as being a person responsible for the noise on whom the notice may reasonably be served, by leaving it at the offending dwelling¹⁸. In a case where the complaint is in respect of other premises, a warning notice must be served by delivering it to the person who appears to the officer of the authority to be the responsible person in relation to the offending premises at the time the notice is delivered¹⁹.

1 As to the meaning of 'local authority' see PARA 99.

2 'Dwelling' means any building or part of a building used or intended to be used as a dwelling: Noise Act 1996 s 11(2)(a).

3 'Night hours' means the period beginning with 11 pm and ending with the following 7 am: Noise Act 1996 s 2(6).

4 References to noise emitted from a dwelling include noise emitted from any garden, yard, outhouse or other appurtenance belonging to or enjoyed with the dwelling: Noise Act 1996 s 11(2)(b).

5 Noise Act 1996 s 2(2) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 3(1), (2)). 'Premises licence' and 'temporary event notice' have the same meanings as in the Licensing Act 2003 (see **LICENSING AND GAMBLING** vol 67 (2008) PARAS 53, 108): see the Noise Act 1996 s 2(7A) (added by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 3(1), (5)).

6 Noise Act 1996 s 2(1) (substituted by the Anti-social Behaviour Act 2003 s 42(1), (3)). Certain functions under the Noise Act 1996 s 2 are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see **LOCAL GOVERNMENT** vol 69 (2009) PARA 733.

Where a local authority receives a complaint under the Noise Act 1996 s 2(2) and the offending dwelling is or the offending premises are within the area of another local authority, the first local authority may act under ss 2-9 as if the offending dwelling or the offending premises were within its area: s 2(7) (amended by the Anti-social Behaviour Act 2003 s 42(1), (4), Sch 3; and the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 3(1), (4)).

7 Noise Act 1996 s 2(3).

8 For these purposes, the appropriate person may by directions in writing determine the maximum level of noise (the 'permitted level') which may be emitted during night hours from any dwelling or other premises: Noise Act 1996 s 5(1) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 7(1), (2)). The permitted level is to be a level applicable to noise as measured from within any other dwelling in the vicinity by an approved device used in accordance with any conditions subject to which the approval was given: Noise Act 1996 s 5(2). Different permitted levels may be determined for different circumstances, and the permitted level may be determined partly by reference to other levels of noise: s 5(3). The appropriate person may from time to time vary his directions by further directions in writing: s 5(4) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 7(1), (3)).

The appropriate person may approve in writing any type of device used for the measurement of noise; and references to approved devices are references to devices of a type so approved: Noise Act 1996 s 6(1) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 8(1), (2)). Any such approval may be given subject to conditions as to the purposes for which, and the manner and other circumstances in which, devices of the type concerned are to be used: Noise Act 1996 s 6(2).

'Appropriate person' means: (1) the Secretary of State (see PARA 58), in relation to England; (2) the Welsh Ministers (see PARA 59), in relation to Wales: Noise Act 1996 s 11(2A) (added by the Clean Neighbourhoods and Environment Act 2005 s 85(1), (2)).

9 A 'warning notice' is a notice under the Noise Act 1996 s 3: s 3(1). There is no prescribed form of warning notice, although a suggested form has been prepared by the Chartered Institute of Environmental Health.

10 Noise Act 1996 s 2(4) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 3(1), (3)).

It is for the officer of the authority dealing with the particular case: (1) to decide whether any noise, if it were measured from within the complainant's dwelling, would or might exceed the permitted level; and (2) for the purposes of that decision, to decide whether to assess the noise from within or outside the complainant's dwelling and whether or not to use any device for measuring the noise: Noise Act 1996 s 2(5).

11 Noise Act 1996 s 3(1)(a)(i) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 4(1), (2)(a)).

12 Noise Act 1996 s 3(1)(a)(ii).

13 A person is responsible for noise emitted from a dwelling if he is a person to whose act, default or sufferance the emission of the noise is wholly or partly attributable: Noise Act 1996 s 3(5).

14 The period specified in a warning notice must be a period beginning not earlier than 10 minutes after the time when the notice is served and ending with the following 7 am: Noise Act 1996 s 3(2).

15 Noise Act 1996 s 3(1)(b) (substituted by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 4(1), (2)(b)). As to offences see PARA 850; and as to penalties see PARA 852.

18 Noise Act 1996 s 3(3)(b). See note 17.

19 Noise Act 1996 s 3(3A) (s 3(3A), (6) added by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 4(1), (4), (5)). For the purposes of the Noise Act 1996 ss 2-9, the responsible person in relation to premises at a particular time is (1) where a premises licence has effect in respect of the premises (a) the person who holds the premises licence if he is present at the premises at that time; (b) where that person is not present at the premises at that time, the designated premises supervisor under the licence if he is present at the premises at that time; or (c) where neither of the persons mentioned in heads (a) and (b) above is present at the premises at that time, any other person present at the premises at that time who is in charge of the premises; (2) where a temporary event notice has effect in respect of the premises (a) the premises user in relation to that notice if he is present at the premises at that time; or (b) where the premises user is not present at the premises at that time, any other person present at the premises at that time who is in charge of the premises: s 3(6) (as so added).

850. Offences.

If a warning notice has been served¹ in respect of noise emitted from a dwelling², any person who is responsible³ for noise which: (1) is emitted from the dwelling in the period specified in the notice⁴; and (2) exceeds the permitted level⁵, as measured from within the complainant's dwelling⁶, is guilty of an offence⁷. It is a defence for a person charged with such an offence to show that there was a reasonable excuse for the act, default or sufferance in question⁸.

If (a) a warning notice has been served⁹ in respect of noise emitted from premises¹⁰; (b) noise is emitted from the premises in the period specified in the notice¹¹; and (c) the noise exceeds the permitted level, as measured from within the complainant's dwelling¹², the responsible person in relation to the offending premises¹³ at the time at which the noise referred to in head (c) above is emitted is guilty of an offence¹⁴.

851. Evidence.

In proceedings for an offence¹, evidence of a measurement of noise made by a device is not admissible as evidence of the level of noise unless it is an approved device² and any conditions subject to which the approval was given are satisfied³. Evidence of a measurement of noise made by a device or of the circumstances in which it was made, or evidence that a device was of an approved type or that any conditions subject to which the approval was given were satisfied, may be given by the production of a document which is signed by an officer of the local authority⁴ and which (as the case may be) gives particulars of the measurement or of the circumstances in which it was made or states that the device was of such a type or that, to the best of the knowledge and belief of the person making the statement, all such conditions were satisfied⁵. If the document contains evidence of a measurement of noise it may consist partly of a record of the measurement produced automatically by a device⁶.

In proceedings for an offence⁷, evidence that noise, or noise of any kind, measured by a device at any time was noise emitted from a dwelling⁸ or from any other premises may be given by the production of a document signed by an officer of the local authority⁹ and stating that he had identified that dwelling or those premises as the source at that time of the noise or, as the case maybe, the noise of that kind¹⁰.

These provisions do not make a document admissible as evidence in proceedings for an offence unless a copy of it has, not less than seven days before the hearing or trial, been served on the person charged with the offence¹¹. A document is not admissible as evidence of anything other than the matters shown on a record produced automatically by a device if, not less than three days before the hearing or trial or within such further time as the court may in special circumstances allow, the person charged with the offence serves a notice on the prosecutor requiring attendance at the hearing or trial of the person who signed the document¹².

852. Penalties.

A person found guilty of an offence where noise from a dwelling or other premises exceeds the permitted level after the service of a warning notice¹ is liable on summary conviction to a penalty².

Where an officer of a local authority³ who is authorised for these purposes has reason to believe that a person is committing or has just committed an offence⁴, he may give that person a notice (a 'fixed penalty notice') offering him the opportunity of discharging any liability to conviction for that offence by the payment of a fixed penalty⁵. The fixed penalty notice must⁶:

- 2115 (1) give such particulars of the circumstances alleged to constitute the offence as are necessary for giving reasonable information of the offence⁷;
- 2116 (2) state the period during which proceedings will not be taken⁸ for the offence⁹;
- 2117 (3) state the amount of the fixed penalty¹⁰; and
- 2118 (4) state the person to whom and the address at which the fixed penalty may be paid¹¹.

Where a person is given a fixed penalty notice in respect of an offence: (a) proceedings for that offence may not be instituted before the end of the period of 14 days following the date of the notice¹²; (b) he cannot be convicted of that offence if he pays the penalty before the end of that period¹³; (c) no further fixed penalty notice may be given to that person in respect of noise emitted from the dwelling¹⁴ or from the premises during the period specified in the warning notice¹⁵.

1 le an offence under the Noise Act 1996 s 4 or s 4A: see PARA 850.

2 Noise Act 1996 ss 4(3), s 4A(2) (s 4A added by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 6). The penalty in the case of an offence under the Noise Act 1996 s 4 is a fine not exceeding level 3 on the standard scale, and in the case of an offence under s 4A the penalty is a fine not exceeding level 5 on the standard scale: see s 4(3); and s 4A(2) (as so added) respectively. As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142. See also the London Local Authorities Act 2007 s 31(1), Sch 2 Pt 1 (modification of enactments in enforcement action zone).

3 As to the meaning of 'local authority' see PARA 99.

4 See note 1.

5 Noise Act 1996 s 8(1) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 10(1), (2)). Certain functions under the Noise Act 1996 s 8 are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see **LOCAL GOVERNMENT** vol 69 (2009) PARA 733.

A fixed penalty notice may be given to a person by delivering the notice to him or, if it is not reasonably practicable to deliver it to him, by leaving the notice addressed to him at the offending dwelling or the offending premises: Noise Act 1996 s 8(2) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 10(1), (3)). As to the meanings of 'offending dwelling' and 'offending premises' see PARA 849.

In relation to a fixed penalty payable to a local authority in pursuance of a notice under the Noise Act 1996 s 8: (1)(a) in the case of an offence under s 4 (see PARA 850) the amount of the penalty is the amount specified by the local authority in relation to the authority's area; or (b) if no amount is so specified, is £100; and (2) in the case of an offence under s 4A (see PARA 850) the amount is £500: s 8A(1), (2), (2A) (ss 8A, 8B added by the Clean Neighbourhoods and Environment Act 2005 s 82(2); and the Noise Act 1996 s 8A(2) amended and s

8A(2A) added by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 11(1)-(3)). The local authority may make provision for treating the fixed penalty payable in the case of an offence under the Noise Act 1996 s 4 as having been paid if a lesser amount is paid before the end of a period specified by the authority: Noise Act 1996 s 8A(3) (as so added; and amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 11(1), (4)). The appropriate person may by regulations make provision in connection with the powers conferred on local authorities under the Noise Act 1996 s 8A(2)(a) (see head (1)(a) above) and s 8A(3) (see above): s 8A(4) (as so added). Regulations under s 8A(4) may, in particular: (i) require an amount specified under head (1) above to fall within a range prescribed in the regulations; (ii) restrict the extent to which, and the circumstances in which, a local authority can make provision under s 8A(3): s 8A(5) (as so added). The appropriate person may by order substitute a different amount for the amount for the time being specified in head (1)(b) or head (2) above: s 8A(6) (as so added; and amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 11(1), (5)). As to the meaning of 'appropriate person' see PARA 849 note 8.

The power to make an order or regulations under the Noise Act 1996 is exercisable by statutory instrument which (except in the case of an order under s 14 (see PARA 848 note 1) or an order or regulations made solely by the National Assembly for Wales) is subject to annulment in pursuance of a resolution of either House of Parliament: s 11(3) (amended by the Anti-social Behaviour Act 2003 s 42(1), (6); and the Clean Neighbourhoods and Environment Act 2005 s 85(1), (3)). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

As to the regulations that have been made under the Noise Act 1996 s 8A(4), (5) see the Environmental Offences (Fixed Penalties) (Miscellaneous Provisions) Regulations 2007, SI 2007/175. See also the Environmental Offences (Use of Fixed Penalty Receipts) (Wales) Regulations 2007, SI 2007/739 (amended by SI 2008/663); and the Environmental Offences (Fixed Penalties) (Miscellaneous Provisions) (Wales) Regulations 2008, SI 2008/663. At the date at which this volume states the law no order had been made under the Noise Act 1996 s 8A(6).

If an officer of a local authority who is authorised for the purposes of s 8 proposes to give a person a fixed penalty notice, the officer may require the person to give him his name and address: s 8B(1) (as so added). A person commits an offence if: (A) he fails to give his name and address when required to do so under s 8B(1); or (B) he gives a false or inaccurate name or address in response to a requirement under s 8B(1): s 8B(2) (as so added). A person guilty of an offence under s 8B(2) is liable on summary conviction to a fine not exceeding level 3 on the standard scale: s 8B(3) (as so added).

6 If a form for a fixed penalty notice is specified in an order made by the appropriate person, a fixed penalty notice must be in that form: Noise Act 1996 s 9(1) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 12(1), (2)).

10 Noise Act 1996 s 8(5)(b). As to the amount see note 5.

11 Noise Act 1996 s 8(5)(c). Payment of the fixed penalty may (among other methods) be made by pre-paying and posting to that person at that address a letter containing the amount of the penalty (in cash or otherwise): s 8(6). Where a letter containing the amount of the penalty is sent in accordance with s 8(6), payment is to be regarded as having been made at the time at which that letter would be delivered in the ordinary course of post: s 8(7).

A local authority may use any sums it receives under s 8 (its 'penalty receipts') only for the purposes of functions that are qualifying functions, namely: (1) its functions under the Noise Act 1996; (2) its functions under the Clean Neighbourhoods and Environment Act 2005 Pt 7 Ch 1 (ss 69-81) (see PARA 843 et seq); (3) its functions under the Environmental Protection Act 1990 ss 79-82 (see **NUISANCE** vol 78 (2010) PARA 156 et seq) in connection with statutory nuisances falling with s 79(1)(g) or s 79(1)(ga) (see **NUISANCE** vol 78 (2010) PARA 156 heads (9), (10)); or (4) its functions of a description specified in regulations made by the appropriate person, which regulations may, in particular, have the effect that a local authority may use its penalty receipts for the purposes of any of its functions: Noise Act 1996 Act s 9(4), (4A), (4B) (s 9(4) substituted, and s 9(4A)-(4F) added, by the Anti-social Behaviour Act 2003 s 42(1), (5); and the Noise Act 1996 s 9(4A), (4C)-(4F) amended by the Clean Neighbourhoods and Environment Act 2005 s 83(1), (2), Sch 1 paras 1, 12(1), (4)-(6), Sch 5 Pt 7). A local authority must supply the appropriate person with such information relating to the use of its penalty receipts as the appropriate person may require: Noise Act 1996 s 9(4C) (as so added and amended). The appropriate person may by regulations: (a) make provision for what a local authority is to do with its penalty receipts: (i) pending their being used for the purposes of qualifying functions of the authority; (ii) if they are not so used before such time after their receipt as may be specified by the regulations (including, in particular, provision for the payment of sums to a person, including the appropriate person, other than the local authority); (b) make provision for accounting arrangements in respect of a local authority's penalty receipts: s 9(4D), (4E)

(as so added and amended). Before making regulations under s 9, the appropriate person must consult the local authorities to which the regulations are to apply, and such other persons as the appropriate person considers appropriate: s 9(4F) (as so added and amended). The powers to make regulations conferred by s 9 are, for the purposes of the Local Government Act 2003 s 100(1) (see **LOCAL GOVERNMENT** vol 69 (2009) PARA 789), to be regarded as included among the powers mentioned in s 100(2): Noise Act 1996 s 9(4G) (s 9(4G), (4H) added by the Clean Neighbourhoods and Environment Act 2005 s 83(3)). Regulations under the Noise Act 1996 s 9 relating to local authorities in England may make provision in relation to all local authorities, particular local authorities or particular descriptions of local authority, and may make different provision in relation to different local authorities or descriptions of local authority: s 9(4H) (as so added). As to the regulations that have been made under s 9(4A)(b), (4B) see the Environmental Offences (Fixed Penalties) (Miscellaneous Provisions) Regulations 2007, SI 2007/175.

12 Noise Act 1996 s 8(3)(a).

13 Noise Act 1996 s 8(3)(b). In proceedings for an offence under s 4 or s 4A (see PARA 850), evidence that payment of a fixed penalty was or was not made before the end of any period may be given by the production of a certificate which purports to be signed by or on behalf of the person having responsibility for the financial affairs of the local authority and which states that payment of a fixed penalty was made on any date or, as the case may be, was not received before the end of that period: s 9(5) (amended by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 12(1), (7)).

14 See PARA 849 note 4. As to the meaning of 'dwelling' see PARA 849 note 2.

15 See the Noise Act 1996 ss 9(2)(a), 9(2A)(b) (s 9(2A) added by the Clean Neighbourhoods and Environment Act 2005 Sch 1 paras 1, 12(1), (3)). As to the meaning of 'warning notice' see PARA 849 note 9. As to the period specified see PARA 849 note 14.

The person to whom a fixed penalty notice is given may, however, be convicted of a further offence under the Noise Act 1996 s 4 or s 4A (see PARA 850) in respect of noise emitted from the dwelling or from the premises after the fixed penalty notice is given and before the end of the specified period: see ss 9(2)(b), 9(2A)(b) (as so added).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/15. NOISE CONTROL/(8) NOISE FROM DWELLINGS AT NIGHT/853. Entry and seizure.

853. Entry and seizure.

Where an officer of a local authority¹ has reason to believe that a warning notice has been served² in respect of noise emitted from a dwelling or other premises³ and that, at any time in the period specified⁴ in the notice, noise emitted from that dwelling or other premises has exceeded the permitted level⁵, as measured from within the complainant's dwelling⁶, an officer of the local authority or a person authorised by the authority for the purpose may enter the dwelling or other premises from which the noise in question is being or has been emitted and may seize and remove any equipment which it appears to him is being or has been used in the emission of the noise⁷.

If it is shown to a justice of the peace on sworn information in writing that:

- 2119 (1) a warning notice has been served in respect of noise emitted from a dwelling or other premises⁸;
- 2120 (2) at any time in the period specified in the notice, noise emitted from the dwelling or other premises has exceeded the permitted level, as measured from within the complainant's dwelling⁹; and
- 2121 (3) entry of an officer of the local authority, or of a person authorised by the authority for the purpose, to the dwelling or other premises has been refused, or such a refusal is apprehended, or a request by an officer of the authority, or of such a person, for admission would defeat the object of entry¹⁰,

then the justice may by warrant under his hand authorise the local authority, by any of its officers or any person authorised by it for the purpose, to enter the dwelling or other premises, if need be by force¹¹.

A person who enters any dwelling or other premises¹² may take with him such other persons and such equipment as may be necessary¹³. If, when he leaves, the dwelling is, or the other premises are, unoccupied, he must leave them as effectively secured against trespassers as he found them¹⁴.

A person who wilfully obstructs any person exercising any powers conferred by these provisions is liable on summary conviction to a penalty¹⁵.

Any seized equipment¹⁶ may be retained: (a) during the period of 28 days beginning with the seizure¹⁷; or (b) if it is related equipment¹⁸ in proceedings for a noise offence¹⁹ instituted within that period against any person, until he is sentenced or otherwise dealt with for the offence, or acquitted of the offence, or the proceedings are discontinued²⁰.

Where a person is convicted of a noise offence, the court may make an order (a 'forfeiture order') for the forfeiture of any related equipment²¹. In considering whether to make a forfeiture order in respect of any equipment, a court must have regard to the value of the equipment and to the likely financial and other effects on the offender of the making the order (taken together with any other order that the court contemplates making)²². A forfeiture order operates to deprive the offender of any rights in the equipment to which it relates²³. Where any equipment has been forfeited, a magistrates' court may, on application by a claimant of the equipment (other than the person in whose case the forfeiture order was made), make an order for delivery of the equipment to the applicant if it appears to the court that he is the owner of the equipment²⁴. Where the responsible local authority²⁵ is of the opinion that the person in whose

case the forfeiture order was made is not the owner of the equipment, it must take reasonable steps to bring to the attention of the persons who may be entitled to do so their right to make an application for an order for delivery²⁶. An order for delivery under these provisions does not affect the right of any person to take, within the period of six months beginning with the date of the order, proceedings for the recovery of the equipment from the person in possession of it in pursuance of the order, but the right ceases on the expiry of that period²⁷. If on the expiry of the period of six months beginning with the date on which a forfeiture order was made in respect of the equipment no order for delivery has been made, the responsible local authority may dispose of the equipment²⁸.

If in proceedings for a noise offence no order for forfeiture of related equipment is made, the court (whether or not a person is convicted of the offence) may give such directions as to the return, retention or disposal of the equipment by the responsible local authority as it thinks fit²⁹. Where in the case of any seized equipment no proceedings in which it is related equipment are begun within the period of 28 days mentioned in head (a) above, the responsible local authority must return the equipment to any person who appears to it to be the owner of the equipment and who, within a specified period³⁰, makes a claim for the return of the equipment³¹. The responsible local authority must take reasonable steps to bring to the attention of persons who may be entitled to do so their right to make such a claim³². If no such person makes such a claim within the specified period, the responsible local authority may dispose of the equipment³³. The responsible local authority is not required to return any seized equipment until the person making the claim has paid any such reasonable charges for the seizure, removal and retention of the equipment as the authority may demand³⁴.

If equipment is sold³⁵ and, before the expiration of the period of one year beginning with the date on which the equipment is sold, any person satisfies the responsible local authority that at the time of its sale he was the owner of the equipment³⁶, then the authority is to pay him any sum by which any proceeds of sale exceed any such reasonable charges for the seizure, removal or retention of the equipment as the authority may demand³⁷.

The responsible local authority cannot demand charges from any person³⁸ who it is satisfied did not know, and had no reason to suspect, that the equipment was likely to be used in the emission of noise exceeding the permitted level³⁹.

CLEANSING, FUMIGATION AND DESTRUCTION OF PESTS/(1) CLEANSING OF PREMISES, ARTICLES AND PERSONS/855. Cleansing of filthy or verminous premises.

16. CLEANSING, FUMIGATION AND DESTRUCTION OF PESTS

(1) CLEANSING OF PREMISES, ARTICLES AND PERSONS

855. Cleansing of filthy or verminous premises.

Where a local authority¹, upon consideration of a report from any of its officers or other information in its possession, is satisfied that any premises² are in such a filthy or unwholesome condition as to be prejudicial to health³, or are verminous⁴, it must give notice to the owner⁵ or occupier of the premises requiring him to take such steps as may be specified in the notice⁶ to remedy the condition of the premises by cleansing and disinfecting them⁷. The notice may require among other things the removal of wallpaper or other covering of the walls, or, in the case of verminous premises, the taking of such steps as may be necessary for destroying or removing vermin⁸.

Where the authority is satisfied that any such premises are verminous, the notice served may require that the authority is to be allowed to employ gas for the purpose of destroying vermin on the premises, but in that case the notice must be served both on the owner and on the occupier of the premises, and the authority must bear the cost of its operations and may provide temporary shelter or house accommodation for any person compelled to leave the premises by reason of its operations⁹. In this case, the notice to the occupier may also require that the premises are to be vacated from a specified date until the local authority gives the occupier further notice that they can safely be reoccupied¹⁰. The authority may also serve notice on the occupiers of any other premises having any floor, wall or ceiling contiguous with the first-mentioned premises, or into which there is reason to apprehend that the gas may penetrate, requiring that those other premises are to be vacated similarly¹¹.

If a person on whom a notice is served fails to comply with its requirements, the authority may itself carry them out and recover from him the expenses it reasonably incurs in so doing, and, without prejudice to its right to exercise that power, he is liable to a penalty¹².

1 As to the meaning of 'local authority' see PARA 99.

2 As to the meaning of 'premises' see PARA 1 note 34. The Public Health Act 1936 s 83 does not apply to any premises forming part of a factory or of a mine or quarry within the meaning of the Mines and Quarries Act 1954 (see **MINES, MINERALS AND QUARRIES** vol 31 (2003 Reissue) PARAS 5-6): Public Health Act 1936 s 83(4) (added by the Public Health Act 1961 s 35). As to the meaning of 'factory' see PARA 114 note 3.

3 Public Health Act 1936 s 83(1)(a) (s 83(1) substituted by the Public Health Act 1961 s 35). As to the meaning of 'prejudicial to health' see **NUISANCE** vol 78 (2010) PARA 158.

4 Public Health Act 1936 s 83(1)(b) (as substituted: see note 3). As to the meaning of 'verminous' see note 8.

5 As to the meaning of 'owner' see PARA 116.

6 The notice may require: (1) the interior surface of premises used for human habitation or as shops or offices to be papered, painted or distempered; and (2) the interior surface of any other premises to be painted, distempered or whitewashed: Public Health Act 1936 s 83(1A)(a), (b) (s 83(1A) added by the Public Health Act 1961 s 35). The notice must allow the person served, or the local authority acting in his default, to choose, in a case under head (1) above, between papering, painting and distempering, and, in a case under head (2) above, between painting, distempering and whitewashing: Public Health Act 1936 s 83(1A) (as so added).

7 Public Health Act 1936 s 83(1) (as substituted: see note 3). As to the provision of cleansing stations see PARA 860.

8 Public Health Act 1936 s 83(1) (as substituted: see note 3). 'Vermin', in its application to insects and parasites, includes their eggs, larvae and pupae; and 'verminous' is to be construed accordingly: s 90(1).

9 Public Health Act 1936 s 83(3). As to fumigation of buildings and ships see PARA 856.

10 Public Health Act 1961 s 36(1)(a). As to the meaning of 'local authority' see PARA 99. No person is required under s 36 to vacate any premises used for human habitation for any period unless alternative shelter or other accommodation has been provided for him by the local authority free of charge for that period; and any notice given under this provision must specify the alternative shelter or other accommodation so provided: s 36(2). As to removal expenses see note 11. A person on whom a notice is served under s 36 may, within the period of seven days from the date on which the notice was served on him, appeal to a magistrates' court; and the requirements included in the notice in pursuance of s 36 do not take effect until the expiration of that period or, where an appeal is brought within that period, before the appeal is disposed of or withdrawn: s 36(3). The provisions of s 36(3) as to the period within which an appeal is to be brought have effect notwithstanding anything in the Public Health Act 1936 s 300(2) (see PARA 129), as applied to the Public Health Act 1961 Pt II (ss 17-37): s 36(3).

11 Public Health Act 1961 s 36(1)(b). As to alternative accommodation and appeals see note 10. The authority must defray reasonable expenses incurred in removing from and returning to premises in compliance with a notice under s 36(1)(b), and may if it thinks fit defray such expenses incurred in compliance with a notice under s 36(1)(a): s 36(5).

12 Public Health Act 1936 s 83(2). The penalty is a fine not exceeding level 1 on the standard scale and a further fine not exceeding £2 for each day on which the offence continues after conviction: s 83(2) (amended by virtue of the Criminal Justice Act 1982 ss 37, 38, 46; and the Decimal Currency Act 1969 s 10(1)). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142. In any proceedings under the Public Health Act 1936 s 83(2), it is open to the defendant to question the reasonableness of the authority's requirements or of its decision to address its notice to him and not to the occupier or, as the case may be, the owner of the premises: s 83(2) proviso. So much of s 83(2) as imposes a penalty for failure to comply with the requirements of a notice under it also applies to the requirements included in the notice by virtue of the Public Health Act 1961 s 36 (see the text and notes 10-11): s 36(4).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/16. CLEANSING, FUMIGATION AND DESTRUCTION OF PESTS/(1) CLEANSING OF PREMISES, ARTICLES AND PERSONS/856. Fumigation with certain fumigants.

856. Fumigation with certain fumigants.

Regulations¹ provide that an employer must not undertake any fumigation² in which the fumigant used or intended to be used is hydrogen cyanide, phosphine or methyl bromide (except in certain defined situations³) unless he has notified prescribed persons⁴ and provided them with specified information⁵ at least 24 hours in advance or such shorter time in advance as the persons required to be notified may agree⁶. An employer undertaking such a fumigation must ensure that, before the fumigant is released, suitable warning notices have been affixed at all points of reasonable access to the premises or to those parts of the premises in which the fumigation is to be carried out, and that after the fumigation has been completed and the premises are safe to enter those warning notices are removed⁷.

1 In the Control of Substances Hazardous to Health Regulations 2002, SI 2002/2677: see **HEALTH AND SAFETY AT WORK** vol 53 (2009) PARA 619 et seq.

2 'Fumigation' means an operation in which a substance is released into the atmosphere so as to form a gas to control or kill pests or other undesirable organisms; and 'fumigate' and 'fumigant' are to be construed accordingly: Control of Substances Hazardous to Health Regulations 2002, SI 2002/2677, reg 2(1).

3 See the Control of Substances Hazardous to Health Regulations 2002, SI 2002/2677, reg 14(1), Sch 8. The excepted situations are:

155 (1) in respect of hydrogen cyanide, when the fumigations are carried out: (a) for research; or (b) in fumigation chambers; or (c) in the open air to control or kill mammal pests (reg 14(1), Sch 8);

156 (2) in respect of methyl bromide, when the fumigations: (a) are carried out for research; (b) are carried out in fumigation chambers; (c) are fumigations of soil outdoors under gas-proof sheeting where not more than 1,000 kg is used in any period of 24 hours on the premises; (d) are fumigations of soil under gas-proof sheeting in glasshouses where not more than 500 kg is used in any period of 24 hours on the premises; (e) are fumigations of compost outdoors under gas-proof sheeting where not more than 10 kg of methyl bromide is used in any period of 24 hours on the premises; (f) are fumigations under gas-proof sheeting inside structures other than glasshouses and mushroom houses where not more than 5 kg of methyl bromide is used in each structure during any period of 24 hours; (g) are fumigations of soil or compost in mushroom houses where not more than 5 kg of methyl bromide is used in any one fumigation in any period of 24 hours; (h) are fumigations of containers where not more than 5 kg of methyl bromide is used in any one fumigation in any period of 24 hours (reg 14(1), Sch 8);

157 (3) in respect of phosphine, when the fumigations: (a) are carried out for research; or (b) are carried out in fumigation chambers; or (c) are fumigations under gas-proof sheeting inside structures where not more than 1 kg of phosphine in each structure is used in any period of 24 hours; (d) are fumigations in containers where not more than 0.5 kg of phosphine is used in any one fumigation in any period of 24 hours; (e) are fumigations in individual impermeable packages; (f) are fumigations in the open air to control or kill mammal pests (reg 14(1), Sch 8).

4 In the case of a fumigation to be carried out within the area of a harbour authority, the prescribed persons are the harbour authority (see **PORTS AND HARBOURS** vol 36(1) (2007 Reissue) PARA 619 et seq), an inspector appointed under the Health and Safety at Work etc Act 1974 s 19 (see **HEALTH AND SAFETY AT WORK** vol 52 (2009) PARA 375), if that inspector so requires, and: (1) where the fumigation is to be carried out on a sea-going ship, the chief fire officer of the area in which the ship is situated and the officer in charge of Her Majesty's Revenue and Customs at the harbour; or (2) if it is the space fumigation of a building, the chief fire officer of the area in which the building is situated: Control of Substances Hazardous to Health Regulations 2002, SI 2002/2677, reg 14(2), Sch 9 para 1 (amended by virtue of the Commissioners for Revenue and Customs Act

2005 s 50(2), (7)). In the case of any other fumigation, the prescribed persons are: (a) the police officer for the time being in charge of the police station for the police district in which the fumigation is carried out; (b) an inspector appointed under the Health and Safety at Work etc Act 1974 s 19, if that inspector so requires; and (c) where the fumigation is to be carried out on a sea-going ship or is the space fumigation of a building, the chief fire officer of the area in which the ship or building is situated: Control of Substances Hazardous to Health Regulations 2002, SI 2002/2677, Sch 9 para 2. As to the Commissioners for Her Majesty's Revenue and Customs see **CUSTOMS AND EXCISE** vol 12(3) (2007 Reissue) PARA 900 et seq.

5 The information must include: (1) the name, address and place of business of the fumigator and his telephone number; (2) the name of the person requiring the fumigation to be carried out; (3) the address and description of the premises where the fumigation is to be carried out; (4) the date on which the fumigation is to be carried out and the estimated time of commencement and completion; (5) the name of the operator in charge of the fumigation; and (6) the fumigant to be used: Control of Substances Hazardous to Health Regulations 2002, SI 2002/2677, Sch 9 para 3.

6 Control of Substances Hazardous to Health Regulations 2002, SI 2002/2677, reg 14(2).

CLEANSING, FUMIGATION AND DESTRUCTION OF PESTS/(1) CLEANSING OF PREMISES, ARTICLES AND PERSONS/857. Cleansing or destruction of filthy or verminous articles.

857. Cleansing or destruction of filthy or verminous articles.

Where it appears to a local authority¹ upon a certificate of the proper officer², that any article in any premises³: (1) is in so filthy a condition as to render its cleansing, purification or destruction necessary in order to prevent injury, or danger of injury, to the health of any person in the premises⁴; or (2) is verminous⁵, or by reason of its having been used by or having been in contact with a verminous person is likely to be verminous⁶, the authority must cause the article to be cleansed, purified, disinfected or destroyed, as the case may require, at the expense of the authority and, if necessary, to be removed from the premises⁷.

CLEANSING, FUMIGATION AND DESTRUCTION OF PESTS/(1) CLEANSING OF PREMISES,
ARTICLES AND PERSONS/858. Prohibition on sale of verminous articles.

858. Prohibition on sale of verminous articles.

No dealer¹ may: (1) prepare for sale²; or (2) sell or offer or expose for sale³; or (3) deposit with any person for sale or preparation for sale⁴, any household article if it is to his knowledge verminous⁵, or if by taking reasonable precautions he could have known it to be verminous⁶. If a household article which is verminous is on any premises⁷: (a) being prepared by a dealer for sale⁸; or (b) offered or exposed by a dealer for sale⁹; or (c) deposited by a dealer with any person for sale or preparation for sale¹⁰, the proper officer¹¹ may cause the article to be disinfected or destroyed as the case may require, and if necessary for that purpose to be removed from the premises¹².

1 For these purposes, 'dealer' means a person who trades or deals in any household articles: Public Health Act 1961 s 37(4)(a). 'Household article' means an article of furniture, bedding or clothing or any similar article: s 37(4)(b).

2 Public Health Act 1961 s 37(1)(a). For these purposes, references to preparation for sale does not include disinfestation: s 37(4)(c).

859. Cleansing of verminous persons.

Upon the application of any person, a county council or a local authority¹ may take such measures as are, in its opinion, necessary to free him and his clothing from vermin².

Where it appears to a county council or a local authority, upon a report from its proper officer³, that any person or the clothing of any person is verminous⁴, the council or authority may, if he consents⁵, cause him to be removed to a cleansing station⁶. If he does not consent, the council or authority may apply to a magistrates' court, and the court, if satisfied that it is necessary that he or his clothing ought to be cleansed, may make an order for his removal to and detention in a cleansing station for such period, and subject to such conditions, as may be specified in the order⁷. The council or authority must take such measures as may be, in its opinion, necessary to free the person and his clothing from vermin⁸.

The cleansing of females may only be carried out by a registered medical practitioner or by a woman duly authorised by the proper officer⁹.

No charge may be made in respect of the cleansing of a person or his clothing, or in respect of his removal to, or maintenance in, a cleansing station¹⁰.

(i) Legislation and Administration

861. The Prevention of Damage by Pests Act 1949.

The Prevention of Damage by Pests Act 1949¹ provides for the destruction of rats and mice and for preventing loss of food by infestation². By Order in Council³, the provisions of the Act apply, subject to such exceptions and modifications as may be prescribed, to any vessel⁴ which is not a sea-going ship⁵, and certain provisions relating to infestation of food also apply, with modifications, to sea-going ships⁶. The Act may be applied by Order in Council to aircraft⁷.

1 The Prevention of Damage by Pests Act 1949, with the exception of s 23 (see the text to notes 3-7), does not apply to Northern Ireland: see s 29(3).

2 As to rats and mice see PARAS 873-876. As to the infestation of food see PARAS 877-882.

3 Such orders may be revoked or varied by subsequent orders (see s 23(2)), and may be annulled by resolution of either House of Parliament (see the Prevention of Damage by Pests Act 1949 s 21(2); and PARA 865). As to the order made see the Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967 (amended by SI 1956/420; SI 1965/654).

4 'Vessel' includes hovercraft within the meaning of the Hovercraft Act 1968 s 4(1) (see **SHIPPING AND MARITIME LAW** vol 93 (2008) PARA 326): s 3, Schedule para 3; Hovercraft (Application of Enactments) Order 1972, SI 1972/971, art 4, Sch 1 Pts A, B (amended by SI 1978/1309; SI 1979/1309; SI 1980/715; SI 1983/769; SI 1990/2594).

5 See the Prevention of Damage by Pests Act 1949 s 23(1); and the Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, art 3(1). The Prevention of Damage by Pests Act 1949 s 23 applies to Northern Ireland: see s 29(1). None of the provisions of the Prevention of Damage by Pests Act 1949 relating to structural repairs or other works (see ss 4(2)(b), 14(2)(c); and PARAS 875, 880) applies to any kind of vessel: Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, art 3(1) proviso. 'Sea-going ship' means: (1) any vessel employed in trading or going between a place in the United Kingdom, the Channel Islands or the Isle of Man and a place not within the United Kingdom, the Channel Islands or the Isle of Man; or (2) any vessel (other than a vessel wholly or mainly engaged in trading or going within the limits of any harbour, haven, dock, estuary, or on any tidal or non-tidal river or inland waterway or a vessel used for storage) whose master holds either a valid deratisation certificate or valid deratisation exemption certificate (ie now a valid ship sanitation control certificate or valid ship sanitation control exemption certificate) (see PARA 944) or a rodent control certificate issued not more than four months previously: arts 2, 3(2), Schedule. Charges may be made for inspection in connection with a rodent control certificate: see art 3(3) (added by SI 1956/420). Charges may also be made for any inspection of a vessel for the purposes of any Order in Council under the Prevention of Damage by Pests Act 1949 s 23: see the Pests Act 1954 s 6 (amended by the Local Government Act 1974 Sch 6 para 10, Sch 8).

6 See the Prevention of Damage by Pests Act 1949 s 23(1); and the Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, arts 8-10. The provisions of the Prevention of Damage by Pests Act 1949 ss 16, 17, ss 21-30 (see PARAS 865 et seq, 882) apply to sea-going ships without modification; and ss 13(1), 14(1), (2) (see PARAS 877, 880) apply as modified; but no provision relating to structural repairs or other works (see s 14(2)(c); and PARA 880) applies: see the Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, arts 3(1) proviso, 8-10.

862. Other legislation.

In addition to the requirements of the Prevention of Damage by Pests Act 1949, the owner of a mine must take such steps as are necessary to keep all parts of the mine below ground free from rats and mice¹.

The Secretary of State² has powers to require the killing, taking or destruction of certain animals and birds, including a power to make rabbit clearance orders, for the purpose of preventing damage by pests³.

863. Functions of the Secretary of State in relation to pest control.

The provisions of the Prevention of Damage by Pests Act 1949 relating to the infestation of food¹ are executed by the Secretary of State², who also exercises control over the functions of local authorities³.

Any expenses of the Secretary of State under the Prevention of Damage by Pests Act 1949, or in carrying out research in matters connected with his functions and functions of local authorities under that Act, must be paid out of money provided by Parliament⁴. Any receipts of his under that Act must be paid into the Exchequer⁵.

864. Control over local authority functions.

Where the Secretary of State¹ is satisfied, on complaint or otherwise, that any of the functions of a local authority² relating to rats and mice³ are not being satisfactorily performed by the authority, he may by order⁴ empower any named person to exercise those functions on behalf of the authority⁵. Before making such an order, the Secretary of State must give the local authority an opportunity of making representations to him, and must take into consideration any representations made, and, if the authority so requires, cause a local inquiry to be held⁶.

CLEANSING, FUMIGATION AND DESTRUCTION OF PESTS/(2) DAMAGE BY PESTS/(iii) Penalties, Proceedings and Notices/872. Authentication of documents, service and proof of proceedings.

872. Authentication of documents, service and proof of proceedings.

General provisions of the Public Health Act 1936 relating to the authentication of documents¹, the service of notices² and proof of proceedings of local authorities³ apply to documents, notices and proceedings of local authorities in England and Wales⁴ under the statutory provisions as to rats and mice⁵ as they apply to documents, notices and proceedings under that Act⁶.

(iv) Rats and Mice

873. General duties of local authorities.

It is the duty of every local authority¹ to take such steps as may be necessary to secure so far as practicable that its district² is kept free from rats and mice³, and, in particular: (1) from time to time to carry out such inspections as may be necessary for this purpose⁴; (2) to destroy rats and mice on land⁵ of which it is the occupier⁶ and otherwise to keep such land so far as practicable free from rats and mice⁷; and (3) to enforce the duties of owners⁸ and occupiers⁹ of land under the statutory provisions as to rats and mice¹⁰ and to carry out such operations as are authorised by those provisions¹¹.

1 As to the meaning of 'local authority' see PARA 99. The Secretary of State may in certain cases empower another person to exercise these functions: see PARA 864. 874. Notice to local authority of rats and mice.

The occupier¹ of any land² must forthwith give notice in writing to the local authority³ if it comes to his knowledge that rats or mice are living on or resorting to the land in substantial numbers⁴. This provision does not apply to agricultural land⁵. A person is not required to give such notice to the local authority of any matters of which notice is given to the Secretary of State⁶ in pursuance of the statutory provisions⁷ as to infestation of food⁸. Any person who fails to give a notice required by this provision is liable to a penalty⁹.

875. Destruction of rats and mice.

If in the case of any land¹ it appears to the local authority², whether in consequence of a notice given in respect of the land to notify the authority of rats and mice³ or otherwise, that steps ought to be taken for the destruction of rats or mice on the land or otherwise for keeping the land free from rats and mice, the authority may serve a notice on the owner⁴ or occupier⁵ of the land requiring him to take, within such reasonable period as may be specified in the notice, such reasonable steps as may be so specified⁶. Any such notice may, in particular, require: (1) the application to the land of any form of treatment specified in the notice⁷; (2) the carrying out on the land of any structural repairs or other works so specified⁸. It may prescribe the times at which any treatment required by the notice is to be carried out⁹. If on a complaint made by the owner of any land it appears to a court of summary jurisdiction that the occupier of the land is preventing the owner from carrying out any work which he is required to carry out by such a notice, the court may order the occupier to permit the carrying out of the work¹⁰. A person served with any such notice which requires structural works may appeal to a magistrates' court against the notice¹¹.

Subject to the right of appeal, if any person on whom a notice is served by the local authority¹² fails to take any steps required by the notice at the time or within the period prescribed by the notice, the local authority may itself take those steps and recover from him any expenses which it reasonably incurs in doing so¹³. A person who fails to take any steps is guilty of an offence and is liable to a penalty¹⁴.

876. Groups of premises.

If it appears to a local authority¹ that rats or mice are found in substantial numbers on any land comprising premises in the occupation of different persons² and that it is expedient to deal with the land as one unit for the purpose of destroying rats or mice or keeping the land so far as practicable free from rats and mice, it may, without serving notices requiring steps to be taken³ on the occupiers or owners of the premises, itself take in relation to the land such steps as it considers necessary or expedient for that purpose⁴; but the steps so taken must not include the carrying out of any structural work⁵. Any expenses reasonably incurred by a local authority in taking such steps in relation to any land may be recovered by that authority from the several occupiers of the premises comprised in that land in such proportion as may be just, having regard to the cost of the work done on the several premises⁶.

1 As to the meaning of 'local authority' see PARA 99.

2 For these purposes, any premises which are unoccupied are deemed to be in the occupation of the owner; and the references in the Prevention of Damage by Pests Act 1949 s 6 to the occupier are to be construed accordingly: s 6(4). 4 Prevention of Damage by Pests Act 1949 s 6(1). Without prejudice to the provisions of s 22 (see PARA 866) requiring notice to be given before entry upon land, a local authority must, before taking any steps under s 6 in relation to any premises, give to the occupier at least seven days' notice of its intention to do so, specifying the steps proposed to be taken: s 6(2). There is a penalty for obstruction: see s 22(4); and PARA 868.

(v) Infestation of Food

877. Notice of infestation.

Every person whose business consists of or includes the manufacture¹, storage, transport or sale of food² must forthwith give notice in writing to the Secretary of State³ if he knows that any infestation⁴ is present⁵: (1) in any premises or vehicle or any equipment belonging to any premises or vehicle, used or likely to be used in the course of that business for the manufacture, storage, transport or sale of food⁶; or (2) in any food manufactured, stored, transported or sold in the course of that business, or in any other goods for the time being in his possession which are in contact or likely to come into contact with food so manufactured, stored, transported or sold⁷.

Every person whose business consists of or includes the manufacture, sale, repair or cleaning of containers⁸ must forthwith give notice in writing to the Secretary of State if it comes to his knowledge that infestation is present in any container for the time being in his possession which is to be used for the reception of food in the course of any business consisting of or including the manufacture, storage, transport or sale of food⁹.

Similarly, the master of a sea-going ship¹⁰, used or likely to be used for the transport of food¹¹, must give notice of any infestation by insects or mites present in his vessel¹²; and the person having the custody or control of any vessel which is not a sea-going ship must give notice of infestation by insects or mites present in the vessel when used or likely to be used for the transport or storage of food, or on or in equipment belonging to the vessel or in any food or other goods stored or carried in the vessel¹³.

Subject to any relaxation or exclusion of these requirements¹⁴, failure to comply with them is an offence¹⁵.

A person who gives notice under these requirements need not give notice of the same matters under the provisions requiring notification to local authorities of the presence of rats and mice¹⁶.

11 For these purposes, 'food' includes any substance ordinarily used in the composition or preparation of food, the seeds of any cereal or vegetable, and any feeding stuffs for animals, but does not include any food carried on any vessel for consumption by the passengers or crew: Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, art 2(1).

12 See the Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, art 8. The Secretary of State may grant exemption from this obligation subject to such conditions as he may think advisable: art 8 proviso.

13 See the Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, art 6(1). The Secretary of State, if he is satisfied that it is expedient so to do may on an application being made in that behalf, relax or exclude the requirement as to notice so far as it relates to infestation present in any such vessel or on or in any equipment belonging to such vessel, or in any food or other goods carried in the vessel, subject to such conditions as he may consider necessary to secure that all reasonable steps are taken to destroy infestation in the vessel or equipment before it is used for the carriage or storage of food or other goods likely to come into contact with food: art 6(1) proviso (i). When a notice has been given pursuant to this requirement in respect of food or goods, no person may, without the Secretary of State's consent, deliver, or cause to be delivered, such food or goods to any other vessel or premises until three working days thereafter: art 6(1) proviso (ii). The provisions of the Prevention of Damage by Pests Act 1949 s 13(2), (3) (see the text and note 9; and PARAS 878-879) do not apply to any vessel to which the Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, art 6 relates: art 6(2).

CLEANSING, FUMIGATION AND DESTRUCTION OF PESTS/(2) DAMAGE BY PESTS/(v) Infestation of Food/878. Relaxation or exclusion of requirements as to notice.

878. Relaxation or exclusion of requirements as to notice.

The Secretary of State¹ may, after consultation with such associations or bodies, if any, as appear to him to be representative of persons affected, make regulations for relaxing or excluding the requirements as to giving notice of infestation² subject to such conditions (if any) as may be prescribed by or under the regulations³. Under this power, the requirements⁴ have been relaxed in respect of infestation with insects or mites of certain premises⁵ used for processing imported foods, or of any equipment belonging to such premises⁶. Nor is notice required of the infestation of certain foods⁷ with insects or mites⁸. A person carrying on the business of a carrier need not give notice of infestation of food or other goods⁹, when, in the course of that business, he carries for any other person any food or other goods which are infested with insects or mites, but of which he does not undertake the storage¹⁰.

The imported foods and requirements referred to above are imported foods of any of certain kinds (namely cereals (including rice, millet, dari, sorghum and buckwheat), cereal products, pulses, oil seeds and other imported foods used in the production of animal provender or compound animal feeding stuffs) which are on any of the premises described in the Schedule Pt I for the purposes of the processes therein referred to and which, after discharge from the ship in which they were imported, have been moved direct to those premises from the port of entry without any storage or warehousing save such as is incidental to such movement: Schedule Pt II.

6 See the Prevention of Damage by Pests (Infestation of Food) Regulations 1950, SI 1950/416, reg 3. Any person who, except for reg 3, would be required to give notice of infestation in such premises or equipment, must give notice in writing to the Secretary of State: (1) of infestation present in, or in any equipment belonging to, any part of the premises in which, after processing, any food or any by-product resulting from such processing is stored after processing (see reg 3 proviso (a)); (2) if he proposes to employ, for the purpose of remedying infestation in any premises to which reg 3 applies, any person carrying on business in the provision of services for keeping down or destroying insects or mites, of the name and address of the person to be employed and of the methods to be used (see reg 3 proviso (b)). If any vehicle, equipment, food or other goods to which these regulations apply are moved from England and Wales to Scotland or from Scotland to England and Wales any consent given, any relaxation of or exclusion from the requirements of the Prevention of Damage by Pests Act 1949 s 13 granted, or any prohibition or restriction on delivery imposed, by or under these regulations in respect of such vehicle, equipment, food or other goods in England and Wales or in Scotland, as the case may be, apply in like manner in respect of the aforesaid things in the country to which the things are moved as they would have in the country from which the things were moved: Prevention of Damage by Pests (Infestation of Food) Regulations 1950, SI 1950/416, reg 8. However, they cease to apply to any premises, vehicle, equipment, food or other goods in respect of which the Secretary of State has given directions to any person under the Prevention of Damage by Pests Act 1949 s 14 (see PARA 880) for the period during which the directions are in operation: Prevention of Damage by Pests (Infestation of Food) Regulations 1950, SI 1950/416, reg 10.

7 le (1) any foods described in and fulfilling the requirements of the Prevention of Damage by Pests (Infestation of Food) Regulations 1950, SI 1950/416, Schedule Pt II (see note 5) (reg 4(a)); (2) oil seeds which are being or have been moved from one extracting mill to another for the purposes of the extraction of oil (reg 4(b)); (3) fresh fruit or green vegetables, fresh home-killed meat, or fish other than cured or processed (reg 4(c)).

879. Restrictions on delivery of food or goods.

After due consultation¹, the Secretary of State² may make regulations for prohibiting or restricting the delivery in the course of business of any food³ or other goods in respect of which notice of infestation is or is required⁴ to be given to him⁵. Under this power, with certain exceptions⁶, when any such notice has been given in respect of any food or other goods⁷, no person may, without the Secretary of State's consent, deliver them or cause them to be delivered from the premises in which they are situated to any other premises until a period of three working days⁸ from the date of notification has expired⁹. The Secretary of State may on application relax the requirements in respect of any particular vehicle or its equipment¹⁰ subject to such conditions as he may consider necessary to secure that all reasonable steps are taken to destroy infestation in the vehicle or equipment before it is used for the carriage of food or other goods likely to come into contact with food¹¹.

CLEANSING, FUMIGATION AND DESTRUCTION OF PESTS/(2) DAMAGE BY PESTS/(v) Infestation of Food/880. Directions for preventing or mitigating infestation.

880. Directions for preventing or mitigating infestation.

Where he is satisfied¹ that it is necessary to do so for preventing or mitigating damage to food², the Secretary of State³ may give such directions⁴ as he thinks expedient⁵. Such directions may be given to any person whose business consists of or includes the manufacture⁶, storage, transport or sale of food: (1) prohibiting or restricting the use, for the manufacture, storage, transport or sale of food in the course of that business, of any premises or vehicle, or any equipment belonging to any premises or vehicle, which is or is likely to become infested⁷; (2) prohibiting or restricting the acceptance, delivery, retention or removal in the course of that business of any infested food or of any other infested goods which are likely to come into contact with food so manufactured, stored, transported or sold⁸; or (3) requiring the carrying out, within such time as may be specified in the directions, of any structural works or application of any form of treatment being works or treatment appearing to the Secretary of State to be necessary for preventing or remedying infestation in such premises, vehicles, equipment, food or goods⁹. This provision applies to vessels (including hovercraft)¹⁰ with some modifications¹¹. Similarly, directions may be given to any person whose business consists of or includes the manufacture, sale, repair or cleansing of containers¹², requiring the treatment of any infested container, or any infested premises in which the business is carried on, in such a manner as may be specified in the directions, and prohibiting the removal of any such container until it has been so treated¹³.

Where the Secretary of State is satisfied that any food or container in the possession of a person carrying on any such business as is mentioned above is so infested that the infestation cannot reasonably be remedied by any form of treatment, he may give directions to that person requiring him to destroy it within such a time and by such means as may be specified in the directions¹⁴.

Any directions requiring the carrying out of structural works or the destruction of any food container must include a statement of the right of appeal¹⁵ and of the time within which the appeal must be brought¹⁶.

11 Directions may be given to the owner or other person having the custody or control of any vessel which is not a sea-going ship and which is used or likely to be used for the transport of food in respect of any such vessel, any equipment belonging to it and any food or other goods stored or carried or to be stored or carried on it for any of the purposes mentioned in the Prevention of Damage by Pests Act 1949 s 14(2) (see the text and notes 6-9): Prevention of Damage by Pests (Application to Shipping) Order 1951, SI 1951/967, art 7. As to the meaning of 'sea-going ship' see PARA 861 note 5. As to the meaning of 'food' see PARA 866 note 16. Such directions may be given to the owner or master of a sea-going ship: (1) prohibiting or restricting the use for the transport of food of the vessel, or any equipment belonging to the vessel, which is infested by insects or mites (art 9(a)); (2) restricting the delivery or removal from the vessel or requiring the discharge at ship's rail in such manner as to facilitate treatment to remedy the infestation of any infested food or of any other infested goods which are likely to come into contact with food (art 9(b)); (3) requiring the application, within such time as may be specified in the directions, of any form of treatment, being treatment appearing to the Secretary of State to be necessary for preventing or remedying infestation in any such vessel, equipment, food or other goods (art 9(c)). No requirements for structural works apply to any kind of vessel: art 3(1) proviso.

881. Appeal against directions.

Where directions are given requiring the carrying out of any structural works or the destruction of any food or container¹, any person who is aggrieved² may appeal to a court of summary jurisdiction³: (1) in the case of directions requiring the carrying out of any structural works, within 21 days from the service of the directions⁴; and (2) in the case of directions requiring the destruction of any food or container, within seven days from the service of the directions⁵. Upon any such appeal the court, if it is satisfied that the directions are for any reason invalid or that any requirement of them is excessive or unreasonable, may quash or amend the directions, as the case may be, but otherwise it must dismiss the appeal⁶. A further appeal lies to the Crown Court in respect of directions requiring the carrying out of structural works⁷.

882. Failure to comply with directions.

Any person who fails to comply with any directions¹ relating to infestation given by the Secretary of State² is guilty of an offence³.

Subject to the right to appeal against the directions⁴, if any person to whom directions are given⁵ fails to comply with any requirement of them within the period prescribed by them, then, without prejudice to any proceedings which may be taken against him in respect of an offence⁶, the Secretary of State may by order authorise a named person to take, on behalf of the person in default, such steps as the Secretary of State considers necessary for securing compliance with the requirement⁷. The amount of any expenses reasonably incurred by a person authorised in carrying out works may be recovered by the Secretary of State from the person in default⁸.

(vi) Pigeons and Other Birds

883. Nuisance, annoyance or damage by birds.

A local authority¹ may take any steps for the purpose of abating or mitigating any nuisance, annoyance or damage caused by the congregation in any built-up area of house doves, pigeons, starlings or sparrows². All reasonable precautions must be taken to ensure that the seizure and destruction of any birds are carried out humanely³. When acting under this power, the law of theft⁴ does not prevent the local authority from taking reasonable steps to seize, destroy, sell or otherwise dispose of any house doves or pigeons which in its belief have no owner⁵.

1 As to the meaning of 'local authority' see PARA 99.

2 Public Health Act 1961 s 74(1). The existence of this power does not imply a duty on local authorities to abate a nuisance caused by birds at public expense: see *Wandsworth London Borough Council v Railtrack plc* [2001] EWCA Civ 1236, [2002] QB 756, [2001] Env LR 441 (local authority entitled to bring public nuisance claim notwithstanding existence of statutory power). 17. PREVENTION AND CONTROL OF DISEASE

(1) IN GENERAL

884. Introduction.

This part of the title deals with the provisions enacted for controlling the spread of infectious disease¹ and securing the treatment of persons suffering from it, and the powers of local authorities in this regard². The general provision of hospitals and medical treatment under the national health service, the functions of health authorities and the availability of local health services³ are considered elsewhere in this work, as are the health functions⁴ of local social service authorities⁵. The control of drugs, poisons and medicines⁶, the law governing the medical, nursing and pharmaceutical professions⁷ and the supervision of nursing homes or residential care homes⁸ are also considered elsewhere in this work.

1 Certain provisions relating to the prevention and control of specific diseases (eg AIDS, anthrax, bovine spongiform encephalopathy, rabies) are dealt with elsewhere in this work: see eg **ANIMALS**; **FOOD**; **MEDICAL PROFESSIONS**; **MEDICINAL PRODUCTS AND DRUGS**; **HEALTH SERVICES**. As to the relaxation of the provisions relating to quarantine of animals see **ANIMALS** vol 2 (2008) PARA 1055.

2 See PARA 885 et seq. It should be noted that at the date at which this volume states the law in the main statute in this area (ie the Public Health (Control of Disease) Act 1984) Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 and there are a number of other related prospective changes. The Public Health (Control of Disease) Act 1984 Pts II and V are superseded by Pt IIA (ss 45A-45T) which is added by the Health and Social Care Act 2008 s 129. At the date at which this volume states the law the Public Health (Control of Disease) Act 1984 Pt IIA is not fully in force nor has all relevant subordinate legislation been made: generally Pt IIA is in force from 21 July 2008 in so far as it confers power to make subordinate legislation and in some cases from 1 April 2009 in regard to England: see the Health and Social Care Act 2008 s 170; and the Health and Social Care Act 2008 (Commencement No 9, Consequential Amendments and Transitory, Transitional and Saving Provisions) Order 2009, SI 2009/462, art 3. As to the prospectively repealed provisions of the Public Health (Control of Disease) Act 1984 Pts II and V see PARAS 885-917, 933-956, 959, 964 and as to the provisions of Pt IIA see PARA 918 et seq. 885. General control under regulations.

Until a day to be appointed¹, the Secretary of State² may make regulations³ with a view to the treatment of persons affected with any epidemic, endemic or infectious disease, and for preventing the spread of such diseases⁴. The regulations must specify the authorities, whether county councils⁵, county borough councils, local authorities⁶, port health authorities⁷, strategic health authorities, local health boards, special health authorities, primary care trusts, National Health Service trusts or NHS foundation trusts⁸ by whom they are to be enforced and executed⁹. The regulations may also provide for their enforcement and execution by officers of Her Majesty's Revenue and Customs¹⁰, but, in so far as they apply to such officers, the regulations must require the consent of the Commissioners for Her Majesty's Revenue and Customs¹¹. Authorised officers¹² of any such authority as is specified by the regulations¹³ and officers of Her Majesty's Revenue and Customs¹⁴ have power to enter any premises¹⁵, vessel¹⁶ or aircraft for the purpose of executing or superintending the execution of the regulations¹⁷.

Any person who wilfully neglects or refuses to obey or carry out, or obstructs the execution of, any such regulations is, in a case where no provision is made in the regulations for his punishment, liable on summary conviction to a fine¹⁸.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) and s 76 are prospectively repealed by the Health and Social Care Act 2008 ss 130(1), Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

3 The power to make regulations is exercisable by statutory instrument, subject to annulment in pursuance of a resolution of either House of Parliament: Public Health (Control of Disease) Act 1984 s 13(6) (prospectively repealed). See note 1. The power to make regulations is exercisable as respects the whole or any part of England and Wales, including coastal waters: see s 13(1) (prospectively repealed). As to the meaning of 'coastal waters' see PARA 1 note 34. The Public Health (Control of Disease) Act 1984 does not extend to Scotland or to Northern Ireland: see s 79(3).

Her Majesty may by Order in Council direct that:

158 (1) regulations made under s 13, other than regulations for purposes mentioned in s 13(1)(a) (see the text and note 4) that will be operative on land;

159 (2) regulations made under s 13 as it has effect by virtue of s 14 (see notes 9, 11, 13) in relation to aerodromes vested in or under the control of the Secretary of State,

are to extend to the Isle of Man or any of the Channel Islands with such modifications, additions and omissions as may be specified in the order: s 76(1) (prospectively repealed). See note 1. For the purposes of such an order, ss 13(5), 15 are deemed to form part of the regulations: s 76(2) (prospectively repealed).

Amongst the regulations made under the Public Health (Control of Disease) Act 1984 s 13 are the Public Health (Aircraft) Regulations 1979, SI 1979/1434 (see PARA 933 et seq); the Public Health (Ships) Regulations 1979, SI 1979/1435 (see PARA 933 et seq); the Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546 (see PARAS 893 et seq, 910 et seq); and the Health Protection (Notification) Regulations 2010, SI 2010/659 (see also PARAS 920, 921). See also note 4.

4 Public Health (Control of Disease) Act 1984 s 13(1)(a) (prospectively repealed). See note 1. The Secretary of State may by any such regulations apply, with or without modifications, to any disease to which the

regulations relate any enactment (including any enactment in the Public Health (Control of Disease) Act 1984) relating to the notification of disease or to notifiable diseases: s 13(2) (prospectively repealed). As to regulations made or having effect as if made under s 13 in relation to infectious diseases see PARA 893 et seq; and as to such regulations in relation to the prevention of tuberculosis see PARA 912. As to regulations concerning vessels and aircraft see PARA 933 et seq; and as to regulations concerning international trains see PARA 950 et seq.

5 If the Secretary of State so directs, any expenses incurred by a county council under the Public Health (Control of Disease) Act 1984 s 13 are to be defrayed as special expenses charged on such part of the county as may be provided by the order, but such an order may be revoked or varied by a subsequent order: s 13(7) (prospectively repealed). See note 1.

6 As to the meaning of 'local authority' see PARA 99. 'District', in relation to a local authority in Greater London, means a London borough, the City of London, the Inner Temple or the Middle Temple and, in relation to a local authority in Wales, means a county or county borough: Public Health (Control of Disease) Act 1984 s 74 (definition amended by the Local Government (Wales) Act 1994 Sch 9 para 13). This definition is prospectively substituted by the Health and Social Care Act 2008 Sch 11 paras 1, 29 with a new definition as follows: 'district' means: (1) in relation to a local authority in Greater London, a London borough, the City of London, the Inner Temple or the Middle Temple; (2) in relation to a local authority in England for an area for which there is no district council, that area; (3) in relation to a local authority in Wales, a county or county borough; (4) in relation to the Council of the Isles of Scilly, those Isles. At the date at which this volume states the law the substituted definition is only in force in so far as power is conferred for the purposes of making subordinate legislation.

7 As to port health authorities see PARA 102.

8 As to these authorities see **HEALTH SERVICES**.

9 Public Health (Control of Disease) Act 1984 s 13(4)(a) (amended by the Local Government (Wales) Act 1994 Sch 9 para 13(2); the Health Authorities Act 1995 Sch 1 para 108; the Health and Social Care (Community Health and Standards) Act 2003 Sch 4 para 61; SI 2000/90; SI 2002/2469; and SI 2007/961) (prospectively repealed). See note 1. In relation to aerodromes for the time being vested in or under the control of the Secretary of State and aerodromes owned or managed by the Civil Aviation Authority, and in relation to persons and aircraft arriving at or departing from any such aerodromes, the Public Health (Control of Disease) Act 1984 s 13(4)(a) has effect as if it were substituted so that the regulations may provide for their enforcement and execution by officers designated for that purpose by the Secretary of State: see s 14(1)(a) (s 14(1) amended by the Airports Act 1986 Sch 6 Pt I) (prospectively repealed). In the Public Health (Control of Disease) Act 1984 s 14 'aerodrome' has the meaning given by the Civil Aviation Act 1982 (see **AIR LAW** vol 2 (2008) PARA 175): Public Health (Control of Disease) Act 1984 s 14(2) (prospectively repealed). As to the Civil Aviation Authority see **AIR LAW** vol 2 (2008) PARA 50 et seq.

10 Public Health (Control of Disease) Act 1984 s 13(4)(b) (amended by virtue of the Commissioners for Revenue and Customs Act 2005 s 50(2), (7)) (prospectively repealed). See note 1. As to the Commissioners for Her Majesty's Revenue and Customs see **CUSTOMS AND EXCISE** vol 12(3) (2007 Reissue) PARA 900 et seq.

11 Public Health (Control of Disease) Act 1984 s 13(4) (amended by virtue of the Commissioners for Revenue and Customs Act 2005 s 50(1), (7)) (prospectively repealed). See note 1. The consent of the Commissioners for Her Majesty's Revenue and Customs is not required in relation to aerodromes for the time being vested in or under the control of the Secretary of State or to aerodromes owned or managed by the Civil Aviation Authority: see s 14(1)(b) (as amended (see note 9); and further amended by virtue of the Commissioners for Revenue and Customs Act 2005 s 50(1), (7)) (prospectively repealed).

12 In the Public Health (Control of Disease) Act 1984, unless the context otherwise requires, 'authorised officer', in relation to a local authority, means: (1) an officer of the authority authorised by it in writing, either generally or specially, to act in matters of a specified kind or in a specified manner; or (2) by virtue of his appointment and for the purpose of matters within his province, a proper officer of the authority, appointed for purposes corresponding to any of those of the former medical officers of health, surveyors and sanitary inspectors: s 74. As to the meaning of 'proper officer' see PARA 889 note 3.

13 Public Health (Control of Disease) Act 1984 s 13(5)(a) (prospectively repealed). See note 1. In relation to aerodromes for the time being vested in or under the control of the Secretary of State and aerodromes owned or managed by the Civil Aviation Authority, and in relation to persons and aircraft arriving at or departing from any such aerodromes, s 13(5)(a) has effect as if it were substituted so that it referred to officers designated in accordance with s 13(4)(a) (as modified by s 14(1)(a)) (see note 9): see s 14(1)(c) (as amended: see note 9) (prospectively repealed).

14 Public Health (Control of Disease) Act 1984 s 13(5)(b) (amended by virtue of the Commissioners for Revenue and Customs Act 2005 s 50(2), (7)) (prospectively repealed). See note 1.

16 As to the meaning of 'vessel' see PARA 1 note 33.

17 Public Health (Control of Disease) Act 1984 s 13(5) (prospectively repealed). See note 1.

18 Public Health (Control of Disease) Act 1984 s 15 (prospectively repealed). See note 1. The penalty is a fine not exceeding level 5 on the standard scale and, in the case of a continuing offence, a further fine not exceeding £50 for every day on which the offence continues after conviction: see s 15 (as so prospectively repealed). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142. Mens rea is a necessary element in such an offence; the defendant must at any rate know the circumstances which will constitute the offence: *Bullock v Turnbull* [1952] 2 Lloyd's Rep 303, DC. See also PARA 936.

886. Enforcement of regulations relating to infectious diseases.

The regulations relating to infectious diseases¹ must be enforced and executed: (1) in the district of a local authority², by the local authority³; and (2) in a port health district⁴, by the port health authority so far as the regulations are in terms applicable to it⁵.

Every local authority must send to any medical practitioner who after due inquiry is ascertained to be practising in its district a copy of the regulations⁶ and of the relevant provisions⁷ of the Public Health (Control of Disease) Act 1984⁸.

4 'Port health district' means the district of a port health authority: reg 2(1). 'Port health authority' means a port health authority constituted by an order made, or having effect as made, by the Secretary of State under the Public Health (Control of Disease) Act 1984 s 2 (see PARA 102), and includes the port health authority for the Port of London as constituted under s 7 (see PARA 103): Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1). Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(1) IN GENERAL/887. Compensation.

887. Compensation.

Until a day to be appointed¹, a local authority² must make full compensation to any person who has sustained damage by reason of the exercise by the authority, in relation to a matter as to which the person has not himself been in default, of any of its powers under a relevant provision³ of the Public Health (Control of Disease) Act 1984⁴.

1 The Public Health (Control of Disease) Act 1984 s 57 is prospectively repealed by the Health and Social Care Act 2008 Sch 11 paras 1, 12, Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 As to the meaning of 'local authority' see PARA 99.

3 I.e. a provision of the Public Health (Control of Disease) Act 1984, other than s 46 (see PARA 900; and **CREMATION AND BURIAL** vol 10 (Reissue) PARA 920): s 74. As from a day to be appointed, this definition (ie 'relevant provision') is revised to include the words 'including a provision in regulations under the Act': s 74 (definition prospectively amended by the Health and Social Care Act 2008 Sch 11 paras 1, 29). At the date at which this volume states the law this revision is in force only in regard to the power to make subordinate legislation.

4 Public Health (Control of Disease) Act 1984 s 57(1) (prospectively repealed). See note 1. Section 57(1) does not affect the discretion of a local authority under s 31(4) (see PARA 889) in a case to which that provision applies: see s 57(1) (as so prospectively repealed).

Subject to s 57(3), any dispute arising under s 57 as to the fact of damage, or as to the amount of compensation, must be determined by arbitration: s 57(2) (prospectively repealed). If the compensation claimed does not exceed £50, all questions as to the fact of damage, liability to pay compensation and the amount of compensation may, on the application of either party, be determined by, and any compensation awarded may be recovered before, a magistrates' court: s 57(3) (prospectively repealed). In an arbitration under these provisions, the reference must be to a single arbitrator appointed by agreement between the parties or, in default of agreement, by the Secretary of State: s 57(4) (prospectively repealed). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

(2) PREVENTION AND TREATMENT

888. Disinfecting stations.

Until a day to be appointed¹, a local authority² has discretionary power to provide a disinfecting station, and may cause any article brought there to be disinfected free of charge³.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 As to the meaning of 'local authority' see PARA 99.

3 Public Health (Control of Disease) Act 1984 s 27 (prospectively repealed). See note 1. As to the purification of filthy and dangerous articles see further PARA 889 et seq.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(2) PREVENTION AND TREATMENT/889. Cleansing and disinfecting premises and articles.

889. Cleansing and disinfecting premises and articles.

Until a day to be appointed¹, if a local authority² is satisfied, on a certificate of its proper officer³, that the cleansing and disinfection of any premises⁴, and the disinfection or destruction of any articles there likely to retain infection, would tend to prevent the spread of any infectious disease, the authority must give notice to the occupier (or, in the case of unoccupied premises, the owner⁵) that it will at his cost: (1) clean and disinfect the premises; and (2) disinfect or, as the case may require, destroy any such articles, unless, within 24 hours after the receipt of the notice, he informs the authority that within a time fixed by the notice he will take such steps as are specified in it⁶. If the person to whom the notice is given does not so inform the authority within 24 hours after receipt of the notice or, having so informed the authority, fails to take the specified steps to the satisfaction of the proper officer within the time fixed by the notice, then the authority may cause the premises to be cleansed and disinfected and the articles to be disinfected or destroyed, as the case may require⁷. The authority may, if it thinks fit, recover from that person the expenses reasonably incurred by it in doing this, and any such expenses may be recovered as a simple contract debt in any court of competent jurisdiction⁸. Where the occupier of any premises (or, in the case of unoccupied premises, the owner) is, in the opinion of the local authority, unable effectually to take such steps as it considers necessary, the authority may, without giving such notice but with his consent, take the necessary steps at its own cost⁹.

Where an authority has disinfected any premises or article or destroyed any article under these provisions, it may if it thinks fit pay compensation to any person who has suffered damage by its action¹⁰.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 As to the meaning of 'local authority' see PARA 99.

3 'Proper officer' means, in relation to a purpose and to an authority, an officer appointed for that purpose by that authority: Public Health (Control of Disease) Act 1984 s 74. It is now the usual practice to appoint the community physician appointed as such by the health authority (see **HEALTH SERVICES**) as the proper officer for purposes such as this, although for some such purposes the chief environmental health officer employed by the local authority itself might be appointed as the proper officer. The matter is entirely within the discretion of the local authority: as to proper officers and their appointment generally see **LOCAL GOVERNMENT** vol 69 (2009) PARA 431.

4 As to the meaning of 'premises' see PARA 1 note 34.

5 For the purposes of the Public Health (Control of Disease) Act 1984 s 31, the owner of unoccupied premises is deemed to be in occupation of them: s 31(5) (prospectively repealed). See note 1. In the Public Health (Control of Disease) Act 1984, unless the context otherwise requires, 'owner' means the person for the time being receiving the rackrent of the premises in connection with which the word is used, whether on his own account or as an agent or trustee for any other person, or who would so receive the rackrent if those premises were let at a rackrent: s 74. 'Rackrent', in relation to any property, means a rent which is not less than two-thirds of the rent at which the property might reasonably be expected to let from year to year, free from all usual tenant's rates and taxes, and deducting from it the probable average annual cost of the repairs, insurance and other expenses (if any) necessary to maintain the property in a state to command such a rent: s 74.

890. Removal of persons to temporary accommodation.

Until a day to be appointed¹, when any infectious disease occurs in a house², or the local authority³ deems it necessary to disinfect any house, the authority may, on a certificate of the proper officer of the local authority for the district⁴: (1) cause any person who is not himself sick and who consents to leave the house (or whose parent or guardian, where the person is a child, consents to his leaving the house) to be removed to any temporary shelter or house accommodation provided by the authority⁵; or (2) cause any such person to be so removed without any consent, if a justice of the peace⁶ is satisfied, on the application of the authority, of the necessity for the removal and makes an order for the removal, subject to such conditions, if any, as may be specified in the order⁷. The removal must be effected, and the conditions of any order must be satisfied, without charge to the person removed (or to the parent or guardian of that person)⁸.

891. Instruction about health or disease.

Until a day to be appointed¹, the council of a non-metropolitan county² or a local authority³ may arrange for the publication within its area of information on questions relating to health or disease, and for the delivery of lectures and the display of pictures or cinematograph films in which such questions are dealt with⁴.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). 892. Rag collectors and dealers.

Until a day to be appointed¹, no person who collects or deals in rags, old clothes or similar articles, and no person assisting or acting on his behalf, may, in or from a shop or premises² used for or in connection with the business of a dealer in any such articles, or while engaged in collecting any such articles, sell or deliver (whether gratuitously or not) any article of food or drink to any person, or any article whatsoever (including any animal, fish, bird or other living thing³) to a person under the age of 14 years⁴. A person who contravenes any of these provisions is liable to a penalty⁵.

(3) NOTIFIABLE DISEASES

(i) Notification

893. Diseases which must be notified.

Until a day to be appointed¹, the Public Health (Control of Disease) Act 1984 defines a notifiable disease as any of the following diseases: cholera, plague, relapsing fever, smallpox and typhus². However, the general power of the Secretary of State³ to make regulations⁴ includes power to apply any enactment relating to the notification of disease or to notifiable diseases, with or without modifications, to any disease to which the regulations relate⁵.

A local authority may by order direct that an infectious disease other than one specified in the Public Health (Control of Diseases) Act 1984⁶ or one to which regulations⁷ relate is to be deemed to be a notifiable disease, for the purpose of the application to its district of such of the provisions of the Public Health (Control of Diseases) Act 1984 relating to notifiable diseases as are specified in the order⁸. An order generally has no effect until it has been approved by the Secretary of State and duly advertised⁹, although an exception is made for a temporary order made in an emergency¹⁰.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 Public Health (Control of Disease) Act 1984 ss 10, 74 (s 10 prospectively repealed). See note 1. The definition of 'notifiable disease' in s 74 is also prospectively repealed by the Health and Social Care Act 2008 Sch 11 paras 1, 29, Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed.

5 See the Public Health (Control of Disease) Act 1984 s 13(2); and PARA 885. Different provisions of the Public Health (Control of Disease) Act 1984 apply to different diseases or groups of diseases: see the Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 3, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 ss 35, 37, s 38 (as modified), ss 43, 44 are applied to acquired immune deficiency syndrome: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1. In its application to acquired immune deficiency syndrome, the Public Health (Control of Disease) Act 1984 s 38(1) applies so that a justice of the peace (acting if he deems it necessary in the absence of the person concerned) may on the application of any local authority make an order for the detention in hospital of an inmate of that hospital suffering from acquired immune deficiency syndrome, in addition to the circumstances specified in s 38(1), if the justice is satisfied that on his leaving the hospital proper precautions to prevent the spread of that disease would not be taken by him in his lodging or accommodation, or in other places to which he may be expected to go if not detained in the hospital: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 5. As to the meaning of 'local authority' see PARA 99. As to the meaning of 'hospital' see PARA 900 note 2.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17-24, ss 26, 28-30, 33-35, s 37, ss 38, 44, 45 are applied to acute encephalitis, acute poliomyelitis, meningitis and meningococcal septicaemia (without meningitis): Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17-24, ss 26, 28-30, 33-35 (s 35 as modified), ss 37, 38, 43-45 are applied to anthrax: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17-24, ss 26, 28-30, 33-38, ss 44, 45 are applied to diphtheria, dysentery (amoebic or bacillary), paratyphoid fever, typhoid fever and viral hepatitis: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17, 19-21, ss 28-30, 35 (as modified), s 37, ss 38, 44 are applied to leprosy: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17-22, ss 24, 26, 28-30, 33-35 (as modified), ss 37, 38, 44, 45 are applied to leptospirosis, measles, mumps, rubella and whooping cough: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 18, 35 (as modified) are applied to malaria, tetanus and yellow fever: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17, 24, 26 are applied to ophthalmia neonatorum: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1. 'Ophthalmia neonatorum' means a purulent discharge from the eyes of an infant, commencing within 21 days from the date of birth: reg 2(1).

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17-26, ss 28-30, 32-38 are applied to rabies: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17-22, ss 24, 26, 28-30, 33-38, ss 44, 45 are applied to scarlet fever: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1.

The provisions of the Public Health (Control of Disease) Act 1984 s 12, ss 17-24, ss 26, 28-30, 35 (as modified), ss 44, 45 are applied to tuberculosis: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1. In addition, the Public Health (Control of Disease) Act s 11 applies where the opinion of the registered medical practitioner that a person is suffering from tuberculosis is formed from evidence not derived solely from tuberculin tests: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1. As to the meaning of 'registered medical practitioner' see **MEDICAL PROFESSIONS** vol 30(1) (Reissue) PARA 4. The provisions of the Public Health (Control of Disease) Act 1984 ss 25, 37, 38 are applied to tuberculosis of the respiratory tract in an infectious state: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1. As to tuberculosis of the respiratory tract see further PARA 912.

The provisions of the Public Health (Control of Disease) Act 1984 ss 11, 12, ss 17-38, ss 43-45, 48 are applied to viral haemorrhagic fever: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 1. 'Viral haemorrhagic fever' means Argentine haemorrhagic fever (Junin), Bolivian haemorrhagic fever (Machupo), Chikungunya haemorrhagic fever, Congo/Crimean haemorrhagic fever, Dengue fever, Ebola virus disease, haemorrhagic fever with renal syndrome (Hantaan), Kyasanur forest disease, Lassa fever, Marburg disease, Omsk haemorrhagic fever, and Rift Valley disease: reg 2(1).

Where in Sch 1 reference is made to the Public Health (Control of Disease) Act 1984 s 35 (as modified), that provision does not apply to a person merely carrying an organism capable of causing the disease specified: see the Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 4; and PARA 896.

8 Public Health (Control of Disease) Act 1984 s 16(1) (prospectively repealed). See note 1. An order made under s 16 may be varied or revoked by an order made and approved in the like manner as the original order: s 16(7) (prospectively repealed).

9 Public Health (Control of Disease) Act 1984 s 16(2) (prospectively repealed). See note 1. When an order has been approved by the Secretary of State, the local authority: (1) must give notice of the order by advertisement in a local newspaper circulating in the district and in such other manner as it thinks sufficient for informing persons interested; and (2) must also send a copy to each registered medical practitioner who, after due inquiry, is ascertained to be practising in its district: s 16(3) (prospectively repealed). The order comes into operation on such date, not being earlier than one week after the date of the publication of the advertisement of the order in a local newspaper, as the local authority may fix: s 16(3) (prospectively repealed).

10 If, in a case which appears to a local authority to be one of emergency, the authority resolves to make a temporary order and declares in its resolution the nature of the emergency, the order may be advertised at once in accordance with the provisions of the Public Health (Control of Disease) Act 1984 s 16(3) (see note 9) and the temporary order comes into operation at the end of one week from the date of the publication of the advertisement: s 16(4) (prospectively repealed). See note 1. A copy of the resolution to make a temporary order

must be transmitted to the Secretary of State as soon as it is passed: s 16(5) (prospectively repealed). The temporary order, unless previously approved by the Secretary of State, ceases to be in force at the end of one month after it is made, and may be revoked by the Secretary of State at any earlier date: s 16(5) (prospectively repealed). Any temporary order must specify the period during which it is to continue in operation: s 16(6) (prospectively repealed).

 PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(i) Notification/894.
 Notification by medical practitioner.

894. Notification by medical practitioner.

Until a day to be appointed¹, if a registered medical practitioner² becomes aware, or suspects, that a patient whom he is attending within the district of a local authority³ is suffering from a notifiable disease⁴ or from food poisoning, he must forthwith send to the proper officer⁵ of the local authority for that district a certificate⁶ stating: (1) the name, age and sex of the patient and the address of the premises⁷ where the patient is⁸; (2) the disease or, as the case may be, particulars of the poisoning from which the patient is, or is suspected to be, suffering and the date, or approximate date, of its onset⁹. The officer who receives the certificate must, on the day of its receipt (if possible) and in any case within 48 hours after its receipt, send a copy to the primary care trust or local health board within whose area the premises whose address is specified in the certificate are situated¹⁰.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). As to the general duty of a proper officer to make weekly and quarterly returns of the number of cases of infectious diseases and food poisoning in his district see the Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 8 (modified by virtue of SI 1996/971; and amended by SI 2002/2469).

6 Public Health (Control of Disease) Act 1984 s 11(1) (prospectively repealed). See note 1. The registered medical practitioner must comply with this provision unless he believes, and has reasonable grounds for believing, that some other registered medical practitioner has done so with respect to the patient: see s 11(1) (prospectively repealed). A person who fails to comply with an obligation imposed on him by s 11(1) is liable on summary conviction to a fine not exceeding level 1 on the standard scale: s 11(4) (prospectively repealed). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

A local authority must, upon application, supply forms of certificate for use under this provision free of charge to any registered medical practitioner practising in its district: s 11(2) (prospectively repealed). For the prescribed form of certificate see the Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 7, Sch 2.

Subject to any exceptions which he may specify, the Secretary of State may direct that a primary care trust or local health board is to pay to a registered medical practitioner for each certificate duly sent by him under the Public Health (Control of Disease) Act 1984 s 11 a fee of such amount as the direction may specify: s 12(1) (amended by the Health Authorities Act 1995 Sch 1 para 108; the National Health Service Reform and Health Care Professions Act 2002 Sch 2 Pt 2 paras 50(1), (3); and SI 2007/961) (prospectively repealed). As to primary care trusts and local health boards see **HEALTH SERVICES** vol 54 (2008) PARA 75 et seq. The Secretary of State may direct that different fees are to be paid under the Public Health (Control of Disease) Act 1984 s 11 in relation to different circumstances: s 12(2) (prospectively repealed). A direction may make provision in relation to fees payable after a date specified in the direction: s 12(3) (prospectively repealed). The date may be before or after the date of the direction but may not be before if it would be to the detriment of registered medical practitioners: s 12(4) (prospectively repealed). Before giving a direction as to a fee, the Secretary of State must consult any body accepted by him as a proper body for negotiating fees for registered medical practitioners: s 12(5) (prospectively repealed). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

The fact that a registered medical practitioner who gives a certificate under s 11 holds the office to whose holder the certificate is required to be sent does not disentitle him to payment of the fee (if any) payable for the certificate: s 12(6) (prospectively repealed).

7 As to the meaning of 'premises' see PARA 1 note 34.

8 Public Health (Control of Disease) Act 1984 s 11(1)(a) (prospectively repealed). See note 1.

9 Public Health (Control of Disease) Act 1984 s 11(1)(b) (prospectively repealed). See note 1. If the premises are a hospital, the certificate must also state the day on which the patient was admitted, the address of the premises from which he came there, and whether or not, in the opinion of the person giving the certificate, the disease or poisoning from which the patient is, or is suspected to be, suffering was contracted in the hospital: s 11(1)(c) (prospectively repealed). For the purposes of s 11, 'hospital' means any institution for the reception and treatment of persons suffering from illness, any maternity home and any institution for the reception and treatment of persons during convalescence or persons requiring medical rehabilitation; and 'illness' includes mental disorder within the meaning of the Mental Health Act 1983 (see **MENTAL HEALTH** vol 30(2) (Reissue) PARA 402) and any injury or disability requiring medical, surgical or dental treatment or nursing: Public Health (Control of Disease) Act 1984 s 11(5) (prospectively repealed). As to the meaning of 'hospital' generally see PARA 900 note 2.

10 Public Health (Control of Disease) Act 1984 s 11(3)(a) (s 11(3) amended by the Health Authorities Act 1995 Sch 1 para 108(1), (3); the National Health Service Reform and Health Care Professions Act 2002 Sch 2 Pt 2 paras 50(1), (2); and SI 2007/961) (prospectively repealed). See note 1.

If the certificate is given with respect to a patient in a hospital who came there from premises outside the district of the local authority within whose district the hospital is situated and the certificate states that the patient did not contract the disease or poisoning in the hospital, a copy of the certificate must also be sent to: (1) the proper officer of the local authority for the district within which the premises from which the patient came are situated; (2) the primary care trust or local health board for the area in which those premises are situated, if that primary care trust or local health board is not responsible for the administration of the hospital; and (3) the proper officer of the relevant port health authority, if those premises were a ship or hovercraft situated within the port health district for which that authority is constituted: Public Health (Control of Disease) Act 1984 s 11(3)(b) (as so amended) (prospectively repealed). As to port health authorities and port health districts see PARA 102.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(i) Notification/895. Diseases which must be specially reported.

895. Diseases which must be specially reported.

The proper officer¹ for a district or port health district² must immediately inform the Chief Medical Officer for England or the Chief Medical Officer for Wales³, depending on whether the district is in England or Wales, and the appropriate medical officer of the appropriate health authority⁴, of:

- 2122 (1) any case or suspected case of a disease subject to the International Health Regulations⁵; and
- 2123 (2) any serious outbreak of any disease (including food poisoning)⁶,

which to his knowledge has occurred in his district or port health district⁷.

A proper officer who receives a certificate⁸ in respect of a case of:

- 2124 (a) a disease subject to the International Health Regulations⁹;
- 2125 (b) leprosy¹⁰;
- 2126 (c) malaria or rabies contracted in Great Britain¹¹; or
- 2127 (d) a viral haemorrhagic fever¹²,

must immediately send a copy to the Chief Medical Officer for England if the address of the patient in the certificate is in England or to the Chief Medical Officer for Wales if such address is in Wales¹³.

1 As to the meaning of 'proper officer' see PARA 889 note 3.

2 Any reference to the district or port health district of a proper officer means the district of the local authority or port health authority, as the case may be, of which he is the proper officer: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1). The 1988 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885. As to the meaning of 'local authority' see PARA 99; and as to the meaning of 'district' see PARA 885 note 6. As to the meanings of 'port health district' and 'port health authority' see PARA 886 note 4. As to port health authorities generally see PARA 102.

3 As to the Chief Medical Officer see the Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1).

4 Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 6(2) (amended by SI 2002/2469). 'Appropriate medical officer' means: (1) in a case where the health authority or primary care trust has appointed a director of public health, the director of public health; and (2) in any other case, the registered medical practitioner designated by the health authority or primary care trust for these purposes: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1) (definition amended by SI 2002/2469). 'Health authority' means a health authority established under the National Health Service Act 1977 s 8(1) (see **HEALTH SERVICES** vol 54 (2008) PARA 75 et seq): Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1) (definition added by SI 2002/2469). 'Appropriate health authority' means: (a) in Wales, the health authority within which a district of a local authority or a port health district is wholly or partly situated; and (b) in England, the primary care trust: (i) any part of whose area falls within that of the local authority or port health district of the proper officer; and (ii) which appears to the proper officer to be the relevant primary care trust: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1) (definition substituted by SI 2002/2469). 'Primary care trust' means a primary care trust established under the National Health Service Act 1977 s 16A (see **HEALTH SERVICES** vol 54 (2008) PARA 111 et seq): Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1) (definition added by SI 2002/2469). As to the meaning of 'registered medical practitioner'

see **MEDICAL PROFESSIONS** vol 30(1) (Reissue) PARA 4. In relation to Wales, references to a health authority are to be treated as references to a local health board: see the References to Health Authorities Order 2007, SI 2007/961.

5 Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 6(2)(a). For these purposes, 'disease subject to the International Health Regulations' means cholera, including cholera due to the eltor vibrio, plague, smallpox, including variola minor (alastrim), and yellow fever: reg 6(1). 'International Health Regulations' means the International Health Regulations (1969) as adopted by the World Health Assembly on 25 July 1969, and as amended by the 26th World Health Assembly in 1973 and by the 34th World Health Assembly in 1981: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1).

6 Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 6(2)(b).

7 Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 6(2).

8 'Certificate' means a certificate required by the Public Health (Control of Disease) Act 1984 s 11 to be sent by a registered medical practitioner to a proper officer (see PARA 889 note 3): Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 2(1).

9 Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, reg 6(3)(a).

PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/896. Justice's power to order medical examination.

(ii) Prevention of Spread of Infection

896. Justice's power to order medical examination.

Until a day to be appointed¹, a justice of the peace may order² that a person in the district³ of a local authority⁴ is to be medically examined⁵ by a registered medical practitioner⁶ nominated by the local authority, if the justice is satisfied, on a written certificate issued by such a practitioner⁷: (1) that there is reason to believe that that person is or has been suffering from a notifiable disease⁸ or, though not suffering from such a disease, is carrying an organism that is capable of causing it⁹; and (2) that in his own interest, or in the interest of his family, or in the public interest, it is expedient that he should be medically examined¹⁰; and (3) that he is not under the treatment of a registered medical practitioner or that the registered medical practitioner who is treating him consents to the making of such an order¹¹.

A justice of the peace may also order¹² that a group of persons is to be medically examined by a registered medical practitioner nominated by the local authority for the district, if the justice is satisfied, on a written certificate issued by the proper officer of the local authority¹³: (a) that there is reason to believe that one of the group, though not suffering from a notifiable disease¹⁴, is carrying an organism that is capable of causing it¹⁵; and (b) that in the interest of those persons or their families, or in the public interest, it is expedient that those persons should be medically examined¹⁶.

Any such order¹⁷ may be combined with a warrant¹⁸ authorising a registered medical practitioner nominated by the local authority to enter any premises¹⁹.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 The justice of the peace may, if he deems it necessary, act in the absence of the person concerned: see the Public Health (Control of Disease) Act 1984 s 35(1) (prospectively repealed). See note 1.

3 As to the meaning of 'district' see PARA 885 note 6.

4 As to the meaning of 'local authority' see PARA 99.

5 For these purposes, references to a person's being medically examined are to be construed as including references to his being submitted to bacteriological and radiological tests and similar investigations: see the Public Health (Control of Disease) Act 1984 ss 35(3), 36(2) (prospectively repealed). See note 1.

6 As to the meaning of 'registered medical practitioner' see **MEDICAL PROFESSIONS** vol 30(1) (Reissue) PARA 4.

PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/897. Occupations involving risk of infection.

897. Occupations involving risk of infection.

Until a day to be appointed¹, a person who, knowing that he is suffering from a notifiable disease², engages in or carries on any trade, business or occupation which he cannot engage in or carry on without risk of spreading the disease is liable to a penalty³.

If a case of a notifiable disease occurs on any premises⁴, the local authority for the district⁵ may make an order⁶ forbidding certain work⁷ to be given out to any person living or working on those premises or on such part of them as may be specified in the order⁸. Any such order may be served on the occupier of any factory⁹ or other place from which work is given out, or on any contractor employed by any such occupier¹⁰. If any occupier or contractor on whom such an order has been served contravenes the provisions of the order, he is liable to a penalty¹¹.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 As to the meaning of 'notifiable disease' see PARA 893.

3 Public Health (Control of Disease) Act 1984 s 19 (prospectively repealed). See note 1. The penalty on summary conviction is a fine not exceeding level 1 on the standard scale: see s 19 (as so prospectively repealed). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

There are particular provisions in relation to occupations, trades or businesses connected with food: see PARA 911. As to food hygiene generally see **FOOD**.

4 As to the meaning of 'premises' see PARA 1 note 34.

5 As to the meaning of 'local authority' see PARA 99; and as to the meaning of 'district' see PARA 885 note 6.

6 The order may be made whether or not the person suffering from the disease has been removed from the premises: see the Public Health (Control of Disease) Act 1984 s 28(1) (prospectively repealed). See note 1.

7 I.e. the making, cleaning, washing, altering, ornamenting, finishing or repairing of wearing apparel and any incidental work, and such other classes of work as may be specified by order of the Secretary of State: Public Health (Control of Disease) Act 1984 s 28(4). The power of the Secretary of State to make orders under this provision is exercisable by statutory instrument: s 28(5) (prospectively repealed). See note 1. As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

8 Public Health (Control of Disease) Act 1984 s 28(1) (prospectively repealed). See note 1. The order may be expressed: (1) to operate for a specific time or until the premises or any part of them specified in the order have been disinfected to the satisfaction of the local authority; or (2) to be inoperative so long as any other reasonable precautions specified in the order are taken: s 28(2) (prospectively repealed).

9 'Factory' has the meaning given by the Factories Act 1961 s 175 (see **HEALTH AND SAFETY AT WORK** vol 52 (2009) PARA 318): Public Health (Control of Disease) Act 1984 s 74. This definition is prospectively repealed by the Health and Social Care Act 2008 Sch 11 paras 1, 29, Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also note 1.

10 Public Health (Control of Disease) Act 1984 s 28(1) (prospectively repealed). See note 1.

11 Public Health (Control of Disease) Act 1984 s 28(3) (prospectively repealed). See note 1. The penalty on summary conviction is a fine not exceeding level 1 on the standard scale: see s 28(3) (as so prospectively repealed).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/898. Discontinuance of work.

898. Discontinuance of work.

Until a day to be appointed¹, the proper officer² of the local authority for any district³ may by notice in writing request any person to discontinue his work, with a view to preventing the spread of a notifiable disease⁴ or certain other diseases⁵. The local authority must compensate a person who has suffered any loss in complying with such a request⁶.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 As to the meaning of 'proper officer' see PARA 889 note 3.

3 As to the meaning of 'local authority' see PARA 99; and as to the meaning of 'district' see PARA 885 note 6.

4 As to the meaning of 'notifiable disease' see PARA 893.

5 Public Health (Control of Disease) Act 1984 s 20(1) (amended by the Food Safety Act 1990 Sch 3 para 28) (prospectively repealed). See note 1. The diseases specified are: enteric fever (including typhoid and paratyphoid fevers), dysentery, diphtheria, scarlet fever, acute inflammation of the throat, gastro-enteritis, and undulant fever: Public Health (Control of Disease) Act 1984 s 20(1A) (added by the Food Safety Act 1990 Sch 3 para 28) (prospectively repealed).

6 Public Health (Control of Disease) Act 1984 s 20(2) (prospectively repealed). See note 1. The provisions of s 57(2)-(4) (see PARA 887) apply to any dispute arising under this provision: see s 20(2).

In *Sidney v West Devon District Council* (27 June 1980, unreported), Griffiths J, sitting at Exeter, held that compensation was payable not only for loss of wages whilst the employment contract subsisted but also for subsequent loss caused by the termination of that contract because of contact with a notifiable disease.

PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/899. Exposure of infected persons or things.

899. Exposure of infected persons or things.

Until a day to be appointed¹, a person is liable to a penalty² if: (1) knowing that he is suffering from a notifiable disease³, he exposes other persons to the risk of infection by his presence or conduct in any street⁴, public place, place of entertainment or assembly, club, hotel, inn or shop⁵; (2) having the care of a person whom he knows to be suffering from a notifiable disease, he causes or permits that person to expose other persons to the risk of infection by his presence or conduct in any such place as is mentioned in head (1) above⁶; or (3) he gives, lends, sells, transmits or exposes, without previous disinfection, any clothing, bedding or rags which he knows to have been exposed to infection from any such disease, or any other article which he knows to have been so exposed and which is liable to carry such infection⁷. However, a person does not incur liability under this provision by transmitting with proper precautions any article for the purpose of having it disinfected⁸.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 The penalty on summary conviction is a fine not exceeding level 1 on the standard scale: see the Public Health (Control of Disease) Act 1984 s 17(1) (prospectively repealed). See note 1. As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

The exposure in public of a person infected eg with smallpox may be an indictable nuisance: see *R v Vantandillo* (1815) 4 M & S 73; and **NUISANCE** vol 78 (2010) PARA 106.

3 As to the meaning of 'notifiable disease' see PARA 893.

4 'Street' includes any highway, including a highway over a bridge, and any road, lane, footway, square, court, alley or passage, whether a thoroughfare or not: Public Health (Control of Disease) Act 1984 s 74. This definition is prospectively repealed by the Health and Social Care Act 2008 ss 130(2), 166, Sch 11 paras 1, 29, Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also note 1.

6 Public Health (Control of Disease) Act 1984 s 17(1)(b) (prospectively repealed). See note 1.

7 Public Health (Control of Disease) Act 1984 s 17(1)(c) (prospectively repealed). See note 1.

8 Public Health (Control of Disease) Act 1984 s 17(2) (prospectively repealed). See note 1. As to disinfection see PARAS 888-889.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/900. Disposal of dead bodies.

900. Disposal of dead bodies.

Until a day to be appointed¹, if a person dies in hospital² while suffering from a notifiable disease³ and the proper officer⁴ of the local authority for the district⁵ or a registered medical practitioner⁶ certifies that in his opinion it is desirable, in order to prevent the spread of infection, that the body should not be removed from the hospital except for the purpose of being taken direct to a mortuary, or being forthwith buried or cremated, it is unlawful for any person to remove the body from the hospital except for such a purpose⁷.

Every person having the charge or control of premises⁸ in which the body of a person who has died while suffering from a notifiable disease is lying must take such steps as may be reasonably practicable to prevent persons coming unnecessarily into contact with, or proximity to, the body⁹; and it is not lawful to hold a wake over the body of a person who has died while suffering from a notifiable disease¹⁰.

If a justice of the peace¹¹ is satisfied, on a certificate of the proper officer of the local authority for the district in which a dead body lies, that the retention of the body in any building would endanger the health of the inmates of that building or of any adjoining or neighbouring building, he may order: (1) that the body be removed by, and at the cost of, the local authority¹²; and (2) that the necessary steps be taken to secure that it is buried within a time limited by the order or, if he considers immediate burial necessary, immediately¹³.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 'Hospital' includes any premises for the reception of the sick: Public Health (Control of Disease) Act 1984 s 74. This definition is prospectively repealed by the Health and Social Care Act 2008 Sch 11 paras 1, 29, Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also note 1.

9 See the Public Health (Control of Disease) Act 1984 s 44 (prospectively repealed) (see note 1); and **CREMATION AND BURIAL** vol 10 (Reissue) PARA 926. If such a person fails to take such steps, he is liable on summary conviction to a fine not exceeding level 1 on the standard scale: see s 44 (as so prospectively repealed).

10 See the Public Health (Control of Disease) Act 1984 s 45 (prospectively repealed) (see note 1); and **CREMATION AND BURIAL** vol 10 (Reissue) PARA 926. The occupier of any premises who permits or suffers any such wake to take place there, and every person who takes part in the wake, is liable on summary conviction to a fine not exceeding level 1 on the standard scale: see s 45 (as so prospectively repealed).

11 The justice of the peace may, if he deems it necessary, act in the absence of the person concerned: see the Public Health (Control of Disease) Act 1984 s 48(1).

12 See the Public Health (Control of Disease) Act 1984 s 48(1); and **CREMATION AND BURIAL** vol 10 (Reissue) PARA 925. As from a day to be appointed s 48(1) is revised so that the words 'in any building would endanger the health of the inmates of that building or of any adjoining or neighbouring building' are replaced by the words 'in any place would endanger the health of any person': s 48(1) (prospectively amended by the Health and Social Care Act 2008 Sch 11 paras 1, 7). At the date at which this volume states the law no such day had been appointed. See also note 1.

Where such an order is made, relatives or friends of the deceased person are deemed to comply with the order if they cause the body to be cremated within the time limited by the order or, as the case may be, immediately: Public Health (Control of Disease) Act 1984 s 48(2). An order under s 48(1) is an authority to any officer named in it to do all acts necessary for giving effect to the order: s 48(3). As to the disposal of dead bodies by local authorities see s 46; and **CREMATION AND BURIAL** vol 10 (Reissue) PARA 920.

901. Deposit of rubbish.

Until a day to be appointed¹, a person who places, or causes or permits to be placed, in a dustbin² or ashpit any matter which he knows to have been exposed to infection from a notifiable disease³, and which has not been disinfected⁴, is liable to a penalty⁵. The local authority⁶ must give notice of these provisions to the occupier of any house⁷ in which the authority is aware that there is a person suffering from a notifiable disease⁸.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). 902. Sending infected articles to laundry or cleaners.

Until a day to be appointed¹, a person must not send or take to any laundry or public washhouse, for the purpose of being washed, or to any place for the purpose of being cleaned, any article which he knows to have been exposed to infection from a notifiable disease², unless that article: (1) has been disinfected³ by or to the satisfaction of the proper officer⁴ of the local authority for the district⁵ or a registered medical practitioner⁶; or (2) is sent with proper precautions to a laundry for the purpose of disinfection, with notice that it has been exposed to infection⁷. The occupier of any building in which a person is suffering from a notifiable disease must, if required by the local authority, furnish to the authority the address of any laundry, washhouse or other place to which articles⁸ have been or will be sent during the continuance of the disease for the purpose of being washed or cleaned⁹. A person who contravenes or fails to comply with any of these provisions is liable to a penalty¹⁰.

903. Library books.

Until a day to be appointed¹, a person who knows that he is suffering from a notifiable disease² must not take any book, or cause any book to be taken for his use, or use any book taken, from any public or circulating library³, nor may a person permit any book which has been taken from a public or circulating library, and is under his control, to be used by any person whom he knows to be suffering from a notifiable disease⁴. A person must not return to any public or circulating library a book which he knows to have been exposed to infection from a notifiable disease, or permit any such book which is under his control to be so returned, but must give notice to the local authority⁵, or, in the case of a library provided by a county council, to that council, that the book has been so exposed to infection⁶. A person contravening any of these provisions⁷ is liable to a penalty⁸. On receiving a notice that a book has been exposed to infection, the local authority or, as the case may be, the county council must cause the book to be disinfected and returned to the library, or must cause it to be destroyed⁹.

904. Public conveyances.

Until a day to be appointed¹, no person who knows that he is suffering from a notifiable disease² may enter any public conveyance used for the conveyance of persons at separate fares³, or enter any other public conveyance without previously notifying the owner or driver that he is so suffering⁴. Similarly no person having the care of a person whom he knows to be suffering from a notifiable disease may permit that person to be carried in any public conveyance used for the conveyance of persons at separate fares⁵, or in any other public conveyance without previously informing the owner or driver that that person is so suffering⁶. Any person who contravenes any of these provisions is liable to a penalty⁷ and, in addition to any fine imposed, is to be ordered by the court to pay any person concerned with the conveyance as owner, driver or conductor a sum sufficient to cover any loss and expense incurred by him in connection with the disinfection⁸ of the conveyance⁹.

The owner, driver or conductor of a public conveyance used for the conveyance of passengers at separate fares must not convey in it a person whom he knows to be suffering from a notifiable disease¹⁰. The owner or driver of any other public conveyance may refuse to convey in it any person suffering from a notifiable disease until he has been paid a sum sufficient to cover any loss and expense which will be incurred by reason of having to comply with the following requirements¹¹. If a person suffering from a notifiable disease is conveyed in a public conveyance, the person in charge of the conveyance must as soon as practicable give notice to the local authority for the district¹² in which the conveyance is usually kept¹³ and, before permitting any other person to enter the conveyance, must cause it to be disinfected¹⁴. Any person concerned with the conveyance as its owner, driver or conductor may recover summarily as a civil debt from the person so conveyed, or from the person causing that person to be so conveyed, a sufficient sum to cover any loss and expense incurred by him¹⁵. A person who contravenes any of these provisions is liable to a penalty¹⁶.

905. Infectious schoolchildren.

Until a day to be appointed¹, a person having the care of a child who is or has been suffering from a notifiable disease², or has been exposed to infection of a notifiable disease³, must not, after receiving notice from the proper officer⁴ of the local authority for the district⁵ that the child is not to be sent to school⁶, permit the child to attend school until he has obtained from the proper officer a certificate⁷ that in his opinion the child may attend without undue risk of communicating the disease to others⁸. A person who contravenes these provisions is liable to a penalty⁹.

The principal¹⁰ of a school in which any pupil is suffering from a notifiable disease must, if required by the proper officer of the local authority for the district, furnish to him, within a reasonable time fixed by him, a complete list of the names and addresses of the pupils, not being boarders, in or attending the school or any specified department of the school¹¹. If the principal of a school fails to comply with these provisions, he is liable to a penalty¹².

906. Exclusion of children from public places of entertainment or assembly.

Until a day to be appointed¹, with a view to preventing the spread of a notifiable disease², a local authority³ may by notice⁴ prohibit or restrict the admission of persons under the prescribed age⁵ to certain places of entertainment or assembly⁶ for a time specified in the notice⁷. If the person responsible for the management of such a place, having been served with a copy of such a notice, admits any person under the prescribed age to that place in contravention of the notice, or fails to comply with any condition specified in it, he is liable to a penalty⁸, although it is a defence to prove that there were reasonable grounds for believing that the person admitted had attained the prescribed age⁹.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 As to the meaning of 'notifiable disease' see PARA 893.

3 As to the meaning of 'local authority' see PARA 99.

4 The notice must be published by the local authority in such a manner as it thinks best for bringing it to the notice of persons concerned: Public Health (Control of Disease) Act 1984 s 23(2) (prospectively repealed). See note 1. Such a notice may contain exemptions from the prohibitions or restrictions which it imposes, and any such exemption may be made subject to compliance with such conditions as may be specified in the notice: s 23(3). The notice may be expressed to apply to particular premises, or parts of premises, designated in the notice, or to part only of the district of the authority, but, except as otherwise provided in the notice, the notice applies throughout the district of the local authority: s 23(4) (prospectively repealed). As to the meaning of 'district' see PARA 885 note 6. As to the meaning of 'premises' see PARA 1 note 34.

5 'Prescribed age', in relation to a notice, means such age, not exceeding 16, as may be prescribed by the notice: Public Health (Control of Disease) Act 1984 s 23(7) (prospectively repealed). See note 1.

6 These provisions apply: (1) to any theatre, including a cinematograph theatre, and any building used as a public hall, public concert room or lecture room, public dance room or public gymnasium or indoor swimming baths (Public Health (Control of Disease) Act 1984 s 23(1)(a) (prospectively repealed) (see note 1)); (2) to any sports ground, outdoor swimming baths, outdoor swimming pool, or skating or roller skating rink, to which the public are admitted, either on payment of a charge for admission or not (s 23(1)(b) (prospectively repealed)); and (3) to any circus, show, fair, fete, amusement arcade or other public place of entertainment which is not a building (s 23(1)(c) (prospectively repealed)).

PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/907. Letting houses or rooms exposed to infection.

907. Letting houses or rooms exposed to infection.

Until a day to be appointed¹, if a person who is concerned in the letting of a house or part of a house², or in showing a house or part of a house with a view to its being let³, or who has recently ceased to occupy a house or part of a house⁴, is questioned by any person negotiating for the hire of the house or any part of it as to whether there is, or has been within the preceding six weeks, in any part of the house a person suffering from a notifiable disease⁵, and knowingly makes a false answer to that question, he is liable to a penalty⁶. Furthermore, a person who lets any house or part of a house in which a person has to his knowledge been suffering from a notifiable disease, without having the house, and all articles in it liable to retain infection, properly disinfected⁷, is liable to a penalty⁸. Similarly, the keeper of a hotel or inn who allows a room in it, in which a person has to his knowledge been suffering from a notifiable disease, to be occupied by any other person before the room and all articles in it liable to retain infection have been properly disinfected, is liable to a penalty⁹.

908. Liability of outgoing occupiers of infected house.

Until a day to be appointed¹, if a person ceases to occupy a house² or part of a house in which to his knowledge a person has, within six weeks previously, been suffering from a notifiable disease³, and: (1) fails to have the house, or the part of the house, and all articles in it liable to retain infection, properly disinfected⁴; or (2) fails to give to the owner⁵ of the house, or the part of the house, notice of the previous existence of the disease⁶; or (3) makes a false answer on being questioned by the owner as to whether within the previous six weeks there has been in it any person suffering from a notifiable disease⁷, then he is liable to a penalty⁸.

The local authority⁹ must give notice of these provisions to the occupier and also to the owner of any house in which the authority is aware that there is a person suffering from a notifiable disease¹⁰.

909. Information to be furnished by occupier.

Until a day to be appointed¹, on the application of the proper officer² of the local authority³ for any district, the occupier⁴ of any premises⁵ in the district in which there is or has been any person suffering from a notifiable disease⁶ or food poisoning must furnish such information within his knowledge as that officer may reasonably require for the purpose of enabling measures to be taken to prevent the spread of the disease or, as the case may be, to trace the source of food poisoning⁷. If any person required to furnish information under these provisions fails to furnish it, or knowingly furnishes false information, he is liable to a penalty⁸.

PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/910. Destruction of lice in case of typhus or relapsing fever.

910. Destruction of lice in case of typhus or relapsing fever.

The proper officer¹ of a district² must, if he thinks it necessary, report any case of typhus or relapsing fever in his district to the local authority³, who may, by notice in writing⁴, require: (1) that such measures as may be specified in the notice are to be immediately taken to the satisfaction of the proper officer to obtain the complete destruction of lice on the person and clothing of every occupant of the building of which the patient is an inmate, and to secure the destruction of lice or their products in the building⁵; and (2) the temporary segregation, for a period specified in the notice, of other inmates of the building or of other persons recently in contact with the patient until their persons and clothing have been completely freed from lice⁶.

A local authority may authorise the proper officer generally to issue any such notice on its behalf in relation to any particular case if in his opinion it is immediately and urgently necessary for him to do so for the purpose of preventing the spread of infection⁷.

4 The notice may be addressed to the head of the family to which the patient belongs, to any person in charge of or in attendance on the patient, to any other person in the building of which the patient is an inmate, or to the occupier of the building, and also to any person with whom the patient has recently been in contact: Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 3 para 2.

7 Public Health (Infectious Diseases) Regulations 1988, SI 1988/1546, Sch 3 para 3(1). The proper officer must at the earliest opportunity report to the local authority any case dealt with under such an authorisation, and the action taken by him: Sch 3 para 3(2).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/911. Diseases spread through food and drink.

911. Diseases spread through food and drink.

A proper officer¹ must report the matter to the local authority² if, after considering the information available to him, he forms the opinion:

- 2128 (1) that a person in the district³: (a) is suffering from food poisoning which may be caused by an infection⁴; or (b) is suffering from, or is shown to be a carrier of, any specified infection⁵; and
- 2129 (2) that it is desirable for the protection of the public health that measures should be taken to prevent the spread of infection⁶.

On receipt of such a report, the local authority may by notice in writing: (i) require the person concerned to discontinue or to refrain from engaging in any occupation connected with food⁷ until it notifies him that the risk of causing infection is removed⁸; (ii) require that such measures be taken for the protection of the public health as are specified in the notice, being measures which in the opinion of the proper officer are desirable to prevent the spread of infection by the person concerned⁹; and (iii) require the assistance of any other person reasonably able to assist in securing compliance with any requirement under these provisions¹⁰. If the person concerned is already engaged in any occupation connected with food, the local authority must send a copy of any such notice served on him to his employer, if any, and to any other person reasonably able to assist in securing compliance with any requirement under these provisions¹¹.

If a proper officer has reason to believe that a person engaged in any trade or business connected with food may be a carrier of any specified infection¹² he must report to the local authority accordingly¹³. The local authority may give notice in writing to the responsible manager of the trade or business concerned that for the purpose of preventing the spread of infection the authority considers it necessary for the proper officer or a registered medical practitioner acting on his behalf to make a medical examination of that person¹⁴. The responsible manager must give to the proper officer all reasonable assistance in the matter¹⁵.

A local authority may authorise the proper officer generally to issue any notice on its behalf under these provisions in relation to any particular case if in his opinion it is immediately and urgently necessary for him to do so for the purpose of preventing the spread of infection¹⁶.

PREVENTION AND CONTROL OF DISEASE/(3) NOTIFIABLE DISEASES/(ii) Prevention of Spread of Infection/912. Persons suffering from tuberculosis of the respiratory tract.

912. Persons suffering from tuberculosis of the respiratory tract.

No person who is aware that he is suffering from tuberculosis¹ of the respiratory tract may enter upon any employment or occupation in connection with a dairy² which would involve the milking of cows, the treatment of milk, or the handling of vessels used for containing milk³.

If a local authority⁴, on the report in writing of its proper officer⁵, is satisfied that a person residing in its district who is engaged in any such employment or occupation is suffering from tuberculosis of the respiratory tract and is in an infectious state, the authority may by notice⁶ require that person to discontinue his employment or occupation on or before the date specified in the notice, such date being not less than seven days after service of the notice, and he must comply with the notice⁷. If any person deems himself aggrieved⁸ by such a requirement, he may, within 14 days after the service of the notice, appeal to a magistrates' court⁹. The court may make such order as seems equitable¹⁰, and the order is binding and conclusive¹¹.

The local authority must make full compensation to any person who has sustained damage by reason of the exercise of any of these powers in relation to a matter as to which he has not himself been in default¹².

1 Tuberculosis is a notifiable disease: see PARA 893.

2 'Dairy' includes any farm, cowshed, milk store, milk shop or other place from which milk is supplied on, or for, sale; but does not include a shop or other place in which milk is sold for consumption on the premises only: Public Health (Prevention of Tuberculosis) Regulations 1925, SR & O 1925/757, reg 2. 'Milk' means milk (including cream, skimmed milk and separated milk) intended for sale for human consumption: reg 2. The authority for the 1925 Regulations is the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885.

3 Public Health (Prevention of Tuberculosis) Regulations 1925, SR & O 1925/757, reg 4. As to neglect or refusal to obey or carry out the regulations see PARA 885. The local authority (see note 4) must enforce and execute the regulations, for which purpose it must make such inquiries and take such other steps as may seem to it necessary for securing the due observance of the regulations in its district: reg 3.

4 For these purposes, 'local authority' means, as the case may be, the Common Council of the City of London, the council of a London borough, or a district council: Public Health (Prevention of Tuberculosis) Regulations 1925, SR & O 1925/757, reg 2 (amended by virtue of the Local Government Act 1972 ss 1(10), (11), 179(3); and by SI 1965/528).

5 As to the meaning of 'proper officer' see PARA 889 note 3.

6 The notice must be in writing, signed by the proper officer: Public Health (Prevention of Tuberculosis) Regulations 1925, SR & O 1925/757, reg 5 (amended by virtue of the Local Government Act 1972 Sch 29 para 4). For a form of notice see the Public Health (Prevention of Tuberculosis) Regulations 1925, SR & O 1925/757, reg 5, Schedule (reg 5 as so amended).

914. Destruction of rats.

Where a local authority¹ or port health authority² has reason to believe that rats in its district³ or port health district⁴ are threatened by or infected with plague, or are dying in unusual numbers, it must report the matter, if the district or port health district is in England, to the Chief Medical Officer for England or, if such district is in Wales, to the Chief Medical Officer for Wales⁵; and it must take measures for destroying all rats in the district or port health district and for preventing rats from gaining entry to buildings⁶.

915. Immunisation and vaccination.

Where a case of any notifiable disease¹ or of any specified disease² occurs in a district³ or port health district⁴, the proper officer⁵ of that district or port health district and of any adjacent district or port health district may, if he considers it in the public interest, arrange for the vaccination or immunisation, without charge, of any person in his district or port health district who has come or may have come in contact with the infection and is willing to be vaccinated or immunised⁶.

As to the meaning of 'hospital' see PARA 900 note 2. 'NHS trust' and 'NHS contract' have the same meanings as in the National Health Service Act 2006 (see **HEALTH SERVICES** vol 54 (2008) PARAS 155 et seq, 228); Public Health (Control of Disease) Act 1984 s 74 (definition amended by the National Health Service (Consequential Provisions) Act 2006 Sch 1 para 79). This definition (of 'NHS trust' and 'NHS contract') is prospectively repealed by the Health and Social Care Act 2008 Sch 11 paras 1, 29, Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also note 1. As to local health boards and NHS foundation trusts see **HEALTH SERVICES** vol 54 (2008) PARAS 75 et seq, 174 et seq. As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

8 The consent is that mentioned in the Public Health (Control of Disease) Act 1984 s 37(1A) (added by SI 2002/2469; and amended by SI 2007/961) (prospectively repealed) (see note 1), namely the consent of a primary care trust or local health board any part of whose area falls within that of the local authority, and which appears to the local authority to be an appropriate primary care trust or local health board from whom to obtain consent.

9 Public Health (Control of Disease) Act 1984 s 37(1) (amended by the National Health Service and Community Care Act 1990 Sch 9 para 26, Sch 10; the Health Authorities Act 1995 Sch 1 para 108; and SI 2002/2469) (prospectively repealed). See note 1. The order may be addressed to such officer of the local authority as the justice may think expedient; and that officer and any officer of the hospital may do all acts

necessary for giving effect to the order: Public Health (Control of Disease) Act 1984 s 37(2) (prospectively repealed). As to the meaning of 'officer' see PARA 137 note 3.

917. Detention of infectious person in hospital.

Until a day to be appointed¹, where, on the application of any local authority², a justice of the peace³ in and for the place in which a hospital⁴ for infectious diseases is situated is satisfied that an inmate of the hospital who is suffering from a notifiable disease⁵ would not, on leaving the hospital, be provided with lodging or accommodation in which proper precautions could be taken to prevent the spread of the disease by him, the justice may order him to be detained in the hospital⁶. The order may direct detention for a period specified in the order, but any justice of the peace acting in and for the same place may extend a period so specified as often as it appears to him to be necessary to do so⁷. Any person who leaves a hospital contrary to an order made under these provisions for his detention there, is liable to a penalty⁸, and the court may order him to be taken back to the hospital⁹.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). At the date at which this volume states the law no such day had been appointed. See also generally PARA 884 note 2.

2 As to the meaning of 'local authority' see PARA 99.

3 The justice of the peace may, if he deems it necessary, act in the absence of the person concerned: see the Public Health (Control of Disease) Act 1984 s 38(1) (prospectively repealed). See note 1.

(4) PUBLIC HEALTH PROTECTION

(i) In general

918. Introduction.

There are new provisions relating to public health protection in Part IIA of the Public Health (Control of Disease) Act 1984¹ which from certain days including those to be appointed² replace the provisions of Part II and Part V³. These new provisions are considered below⁴.

1 Ie the Public Health (Control of Disease) Act 1984 Pt IIA (ss 45A-45T). See also PARA 884 note 2.

2 Generally the Public Health (Control of Disease) Act 1984 Pt IIA (ss 435A-45T) is in force from 21 July 2008 in so far as it confers power to make subordinate legislation and in some cases (ie ss 45A, 45C, 45D, 45E, 45F, 45P, 45Q, 45R, 45S, 45T) from 1 April 2009 in relation to England: see the Health and Social Care Act 2008 s 170; and the Health and Social Care Act 2008 (Commencement No 9, Consequential Amendments and Transitory, Transitional and Saving Provisions) Order 2009, SI 2009/462, art 3. The provisions of the Public Health (Control of Disease) Act 1984 Pt IIA have effect in relation to the territorial sea adjacent to England or Wales: s 45S (added by the Health and Social Care Act 2008 s 129). At the date at which this volume states the law the Public Health (Control of Disease) Act 1984 s 45S is not fully in force in relation to Wales; and not all relevant subordinate legislation had been made.

3 Ie the Public Health (Control of Disease) Act 1984 Pt II (ss 10-45), Pt V (ss 54-56) (prospectively repealed): see PARA 885 et seq. See also PARA 884 note 2.

4 See PARA 919 et seq.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(4) PUBLIC HEALTH PROTECTION/(ii) Power to make Regulations/919. Health protection regulations relating to international travel etc.

(ii) Power to make Regulations

919. Health protection regulations relating to international travel etc.

As from a day to be appointed¹, the following provisions apply. The appropriate Minister² may by regulations³ make provision:

- 2130 (1) for preventing danger to public health from vessels⁴, aircraft, trains or other conveyances arriving at any place⁵;
- 2131 (2) for preventing the spread of infection or contamination⁶ by means of any vessel, aircraft, train or other conveyance leaving any place⁷; and
- 2132 (3) for giving effect to any international agreement or arrangement relating to the spread of infection or contamination⁸.

Such regulations⁹ may in particular include provision:

- 2133 (a) for the detention of conveyances¹⁰;
- 2134 (b) for the medical examination¹¹, detention, isolation or quarantine of persons¹²;
- 2135 (c) for the inspection, analysis, retention, isolation, quarantine or destruction of things¹³;
- 2136 (d) for the disinfection or decontamination of conveyances, persons or things or the application of other sanitary measures¹⁴;
- 2137 (e) for prohibiting or regulating the arrival or departure of conveyances and the entry or exit of persons or things¹⁵;
- 2138 (f) imposing duties on masters¹⁶, pilots, train managers and other persons on board conveyances and on owners and managers of ports, airports and other points of entry¹⁷; and
- 2139 (g) requiring persons to provide information or answer questions (including information or questions relating to their health)¹⁸.

1 At the date at which this volume states the law, the Public Health (Control of Disease) Act 1984 s 45B is only in force (from 21 July 2008) in so far as it confers power to make subordinate legislation: see the Health and Social Care Act 2008 s 170(1)(b). See also PARA 918.

2 'Appropriate Minister' means (1) the Secretary of State (see PARA 58), as respects England (including the sea adjacent to England out as far as the seaward boundary of the territorial sea); (2) the Welsh Ministers (see PARA 59), as respects Wales (including the sea adjacent to Wales out as far as that boundary): Public Health (Control of Disease) Act 1984 s 45T(6) (ss 45A, 45B, 45E, 45T added by the Health and Social Care Act 2008 s 129). An order made under the Government of Wales Act 2006 s 158(3) (orders to determine boundary of the sea adjacent to Wales) applies for the purposes of the Public Health (Control of Disease) Act 1984 s 45T(6) as it applies for the purposes of the 2006 Act: Public Health (Control of Disease) Act 1984 s 45T(7) (as so added). At the date at which this volume states the law s 45T is not fully in force in relation to Wales.

3 Regulations under the Public Health (Control of Disease) Act 1984 s 45B or 45C (see PARA 920) may not include provision requiring a person to undergo medical treatment: s 45E(1) (as added: see note 2). 'Medical treatment' includes vaccination and other prophylactic treatment: s 45E(2) (as so added). At the date at which this volume states the law s 45E is not fully in force in relation to Wales. As to regulations generally see PARA 930 et seq. At the date at which this volume states the law no regulations had been made under s 45B.

4 As to the meaning of 'vessel' see PARA 1 note 33.

5 Public Health (Control of Disease) Act 1984 s 45B(1)(a) (as added: see note 2). See also note 1. As to further provision about regulations under s 45B or s 45C (see PARA 920) see s 45F; and PARA 921.

6 For the purposes of the Public Health (Control of Disease) Act 1984 Pt IIA (ss 45A-45T), 'contamination' includes radiation: s 45A(1), (2) (as added: see note 2). Any reference to infection or contamination is a reference to infection or contamination which presents or could present significant harm to human health: s 45A(3) (as so added). Any reference to the spread of contamination includes a reference to the spread of any source of contamination: s 45A(4) (as so added). Any reference to disinfection or decontamination includes a reference to the removal of any vector, agent or source of the infection or contamination: s 45A(5) (as so added). Related expressions are to be read accordingly: s 45A(6) (as so added). At the date at which this volume states the law s 45A is not fully in force in relation to Wales.

7 Public Health (Control of Disease) Act 1984 s 45B(1)(b) (as added: see note 2). See also note 1.

8 Public Health (Control of Disease) Act 1984 s 45B(1)(c) (as added: see note 2). See also note 1.

9 ie regulations under the Public Health (Control of Disease) Act 1984 s 45B(1).

10 Public Health (Control of Disease) Act 1984 s 45B(2)(a) (as added: see note 2). See also note 1.

11 'Medical examination' includes microbiological, radiological and toxicological tests: Public Health (Control of Disease) Act 1984 s 45T(3) (as added: see note 2). See note 2.

12 Public Health (Control of Disease) Act 1984 s 45B(2)(b) (as added: see note 2). See also note 1.

13 Public Health (Control of Disease) Act 1984 s 45B(2)(c) (as added: see note 2). See also note 1. 'Thing' includes (1) human tissue; (2) a dead body or human remains; (3) animals; and (4) plant material: s 45T(5) (as added: see note 2). See note 2.

14 Public Health (Control of Disease) Act 1984 s 45B(2)(d) (as added: see note 2). See also note 1.

15 Public Health (Control of Disease) Act 1984 s 45B(2)(e) (as added: see note 2). See also note 1.

16 As to the meaning of 'master' see PARA 1 note 33.

17 Public Health (Control of Disease) Act 1984 s 45B(2)(f) (as added: see note 2). See also note 1.

UPDATE

919 Health protection regulations relating to international travel etc

NOTE 2--Government of Wales Act 2006 s 158(3) substituted: Marine and Coastal Access Act 2009 s 43(3).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(4) PUBLIC HEALTH PROTECTION/(ii) Power to make Regulations/920. Health protection regulations in the domestic sphere.

920. Health protection regulations in the domestic sphere.

The appropriate Minister¹ may by regulations² make provision for the purpose of preventing, protecting against, controlling or providing a public health response to the incidence or spread of infection or contamination³ in England and Wales⁴ (whether from risks originating there or elsewhere)⁵.

The above power⁶ may be exercised:

- 2140 (1) in relation to infection or contamination generally or in relation to particular forms of infection or contamination⁷; and
- 2141 (2) so as to make provision of a general nature, to make contingent provision or to make specific provision in response to a particular set of circumstances⁸.

Regulations⁹ may in particular include provision:

- 2142 (a) imposing duties on registered medical practitioners¹⁰ or other persons to record and notify cases or suspected cases of infection or contamination¹¹;
- 2143 (b) conferring on local authorities¹² or other persons functions in relation to the monitoring of public health risks¹³; and
- 2144 (c) imposing or enabling the imposition of restrictions or requirements on or in relation to persons, things or premises in the event of, or in response to, a threat to public health¹⁴.

The above power¹⁵ to make regulations is subject to a number of restrictions¹⁶.

1 As to the meaning of 'appropriate Minister' see PARA 919 note 2.

2 As to the restriction as to medical treatment on regulations under the Public Health (Control of Disease) Act 1984 s 45B or 45C see PARA 919 note 3. As to regulations made under s 45C see the Health Protection (Vaccination) Regulations 2009, SI 2009/38, which place an obligation on the Secretary of State to make arrangements to ensure that qualifying recommendations of the Joint Committee for Vaccination and Immunisation with regard to provision of national vaccination programmes are implemented.

3 As to the meaning of 'infection or contamination' see PARA 919 note 6.

4 As to the meanings of 'England' and 'Wales' see PARA 1 note 2.

5 Public Health (Control of Disease) Act 1984 s 45C(1) (ss 45C, 45D, 45T added by the Health and Social Care Act 2008 s 129). At the date at which this volume states the law the Public Health (Control of Disease) Act 1984 ss 45C, 45D, 45T are not fully in force in relation to Wales: see PARA 918. As to further provision about regulations under s 45B (see PARA 919) or s 45C see s 45F; and PARA 921. As to regulations generally see PARA 930 et seq.

As to regulations made see the Health Protection (Local Authority Powers) Regulations 2010, SI 2010/657 (made under the Public Health (Control of Disease) Act 1984 s 45C(1), (2), (3)(b), (c), (4)(a), (c)); the Health Protection (Part 2A Orders) Regulations 2010, SI 2010/658 (made under the Public Health (Control of Disease) Act 1984 s 45C(1), (2), (3)(b)); and the Health Protection (Notification) Regulations 2010, SI 2010/659 (made under the Public Health (Control of Disease) Act 1984 s 45C(1), (2), (3)(a)).

6 ie the power in the Public Health (Control of Disease) Act 1984 s 45C.

7 Public Health (Control of Disease) Act 1984 s 45C(2)(a) (as added: see note 5). See note 5.

8 Public Health (Control of Disease) Act 1984 s 45C(2)(b) (as added: see note 5). See note 5.

9 lie under the Public Health (Control of Disease) Act 1984 s 45C(1).

10 As to the meaning of 'registered medical practitioner' see **MEDICAL PROFESSIONS** vol 30(1) (Reissue) PARA 4.

11 Public Health (Control of Disease) Act 1984 s 45C(3)(a) (as added: see note 5). See note 5.

12 As to the meaning of 'local authority' see PARA 99.

13 Public Health (Control of Disease) Act 1984 s 45C(3)(b) (as added: see note 5). See note 5.

14 Public Health (Control of Disease) Act 1984 s 45C(3)(c) (as added: see note 5). See note 5.

The restrictions or requirements mentioned in s 45C(3)(c) include in particular: (1) a requirement that a child is to be kept away from school; (2) a prohibition or restriction relating to the holding of an event or gathering; (3) a restriction or requirement relating to the handling, transport, burial or cremation of dead bodies or the handling, transport or disposal of human remains; and (4) a special restriction or requirement: s 45C(4) (as so added). For the purposes of Part IIA (ss 45A-45T) (a) a 'special restriction or requirement' means a restriction or requirement which can be imposed by a justice of the peace by virtue of s 45G(2) (see PARA 922), s 45H(2) (see PARA 923) or s 45I(2) (see PARA 924); but (b) a restriction or requirement mentioned in s 45C (4)(a), (b) or (c) (see heads (1)-(3) above) is not to be regarded as a special restriction or requirement: ss 45C(6), 45T(4) (as so added).

15 See note 9.

16 Public Health (Control of Disease) Act 1984 s 45C(5) (as added: see note 5). See note 5. The restrictions are contained in s 45D.

Regulations under s 45C may not include provision imposing a restriction or requirement by virtue of s 45C(3) (c) (see head (c) in the text) unless the appropriate Minister considers, when making the regulations, that the restriction or requirement is proportionate to what is sought to be achieved by imposing it: s 45D(1) (as so added). For these purposes, regulations 'impose a restriction or requirement' if the restriction or requirement is imposed without any such decision: s 45D(5)(b) (as so added).

Regulations under s 45C may not include provision enabling the imposition of a restriction or requirement by virtue of s 45C(3)(c) (see head (c) in the text) unless the regulations provide that a decision to impose such a restriction or requirement may only be taken if the person taking it considers, when taking the decision, that the restriction or requirement is proportionate to what is sought to be achieved by imposing it: s 45D(2) (as so added). For these purposes, regulations 'enable the imposition of a restriction or requirement' if the restriction or requirement is imposed by virtue of a decision taken under the regulations by the appropriate Minister, a local authority or other person: s 45D(5)(a) (as so added). As to regulations made under s 45D(2) see the Health Protection (Local Authority Powers) Regulations 2010, SI 2010/657.

Regulations under the Public Health (Control of Disease) Act s 45C may not include provision imposing a special restriction or requirement mentioned in s 45G(2)(a), (b), (c) or (d) (see PARA 922): s 45D(3) (as so added).

Regulations under s 45C may not include provision enabling the imposition of a special restriction or requirement unless (1) the regulations are made in response to a serious and imminent threat to public health; or (2) imposition of the restriction or requirement is expressed to be contingent on there being such a threat at the time when it is imposed: s 45D(4) (as so added).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(4) PUBLIC HEALTH PROTECTION/(ii) Power to make Regulations/921. Health protection regulations generally.

921. Health protection regulations generally.

Further provision is made about health protection regulations¹.

Health protection regulations may:

- 2145 (1) confer functions on local authorities² and other persons³;
- 2146 (2) create offences⁴;
- 2147 (3) enable a court to order a person convicted of any such offence to take or pay for remedial action in appropriate circumstances⁵;
- 2148 (4) provide for the execution and enforcement of restrictions and requirements imposed by or under the regulations⁶;
- 2149 (5) provide for appeals from and reviews of decisions taken under the regulations⁷;
- 2150 (6) permit or prohibit the levy of charges⁸;
- 2151 (7) permit or require the payment of incentive payments, compensation and expenses⁹;
- 2152 (8) provide for the resolution of disputes¹⁰.

Health protection regulations may, for the purposes of giving effect to an international agreement or arrangement, amend any enactment¹¹.

Health protection regulations may not confer functions on officers of Revenue and Customs unless the regulations are made with the consent of the Commissioners for Her Majesty's Revenue and Customs¹².

Health protection regulations may not create certain offences¹³.

Domestic health protection regulations¹⁴ must provide for a right of appeal to a magistrates' court against any decision taken under the regulations by virtue of which a special restriction or requirement¹⁵ is imposed on or in relation to a person, thing¹⁶ or premises¹⁷.

Domestic health protection regulations¹⁸ which enable a special restriction or requirement to be imposed by virtue of a decision taken under the regulations must also provide that, if the restriction or requirement is capable of remaining in force in relation to any person, thing or premises for more than a specified period, a specified person may require the continuation of the restriction or requirement to be reviewed in accordance with the regulations at specified intervals by a person determined in accordance with the regulations¹⁹.

¹ The regulations under the Public Health (Control of Disease) Act 1984 s 45B (see PARA 919) or s 45C (see PARA 920): see s 45F(1) (ss 45F, 45T added by the Health and Social Care Act 2008 s 129). At the date at which this volume states the law the Public Health (Control of Disease) Act 1984 ss 45F, 45T are not fully in force in relation to Wales: see PARA 918. As to regulations made under s 45F see the Health Protection (Vaccination) Regulations 2009, SI 2009/38; and see PARA 920 note 2. As to regulations generally see PARA 930 et seq.

As to further regulations made see the Health Protection (Local Authority Powers) Regulations 2010, SI 2010/657 (made under the Public Health (Control of Disease) Act 1984 s 45F(2)(a), (b), (f), (g)); the Health Protection (Part 2A Orders) Regulations 2010, SI 2010/658 (made under the Public Health (Control of Disease) Act 1984 s 45F(2)(a)); and the Health Protection (Notification) Regulations 2010, SI 2010/659 (made under the Public Health (Control of Disease) Act 1984 s 45F(2)(a), (b)).

PREVENTION AND CONTROL OF DISEASE/(4) PUBLIC HEALTH PROTECTION/(iii) Orders that may be made by a Justice of the Peace/922. Power to order health measures in relation to persons.

(iii) Orders that may be made by a Justice of the Peace

922. Power to order health measures in relation to persons.

As from a day to be appointed¹, the following provisions apply. A justice of the peace may make an order² in relation to a person ('P') if the justice is satisfied that: (1) P is or may be infected or contaminated³; (2) the infection or contamination is one which presents or could present significant harm to human health⁴; (3) there is a risk that P might infect or contaminate others⁵; and (4) it is necessary to make the order in order to remove or reduce that risk⁶.

The order may impose on or in relation to P one or more of the following restrictions or requirements:

- 2153 (a) that P submit to medical examination⁷;
- 2154 (b) that P be removed to a hospital or other suitable establishment⁸;
- 2155 (c) that P be detained in a hospital or other suitable establishment⁹;
- 2156 (d) that P be kept in isolation or quarantine¹⁰;
- 2157 (e) that P be disinfected or decontaminated¹¹;
- 2158 (f) that P wear protective clothing¹²;
- 2159 (g) that P provide information or answer questions about P's health or other circumstances¹³;
- 2160 (h) that P's health be monitored and the results reported¹⁴;
- 2161 (i) that P attend training or advice sessions on how to reduce the risk of infecting or contaminating others¹⁵;
- 2162 (j) that P be subject to restrictions on where P goes or with whom P has contact¹⁶;
- 2163 (k) that P abstain from working or trading¹⁷.

A justice of the peace may make an order¹⁸ in relation to a person ('P') if the justice is satisfied that: (i) P is or may be infected or contaminated¹⁹; (ii) the infection or contamination is one which presents or could present significant harm to human health²⁰; (iii) there is a risk that a related party²¹ might infect or contaminate others²²; and (iv) it is necessary to make the order in order to remove or reduce that risk²³. The order may impose on or in relation to P a requirement that P provide information or answer questions about P's health or other circumstances (including, in particular, information or questions about the identity of a related party)²⁴.

An order under this provision²⁵ may also order a person with parental responsibility²⁶ for P to secure that P submits to or complies with the restrictions or requirements imposed by the order²⁷.

The appropriate Minister²⁸ must by regulations make provision about the evidence that must be available to a justice of the peace before the justice can be satisfied as mentioned above²⁹.

923. Power to order health measures in relation to things.

As from a day to be appointed¹, the following provisions apply. A justice of the peace may make an order² in relation to a thing³ if the justice is satisfied that: (1) the thing is or may be infected or contaminated⁴; (2) the infection or contamination is one which presents or could present significant harm to human health⁵; (3) there is a risk that the thing might infect or contaminate humans⁶; and (4) it is necessary to make the order in order to remove or reduce that risk⁷.

The order may impose in relation to the thing one or more of the following restrictions or requirements:

- 2164 (a) that the thing be seized or retained⁸;
- 2165 (b) that the thing be kept in isolation or quarantine⁹;
- 2166 (c) that the thing be disinfected or decontaminated¹⁰;
- 2167 (d) in the case of a dead body, that the body be buried or cremated¹¹;
- 2168 (e) in any other case, that the thing be destroyed or disposed of¹².

A justice of the peace may make an order¹³ in relation to a thing if the justice is satisfied that: (i) the thing is or may be infected or contaminated¹⁴; (ii) the infection or contamination is one which presents or could present significant harm to human health¹⁵; (iii) there is a risk that a related person or related thing might infect or contaminate humans¹⁶; and (iv) it is necessary to make the order in order to remove or reduce that risk¹⁷. The order may require the owner of the thing, or any person who has or has had custody or control of the thing, to provide information or answer questions about the thing (including, in particular, information or questions about where the thing has been or about the identity of any related person¹⁸ or the whereabouts of any related thing)¹⁹.

The appropriate Minister²⁰ may by regulations make provision about the evidence that must be available to a justice of the peace before the justice can be satisfied as mentioned above²¹.

924. Power to order health measures in relation to premises.

As from a day to be appointed¹, the following provisions apply. A justice of the peace may make an order² in relation to premises³ if the justice is satisfied that: (1) the premises are or may be infected or contaminated⁴; (2) the infection or contamination is one which presents or could present significant harm to human health⁵; (3) there is a risk that the premises might infect or contaminate humans⁶; and (4) it is necessary to make the order in order to remove or reduce that risk⁷.

The order may impose in relation to the premises one or more of the following restrictions or requirements:

- 2169 (a) that the premises be closed⁸;
- 2170 (b) that, in the case of a conveyance or movable structure, the conveyance or structure be detained⁹;
- 2171 (c) that the premises be disinfected or decontaminated¹⁰;
- 2172 (d) that, in the case of a building, conveyance or structure, the premises be destroyed¹¹.

A justice of the peace may make an order¹² in relation to premises if the justice is satisfied that: (i) the premises are or may be infected or contaminated or are or may be a place where infection or contamination was spread between persons or things¹³; (ii) the infection or contamination is one which presents or could present significant harm to human health¹⁴; (iii) there is a risk that a related person or related thing might infect or contaminate humans¹⁵; and (iv) it is necessary to make the order in order to remove or reduce that risk¹⁶. PREVENTION AND CONTROL OF DISEASE/(4) PUBLIC HEALTH PROTECTION/(iii) Orders that may be made by a Justice of the Peace/926. Part IIA orders generally.

926. Part IIA orders generally.

As from a day to be appointed¹, the following provisions apply.

A Part IIA order² may include, in addition to the restrictions or requirements mentioned in the provision under which it is made, such other restrictions or requirements as the justice considers necessary for the purpose of reducing or removing the risk in question³.

A restriction or requirement contained in a Part IIA order may be expressed to take effect subject to conditions specified in the order⁴. Two or more Part IIA orders may be combined in a single order⁵. A Part IIA order may contain such directions as the justice considers appropriate to give effect to it⁶. A Part IIA order may order the payment of compensation or expenses in connection with the taking of measures pursuant to the order⁷. A Part IIA order is authority for those persons to whom it is addressed to do such things as may be necessary to give effect to it⁸.

A Part IIA order must specify the period for which any restriction or requirement imposed by or under the order is to remain in force⁹. That period may be extended by further order of a justice of the peace¹⁰.

In relation to restrictions or requirements relating to being detained in hospital or kept in isolation or quarantine¹¹, neither the period specified¹² nor the period of any extension¹³ may exceed 28 days or such shorter period as the appropriate Minister¹⁴ may by regulations prescribe¹⁵.

The appropriate Minister may by regulations prescribe, in relation to any other restrictions or requirements, the maximum period which may be specified¹⁶ and the maximum period of any extension¹⁷.

927. Procedure for making, varying and revoking Part IIA orders.

As from a day to be appointed¹, the following provisions apply.

The power of a justice of the peace to make a Part IIA order² is exercisable on the application of a local authority³. Local authorities must co-operate with each other in deciding which of them should apply for a Part IIA order in any particular case⁴.

The appropriate Minister⁵ must by regulations⁶ require a local authority to give notice to such persons as may be prescribed by the regulations of the making of an application for a Part II order⁷.

A Part IIA order may be varied or revoked by a justice of the peace on the application of (1) an affected person⁸; (2) a local authority; or (3) any other authority with the function of executing or enforcing the order in question⁹.

Variation or revocation of a Part IIA order does not invalidate anything done under the order prior to the variation or revocation¹⁰.

1 At the date at which this volume states the law, the Public Health (Control of Disease) Act 1984 s 45M is only in force (from 21 July 2008) in so far as it confers power to make subordinate legislation: see the Health and Social Care Act 2008 s 170(1)(b). See also PARA 918.

As to regulations made see the Health Protection (Part 2A Orders) Regulations 2010, SI 2010/658 (made under the Public Health (Control of Disease) Act 1984 s 45M(3)).

2 As to the meaning of 'Part IIA order' see PARA 926.

3 Public Health (Control of Disease) Act 1984 s 45M(1) (added by the Health and Social Care Act 2008 s 129). See also note 1. As to the meaning of 'local authority' see PARA 99.

4 Public Health (Control of Disease) Act 1984 s 45M(2) (as added: see note 3). See note 1.

5 As to the meaning of 'appropriate Minister' see PARA 919 note 2.

6 In the Public Health (Control of Disease) Act 1984 s 45M 'regulations' means regulations made by the appropriate Minister: s 45M(11) (as added: see note 3). See note 1. As to power to make further provision by regulations see PARA 928. As to regulations generally see PARA 930 et seq.

7 Public Health (Control of Disease) Act 1984 s 45M(3) (as added: see note 3). See note 1. However this is subject to s 45M(4). If a justice of the peace considers it necessary to do so, the justice may make a Part IIA order without a person having been given such notice as is otherwise required to be given to that person under rules of court or regulations under s 45M(3): s 45M(4) (as so added).

8 As to affected persons see the Public Health (Control of Disease) Act 1984 s 45M(6)-(9) (as added: see note 3). See note 1.

In the case of an order under s 45G (see PARA 922), the following persons are affected persons: (1) P; (2) a person with parental responsibility (within the meaning of the Children Act 1989) for P; (3) P's husband, wife or civil partner; (4) a person living with P as P's husband, wife or civil partner; and (5) such other persons as may be prescribed by regulations: s 45M(6) (as so added). See note 6.

In the case of an order under s 45H(2) (see PARA 923), the following persons are affected persons; (a) the owner of the thing; (b) any person with custody or control of the thing; and (c) such other persons as may be prescribed by regulations: s 45M(7) (as so added). As to the meaning of 'thing' see PARA 919 note 13.

In the case of an order under s 45I(2) (see PARA 924), the following persons are affected persons: (i) the owner of the premises; (ii) any occupier of the premises; and (iii) such other persons as may be prescribed by regulations: s 45M(8) (as so added). As to the meaning of 'premises' see PARA 1 note 34.

In the case of an order under s 45H(4) (see PARA 923) or s 45I(4) (see PARA 924), the person required to provide information or answer questions and such other persons as may be prescribed by regulations are affected persons: s 45M(9) (as so added).

9 Public Health (Control of Disease) Act 1984 s 45M(5) (as added: see note 3). See note 1.

PREVENTION AND CONTROL OF DISEASE/(4) PUBLIC HEALTH PROTECTION/(iii) Orders that may be made by a Justice of the Peace/928. Power to make further provision by regulations.

928. Power to make further provision by regulations.

As from a day to be appointed¹, the following provisions apply.

The appropriate Minister may² by regulations make provision about the taking of measures pursuant to Part IIA orders³.

The regulations may in particular make provision about:

- 2173 (1) the type of investigation which may be carried out as part of a medical examination⁴;
- 2174 (2) the manner in which measures are to be taken⁵;
- 2175 (3) who is to be responsible for executing and enforcing measures⁶;
- 2176 (4) who is to be liable for the costs of measures⁷;
- 2177 (5) the payment of compensation or expenses in connection with the taking of measures⁸.

However the regulations may not confer functions on officers of Revenue and Customs to execute or enforce Part IIA orders unless the regulations are made with the consent of the Commissioners for Her Majesty's Revenue and Customs⁹.

929. Enforcement of Part IIA orders.

As from a day to be appointed¹, the following provisions apply.

A person commits an offence if the person: (1) fails without reasonable excuse to comply with a restriction or requirement imposed by or under a Part IIA order²; or (2) wilfully obstructs anyone acting in the execution of a Part IIA order³. A person guilty of an offence⁴ is liable on summary conviction to a fine⁵.

If (a) a person is convicted of an offence⁶; and (b) the court by which the person is convicted is satisfied that the failure or wilful obstruction constituting the offence has caused premises⁷ or things⁸ to become infected or contaminated⁹ or otherwise damaged them in a material way, the court may, if it considers it appropriate to do so, order the person to take or pay for such remedial action as may be specified in the order¹⁰.

If (i) a Part IIA order imposes a requirement that a person be detained or kept in isolation or quarantine in a place¹¹; and (ii) the person leaves that place contrary to the requirement¹², a constable¹³ may take the person into custody and return the person to that place¹⁴.

(iv) Regulations Generally

930. General provision about regulations.

A power to make regulations under Part IIA of the Public Health (Control of Disease) Act 1984¹ is exercisable by statutory instrument².

A power to make regulations under Part IIA includes power to make different provision for different cases or different areas³.

1 Ie the Public Health (Control of Disease) Act 1984 Pt IIA (ss 45A-45T).

2 Public Health (Control of Disease) Act 1984 s 45P(1) (s 45P added by the Health and Social Care Act 2008 s 129). At the date at which this volume states the law the Public Health (Control of Disease) Act 1984 s 45P is not fully in force in relation to Wales. See also PARA 918.

3 Public Health (Control of Disease) Act 1984 s 45P(2) (as added: see note 2). See note 2.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(4) PUBLIC HEALTH PROTECTION/(iv) Regulations Generally/931. Parliamentary control.

931. Parliamentary control.

An instrument containing regulations under Part IIA of the Public Health (Control of Disease) Act 1984¹ is subject to annulment (1) in the case of English regulations, in pursuance of a resolution of either House of Parliament²; (2) in the case of Welsh regulations, in pursuance of a resolution of the National Assembly for Wales³.

If an instrument, or a draft of an instrument, containing regulations under health protection regulations in regard to international travel or in the domestic sphere⁴ would, apart from this provision⁵, be treated for the purposes of the Standing Orders of either House of Parliament as a hybrid instrument, it is to proceed in that House as if it were not such an instrument⁶.

1 I.e. the Public Health (Control of Disease) Act 1984 Pt IIA (ss 45A-45T). There is an exception for an instrument to which s 45Q(4) (see below) applies: see s 45Q(1) (s 45Q added by the Health and Social Care Act 2008 s 129). At the date at which this volume states the law the Public Health (Control of Disease) Act 1984 s 45Q is not fully in force in relation to Wales. See also PARA 918.

Subject to s 45R (see PARA 932), an instrument to which s 45Q(4) applies may not be made unless (1) in the case of English regulations, a draft of the instrument has been laid before, and approved by a resolution of, each House of Parliament; (2) in the case of Welsh regulations, a draft of the instrument has been laid before, and approved by a resolution of, the National Assembly for Wales: s 45Q(4) (as so added). In s 45Q 'English regulations' means regulations made by the Secretary of State (see PARA 58); 'Welsh regulations' means regulations made by the Welsh Ministers (see PARA 59): s 45Q(6) (as so added). As to the National Assembly for Wales see PARA 59.

Subject to s 45Q(3) (see below), s 45Q(4) (see above) applies to an instrument containing (whether alone or with other provisions) (a) regulations under s 45C (see PARA 920); (b) regulations which amend an enactment pursuant to s 45F(3) (see PARA 921); (c) the first regulations to be made under s 45G(7) (see PARA 922); (d) the first regulations to be made under s 45L(4) (see PARA 926); or (e) the first regulations to be made under s 45N (see PARA 928): s 45Q(2) (as so added).

Section 45Q(4) (see above) does not apply by virtue of s 45Q(2)(a) (see head (a) above) if the instrument contains a declaration that the person making it is of the opinion that the instrument does not contain any provision made by virtue of s 45C(3)(c) (see PARA 920) which imposes or enables the imposition of (i) a special restriction or requirement; or (ii) any other restriction or requirement which has or would have a significant effect on a person's rights: s 45Q(3) (as so added). As to the meaning of 'special restriction or requirement' see PARA 920 note 14.

2 Public Health (Control of Disease) Act 1984 s 45Q(1)(a) (as added: see note 1). See note 1.

3 Public Health (Control of Disease) Act 1984 s 45Q(1)(b) (as added: see note 1). See note 1.

4 I.e. regulations under the Public Health (Control of Disease) Act 1984 s 45B (see PARA 919) or s 45C (see PARA 920).

5 I.e. the Public Health (Control of Disease) Act 1984 s 45Q(5).

6 Public Health (Control of Disease) Act 1984 s 45Q(5) (as added: see note 1). See note 1.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(4) PUBLIC HEALTH PROTECTION/(iv) Regulations Generally/932. Emergency procedure.

932. Emergency procedure.

Where this provision applies to an instrument¹, the instrument may be made without a draft having been laid and approved² if the instrument contains a declaration that the person making it is of the opinion that, by reason of urgency, it is necessary to make the order without a draft being so laid and approved³.

After an instrument is made⁴, it must be laid (1) in the case of English regulations⁵, before each House of Parliament⁶; (2) in the case of Welsh regulations,⁷ before the National Assembly for Wales⁸.

Regulations contained in such an instrument⁹ cease to have effect at the end of the period of 28 days¹⁰ beginning with the day on which the instrument is made unless, during that period, the instrument is approved (a) in the case of English regulations, by a resolution of each House of Parliament¹¹; (b) in the case of Welsh regulations, by a resolution of the National Assembly for Wales¹².

However if on any day during that period, on proceedings on a motion that (or to the effect that) the instrument be so approved, either House of Parliament or, as the case may be, the National Assembly for Wales comes to a decision rejecting the instrument, the regulations cease to have effect at the end of that day instead¹³.

1 The Public Health (Control of Disease) Act 1984 s 45R applies to an instrument to which s 45Q(4) (see PARA 931 note 1) applies by virtue of s 45Q(2)(a) or (b) (see PARA 931 note 1 heads (a), (b)): s 45R(1) (s 45R added by the Health and Social Care Act 2008 s 129). At the date at which this volume states the law the Public Health (Control of Disease) Act 1984 s 45R is not fully in force in relation to Wales. See also PARA 918.

9 *Ie* in an instrument made in accordance with the Public Health (Control of Disease) Act 1984 s 45R(2).

10 In reckoning any such period of 28 days, no account is to be taken (1) in the case of English regulations, of any time during which Parliament is prorogued or dissolved or during which both Houses are adjourned for more than four days; (2) in the case of Welsh regulations, of any time during which the National Assembly for Wales is dissolved or is in recess for more than four days: Public Health (Control of Disease) Act 1984 s 45R(6) (as added: see note 1). See note 1.

11 Public Health (Control of Disease) Act 1984 s 45R(4)(a) (as added: see note 1). See note 1.

Section 45R(4), (5) does not (1) affect anything done in reliance on the regulations before they ceased to have effect; or (2) prevent the making of new regulations: s 45R(7) (as so added).

(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT

(i) Regulations

933. Making of regulations.

Until a day to be appointed¹, the power of the Secretary of State² to make regulations³ includes the power to make regulations: (1) for preventing danger to public health from vessels⁴ or aircraft arriving at any place⁵; and (2) for preventing the spread of infection by means of any vessel or aircraft leaving any place, so far as may be necessary or expedient for the purpose of carrying out any treaty, convention, arrangement or engagement with any other country⁶. Such regulations may provide for:

- 2178 (a) the signals to be displayed by vessels or aircraft having on board any case of epidemic, endemic or infectious disease⁷;
- 2179 (b) the questions to be answered by masters, pilots and other persons on board any vessel or aircraft as to cases of such disease on board during the voyage or on arrival⁸;
- 2180 (c) requiring persons alighting from aircraft to answer questions pertaining to their state of health or their contact with infection⁹;
- 2181 (d) the detention of vessels or aircraft and of persons on board them¹⁰;
- 2182 (e) the duties to be performed in cases of such diseases by masters, pilots and other persons on board vessels or aircraft¹¹,

and may authorise the making of charges and provide for the recovery of such charges and of any expenses incurred in disinfection¹².

This power has been separately exercised in relation to aircraft¹³ and to ships¹⁴; but nothing in the regulations applies to any ship or aircraft forming part of Her Majesty's armed forces, or the armed forces of any country within the Commonwealth or of the armed forces of certain other countries¹⁵, or to the officers and crew of such ships or aircraft, or to any aerodrome under the control of such forces¹⁶. Requirements are relaxed in respect of an aircraft which has commenced its voyage¹⁷ at a place within the excepted area¹⁸ and has not during its voyage alighted at any place outside that area¹⁹. In relation to any such aircraft the medical officer²⁰ may not exercise or perform certain powers and duties²¹ unless he is satisfied, or the Secretary of State has directed, that it is necessary because of danger to public health²²; and certain obligations affecting the commander²³, persons carried²⁴, and officers of Her Majesty's Revenue and Customs²⁵ or authorised officers²⁶ do not apply unless the medical officer has notified the person concerned that compliance is similarly necessary²⁷.

1 The Public Health (Control of Disease) Act 1984 Pt II (ss 10-45) and Pt V (ss 54-56) are prospectively repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170(3). The regulations revoke previous regulations subject to savings for things duly done or suffered or any right, privilege, obligation or liability acquired, accrued or incurred under them: see reg 44, Sch 6. As to fumigation see PARA 856; and as to the application to shipping of the prevention of damage by pests legislation see PARA 861. As to notifiable diseases generally see PARA 893 et seq. 'Ship' has the same meaning as 'ship' in the Merchant Shipping Act 1995 (see s 313; and **SHIPPING AND MARITIME LAW** vol 93 (2008) PARA 229) except that it includes a hovercraft within the meaning of the Hovercraft Act 1968 (see s 4(1); and **SHIPPING AND MARITIME LAW** vol 93 (2008) PARA 381): Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1) (definition substituted by SI 2007/1446; and SI 2007/1901).

15 In any other country for the time being designated for the purposes of all the provisions of the Visiting Forces Act 1952 following s 1(2) (see **ARMED FORCES** vol 2(2) (Reissue) PARA 137 et seq): see the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 3; and the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 3 (substituted by SI 2007/1446; and SI 2007/1901).

16 See the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 3; and the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 3 (substituted by SI 2007/1446; and SI 2007/1901).

17 'Voyage', in relation to an aircraft, means its flight from its point of origin via any intermediate points to its point of termination: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1).

18 'Excepted area' means all the territory of Belgium, Metropolitan France, Greece, the Republic of Ireland, Italy, Luxembourg, the Netherlands, Spain, and the United Kingdom, the Channel Islands and the Isle of Man: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1).

19 See the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 26 (amended by SI 2007/1447; and SI 2007/1900).

20 'Medical officer' means the medical officer of a responsible authority (see PARA 937 note 1), or any other medical practitioner appointed by such authority under the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 5 (see PARA 938): reg 2(1).

21 le powers and duties conferred or imposed by the Public Health (Aircraft) Regulations 1979, SI 1979/1434, regs 7, 8(1), (2), 9, 14(1), 18(2), 20, 21, 23: see PARAS 942-943, 946.

22 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 26(c) (amended by SI 2007/1447; and SI 2007/1900).

23 'Commander' means the person for the time being in command of an aircraft: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1). The obligations referred to in the text are those of regs 11, 25(1)(a) (see PARAS 941, 947): reg 26(a).

24 The obligations referred to in the text are those of the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 25(1)(b), (c) (see PARA 947): reg 26(b).

25 The regulations refer to customs officers, and 'customs officer' means an officer of Her Majesty's Revenue and Customs: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1) (definition substituted by SI 2007/1447; and SI 2007/1900). As to the Commissioners for Her Majesty's Revenue and Customs see **CUSTOMS AND EXCISE** vol 12(3) (2007 Reissue) PARA 900 et seq.

The obligations referred to in the text are those of the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 16 (see PARAS 942, 946): reg 26(d) (amended by SI 2007/1447; and SI 2007/1900). The term is similarly defined for the purposes of the Public Health (Ships) Regulations 1979, SI 1979/1435: see reg 2(1) (definition substituted by SI 2007/1446; and SI 2007/1901).

26 'Authorised officer', in relation to aircraft, means the medical officer, the proper officer (see PARA 889 note 3) or any other officer authorised by the responsible authority under the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 4 (see PARA 937) to enforce and execute any of the regulations: reg 2(1) (definition amended by SI 2007/1447; and SI 2007/1900). The obligations referred to in the text are those of the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 16 (see PARAS 942, 946): reg 26(d) (as amended: see note 25). As to the meaning of 'authorised officer', in relation to ships, see PARA 934 note 6.

(ii) General Control

934. Ships and aircraft unwilling to comply with regulations.

The master¹ of a ship² on arrival³ or already in a district⁴ who is unwilling to comply with or submit to any provision of or requirement made under the regulations⁵ must notify the authorised officer⁶; and the commander⁷ of an aircraft on arrival or already at an aerodrome⁸ who is similarly unwilling must do likewise⁹. The authorised officer may then require the master or commander to remove the ship or aircraft immediately¹⁰; but, if the master or commander wishes before leaving the district or aerodrome to discharge cargo, disembark passengers or take on board fuel, water or stores, the authorised officer must permit him to do so, but may impose such conditions under the regulations as he considers necessary¹¹. When removal has been required by the authorised officer the ship must not during its voyage call at any other district, and the aircraft must not alight at any other place in England or Wales¹².

1 'Master' means the person for the time being in charge of a ship: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1). The two sets of 1979 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885.

2 As to the meaning of 'ship' see PARA 933 note 14.

3 'Arrival', in relation to a ship, means the entry within the limits of jurisdiction of a district of a ship which has not during its voyage or since it last:

160 (1) called at a port outside the United Kingdom; or

161 (2) met with an offshore installation; or

162 (3) met with a ship which has proceeded from a foreign port,

been subjected elsewhere in the United Kingdom to measures provided for in the regulations or any corresponding regulations in force in Scotland or Northern Ireland, apart from any measure which may have been applied there to any person, baggage or cargo landed from the ship; and 'arrives' must be construed accordingly: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1). As to the meaning of 'United Kingdom' see PARA 1 note 2. 'Offshore installation' has the meaning set out on the Petroleum Act 1998 s 44 (see **FUEL AND ENERGY** vol 19(3) (2007 Reissue) PARA 1729); and 'foreign port' means a port or other coastal place outside the United Kingdom, the Channel Islands, the Isle of Man or the Republic of Ireland: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1) (definition of 'offshore installation' substituted by SI 2007/1446; and SI 2007/1901).

4 'District' means: (1) a port health district (see PARA 102); or (2) a London borough or a district which abuts on waters forming part of a port established for the purposes of the enactments relating to customs but not within the jurisdiction of a port health authority (see PARA 102), and includes the waters on which it so abuts: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1).

6 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 42(1). 'Authorised officer', in relation to a ship, means the medical officer, the proper officer (see PARA 889 note 3) or any other officer authorised by the local authority under reg 4 (see PARA 937) to enforce and execute any of the regulations; 'medical officer' means the medical officer for a district or any other registered medical practitioner appointed by the local authority under reg 5 (see PARA 938); and 'local authority' means, in relation to a port health district the port health authority, and (1) in England, in relation to any other district (a) the district council, (b) the county council for the county in which a district is where there is no district council, (c) the London borough council for a London Borough, or

(d) the Common Council of the City of London for the City of London; (2) in relation to any other district in Wales (a) the county council, (b) the county borough council: reg 2(1) (definitions respectively amended and added by SI 2007/1446; and SI 2007/1901). See also PARA 937. As to the meaning of 'authorised officer, in relation to an aircraft, see PARA 933 note 26. As to the meaning of 'registered medical practitioner' see **MEDICAL PROFESSIONS** vol 30(1) (Reissue) PARA 4.

7 As to the meaning of 'commander' see PARA 933 note 23.

8 'Aerodrome' means any area of land or water designed, equipped, set apart or commonly used for affording facilities for the landing and departure of aircraft and includes any area or space, whether on the ground, on the roof of a building or elsewhere, which is designed, equipped or set apart for affording facilities for the landing and departure of aircraft capable of descending or climbing vertically, but does not include any area the use of which for affording facilities for the landing and departure of aircraft has been abandoned and has not been resumed: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1) (definition substituted by SI 2007/1447; and SI 2007/1900).

935. Duty to comply with requirements.

Every person to whom the regulations¹ apply must comply with every direction, requirement or condition given, made or imposed by an authorised officer² or customs officer³ under the regulations and must furnish all such information⁴ as that officer may reasonably require⁵. Moreover, every person who has for the time being the custody or charge of a child or other person under disability must similarly comply with directions, requirements or conditions so given, made or imposed, and furnish any required information in respect of that child or other person⁶.

The commander⁷ of an aircraft may request a responsible authority⁸ to cause to be applied certain measures and may charge⁹ the commander for a service to apply such measures in so far as the service is for preventing danger to public health from an aircraft arriving or the spread of infection from an aircraft leaving an airport where international flights arrive or depart¹⁰. Similarly a local authority¹¹ may charge¹² the master¹³ of a ship¹⁴ for a service¹⁵ in so far as the service is for preventing danger to public health from a ship arriving in the district or the spread of infection from a ship leaving its district¹⁶.

936. Penalty for non-compliance.

Any person who wilfully neglects or refuses to obey or carry out, or obstructs the execution of, the regulations for preventing danger to public health from or the spread of infection by means of any vessel or aircraft arriving at or leaving any place¹ is, where no provision is made by the regulations, liable to a penalty². Mens rea is a necessary element, and the defendant must at least know the circumstances which will constitute the offence in order to be guilty of wilful non-compliance³.

1 Ie the regulations cited in PARA 933 notes 13-14.

2 See the Public Health (Control of Disease) Act 1984 s 15 (prospectively repealed); and PARA 885. The penalty is a fine not exceeding level 5 on the standard scale, and in the case of a continuing offence is a further fine not exceeding level 1 on the standard scale for every day on which the offence continues after conviction: see s 15. As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(ii) General Control/937. Authorities which are to enforce regulations.

937. Authorities which are to enforce regulations.

The responsible authority¹, in the case of aircraft, and the local authority², in the case of ships, must enforce and execute the regulations³, and must make such inquiries and take such other steps as seem to it necessary for securing the proper exercise of its functions⁴.

The responsible authority for the purposes of the Public Health (Aircraft) Regulations 1979 is (1) at an aerodrome⁵ maintained by a county council, that council⁶; (2) at an aerodrome maintained by the council of a district⁷, that council, or, if so agreed⁸, any other council in whose county or district the aerodrome is wholly situated, or any port health authority⁹ in the district of which the aerodrome is wholly or partly situated¹⁰; (3) at any other aerodrome wholly situated in a district or port health district, the council or port health authority of that district, or, if the Secretary of State so directs¹¹, the council of the county in which it is situated¹²; (4) at any other aerodrome extending into more than one district or into a port health district, if the Secretary of State so directs, the council of any county in which the aerodrome is wholly or partly situated¹³; and (5) at any place other than an aerodrome, the port health authority if it is situated in a port health district¹⁴, or otherwise the council of the district in which it is situated¹⁵.

In relation to the local authority under the Public Health (Ships) Regulations 1979, any two local authorities may agree that one of them is to undertake the enforcement and execution of the whole or specified provisions of the regulations in the district of the other, provided that they first obtain the approval of the Secretary of State to the terms of the agreement¹⁶.

1 'Responsible authority', in relation to an aerodrome or other place, means the authority charged under the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 4 (see the text and notes 5-15) with the duty of enforcing and executing the regulations: reg 2(1).

2 As to the meaning of 'local authority' see PARA 934 note 6.

3 Ie the regulations cited in PARA 933 notes 13-14.

4 See the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 4(1), (4) (amended by SI 2007/1447; and SI 2007/1900); and the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 4(1) (amended by SI 2007/1446; and SI 2007/1901). Either authority exercises its functions through the medical officer (see PARAS 933 note 20, 934 note 6) and such other officers as it may authorise in that behalf: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 4(4); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 4(1) (both as so amended). As to the meaning of 'authorised officer' see PARAS 933 note 26, 934 note 6. Authorities' expenses are defrayed in the same manner as the expenses incurred by them in the execution and discharge of their other powers and duties: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 34; Public Health (Ships) Regulations 1979, SI 1979/1435, reg 40 (substituted by SI 2007/1446; and SI 2007/1901). The two sets of 1979 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885.

5 As to the meaning of 'aerodrome' see PARA 934 note 8.

6 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 4(1)(b).

7 'District' means the City of London, a London borough or a district: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1).

8 The agreement referred to in the text must be between the council maintaining the aerodrome and the council of the other county or district or port health authority, as the case may be: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 4(1)(c).

9 As to port health authorities see PARA 102.

10 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 4(1)(c).

11 The Secretary of State may attach such terms and conditions as he thinks fit to any direction given by him under these provisions: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 4(2). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(ii) General Control/938. Ancillary functions of authorities.

938. Ancillary functions of authorities.

A responsible authority¹ other than the Secretary of State², in the case of aircraft, may, and if so required by the Secretary of State must: (1) appoint such registered medical practitioners³ in addition to its medical officer⁴ as are necessary for the proper enforcement and execution of the regulations⁵; (2) give directions from time to time as to the duties which those medical practitioners or any other officer authorised to enforce and execute the regulations must perform⁶; (3) at or in connection with a customs airport⁷, provide or arrange for the provision of premises or waiting rooms for the medical inspection and examination of persons, and premises for their temporary isolation under the regulations⁸; (4) arrange for the reception into a hospital of persons requiring to be removed to it under the regulations⁹; (5) arrange for the provision of means of transport for the conveyance of persons to any such premises or to a hospital¹⁰; (6) at or in connection with a customs airport where such facilities are likely to be needed, provide or arrange for the provision of apparatus or other means for cleansing, disinfecting and disinsecting ships or aircraft, persons and clothing or other articles, and deratting aircraft, and a laboratory for the examination of suspected material, or equipment for taking and dispatching such material for examination in a laboratory¹¹; (7) do all such other things as, in its opinion or that of the Secretary of State, are necessary to enable the provisions of the regulations to be complied with¹².

A local authority¹³, in the case of ships, may, and if so required by the Secretary of State must: (a) appoint such medical practitioners, in addition to their medical officer¹⁴, as may be necessary for the proper enforcement and execution of the regulations¹⁵; (b) give directions from time to time as to the duties which are to be performed by any medical practitioner so appointed or any other officer authorised to enforce and execute the regulations¹⁶; (c) provide or arrange for the provision of premises or waiting rooms for the medical inspection and examination of persons, premises for the temporary isolation of persons under the regulations, and apparatus or other means for cleansing, disinfecting or disinsecting ships, persons or clothing and other articles¹⁷; (d) arrange for the reception into hospital¹⁸ of persons requiring to be removed to a hospital under the regulations¹⁹; (e) arrange for the provision of means of transport for the conveyance of persons to any premises referred to in head (c) above or to a hospital²⁰; (f) do all such other things as in its opinion or the opinion of the Secretary of State, as the case may be, are necessary to enable the provisions of the regulations to be complied with²¹.

Authorised officers²² of any authority and customs officers may enter any premises²³, vessel²⁴ or aircraft for the purpose of executing or superintending the execution of the regulations²⁵.

939. Restrictions on boarding or leaving ships.

Where the authorised officer¹ so directs, or where the master² is required³ to make a report, no person other than the pilot, a customs officer⁴ or an immigration officer⁵ may, without the permission of the authorised officer, board or leave a ship⁶ until free pratique⁷ has been given⁸.

Before granting permission to a person to leave the ship, the authorised officer may require him to state his name, intended destination and address, and to give other information which the authorised office thinks necessary for transmission to the medical officer⁹ for the area of the intended destination¹⁰. If that person cannot state his intended destination and address or arrives, within a period not exceeding 14 days after landing to be specified by the authorised officer, at an address different from that which he has stated, he must on arrival at that address send particulars of it to the authorised officer¹¹.

PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(iii) Incoming Ships and Aircraft/941. Duties of ships' masters and aircraft commanders.

941. Duties of ships' masters and aircraft commanders.

The master¹ of a ship² must report³ to the local authority: (1) various occurrences connected with death⁴ or illness⁵ on board ship before arrival⁶; (2) the presence on board of a person who is suffering from an infectious disease or who has symptoms which may indicate the presence of an infectious disease or tuberculosis⁷; (3) any other circumstances on board which are likely to cause the spread of infectious disease or other danger to public health⁸; and (4) the presence of animals⁹ or captive birds¹⁰, and the occurrence of mortality or sickness among such animals or birds¹¹.

Where a member of the crew¹² of an aircraft becomes aware of a certain event¹³ he must report it to the commander of the aircraft¹⁴.

The medical officer may require the commander of an aircraft to complete an appropriate declaration of health¹⁵. Where on the arrival of a ship, the master has a report to make¹⁶ or is directed by the medical officer¹⁷ to complete an appropriate declaration of health¹⁸ he must complete that declaration of health¹⁹.

If a ship arrives in a district²⁰ or calls at another district within four weeks after the master of the ship has delivered a declaration of health, the master must report to the authorised officer any case or suspected case of infectious disease or tuberculosis which has occurred on board since the declaration was delivered and which has not already been reported²¹.

The master of a ship on arrival or already in a district must: (a) answer all questions as to the health conditions on board which may be put to him by a customs officer or an authorised officer and furnish him with all such information and assistance as he may reasonably require for the purpose of the regulations; (b) notify the authorised officer immediately of any circumstances on board which are likely to cause the spread of infectious disease or tuberculosis, including in his notification particulars as to the sanitary condition of the ship and the presence on board of animals or captive birds of any species, or mortality or sickness among such animals or birds, on the ship; and (c) comply with the regulations, and with any directions or requirements of an authorised officer or a customs officer given or made for the purposes of the regulations²².

The commander of an aircraft at a customs airport must: (i) answer all questions as to the health conditions on board which may be put to him by an authorised officer or a customs officer visiting the aircraft, and furnish any such officer with all such information and assistance as he may reasonably require for the purposes of the regulations; (ii)(A) notify²³ immediately on arrival to an authorised officer any death on the aircraft during its voyage caused by any case of infectious disease or tuberculosis on the aircraft; or any circumstances on board which are likely to cause the spread of infectious disease or tuberculosis, or other danger to public health; (B) include in his notification under head (ii)(A) above particulars as to the presence or suspected presence on board of any animals or captive birds of any species; (iii) comply with the regulations, and with any directions or requirements of an authorised officer given or made for the purposes of these regulations²⁴.

1 As to the meaning of 'master' see PARA 934 note 1.

2 As to the meaning of 'ship' see PARA 933 note 14.

3 For the purposes of the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(1), the master must send by appropriate means before arrival, either directly to the local authority or through an agent approved by it, a radio message complying with the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(3): reg 13(2)(a) (reg 13(2) substituted by SI 2007/1446; and SI 2007/1901). If the ship is not so equipped, he must notify the local authority immediately on arrival of the presence on board of the infectious disease or tuberculosis, symptoms or other similar circumstances: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(2)(b) (as so substituted). Any radio message, fax, email or other communication sent for the purpose of reg 13 must be sent so as to reach the local authority not more than 12 hours, and whenever practicable not less than four hours, before the expected arrival of the ship: reg 13(3) (substituted by SI 2007/1446; and SI 2007/1901). As to the meaning of 'arrival' see PARA 934 note 3. As to the meaning of 'local authority' see PARA 937. As to the meaning of 'infectious disease' see PARA 940 note 6. The two sets of 1979 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885.

4 Ie death otherwise than as the result of an accident: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(1)(a)(i).

5 Ie illness where the person who is ill has a temperature of 38° Centigrade or greater accompanied by a rash, glandular swelling or jaundice, or where such temperature persisted for more than 48 hours (Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(1)(a)(ii)); or illness where the person has or had diarrhoea severe enough to interfere with work or normal activities (reg 13(1)(a)(iii)).

8 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(1)(c) (amended by SI 2007/1446; and SI 2007/1901).

9 'Animal' has the same meaning as in the Rabies (Control) Order 1974, SI 1974/2212, art 2(1), Sch 1 (see **ANIMALS** vol 2 (2008) PARA 1057): Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1). The same meaning is given by the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1). Among many other animals, this includes cats, cattle, dogs, goats, horses, lions, mice, moles, monkeys, pigs, rabbits, rats, sheep, squirrels and tigers.

10 'Captive birds' includes poultry: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 11(2). The same meaning is given by the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 11(2).

11 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(1)(d).

12 'Crew' means the personnel of an aircraft who are employed for duties on board: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1). See note 3.

13 Ie an event described in the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 12(1A), namely that there is on board the aircraft during a flight a person who (1) is suffering from an infectious disease or tuberculosis; or (2) has symptoms which may indicate the presence of an infectious disease, tuberculosis or other danger to public health: reg 12(1A) (reg 12(1A)-(1C) added by SI 2007/1447; and SI 2007/1900). Immediately following a report under the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 12(1) the commander of the aircraft must send a radio message or other communication about the event to one of the persons identified in reg 12(1C) at the first customs airport at which the aircraft is due to land: reg 12(1B) (as so added). The persons referred to at reg 12(1B) are (a) the authorised officer; (b) the manager of the airport; or (c) the owner of the airport: reg 12(1C) (as so added). As to the meaning of 'commander' see PARA 933 note 23. As to the meaning of 'customs airport' see PARA 938 note 7. As to the meaning of 'authorised officer' see PARA 933 note 26. As to the meaning of 'owner' see PARA 889 note 5.

14 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 12(1) (substituted by SI 2007/1447; and SI 2007/1900). If such radio message or other communication is sent to the authorised officer, he must immediately notify the customs officer of its contents: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 12(2) (amended by SI 2007/1447; and SI 2007/1900). As to the meaning of 'customs officer' see PARA 933 note 25. If such radio message or other communication is sent to the person in charge of the customs airport, he must immediately notify the authorised officer and the customs officer of its contents: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 12(3) (amended by SI 2007/1447; and SI 2007/1900). Before or immediately after the arrival of an aircraft, the owner or manager of an aerodrome, or any person deputed to act on his behalf, must inform the authorised officer of any aircraft arriving at that aerodrome which during its last flight landed at such aerodrome as may be notified by the medical officer: Public Health (Aircraft)

Regulations 1979, SI 1979/1434, reg 12(4), (5) (reg 12(4) amended by SI 2007/1447; and SI 2007/1900). As to the meaning of 'aerodrome' see PARA 934 note 8. As to the meaning of 'medical officer' see PARA 934 note 6.

15 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 12(6) (substituted by SI 2007/1447; and SI 2007/1900). The reference is to the Health Part of the Aircraft General Declaration in the form set out in the Public Health (Aircraft) Regulations 1979, SI 1979/1434, Sch 1 and the form so completed must be delivered to the authorised officer by the commander of the aircraft, or by a member of the crew or deputed to act on his behalf: reg 12(7) (amended by SI 2007/1447; and SI 2007/1900).

16 In accordance with the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(1)(a), (b) or (c): see heads (1)-(3) in the text. The master must deliver the declaration to the authorised officer who must forward it to the health authority: reg 15(2).

17 As to the meaning of 'medical officer' see PARA 933 note 20.

18 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 15(1)(a), (b), Sch 2 (maritime declaration of health, to be countersigned by the ship's surgeon if one is carried).

19 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 15(1) (amended by SI 2007/1446; and SI 2007/1901). The master must deliver the declaration to the authorised officer who must forward it to the local authority: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 15(2) (amended by SI 2007/1446; and SI 2007/1901). As to the meaning of 'authorised officer' see PARA 934 note 6.

20 As to the meaning of 'district' see PARA 934 note 4.

23 In addition to any message sent under the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 12.

24 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 11(1)(a)-(c) (reg 11(1)(b) substituted by SI 2007/1447; and SI 2007/1900). These requirements apply to aircraft at a customs airport or, with modifications, elsewhere: see PARA 947. They do not apply to any aircraft which has not alighted outside the excepted area unless the commander has been notified by the medical officer that compliance is necessary because of danger to public health: see the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 26(a); and PARA 933.

PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(iii) Incoming Ships and Aircraft/942. Inspection and detention of ships and aircraft.

942. Inspection and detention of ships and aircraft.

An authorised officer¹ may inspect any ship² on arrival³ or already in the district⁴, or any aircraft at a customs airport⁵; and he, in the case of a ship, and the medical officer⁶, in the case of an aircraft, must do so if notification⁷ of infectious disease has been given or when he has reasonable ground for believing that there is on board a case or suspected case of infectious disease⁸.

An authorised officer may detain or give notice in writing to a customs officer⁹ to detain any ship for medical inspection at its place of mooring¹⁰ or of discharge or loading¹¹. Ships taken or directed to a mooring station by an authorised officer must remain there until inspected by the medical officer¹². In particular, the master¹³ of an infected ship¹⁴, a suspected ship¹⁵ or any other ship in certain circumstances¹⁶ must take the ship to a mooring station unless an authorised officer otherwise allows or directs¹⁷; and the authorised officer may direct any ship from a foreign port¹⁸ to be taken to a mooring station on arrival, and may direct a ship to a mooring station if after arrival a case of plague, cholera, yellow fever, smallpox, rabies, viral haemorrhagic fever occurs or an animal infected with any such disease is discovered or suspected of being on board¹⁹.

The medical officer at a customs airport may cause to be detained for medical inspection an aircraft which he has reasonable grounds for believing may be an infected aircraft²⁰ or a suspected aircraft²¹ or one which has had on board during the voyage plague, cholera, yellow fever or smallpox in respect of which the aircraft has not outside the United Kingdom been subjected to appropriate measures equivalent to those provided for in the regulations²².

The medical officer must inspect the ship or aircraft and the persons on board as soon as possible after it has been detained²³; and he may continue the detention if necessary for the application of any further or additional measures which he is required to apply²⁴, or which, after inspection, he considers necessary²⁵.

The authorised officer at a customs airport must inform the customs officer of any measure applied by him or at his direction under the regulations to any aircraft or its stores, equipment or cargo²⁶.

1 As to the meaning of 'authorised officer' see PARAS 933 note 26, 934 note 6.

3 As to the meaning of 'arrival' see PARA 934 note 3.

4 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 7(1). As to the meaning of 'district' see PARA 934 note 4. The two sets of 1979 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885.

5 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 7(1). As to the meaning of 'customs airport' see PARA 938 note 7. As to the application of these provisions to aircraft which have not been outside the excepted area (see PARA 933 note 18) see PARA 933; and as to their application to aircraft alighting elsewhere than at customs airports see PARA 947. See note 4.

6 As to the meaning of 'medical officer' see PARA 933 note 20. Another authorised officer may do so acting on the instructions of the medical officer: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 7(2).

7 lie under the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 12 or under the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 13(1)(a)(ii), (iii), (b) or (c): see PARA 941.

8 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 7(2); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 7(2). As to the meaning of 'infectious disease' see PARA 940 note 6. The inspection may include the taking from the ship or aircraft of samples of food and water for analysis or examination with a view to the treatment of persons affected with any epidemic, endemic or infectious disease and for preventing the spread of such diseases: see the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 7(4), (5) (respectively substituted and added by SI 2007/1447; and SI 2007/1900); and the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 7(3), (4) (respectively substituted and added by SI 2007/1446; and SI 2007/1901). The ship or aircraft may be required to be brought or taken to some safe and convenient place for inspection: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 7(3); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 8.

9 As to the meaning of 'customs officer' see PARA 933 note 25. Detention by a customs officer must cease as soon as the ship has been inspected by the medical officer (see PARA 934 note 6), or, if such inspection has not commenced within 12 hours after detention, on the expiration of that period: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 27. Nothing in reg 27 affects the power of the authorised officer to continue the detention of a ship under reg 28 (see the text and notes 23-25): reg 27 proviso.

10 lie not being a mooring station. 'Mooring station' means a place, situated within the waters of a district (see PARA 934 note 4), which is specified by the local authority (see PARA 937) with the consent of a customs officer and the harbour master, or in such other district as the Secretary of State may allow, for the mooring of ships for medical inspection so that they have no contact with other ships or the shore: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1) (definition amended by SI 2007/1446; and SI 2007/1901). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

11 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 26.

12 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 25. See also reg 22 (ships from foreign ports); reg 23 (amended by SI 2007/1446; and SI 2007/1901) (direction by customs officer).

13 As to the meaning of 'master' see PARA 934 note 1.

14 'Infected ship' means: (1) a ship which has on board on arrival a case of plague, cholera, yellow fever, small pox, rabies or viral haemorrhagic fever; or (2) a ship on which a plague-infected rodent is found on arrival; or (3) a ship which has had on board during its voyage a case of human plague which developed more than six days after the embarkation of the person affected, or a case of cholera within five days before arrival, or a case of yellow fever or smallpox, and which has not before arrival been subjected in respect of such case to appropriate measures equivalent to those provided for in the Public Health (Ships) Regulations 1979, SI 1979/1435: reg 2(1) (definition amended by SI 2007/1446; and SI 2007/1901).

15 'Suspected ship' means: (1) a ship which, not having on board on arrival a case of human plague, has had on board during the voyage a case of that disease which developed within six days of the embarkation of the person affected; or (2) a ship on which there is evidence of abnormal mortality among rodents, the cause of which is unknown on arrival; or (3) a ship which has had on board during the voyage a case of cholera which developed more than five days before arrival; or (4) a ship which left within six days before arrival an area infected with yellow fever; or (5) a ship which has on board on arrival a person whom the medical officer considers may have been exposed to infection from Lassa fever, rabies, viral haemorrhagic fever or Marburg disease: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1).

16 lie where on any ship during its current voyage within the last four weeks before arrival a case of plague, cholera, yellow fever or smallpox in respect of which the ship has not outside the United Kingdom been subjected to appropriate measures equivalent to those provided for in the Public Health (Ships) Regulations 1979, SI 1979/1435: reg 21(1) (amended by SI 2007/1446; and SI 2007/1901).

17 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 21(1) (as amended: see note 16). When the authorised officer has reason to believe that a ship on arrival may be one to which reg 21(1) applies, he may direct the master to take it to a mooring station or to such other place as he considers desirable: reg 21(2).

18 As to the meaning of 'foreign port' see PARA 934 note 3.

19 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 24 (substituted by SI 2007/1446; and SI 2007/1901). As to the meaning of 'animal' see PARA 941 note 9.

20 'Infected aircraft' has a similar meaning to 'infected ship' (see note 14), save that head (3) is confined to smallpox: see the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1) (definition amended by SI 2007/1447; and SI 2007/1900).

21 'Suspected aircraft' means an aircraft: (1) from which a case of cholera occurring on board during the voyage has been removed before the aircraft's arrival and which has not before arrival been subjected to appropriate measures equivalent to those provided for in the regulations; or (2) which has on board on arrival a person whom the medical officer considers may have been exposed to infection from Lassa fever, rabies, viral haemorrhagic fever or Marburg disease: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1).

22 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 14(1) (amended by SI 2007/1447; and SI 2007/1900). If the medical officer so detains an aircraft he must inform the person in charge of the customs airport and send a notice in writing of such detention to the customs officer: reg 14(2). If the customs officer then visits the aircraft before the medical officer he must deliver the notice to the commander (see PARA 933 note 23) and take all reasonable steps to secure compliance with it: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 15. See also the Public Health (Aircraft) Regulations 1979, SI 1979/1434, regs 16, 17 (both amended by SI 2007/1447; and SI 2007/1900).

PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(iii) Incoming Ships and Aircraft/943. Additional measures in relation to certain diseases.

943. Additional measures in relation to certain diseases.

Certain additional measures¹ are applicable on the arrival² (in the case of an aircraft, at a customs airport³) of: (1) any infected or suspected ship⁴ or aircraft⁵; (2) any ship or aircraft which has during its voyage⁶ been in an area infected with plague, cholera, yellow fever, Lassa fever, rabies, viral haemorrhagic fever or Marburg disease⁷; (3) any suspect for smallpox on a ship or aircraft other than an infected ship or aircraft⁸; (4) any other ship, or any other aircraft or person, when the relevant officer⁹ is satisfied that, notwithstanding that measures equivalent to those additional measures have been applied to the ship or aircraft or any person on board previously during the voyage, there is on board or has been on board since such previous application an infected person¹⁰ or suspect¹¹ and that it is necessary again to apply any such measure, or the medical officer has evidence¹² that such previous application was not effective¹³.

These additional measures may in particular cases empower the medical officer to require the disinfection and disinsecting¹⁴ of parts of the ship or aircraft, baggage¹⁵ and other articles and the deratting of ships¹⁶.

In addition, the authorised officer¹⁷ may require the master¹⁸ of a ship which has been taken or directed to a mooring station¹⁹ or detained because rodents have been discovered or there are reasonable grounds for suspecting that rodents are on board to take all practicable measures to prevent their escape²⁰.

If an authorised officer at an airport considers that there should be applied to an aircraft alighting there, or to any person carried on such aircraft, measures under the regulations, and that airport is not able to apply the measures, he may direct that the aircraft or the person proceed to a customs airport that is able to apply the measures²¹.

1 The additional to and without prejudice to any other provisions of the Public Health (Aircraft) Regulations 1979, SI 1979/1434, or the Public Health (Ships) Regulations 1979, SI 1979/1435. These additional provisions apply to the arrival of aircraft at a customs airport (Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 23) or with modifications at any other place (see reg 25; and PARA 947). They do not apply to any aircraft which has not been outside the excepted area (see PARA 933 note 18) unless necessary because of danger to public health: see reg 26; and PARA 933. The two sets of 1979 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885.

9 le the authorised officer (see PARA 934 note 6) in the case of a ship and the medical officer (see PARA 933 note 20) in the case of an aircraft.

10 'Infected person' means a person suffering from plague, cholera, yellow fever or smallpox or who is considered by the medical officer to be infected with such a disease or with some other infection or contagious disease other than venereal disease or tuberculosis: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1) (definition substituted by SI 2007/1447; and SI 2007/1900); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1) (definition substituted by SI 2007/1446; and SI 2007/1901). As to the meaning of 'medical officer' see PARAS 933 note 20, 934 note 6.

11 'Suspect' means a person (not being an infected person) who is considered by the medical officer as having been exposed to infection by an infectious disease (see PARA 940 note 6) and is considered capable of spreading that disease: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 2(1); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1).

12 The Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 23 uses the term 'reasonable grounds' instead of 'evidence'.

PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(iii) Incoming Ships and Aircraft/944. Sanitation control of ships.

944. Sanitation control of ships.

Upon receipt of an application in writing from the owner¹ of a ship² or from the master³ acting for or on behalf of the owner for a ship sanitation certificate⁴ in respect of the ship:

- 2183 (1) if the ship is within the area of an authorised port⁵, an authorised officer⁶ must (a) inspect the ship to prevent danger to public health or the spread of infection with a view to issuing a ship sanitation certificate⁷; and (b) either carry out or cause to be carried out under the supervision of an authorised officer control measures necessary for the control of danger to public health or the spread of infection with a view to issuing a ship sanitation certificate⁸; or otherwise take or cause to be taken any steps which he considers necessary to satisfy himself that the ship does not present a danger to public health and is free of infection⁹;
- 2184 (2) if the ship is not within the area of an authorised port, an authorised officer must (a) consult with a customs officer¹⁰; and (b) direct the ship to proceed at the risk of the owner of the ship to an area of an authorised port convenient to the ship and the customs officer¹¹.

If an authorised officer after he has inspected a ship under head (1)(a) above is satisfied that the ship is exempt from control measures, he must issue or cause to be issued a ship sanitation control exemption certificate¹²; or that control measures have been completed to his satisfaction, he must issue or cause to be issued a ship sanitation control certificate¹³, and note or cause to be noted on the certificate the evidence found and the control measures taken¹⁴.

If the master of a ship which during its voyage has been in a foreign port¹⁵ cannot produce to an authorised officer of the local authority¹⁶ for the district¹⁷ in which the ship arrives¹⁸ or for any district at which the ship calls a valid ship sanitation certificate in respect of the ship (i) if the ship is within the area of an authorised port, an authorised officer may inspect the ship for evidence of danger to public health or infection with a view to issuing a ship sanitation certificate¹⁹; and (ii) if the ship is not within such an area, an authorised officer must consult with a customs officer²⁰, and direct the ship to proceed at the risk of the master of the ship to an area of an authorised port convenient to the ship and the customs officer²¹.

An authorised officer must issue or cause to be issued a ship sanitation control exemption certificate if, after he has inspected a ship under head (i) above, the authorised officer is satisfied that the ship is exempt from control measures²².

If, after a ship has been inspected by an authorised officer, the authorised officer is not satisfied that the ship is exempt from control measures he must (A) if the ship is within the area of an authorised port carry out or require to be carried out under the supervision of an authorised officer control measures necessary for the control of danger to public health or the spread of infection²³, or otherwise take or cause to be taken any steps which he considers necessary to satisfy himself that the ship does not present a danger to public health and is free of infection²⁴; (B) if the ship is not within the area of an authorised port consult with a customs officer²⁵, direct the ship to proceed at the risk of the master of the ship to an area of an authorised port convenient to the ship and the customs officer²⁶, at the time of the ship's departure for the authorised port²⁷, inform an authorised officer of the authorised port of the

evidence found²⁸ and the control measures required²⁹, and note or cause to be noted in any ship sanitation certificate the matters described above³⁰.

If the master produces a ship sanitation certificate but the authorised officer has evidence of danger to public health or infection, notwithstanding such certificate the authorised officer must (aa) either carry out or require to be carried out under the supervision of an authorised officer control measures necessary for the control of danger to public health or the spread of infection³¹, or otherwise take or cause to be taken any steps which he considers necessary to satisfy himself that the ship does not present a danger to public health and is free of infection³²; (bb) if the ship is not within the area of an authorised port consult with a customs officer³³, direct the ship to proceed at the risk of the master of the ship to an area of an authorised port convenient to the ship and the customs officer³⁴, at the time of the ship's departure for the authorised port³⁵, inform an authorised officer of the authorised port of the evidence found³⁶ and the control measures required³⁷, and note or cause to be noted in the ship sanitation certificate the matters described above³⁸.

An authorised officer may extend the period of validity of a ship sanitation certificate by one month if any inspection or control measures required cannot be carried out at the port³⁹, there is no evidence of danger to public health or infection⁴⁰, and the port is authorised to extend the validity of a ship sanitation certificate⁴¹.

The master of a ship must immediately make arrangements to carry out any control measures required by an authorised officer under head (A) or (aa) above⁴². When control measures referred to in those heads have been completed to the satisfaction of an authorised officer the authorised officer must issue or cause to be issued a ship sanitation control certificate⁴³, and note or cause to be noted on the certificate the evidence found and the control measures taken⁴⁴.

A ship sanitation control exemption certificate or ship sanitation control certificate must conform to the relevant model⁴⁵. A ship sanitation certificate⁴⁶ is valid for six months beginning with the date of issue⁴⁷. The local authority must retain a copy of any ship sanitation certificate issued by it for a period of one year beginning with the date of issue⁴⁸.

1 As to the meaning of 'owner' see PARA 889 note 5.

2 As to the meaning of 'ship' see PARA 933 note 14.

3 As to the meaning of 'master' see PARA 934 note 1.

4 'Ship sanitation certificate' means a ship sanitation control certificate or a ship sanitation control exemption certificate; 'ship sanitation control certificate' means a certificate that conforms to the model in the International Health Regulations (2005) of the World Health Organisation ('WHO') adopted by the fifty-eighth World Health Assembly on 23rd May 2005 ('IHR') Annex 3 reproduced in the Public Health (Ships) Regulations 1979, SI 1979/1435, Sch 3 (added by SI 2007/1446; and SI 2007/1901) that is issued in accordance with IHR art 39 (ship sanitation certificates); and 'ship sanitation control exemption certificate' means a certificate that conforms to the model in IHR Annex 3 reproduced in the Public Health (Ships) Regulations 1979, SI 1979/1435, Sch 3 that is issued in accordance with IHR art 39: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1) (definitions added by SI 2007/1447; and SI 2007/1901). The 1979 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885.

5 'Authorised port' means a port authorised to offer (1) the issuance of a ship sanitation control certificate and the provision of the services referred to (a) in IHR Annex 1; and (b) the form reproduced in the Public Health (Ships) Regulations 1979, SI 1979/1435, Sch 3 (added by SI 2007/1447; and SI 2007/1901); (2) the issuance of a ship sanitation control exemption certificate following inspection of the ship including a thorough inspection of the hold; or (3) the extension of a ship sanitation certificate for a period of one month: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 2(1) (definition added by SI 2007/1447; and SI 2007/1901).

6 As to the meaning of 'authorised officer' see PARA 934 note 6.

7 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 18A(1)(a)(i) (regs 18A-18D added by SI 2007/1446; and SI 2007/1901).

8 Public Health (Ships) Regulations 1979, SI 1979/1435, reg 18A(1)(a)(ii)(aa) (as added: see note 7).

An authorised officer must ensure that a control measure he requires under reg 18A(1)(a)(ii) or 18B(3)(a) or (4) (a) consists of methods or materials advised by WHO for these procedures, unless the authorised officer determines that other measures are as safe and reliable: reg 18C(1) (as so added). An authorised officer under reg 18A(1)(a)(ii) or 18B(3)(a) or (4)(a) may require additional health measures to be applied for preventing danger to public health or the spread of infection in accordance with IHR art 43, including isolation of the ship at a mooring station or otherwise: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 18C(2) (as so added). The local authority must report the application of any such additional health measures required under the National IHR Focal Point para (2): Public Health (Ships) Regulations 1979, SI 1979/1435, reg 18C(3) (as so added). An authorised officer of a port where control measures are applied must note or cause to be noted on the ship sanitation certificate in relation to any case where he is of the view that the conditions under which the measures were carried out were such that a satisfactory result could not be obtained that the case was such a case: reg 18C(4) (as so added). 'Isolation', when applied to a person or group of persons, means the separation of that person or group of persons from other persons, except the health staff on duty, in such a manner as to prevent the spreading of infection: reg 2(1). 'National IHR Focal Point' means the body designated by the United Kingdom for communications with the WHO IHR Contact Point under the IHR; and 'WHO IHR Contact Point' means the unit within WHO accessible for communications with the National IHR Focal Point: reg 2(1) (definitions added by SI 2007/1447; and SI 2007/1901).

PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(iii) Incoming Ships and Aircraft/945. Deratting and disinfection of aircraft.

945. Deratting and disinfection of aircraft.

The commander¹ of an aircraft which is at an aerodrome² or a member of the crew³ deputed to act for him, or in the absence of the crew the person in charge of the aircraft, must inform the authorised officer⁴ of the presence or suspected presence of rodents on the aircraft⁵. Where their presence is suspected, or where an aircraft is infected because a plague-infected rodent is found on board on arrival, the authorised officer may require the aircraft to be deratted⁶. Where it has been deratted the commander, crew member or person in charge must inform the authorised officer of the arrangements made for the disposal of the rodents⁷.

The authorised officer may require an aircraft and such of its contents as he specifies to be disinfected where the aircraft is infected because an animal⁸ infected with any of certain diseases⁹ is found on board on arrival¹⁰.

5 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 13(3). An authorised officer must ensure that a measure he requires under reg 13(1), (2) consists of methods or materials advised by the World Health Organisation, unless the authorised officer determines that other measures are as safe and reliable: reg 13(3A) (reg 13(3A)-(3C) added by SI 2007/1447; and SI 2007/1900). An authorised officer may require additional health measures to be applied for preventing danger to public health or the spread of infection, including isolation of the aircraft: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 13(3B) (as so added). The responsible authority must report the application of any such additional health measures to the appropriate designated body: reg 13(3C) (as so added). PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(iii) Incoming Ships and Aircraft/946. Examination and surveillance of persons.

946. Examination and surveillance of persons.

The medical officer¹ may, and if so requested by the master² or commander³ or required by the Secretary of State⁴ must, examine any person on board a ship⁵ on arrival⁶ or already in the district⁷, or on board or leaving⁸ an aircraft⁹ when there are reasonable grounds for suspecting that the person is suffering from an infectious disease¹⁰, or has been exposed to infection from such a disease or is verminous¹¹. The authorised officer¹² may: (1) detain any such person for that examination¹³; (2) require the clothing and other articles belonging to any person so examined to be disinfected and, where necessary, disinfected¹⁴ and any person found to be verminous to be disinfected¹⁵; (3) prohibit any person so examined from leaving the ship, or from leaving the aircraft or airport, or permit him to leave only on conditions and subject to the taking of measures¹⁶ for preventing the spread of infection¹⁷; (4) require the master or commander to take, or assist in taking, steps¹⁸ for preventing the spread of infection, for disinsection and the destruction of vermin and for the removal of conditions likely to convey infection, including conditions the existence of which might facilitate the harbouring of insects or vermin¹⁹.

On the arrival of a ship or aircraft, the medical officer may place under surveillance²⁰ a person disembarking from it who has come from an area infected with cholera, smallpox or viral haemorrhagic fever²¹, any suspect²² disembarking from it who has come from an area infected with yellow fever, plague, Lassa fever, viral haemorrhagic fever or Marburg disease²³; and where the additional measures apply²⁴ he may in particular cases place a person under surveillance, or require him to be disinfected or isolated²⁵. Moreover, where a person on board a ship, or intending to leave an aircraft, is suffering, or the medical officer suspects that he is suffering, from an infectious disease, the medical officer may cause him to be isolated or sent to a hospital or some other suitable place approved for that purpose by the appropriate authority²⁶; or he may prohibit him from leaving the ship or aircraft without his written consent²⁷. The medical officer must, however, if he is so required by the master or commander, cause any infected person²⁸ or any person suffering from tuberculosis to be removed from the ship or aircraft²⁹.

Every person under surveillance must: (a) give facilities for any medical examination required by the medical officer or by the medical officer for any area in which he may be during the period of surveillance; (b) furnish all information which the officer may reasonably require with a view to ascertaining the person's state of health; (c) forthwith upon arrival during the surveillance period at any address other than his stated intended destination send particulars to the medical officer; and (d) if so instructed by the medical officer³⁰, report immediately to the medical officer for any area in which he may be during that period, and thereafter during that period to him at such intervals as he may require³¹.

The authorised officer at a customs airport must inform the customs officer³² of any measure applied by him or at his direction under the regulations to any person on an aircraft³³.

2 As to the meaning of 'master' see PARA 934 note 1.

3 As to the meaning of 'commander' see PARA 933 note 23.

4 The medical officer must immediately notify the local authority (see PARA 937) or the responsible authority (see PARA 937 note 1) of any directions given to him by the Secretary of State: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 8(6); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 9(7) (substituted by SI 2007/1446; and SI 2007/1901). In the case of aircraft it can also be the customs officer or other authorised officer. As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59. The two sets of 1979 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885.

6 As to the meaning of 'arrival' see PARA 934 note 3.

7 As to the meaning of 'district' see PARA 934 note 4.

8 Any reference, however expressed, in the Public Health (Aircraft) Regulations 1979, SI 1979/1434, to a person leaving an aircraft must not be construed as a reference to that person leaving an aircraft and continuing his journey in that aircraft: reg 2(3).

9 The powers under the Public Health (Aircraft) Regulations 1979, SI 1979/1434, regs 8, 9, 20, 21 are expressed to apply to aircraft at a customs airport; and they apply with modifications elsewhere (see reg 25(1) (c); and PARA 947). As to the meaning of 'customs airport' see PARA 938 note 7. The powers do not apply to any aircraft which has not been outside the excepted area unless necessary because of danger to public health: see reg 26; and PARA 933. As to the meaning of 'excepted area' see PARA 933 note 18.

12 As to the meaning of 'authorised officer' see PARAS 933 note 26, 934 note 6.

13 A person on board a ship must be detained upon the ship or at some place on shore appointed for the purpose: Public Health (Ships) Regulations 1979, SI 1979/1435, reg 9(2)(a). A person on board or leaving an aircraft must be detained at a place appointed for the purpose: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 8(2)(a).

14 As to the meaning of 'disinsect' see PARA 943 note 14.

15 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 8(2)(b); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 9(2)(b).

17 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 8(2)(c) (amended by SI 2007/1447; and SI 2007/1900); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 9(2)(c). In the case of aircraft the reference is to spread of infection or other danger to public health. These provisions are expressed to be subject to the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 21 or the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 31, as the case may be: see the text and note 29.

18 In such steps as in the opinion of the authorised officer (in the case of ships) or the medical officer (in the case of aircraft) are reasonably necessary.

19 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 8(2)(d) (amended by SI 2007/1447; and SI 2007/1900); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 9(2)(d). In the case of aircraft the reference is to spread of infection or other danger to public health or convey infection or other danger to public health.

20 The period of surveillance varies according to the particular disease: see the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 30 (amended by SI 2007/1447; and SI 2007/1900); and the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 36 (amended by SI 2007/1446; and SI 2007/1901).

24 As to such measures and the circumstances in which they apply see PARA 943.

25 See the Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 23, Sch 2 (amended by SI 2007/1447; and SI 2007/1900); and the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 32, Sch 4 (amended by SI 2007/1446; and SI 2007/1901).

26 Is the local authority in the case of ships, or the responsible authority in the case of aircraft.

27 Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 9(a); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 10(1)(a) (substituted by SI 2007/1446; and SI 2007/1901). In the case of ships and a person suspected from suffering from an infectious disease, in particular in the case of cholera, smallpox or viral haemorrhagic fever, the medical officer may place such a person under surveillance for the appropriate period specified: see the Public Health (Ships) Regulations 1979, SI 1979/1435, reg 10(1)(a) (as so substituted). Where in like circumstances a person is suffering, or is suspected to be suffering, from tuberculosis, and disembarks or leaves the aircraft, the medical officer may send information to the medical officer for the area of the person's intended destination: Public Health (Aircraft) Regulations 1979, SI 1979/1434, reg 9(b); Public Health (Ships) Regulations 1979, SI 1979/1435, reg 10(1)(b).

28 As to the meaning of 'infected person' see PARA 943 note 10.

947. Aircraft alighting elsewhere than at customs airport.

Where an aircraft alights elsewhere than at a customs airport¹: (1) the commander² must forthwith give notice to that effect to the responsible authority³, or a customs officer⁴, or an immigration⁵ or police officer, and if at an aerodrome⁶ to the person in charge of it⁷; (2) except to give such notice, no person carried by the aircraft may leave its vicinity unless authorised to do so by the authorised officer⁸, and any person so authorised must inform that officer of his name and his intended destination and address⁹; and (3) the regulations apply, with any necessary modification, as if the aircraft had alighted at a customs airport, except in so far as a police officer or a customs officer may require the aircraft, persons on it, and stores, equipment or cargo, to proceed or be taken to a customs airport¹⁰. Where an aircraft has not been outside the excepted area¹¹, these provisions only bind persons who have been notified by the medical officer that they apply because of danger to public health¹².

(iv) Outgoing Ships and Aircraft

948. Examination of persons.

Where a ship¹ is due to depart for a destination, whether final or intermediate, outside the United Kingdom², or an aircraft is due to depart from an aerodrome³ for such a destination, the medical officer⁴ may examine any person who proposes to embark on it if he has reasonable ground for believing him to be suffering from plague, cholera, yellow fever or smallpox⁵; and if after examination the medical officer is of the opinion that the person shows symptoms of such a disease, he must prohibit his embarkation⁶. Furthermore, the medical officer must prohibit any suspect⁷ from embarking except where he is satisfied that a smallpox suspect is sufficiently protected by vaccination or by a previous attack of smallpox⁸; and he must notify by the most expeditious means the master⁹ or commander¹⁰, and the competent authority¹¹ for the place to which the person is proceeding, of any person embarking or proposing to continue his voyage who, in the opinion of the medical officer, should be placed under surveillance¹².

PREVENTION AND CONTROL OF DISEASE/(5) PRECAUTIONS IN RELATION TO SHIPS AND AIRCRAFT/(iv) Outgoing Ships and Aircraft/949. Infected places.

949. Infected places.

Where the Secretary of State¹ has by notice² declared any place to be infected with a disease which in his opinion constitutes a menace to other countries by reason of its spread or potential spread, then, until the notice is revoked, every medical officer³ must comply with any requirement which may be made by the Secretary of State for preventing the spread of the disease⁴. In particular, the following provisions operate in relation to any ship⁵ departing from any district⁶ specified by the Secretary of State for a destination, whether final or intermediate, outside the United Kingdom⁷ or to any aircraft departing from any aerodrome⁸ so specified for such a destination:

- 2185 (1) an authorised officer⁹, if so required by the Secretary of State, must require a valid vaccination certificate¹⁰ from departing travellers¹¹;
- 2186 (2) the medical officer may, and within three hours after receiving a request from the master¹² or commander¹³ so to do must, medically examine any person who proposes to embark on or is on board the ship or aircraft¹⁴;
- 2187 (3) the authorised officer may require any part of the ship or aircraft which in his opinion may be infected to be cleansed and disinfected to his satisfaction¹⁵;
- 2188 (4) an authorised officer must inspect any clothing, bedding or other article which is on, or is intended to be taken by any person on, the ship or aircraft and which in the officer's opinion may have been exposed to infection, and may require the disinfection or destruction of any such clothing, bedding or article, and the master or commander must disclose to the authorised officer any relevant circumstances¹⁶;
- 2189 (5) no person may take or cause to be taken on board the ship or aircraft any article which, in the opinion of an authorised officer, is capable of carrying infection unless that officer is satisfied that it has been efficiently disinfected and, where necessary, disinfected¹⁷;
- 2190 (6) if any part of a district is included in the notice or if the aerodrome is situated in an area included in the notice, and is declared in it to be infected with plague, and if there is reason to believe that there are rodents on the ship or aircraft, the authorised officer may, and if so required by the Secretary of State must, take steps to secure the deratting of the ship¹⁸.

(6) PRECAUTIONS IN RELATION TO INTERNATIONAL TRAINS

(i) Regulations

950. Making of regulations.

The power of the Secretary of State¹ to make regulations² is modified³ in relation to frontier controls between the United Kingdom⁴ and France so as to include the power to make regulations: (1) for preventing danger to public health from through trains or shuttle trains⁵ whose journey terminates in the United Kingdom⁶; and (2) for preventing the spread of infection by means of any through train or shuttle train whose journey begins in the United Kingdom, so far as may be necessary or expedient for the purpose of carrying out any treaty, convention, arrangement or engagement with any other country⁷.

The regulations may provide for the Secretary of State from time to time: (a) to give written notice to persons operating international services designating all or any through trains as control areas while they are within any area in the United Kingdom specified in the notice or while they constitute a control zone⁸; and (b) to give written notice designating a control area to the concessionaires⁹ as respects any part of the tunnel system¹⁰ in the United Kingdom or of a control zone within the tunnel system in France, or to any occupier or person concerned with the management of a terminal control point¹¹ in the United Kingdom or of a place in the United Kingdom which is a customs approved area¹² or of a railway station which is an international station for the purposes of the Immigration Act 1971¹³. The regulations may provide that such a notice may specify conditions and restrictions to be observed in a control area, and may require any person to whom such a notice is given to take all reasonable steps to secure that any such conditions or restrictions are observed¹⁴.

The regulations may provide for: (i) the questions to be answered in a control area by train managers¹⁵ of through trains and shuttle trains and other persons on such trains, as to cases of epidemic, endemic or infectious disease in the train; (ii) requiring persons on or alighting from such trains to answer in a control area questions pertaining to their state of health or their contact with infection; (iii) the detention of such trains and of persons on them; (iv) the duties to be performed in cases of such diseases by train managers and other persons on such trains¹⁶. The regulations may also authorise the making of charges and provide for the recovery of such charges and of any charges incurred in disinfection¹⁷.

1 As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

2 As to the power to make regulations see PARA 885. The regulations must specify the authorities by whom they are to be enforced and executed, and may specify the Secretary of State as an authority, or as the sole authority, by whom they are to be enforced and executed: see the Public Health (Control of Disease) Act 1984 s 13(4) (prospectively repealed) (see PARA 885); and modified by SI 1993/1813). See also PARA 885. There is a power to enter any premises and any through train or shuttle train while it is in or constitutes a control area for the purpose of executing, or superintending the execution of, the regulations: see the Public Health (Control of Disease) Act 1984 s 13(5) (prospectively repealed) (modified by SI 1993/1813). See also PARA 885. As to the penalty for contravention of the regulations see PARA 885.

As to the regulations made see the Public Health (International Trains) Regulations 1994, SI 1994/311; and PARA 951 et seq. The regulations came into force on 8 March 1994: see reg 1.

3 The modified power does not extend to coastal waters: see the Public Health (Control of Disease) Act 1984 s 13(1) (prospectively repealed) (modified by SI 1993/1813).

4 As to the meaning of 'United Kingdom' see PARA 1 note 2.

5 'Through train' means a train, other than a shuttle train, which for the purposes of the Channel Tunnel Act 1987 ss 11, 12 is engaged on an international service: Channel Tunnel (International Arrangements) Order 1993, SI 1993/1813, art 2(1), Sch 1. 'Shuttle train' has the meaning given in the Channel Tunnel Act 1987 s 1(9): Channel Tunnel (International Arrangements) Order 1993, SI 1993/1813, Sch 1. 'International service' has the meaning given in the Channel Tunnel Act 1987 s 13(6): Channel Tunnel (International Arrangements) Order 1993, SI 1993/1813, Sch 1.

7 Public Health (Control of Disease) Act 1984 s 13(1)(c) (prospectively repealed) (modified by SI 1993/1813). The Secretary of State may by any such regulations apply, with or without modifications, to any disease to which the regulations relate any enactment (including any enactment in the Public Health (Control of Disease) Act 1984) relating to the notification of disease or to notifiable diseases: see s 13(2) (prospectively repealed); and PARA 885. As to the meaning of 'notifiable disease' see PARA 893.

8 'Control zone' means a control zone within the meaning of the international articles: Channel Tunnel (International Arrangements) Order 1993, SI 1993/1813, Sch 1. As to the international articles see art 2(3), Sch 2. As to the supplementary articles see art 2(4), Sch 2A (added by SI 2001/1544; and the Channel Tunnel (International Arrangements) Order 1993, SI 1993/1813, art 2(4) amended by SI 2007/2907).

9 'Concessionaires' has the meaning given by the Channel Tunnel Act 1987 s 1(8), read with s 3(3): Channel Tunnel (International Arrangements) Order 1993, SI 1993/1813, Sch 1.

10 'Tunnel system' has the meaning given by the Channel Tunnel Act 1987 s 1(7): Channel Tunnel (International Arrangements) Order 1993, SI 1993/1813, Sch 1.

11 'Terminal control point' means a place which is an authorised terminal control point for international services for the purposes of the Channel Tunnel Act 1987 ss 11, 12: Channel Tunnel (International Arrangements) Order 1993, SI 1993/1813, Sch 1.

12 Ie within the meaning of the Channel Tunnel (Customs and Excise) Order 1990, SI 1990/2167: see **CUSTOMS AND EXCISE** vol 12(3) (2007 Reissue) PARA 939.

PREVENTION AND CONTROL OF DISEASE/(6) PRECAUTIONS IN RELATION TO INTERNATIONAL TRAINS/(ii) Controls in relation to International Trains/951. Control areas.

(ii) Controls in relation to International Trains

951. Control areas.

The Secretary of State¹ may from time to time:

- 2191 (1) give written notice to any train operator² designating all or any through trains³ as control areas while they are within any area in England or Wales specified in the notice or while they constitute a control zone⁴;
- 2192 (2) give written notice to the concessionaires⁵ designating as a control area any part of the tunnel system⁶ in England⁷;
- 2193 (3) give written notice to any occupier or person concerned with the management of (a) a terminal control point⁸ in England or Wales; or (b) a place in England or Wales which is a customs approved area⁹; or (c) an international station¹⁰, designating that terminal control point, place or international station as a control area¹¹.

1 As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

2 'Train operator' means a person operating any international service, except where the service is operated by a joint international undertaking and part of that undertaking is a British undertaking, in which case it means the British undertaking which forms part of that joint international undertaking: Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1). 'International service' has the same meaning as in the Channel Tunnel Act 1987 s 13(6): Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1). The 1994 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885. See also PARA 950.

3 'Through train' means a train, other than a shuttle train, which for the purposes of the Channel Tunnel Act 1987 ss 11, 12 is engaged on an international service: Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1). 'Shuttle train' has the same meaning as in the Channel Tunnel Act 1987 s 1(9): Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1).

4 Public Health (International Trains) Regulations 1994, SI 1994/311, reg 5(a). As to the meaning of 'control zone' see PARA 950 note 8.

5 As to the meaning of 'concessionaires' see PARA 950 note 9.

6 'Tunnel system' has the same meaning as in the Channel Tunnel Act 1987 s 1(7): Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1).

7 Public Health (International Trains) Regulations 1994, SI 1994/311, reg 5(b).

8 As to the meaning of 'terminal control point' see PARA 950 note 11.

9 Ie within the meaning of the Channel Tunnel (Customs and Excise) Order 1990, SI 1990/2167: see **CUSTOMS AND EXCISE** vol 12(3) (2007 Reissue) PARA 939.

10 'International station' means a railway station which is an international station for the purposes of the Immigration Act 1971 (see **BRITISH NATIONALITY, IMMIGRATION AND ASYLUM**): Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1) (definition added by SI 1994/1405).

11 Public Health (International Trains) Regulations 1994, SI 1994/311, reg 5(c) (amended by SI 1994/1405).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(6) PRECAUTIONS IN RELATION TO INTERNATIONAL TRAINS/(ii) Controls in relation to International Trains/952. Enforcement authorities.

952. Enforcement authorities.

'Enforcement authority' means, in relation to any place in England or Wales, the authority (or authorities) by whom the Public Health (International Trains) Regulations 1994¹ are to be enforced and executed at that place². Where an enforcement area³ is wholly or mainly situated in the area of a local authority⁴, the regulations are to be enforced and executed by the local authority in whose area the enforcement area is wholly or mainly situated; or, where it is not possible to determine in which local authority area an enforcement area is wholly or mainly situated, by all the authorities in whose area part of the enforcement area is situated⁵. However, where any functions under the regulations are assigned⁶ to a port health authority⁷ in whose area an enforcement area is wholly or mainly situated, the regulations are to be enforced and executed by that port health authority⁸. For certain purposes, the Secretary of State⁹ is also specified as an enforcement authority¹⁰.

'Enforcement authority' means, in relation to any function to be executed and enforced on board any through train¹¹ in accordance with the power to question persons¹², the Secretary of State¹³.

Any reference in the regulations to any measure to be undertaken by an enforcement authority must be construed as subject to a requirement that, wherever possible, the measure is to be undertaken in such a way so as not to disrupt unavoidably the scheduled frequency of a loaded international service¹⁴ or the intended running time of an unloaded international service¹⁵.

1 In the Public Health (International Trains) Regulations 1994, SI 1994/311. The 1994 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885. See also PARA 950.

2 Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1).

3 In the Public Health (International Trains) Regulations 1994, SI 1994/311, reg 10, 'enforcement area' means any place which is designated as a control area in accordance with reg 5 (see PARA 951) or any freight terminal area: reg 10(1). As to the meaning of 'freight terminal area' see PARA 954 note 11.

4 As to the meaning of 'local authority' see PARA 99.

9 As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

10 See the Public Health (International Trains) Regulations 1994, SI 1994/311, reg 10(3). The Secretary of State is specified as an enforcement authority by whom reg 7 (see PARA 954) is to be enforced and executed, in so far as it relates to any place which is designated as a control area in accordance with reg 5 (see PARA 951): reg 10(3).

11 As to the meaning of 'through train' see PARA 951 note 3.

14 As to the meaning of 'international service' see PARA 951 note 2.

15 Public Health (International Trains) Regulations 1994, SI 1994/311, reg 3.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/17. PREVENTION AND CONTROL OF DISEASE/(6) PRECAUTIONS IN RELATION TO INTERNATIONAL TRAINS/(ii) Controls in relation to International Trains/953. Stowaway animals on incoming trains.

953. Stowaway animals on incoming trains.

Where a member of the crew of any international train¹ whose journey terminates in the United Kingdom² becomes aware during the journey of the presence or suspected presence of any stowaway animal³ on board the train, he must report the details of its presence or suspected presence to the train manager⁴.

A train manager (or if he is not on board, the most senior member of the crew) who is aware of the presence or suspected presence of a stowaway animal on board his train must arrange for a message containing those details to be sent to the enforcement authority⁵ for the next stopping place⁶, unless: (1) he gives any notice of rabies or suspected rabies in respect of that animal⁷; or (2) he has already arranged for those details to be sent to the enforcement authority at another stopping place⁸.

Where:

- 2194 (a) the presence of a stowaway animal which is or was capable of carrying rabies, plague or viral haemorrhagic fever⁹ is or has been identified or suspected on board an international train¹⁰; or
- 2195 (b) an international train is or may be contaminated because a stowaway animal which may be or may have been infected with rabies, plague or viral haemorrhagic fever is or has been found on board¹¹,

the enforcement authority at a stopping place may require that the train, together with such of its contents as the authority may reasonably specify, be deratted, disinfested or decontaminated in such a manner and within such a time as the authority may reasonably determine¹². An enforcement authority may require any or all of these measures¹³ to be undertaken elsewhere at a designated customs approved area¹⁴ or a designated shuttle control area¹⁵, if the enforcement authority for that area (if different) agrees¹⁶.

Where an international train has been deratted, disinfested or decontaminated pursuant to these provisions, the train operator of that train must inform the enforcement authority for each area at which the deratting, disinfestation or decontamination was undertaken of any arrangements made for the disposal of any stowaway animal¹⁷. Where (i) the presence of a stowaway animal which is or was capable of carrying rabies, plague or viral haemorrhagic fever is or has been identified or suspected on board an international train; and (ii) an international train has been deratted, disinfested or decontaminated during a journey in advance of any measures being required by an enforcement authority of a stopping place, then the train manager of that train must arrange for any enforcement authority notified in accordance with these provisions¹⁸ to be informed of any arrangements made for the disposal of the stowaway animal¹⁹.

¹ 'International train' means any shuttle train or through train: Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1). As to the meanings of 'shuttle train' and 'through train' see PARA 951 note 3. The 1994 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885. See also PARA 950.

2 As to the meaning of 'United Kingdom' see PARA 1 note 2.

3 'Stowaway animal' means any animal, whether dead or alive, which is on board an international train, except one which: (1) is lawfully being transported through the tunnel system; or (2) is being imported into Great Britain contrary to any order made, or which has effect as if made, under the Animal Health Act 1981 s 10 (see **ANIMALS** vol 2 (2008) PARA 1081); Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1). 'Animal' means: (a) any mammal except man; and (b) any four-footed beast whether or not a mammal: reg 2(1). As to the meaning of 'tunnel system' see PARA 951 note 6. As to the meaning of 'Great Britain' see PARA 1 note 2.

4 Public Health (International Trains) Regulations 1994, SI 1994/311, reg 6(1). 'Train manager' means, in relation to a through train or a shuttle train, the person designated as train manager by the person operating the international service on which the train is engaged: reg 2(1). As to the meaning of 'international service' see PARA 951 note 2.

Certain functions under reg 6 are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see **LOCAL GOVERNMENT** vol 69 (2009) PARA 733. Certain persons or indorsements mentioned in the Public Health (International Trains) Regulations 1994, SI 1994/311, reg 6 are specified for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see **ADMINISTRATIVE LAW**.

Where reference is made in the Public Health (International Trains) Regulations 1994, SI 1994/311, reg 6 to a report to be made to a train manager, or a duty to be performed by a train manager, but a train manager is not travelling on board a particular international train, that report must instead be made to, and that duty must instead be performed by, the most senior member of the crew on board that train: reg 4.

5 As to the meaning of 'enforcement authority' see PARA 952.

6 Public Health (International Trains) Regulations 1994, SI 1994/311, reg 6(2). For the avoidance of doubt, arrangements made in accordance with reg 6(2) may include arrangements whereby a train operator employee who is not on board the train contacts the relevant enforcement authority: reg 6(8). As to the meaning of 'train operator' see PARA 951 note 2.

'Stopping place' means: (1) in relation to a shuttle train which enters the United Kingdom, a designated shuttle control area; (2) in relation to a through train which enters the United Kingdom as part of a passenger service, a designated terminal control point or a designated international station; (3) in relation to a through train which enters the United Kingdom as part of a freight service, a designated customs approved area: reg 2(1) (definition amended by SI 1994/1405).

'Designated shuttle control area' means a part of the tunnel system which has been designated as a control area in accordance with the Public Health (International Trains) Regulations 1994, SI 1994/311, reg 5(b) (see PARA 951): reg 2(1).

'Passenger service' means any international service:

163 (a) which uses rolling stock designed for the carriage of passengers by way of the tunnel system; or

164 (b) which comprises solely of a locomotive which is used by a train operator for moving such rolling stock,

other than a shuttle service: reg 2(1). As to the meaning of 'rolling stock' see PARA 954 note 2. 'Shuttle service' has the same meaning as in the Channel Tunnel Act 1987 s 1(9): Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1).

'Designated terminal control point' means a terminal control point which has been designated as a control area in accordance with reg 5(c)(i) (see PARA 951 head (3)(a)): reg 2(1).

'Designated international station' means an international station which has been designated as a control area in accordance with reg 5(c)(iii) (see PARA 951 head (3)(c)): reg 2(1) (definition added by SI 1994/1405). As to the meaning of 'international station' see PARA 951 note 10.

'Freight service' means any international service other than a shuttle service or a passenger service: Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1).

'Designated customs approved area' means a customs approved area which has been designated as a control area in accordance with reg 5(c)(ii): (see PARA 951): reg 2(1).

PREVENTION AND CONTROL OF DISEASE/(6) PRECAUTIONS IN RELATION TO INTERNATIONAL TRAINS/(ii) Controls in relation to International Trains/954. Records in relation to rolling stock.

954. Records in relation to rolling stock.

A train operator¹ must compile and maintain records in relation to all rolling stock² which is or has been used by him in an international service³, and those records must contain the following particulars:

- 2196 (1) any reports known to the operator (including any reports known to a train manager⁴ employed by the train operator) of: (a) the presence or suspected presence of any stowaway animal⁵ on board that rolling stock; or (b) any signs of damage to that rolling stock caused or suspected of being caused by a stowaway animal⁶;
- 2197 (2) any measures taken (including measures taken pursuant to another enactment) to derat, disinfest or decontaminate rolling stock as a result of the presence or suspected presence of any stowaway animal, including any arrangements made for the disposal of any stowaway animal⁷.

A train operator must make the records available for inspection by an enforcement authority⁸ at whichever designated customs approved area⁹, designated shuttle control area¹⁰ or freight terminal area¹¹ is the most appropriate such area for carrying out such an inspection¹².

1 As to the meaning of 'train operator' see PARA 951 note 2.

2 'Rolling stock' includes any railway vehicle, but does not include: (1) any vehicle other than a railway vehicle; or (2) any tank, container, pallet, package, fixture or fitting which is not an integral part of a railway vehicle: Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1). The 1994 Regulations are made under the Public Health (Control of Disease) Act 1984 s 13 (prospectively repealed): see PARA 885. See also PARA 950.

955. Sick travellers on incoming trains.

Where the train manager¹ of an international train² whose journey terminates in the United Kingdom³ (or, if he is not on board, the most senior member of the crew) becomes aware during the journey that there is on board a sick traveller⁴, on or before arrival at the next stopping place⁵ he must arrange for the enforcement authority⁶ for that stopping place to be provided:

- 2198 (1) if the sick traveller is still on board the train, with details of the sick traveller's presence and whereabouts⁷;
- 2199 (2) if the sick traveller is no longer on board the train, with details of the circumstances in which: (a) the sick traveller was identified as a sick traveller; and (b) the sick traveller alighted from or was removed from the train⁸,

unless he has already reported those details to the enforcement authority at another stopping place⁹.

The enforcement authority at the stopping place notified in accordance with these provisions may require the disinfection or decontamination, in such a manner and within such a time as the authority may reasonably determine, of: (i) any article on board the train; or (ii) any rolling stock¹⁰, which the enforcement authority considers may be infested or contaminated¹¹. An enforcement authority may require any or all of these measures¹² to be undertaken elsewhere at a designated customs approved area¹³ or a designated shuttle control area¹⁴, if the enforcement authority for that area (if different) agrees¹⁵.

4 'Sick traveller' means a person on an international train who has a serious epidemic, endemic or infectious disease, or in relation to whom there are reasonable grounds for suspecting that he has such a disease: Public Health (International Trains) Regulations 1994, SI 1994/311, reg 2(1). 'Serious epidemic, endemic or infectious disease' does not include venereal disease or infection with human immunodeficiency virus: reg 2(1). not travelling on board a particular international train, that report must instead be made to, and that duty must instead be performed by, the most senior member of the crew on board that train: reg 4.

For the avoidance of doubt, arrangements made in accordance with reg 8(1) may include arrangements whereby a train operator employee who is not on board the train contacts the relevant enforcement authority: reg 8(5). As to the meaning of 'train operator' see PARA 951 note 2.

Where there are reasonable grounds for suspecting that there is a significant danger to public health because a person either is believed to be a sick traveller¹ or may have been exposed to infection with a serious epidemic, endemic or infectious disease², an enforcement authority³ may require him while he is on or when he alights from an international train⁴: (1) to answer in a control area questions pertaining to his current state of health or his contact with the possible source of infection⁵; (2) to answer in writing in a control area questions about his name, address and intended destination⁶.

Local housing authorities¹ have powers of regulation in respect of houses in multiple occupation², and may in particular require the execution of works to remedy defects caused by neglect of management³ and to render the premises fit for the number of occupants⁴, and prevent overcrowding⁵.

A local authority⁶ may make byelaws⁷ for securing decent lodging and accommodation for persons engaged temporarily in picking, gathering or lifting hops, fruit, flowers, bulbs, roots or vegetables⁸.

958. Meaning of 'common lodging house'.

'Common lodging house' means a house¹ provided for the purpose of accommodating by night poor persons, not being members of the same family, who resort to it and are allowed to occupy one common room for the purpose of sleeping or eating². If part only of a house is used, that part is a common lodging house³.

1 As to the meaning of 'house' see PARA 1 note 34.

2 Public Health (Control of Disease) Act 1984 s 74(1). This definition is repealed by the Health and Social Care Act 2008 Sch 11 paras 1, 29(1), (7)(b), Sch 15 Pt 3 as from a day to be appointed under s 170. At the date at which this volume states the law no such day had been appointed. See also PARA 884 note 2, and PARAS 959, 964. The definition is exhaustive, and as it makes no reference to the terms of letting or the manner of payment, premises otherwise within the definition are not excluded from it by reason of any special terms in this regard which may be made: *People's Hostels Ltd v Turley* [1939] 1 KB 149, [1938] 4 All ER 72, DC (decided under earlier legislation). Earlier cases determining that payment was an essential ingredient are now irrelevant in view of the present statutory definition. The statutory definition specifically excludes any public assistance institution, but this phrase is now meaningless as a result of the successive changes in the law obliging authorities to provide accommodation for the homeless (see the Housing Act 1996 Pt VII (ss 175-218); and **HOUSING** vol 22 (2006 Reissue) PARA 244 et seq) or for the aged, infirm or those in need of care or attention (see the National Assistance Act 1948 Pt III (ss 21-35); and **SOCIAL SERVICES AND COMMUNITY CARE** vol 44(2) (Reissue) PARA 1029 et seq). If there is no community of accommodation for either sleeping or eating, the house cannot be a common lodging house: *LCC v Hankins* [1914] 1 KB 490, DC (decided under earlier legislation).

959. Infectious diseases in common lodging houses.

Where a person in a common lodging house¹ is suffering from any infectious disease, the keeper of the lodging house must immediately give notice² of the case to the local authority³ for the district⁴. The local authority must, if possible on the day on which it receives such a notice and in any case within 48 hours after the receipt of the notice, send a copy of the notice to the primary care trust or local health board within whose area the lodging house is situated⁵.

If the proper officer⁶ of the local authority has reasonable grounds for believing that there is in a common lodging house a person who is suffering, or has recently suffered, from a notifiable disease⁷, he may make complaint upon oath to a justice of the peace; and the justice may by warrant authorise the proper officer to enter the lodging house and examine any person found in it with a view to ascertaining whether he is suffering, or has recently suffered, from a notifiable disease⁸.

If a local authority is satisfied that:

- 2200 (1) a person in a common lodging house is suffering from a notifiable disease⁹;
and
- 2201 (2) serious risk of infection is thereby caused to other persons¹⁰; and
- 2202 (3) accommodation is available for him in a suitable hospital¹¹,

the local authority may, with the consent of the primary care trust or local health board in whose area the common lodging house is situated, order that person to be removed to the hospital¹².

A magistrates' court may make an order directing a common lodging house to be closed until it is certified by the proper officer of the local authority for the district to be free from infection where the court is satisfied, on the application of the local authority, that closure is necessary in the interests of public health on account of the existence or recent occurrence of a case of notifiable disease in the lodging house¹³.

4 Public Health (Control of Disease) Act 1984 s 39(1). A keeper of a common lodging house who fails to comply with s 39(1) is liable on summary conviction to a fine not exceeding level 1 on the standard scale and to a further fine not exceeding £2 for every day on which the offence continues after conviction: s 39(2). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142. Sections 39-42 are repealed by the Health and Social Care Act 2008 Sch 15 Pt 3 as from a day to be appointed under s 170. At the date at which this volume states the law no such day had been appointed. See also PARA 884 note 2.

The keeper must ascertain when any case occurs which makes it his duty to give notice under these provisions: *Logsdon v Holland* (1898) 14 TLR 449, DC (decided under earlier legislation).

'Movable dwelling' includes any tent, any van or other conveyance, whether on wheels or not, and any shed or similar structure (other than a structure to which building regulations¹ apply²), being a tent, conveyance or structure which is used either regularly, or at certain seasons only, or intermittently, for human habitation³.

However, the provisions controlling the use of movable dwellings⁴ do not apply:

- 2203 (1) to a movable dwelling which is kept by its owner on land occupied by him⁵ in connection with his dwelling house and is used for habitation only by him or by members of his household⁶;
- 2204 (2) to a movable dwelling which is kept by its owner on agricultural land occupied by him and is used for habitation only at certain seasons and only by persons employed in farming operations on that land⁷;
- 2205 (3) to a movable dwelling while it is not in use for human habitation and is being kept on premises⁸ the occupier of which permits no movable dwellings to be kept there except such as are for the time being not in use for human habitation⁹;
- 2206 (4) to caravans¹⁰.

'Caravan' means any structure designed or adapted for human habitation, which is capable of being moved from one place to another, whether by being towed or by being transported on a motor vehicle or trailer, and any motor vehicle so designed or adapted, but does not include any railway rolling stock for the time being on rails forming part of a railway system, or any tent: s 29(1). Certain twin-unit caravans are excluded from this definition: see the Caravan Sites Act 1968 s 13(2) (amended by SI 2006/2374; and SI 2007/3163). 961. Licensing of movable dwellings.

For the purpose of regulating the use of certain classes of movable dwellings¹ within its district², a local authority may grant³: (1) licences authorising persons to allow land occupied⁴ by them within the district to be used as sites for movable dwellings⁵; and (2) licences authorising persons to erect or station, and use, such dwellings within the district⁶. Such a licence does not amount to planning permission⁷, which is normally required where land is developed by bringing movable dwellings onto it⁸. Such conditions may be attached to a licence as the local authority thinks fit⁹; but where an application for a licence is made to a local authority, the authority is deemed to have granted it unconditionally unless within four weeks from its receipt the authority gives notice to the applicant stating that his application is refused, or stating the conditions subject to which the licence is granted¹⁰. An applicant who is aggrieved¹¹ by the refusal of a licence or by any condition attached to a licence may appeal to a magistrates' court¹².

1 As to the meaning of 'movable dwelling', and the classes of movable dwelling to which these provisions do not apply, see PARA 960.

2 As to the meaning of 'district' see PARA 101 note 8. The Public Health Act 1936 s 269 does not apply to any district in which on 1 October 1937 (ie the commencement date of the Public Health Act 1936) there was in force a local Act containing provisions enabling the local authority to regulate, by means of byelaws or licences or otherwise, the use of movable dwellings or camping grounds (s 269(9)); but, on the application of the local authority, the Secretary of State may declare s 269 to be in force in its district instead of the local Act provisions (see s 269(9) proviso). As to the meaning of 'local authority' see PARA 99. As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

3 In exercising its discretion whether to grant a licence, the authority must consider the application only from the point of view of matters relating to health and sanitation; it is not concerned with town and country planning matters (*Pilling v Abergele UDC* [1950] 1 KB 636, [1950] 1 All ER 76, DC), or with questions of contract between the owner and the occupier (*Chertsey UDC v Mixnam's Properties Ltd* [1965] AC 735, [1964] 2 All ER 627, HL (a decision on an application under the Caravan Sites and Control of Development Act 1960 s 3)).

9 See the Public Health Act 1936 s 269(1). In the case of a licence authorising the use of land, conditions may be attached as to the number and classes of movable dwellings which may be kept on the land at the same time, and the space to be kept free between any two such dwellings, with respect to water supply, and for securing sanitary conditions (see s 269(1)(a)); and, in the case of a licence authorising the use of a movable dwelling, conditions may be attached with respect to its use (including the space to be kept free between it and any other such dwelling) and its removal at the end of a specified period, and for securing sanitary conditions (see s 269(1)(b)).

962. Exemption of camping organisations.

The Secretary of State¹ may grant a certificate of exemption to an organisation which satisfies him that it takes reasonable steps for securing: (1) that camping sites belonging to or provided by it, or used by its members², are properly managed and kept in good sanitary condition³; and (2) that movable dwellings⁴ used by its members are so used as not to give rise to any nuisance⁵. Such a certificate may be withdrawn at any time, but while it is in force it has the effect of a licence⁶: (a) authorising the use as a site for movable dwellings of any camping ground belonging to, provided by or used by members of the organisation⁷; (b) authorising any member of the organisation to erect or station on any site, and use, a movable dwelling⁸.

963. Offences.

A person may not allow any land occupied¹ by him to be used for camping purposes² on more than 42 consecutive days³ or more than 60 days in any 12 consecutive months, unless either he holds a licence⁴ in respect of the land or each person using the land as a site for a movable dwelling holds a licence⁵ in respect of that dwelling⁶.

Similarly, a person may not keep a movable dwelling on any one site, or on two or more sites in succession, if any one of those sites is within 100 yards of another of them on more than 42 consecutive days⁷, or 60 days in any 12 consecutive months, unless either he holds a licence⁸ in respect of that dwelling or the occupier of each piece of land on which the dwelling is kept holds a licence⁹ in respect of that land¹⁰.

A person who contravenes any of these provisions¹¹, or fails to comply with any condition¹² attached to a licence, is liable to a penalty¹³.

1 As to the meaning of 'land' see PARA 1 note 34. As to the meaning of 'occupied' see PARA 960 note 5.

2 Land which is in the occupation of the same person as, and within 100 yards of, a site on which there is during any part of a day a movable dwelling is regarded as being used for camping purposes on that day: Public Health Act 1936 s 269(2). As to the meaning of 'movable dwelling' see PARA 960. Separate provisions apply to caravan sites: see PARA 960 note 10.

3 For the purpose of reckoning the 42 day period referred to in the Public Health Act 1936 s 269(2), (3), if a movable dwelling is removed from the site on which it stands, but within 48 hours is brought back to the same site or to another site within 100 yards of it, it is deemed not to have been removed or, as the case may be, to have been moved direct from the one site to the other: s 269(8)(iii).

964. Byelaws as to tents, vans, sheds, etc.

A local authority¹ may make byelaws² for promoting cleanliness in, and the habitable condition of, tents, vans, sheds and similar structures used for human habitation, and generally for the prevention of nuisances in connection with them³. A local authority may also make byelaws for preventing the spread of infectious disease by the occupants or users of tents, vans, sheds and similar structures used for human habitation⁴.

A court before which proceedings are brought for contravention of the byelaws may make an order prohibiting the use for human habitation of the tent, van, shed or other structure in question at such places, or within such area, as may be specified in the order⁵.

965. Statutory nuisances.

A tent, van, shed, or similar structure used for human habitation:

- 2207 (1) which is in such a state, or so overcrowded, as to be prejudicial to the health¹ of the inmates²; or
- 2208 (2) the use of which, by reason of the absence of proper sanitary accommodation or otherwise, gives rise, whether on the site or on other land, to a nuisance or to conditions prejudicial to health³,

is a statutory nuisance⁴.

Where such a nuisance as is mentioned in head (2) above is alleged to arise, wholly or in part, from the use for human habitation of any tent, van, shed or similar structure, then, without prejudice to the liability of the occupants or other users, an abatement notice⁵ may be served on, and proceedings may be taken against⁶, the occupier⁷ of the land⁸ on which the tent, van, shed or other structure is erected or stationed⁹. It is a defence for the occupier to prove that he did not authorise the tent, van, shed or other structure to be stationed or erected on the land¹⁰.

A court before which proceedings are brought in respect of a statutory nuisance caused by, or arising in connection with, a tent, van, shed or similar structure used for human habitation may make an order prohibiting the use for human habitation of the tent, van, shed or other structure in question at such places, or within such areas, as may be specified in the order¹¹.

(3) CANAL BOATS

967. Canal boats regulations.

It is the duty of the Secretary of State¹ to make regulations²: (1) for fixing the number, age and sex of persons who may be permitted to dwell in canal boats³, regard being had to cubic space, ventilation, provision for the separation of the sexes, general healthiness and convenience of accommodation⁴; (2) for promoting cleanliness in, and ensuring the habitable condition of, canal boats⁵; and (3) for preventing the spread of infectious disease by canal boats⁶.

¹ As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

² The power to make the regulations is exercisable by statutory instrument, which is subject to annulment in pursuance of a resolution of either House of Parliament: Public Health (Control of Disease) Act 1984 s 49(2). At the date at which this volume states the law no such regulations had been made under s 49(2) but, by virtue of the Interpretation Act 1978 s 17(2)(b), the Canal Boats Regulations 1878, dated 20 March 1878, have effect as if made under these provisions.

³ 'Canal boat' means any vessel, however propelled, which is used for the conveyance of goods along a canal, not being: (1) a sailing barge which belongs to the class generally known as 'Thames sailing barge' and is registered under the Merchant Shipping Act 1995, either in the Port of London or elsewhere; or (2) a sea-going ship so registered; or (3) a vessel used for pleasure purposes only: Public Health (Control of Disease) Act 1984 s 53 (definition amended by the Merchant Shipping Act 1995 Sch 13 para 69). As to registration under the Merchant Shipping Act 1995 see **SHIPPING AND MARITIME LAW** vol 93 (2008) PARA 245 et seq. 'Canal' includes any river, inland navigation or lake, and any other waters situated wholly or partly within a county or county borough, whether those waters are or are not within the ebb and flow of the tide: Public Health (Control of Disease) Act 1984 s 53 (definition amended by the Local Government (Wales) Act 1994 Sch 9 para 13).

⁴ Public Health (Control of Disease) Act 1984 s 49(1)(a). The regulations provide among other things for 60 cubic feet of free air space for every person above the age of 12 and 40 cubic feet for every person under that age, or 180 cubic feet for two adults sleeping at the same time where four persons work and sleep in shifts: see the Canal Boats Regulations 1878, dated 20 March 1878, reg 8.

⁵ Public Health (Control of Disease) Act 1984 s 49(1)(b). The regulations: (1) require interior paintwork to be thoroughly renewed every three years (see the Canal Boats Regulations 1878, dated 20 March 1878, reg 9); (2) require at least daily pumping of bilge water (see reg 10); and (3) require cabins to be kept clean and habitable (see reg 11).

⁶ Public Health (Control of Disease) Act 1984 s 49(1)(c). Section 49(1)(c) (and the word 'and' preceding it) are repealed by the Health and Social Care Act 2008 Sch 11 paras 1, 8(b), Sch 15 Pt 3 and at the date at which this volume states the law this repeal is only in force so far as it confers power to make subordinate legislation. See PARA 884 note 2.

The regulations require the master to notify the local authority and the owner of the boat if any person on board is seriously ill or evidently suffering from an infectious disease (see the Canal Boats Regulations 1878, dated 20 March 1878, reg 12) and make provision as to certificates of cleansing and disinfection (see reg 13; and PARA 969 note 7).

968. Offences against canal boats regulations.

If any regulation¹ is not complied with as respects a canal boat², the master³ of the boat and also the owner⁴, if he is himself in default, are liable on summary conviction to a penalty⁵. Proceedings may be taken before a magistrates' court acting either in the place where the offence was committed or in the place where the alleged offender for the time being is⁶.

1 As to the regulations see PARA 967.

2 As to the meaning of 'canal boat' see PARA 967 note 3.

3 'Master', in relation to a canal boat, means the person having command or charge of the boat: Public Health (Control of Disease) Act 1984 s 53.

4 'Owner', in relation to a canal boat, includes the person who, though only the hirer of the boat, appoints the master and other persons working the boat: Public Health (Control of Disease) Act 1984 s 53.

5 Public Health (Control of Disease) Act 1984 s 49(3). The penalty is a fine not exceeding level 1 on the standard scale, and a further fine not exceeding £2 for each day after conviction on which the non-compliance continues: see s 49(3). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

6 Public Health (Control of Disease) Act 1984 s 52. Section 52 is repealed by the Health and Social Care Act 2008 Sch 11 paras 1, 11, Sch 15 Pt 3 as from a day to be appointed under s 170. At the date at which this volume states the law no such day had been appointed. See also PARA 884 note 2.

969. Infectious diseases on canal boats.

A local authority¹ or port health authority², on being informed that any person on a canal boat³ within its district is suffering from an infectious disease, must cause such steps to be taken for preventing the spread of the disease as it considers to be necessary⁴. For that purpose, the authority may exercise any of the powers in relation to the prevention of infection conferred upon it by the Public Health (Control of Disease) Act 1984⁵, including powers for procuring the removal to hospital of persons suffering from an infectious disease⁶, and may also, if need be, detain the boat, but not for any longer period than is necessary for cleansing and disinfecting it⁷.

971. Entry and inspection of canal boats.

An inspector appointed by the Secretary of State¹ may enter a canal boat² at any time between 6 am and 9 pm and examine every part of the boat, and may, if need be, detain the boat for the purpose of his examination, but not for any longer period than is necessary³. If an authorised officer⁴ of a local authority⁵ or port health authority⁶ has reasonable ground for believing that any provision of the regulations relating to canal boats⁷ is being contravened as respects a canal boat⁸ or that there is on board a canal boat any person suffering from an infectious disease⁹, he has similar rights of entering, examining and if necessary detaining the boat for the purpose of ascertaining whether there is any such contravention or any person on board suffering from an infectious disease¹⁰. The master¹¹ of a canal boat must, if required by such an inspector or officer, furnish him with such assistance and means as he may require for the purpose of his entry on and departure from the boat and his examination of it¹².

19. LICENSING AND CLEANLINESS OF CERTAIN PREMISES

(1) IN GENERAL

972. In general.

There are various provisions relating to the cleanliness of premises which are dealt with elsewhere in this work. These include, for example, provisions relating to food hygiene¹; the cleansing and disinfection of places used for animals²; the conduct of residential care homes³; and provisions relating to health and safety at places of work⁴.

Application of provisions relating to acupuncture, tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis.

(2) ACUPUNCTURE, TATTOOING, SEMI-PERMANENT SKIN-COLOURING, COSMETIC PIERCING AND ELECTROLYSIS

973. Application of provisions relating to acupuncture, tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis.

A local authority¹ may resolve that provisions relating to acupuncture and tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis² are to apply to its area; and if a local authority does so resolve, the provisions specified in the resolution are to come into force in its area on the day specified in that behalf in the resolution (which must not be before the expiration of the period of one month beginning with the day on which the resolution is passed)³.

A local authority must publish notice that it has passed such a resolution in two consecutive weeks in a local newspaper circulating in its area⁴. The notice must state which provisions are to come into force in that area⁵.

1 As to the meaning of 'local authority' see PARA 99.

2 I.e. the provisions of the Local Government (Miscellaneous Provisions) Act 1982 ss 14, 16, 17; or the provisions of ss 15, 16, 17; or the provisions of ss 14, 15, 16, 17: see s 13(2), (3). As to these provisions see PARAS 974-977.

3 Local Government (Miscellaneous Provisions) Act 1982 s 13(1), (2). A resolution which provides that s 15 (see PARA 975) is to apply to the area of a local authority need not provide that it is to apply to all the descriptions of persons specified in s 15(1) (see PARA 975); and if such a resolution does not provide that s 15 is to apply to persons of all of those descriptions, the reference in s 13(2) to the coming into force of provisions specified in the resolution is to be construed, in its application to s 15, and to s 16 (see PARA 976) so far as it has effect for the purposes of s 15, as a reference to the coming into force of those provisions only in relation to persons of the description or descriptions specified in the resolution: s 13(4). If a resolution provides for the coming into force of s 15 in relation to persons of more than one of the descriptions specified in s 15(1), the resolution may provide that that provision, and s 16 so far as it has effect for the purposes of that provision, are to come into force on different days in relation to persons of each of the descriptions specified in the resolution: s 13(5).

4 Local Government (Miscellaneous Provisions) Act 1982 s 13(6). The first publication must not be later than 28 days before the day specified in the resolution for the coming into force of the provisions specified in it in the local authority's area: s 13(7).

5 Local Government (Miscellaneous Provisions) Act 1982 s 13(8). The notice must also: (1) if the resolution provides for the coming into force of s 14 (see PARA 974), explain that that provision applies to persons carrying on the practice of acupuncture; and (2) if the resolution provides for the coming into force of s 15 (see PARA 975), specify the descriptions of persons in relation to whom that provision is to come into force: s 13(9).

Any such notice must state the general effect, in relation to persons to whom the provisions specified in the resolution will apply, of the coming into force of those provisions: s 13(10).

Registration and cleanliness in relation to the practice of acupuncture.

974. Registration and cleanliness in relation to the practice of acupuncture.

A person must not in any area in which these provisions are in force¹ carry on the practice of acupuncture² unless he is registered by the local authority³ for the area under these provisions⁴. A person may only carry on the practice of acupuncture in any area in which these provisions are in force in premises registered by the local authority for the area under these provisions⁵, although a person who is registered does not contravene this provision merely because he sometimes visits people to give them treatment at their request⁶.

On application for registration under these provisions, a local authority must register the applicant and the premises where he desires to practise and must issue to the applicant a certificate of registration⁷. An application for registration must be accompanied by such particulars as the local authority may reasonably require⁸. A local authority may charge such reasonable fees as it may determine for registration under these provisions⁹.

A local authority may make byelaws for the purpose of securing:

- 2209 (1) the cleanliness of registered premises and fittings in such premises¹⁰;
- 2210 (2) the cleanliness of registered persons and persons assisting registered persons in their practice¹¹;
- 2211 (3) the cleansing and, so far as is appropriate, the sterilisation of instruments, materials and equipment used in connection with the practice of acupuncture¹².

1 See PARA 973.

2 Nothing in the Local Government (Miscellaneous Provisions) Act 1982 s 14 extends to the practice of acupuncture by or under the supervision of a person who is registered as a medical practitioner or a dentist or to premises on which the practice of acupuncture is carried on by or under the supervision of such a person: s 14(8). Registration and cleanliness in relation to tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis.

975. Registration and cleanliness in relation to tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis.

A person must not in any area in which these provisions are in force¹ carry on the business of tattooing, of semi-permanent skin-colouring, of cosmetic piercing, or of electrolysis, unless he is registered by the local authority² for the area under these provisions³. A person may only carry on such a business in any area in which these provisions are in force in premises registered under these provisions for the carrying on of that business⁴, although a person who carries on the business of tattooing, semi-permanent skin-colouring, cosmetic piercing or electrolysis and is registered as carrying on that business does not contravene this provision merely because he sometimes visits people at their request to tattoo them or, as the case may be, to carry out semi-permanent colouring on them, pierce their bodies or give them electrolysis⁵.

On application for registration under these provisions, a local authority must register the applicant and the premises where he desires to carry on his business and must issue to the applicant a certificate of registration⁶. An application for registration must be accompanied by such particulars as the local authority may reasonably require⁷. A local authority may charge such reasonable fees as it may determine for registration under these provisions⁸.

A local authority may make byelaws for the purposes of securing:

- 2212 (1) the cleanliness of registered premises and fittings in such premises⁹;
- 2213 (2) the cleanliness of registered persons and persons assisting registered persons in the business in respect of which they are registered¹⁰;
- 2214 (3) the cleansing and, so far as is appropriate, the sterilisation of instruments, materials and equipment used in connection with a business in respect of which a person is registered under these provisions¹¹.

Nothing in the Local Government (Miscellaneous Provisions) Act 1982 s 15 extends to the carrying on of a business such as is mentioned in s 15(1) by or under the supervision of a person who is registered as a medical practitioner or to premises on which any such business is carried on by or under the supervision of such a person: s 15(8). Offences and penalties in relation to acupuncture, tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis.

976. Offences and penalties in relation to acupuncture, tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis.

Any person who contravenes the registration requirements in relation to acupuncture, tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis¹ is guilty of an offence and liable on summary conviction to a fine².

Any person who contravenes a byelaw made under the provisions relating to acupuncture, tattooing, semi-permanent skin-colouring, cosmetic piercing and electrolysis³ is guilty of an offence and liable on summary conviction to a fine⁴. If a registered person⁵ is found guilty of such an offence, the court, instead of or in addition to imposing a fine, may order the suspension or cancellation of his registration⁶. A court which orders the suspension or cancellation of a person's registration⁷ may also order the suspension or cancellation of any registration⁸ of the premises in which the offence was committed, if the premises are occupied by the person found guilty of the offence⁹.

Where the registration of any person¹⁰ is cancelled by order of the court under these provisions:

2215 (1) he must within seven days deliver up to the local authority¹¹ the cancelled certificate of registration, and, if he fails to do so, he is guilty of an offence and liable on summary conviction to a fine¹²; and

2216 (2) he must not again be registered by the local authority except with the consent of the magistrates' court which convicted him¹³.

A person registered under Part VIII of the Local Government (Miscellaneous Provisions) Act 1982¹⁴ must keep a copy of any certificate of registration issued to him¹⁵ and of any byelaws¹⁶ relating to the practice or business in respect of which he is so registered prominently displayed at the place where he carries on that practice or business¹⁷. A person who contravenes this provision is guilty of an offence and liable on summary conviction to a fine¹⁸.

It is a defence for a person charged with an offence under these provisions¹⁹ to prove that he took all reasonable precautions and exercised all due diligence to avoid commission of the offence²⁰.

An authorised officer of a local authority¹ may enter any premises in the authority's area if he has reason to suspect that an offence² is being committed there³. This power may be exercised by an authorised officer of a local authority only if he has been granted a warrant by a justice of the peace⁴.

Where an authorised officer of a local authority exercises this power, he must produce his authority if required to do so by the occupier of the premises⁵.

A warrant may not be granted unless the justice is satisfied either that notice of the intention to apply for a warrant has been given to the occupier, or that the case is one of urgency, or that the giving of such notice would defeat the object of the entry: s 17(4). A warrant continues in force: (a) for seven days; or (b) until the power conferred by s 17 has been exercised in accordance with the warrant, whichever period is the shorter: s 17(5).

LICENSING AND CLEANLINESS OF CERTAIN PREMISES/(3) ESTABLISHMENTS FOR SPECIAL TREATMENTS/978. Regulation of establishments for special treatment in London.

(3) ESTABLISHMENTS FOR SPECIAL TREATMENTS

978. Regulation of establishments for special treatment in London.

An establishment for special treatment means any premises used, intended to be used or represented as being used for the reception or treatment of persons requiring massage; manicure; acupuncture; tattooing; cosmetic piercing; chiropody; light, electric or other special treatment of a like kind; or vapour, sauna or other baths¹.

The law relating to the regulation of establishments for special treatment in London was originally contained in the London County Council (General Powers) Act 1920. This has now been replaced by the London Local Authorities Act 1991, which Act, however, only comes into force as it is adopted by each London borough council by resolution of that council. The body of law which applies is therefore dependent upon the identity of the London borough in which the relevant premises are situated, and it is necessary to ascertain from the relevant council which statutory regime applies within its area².

Part II of the London Local Authorities Act 1991³ applies to a borough from such day as may be fixed in relation to that borough by resolution of the borough council⁴. Subject to certain exceptions⁵, it is not lawful for any premises to be used as an establishment for special treatment in a London borough except under and in accordance with a special treatment licence granted by the borough council⁶. Provision is made as to the procedure for applications, and as to the grant, renewal and transfer of licences⁷. Licences may also be varied⁸, refused, revoked, transmitted or cancelled⁹. There is a right of appeal¹⁰. The borough council has power to make regulations prescribing standard terms, conditions and restrictions applicable to all, or any class of, licences¹¹. Contravention of the licensing requirements in Part II is an offence¹².

Where the relevant provisions of the London Local Authorities Act 1991 are not in force, it is not lawful, subject to certain exceptions¹³, for any person to carry on an establishment for massage or special treatment in Greater London¹⁴ without a licence¹⁵. Provision is made as to the procedure for applications, and the grant, renewal and revocation of licences¹⁶. Provision is also made as to the procedure for appeals¹⁷. There is a power to make byelaws¹⁸. Contravention of the licensing requirements is an offence¹⁹.

For the purposes of the provision, laying down or maintenance in any street of any such pipes or apparatus: (1) the authority is entitled in relation to any such pipes or apparatus to exercise the same powers as, for the purpose of carrying out its functions, are conferred on a water undertaker in relation to relevant pipes by the Water Industry Act 1991 s 158 (see **WATER AND WATERWAYS** vol 101 (2009) PARA 462); and (2) the provisions of the Water Industry Act 1991 apply, with the necessary modifications, in relation to the power conferred by virtue of head (1) above as they apply in relation to the power conferred by s 158: Public Health Act 1936 s 227 (as so amended). As to the meaning of 'street' see PARA 1004 note 9; definition applied by the Public Health Act 1936 s 227 (as so amended). As to street works see **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 146 et seq. The Public Health Act 1875 s 153 (which relates to the power to require gas and water pipes to be moved) (see **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 400), applies for the purposes of the Public Health Act 1936 as it applies for the purposes of the Public Health Act 1875: Public Health Act 1936 s 282.

981. Provision of swimming pools.

A local authority¹ may provide, inside or outside its area, such recreational facilities as it thinks fit, including indoor and outdoor swimming pools².

A local authority may make grants or loans to voluntary organisations³ towards their expenses incurred or to be incurred in providing any recreational facilities which the authority has power to provide, and may also make grants towards the expenses incurred by other local authorities in providing such facilities⁴.

¹ As to the meaning of 'local authority' see PARA 99. The Local Government (Miscellaneous Provisions) Act 1976 s 19 has effect as if the powers conferred by that provision on local authorities were also conferred, so as to be exercisable within a national park for which a national park authority is the local planning authority, on that authority: Environment Act 1995 s 70, Sch 9 para 8. As to national park authorities see **OPEN SPACES AND COUNTRYSIDE** vol 78 (2010) PARA 526 et seq.

² See the Local Government (Miscellaneous Provisions) Act 1976 s 19(1)(a), (b); and **LOCAL GOVERNMENT** vol 69 (2009) PARA 595.

³ 'Voluntary organisation' means any person carrying on or proposing to carry on an undertaking otherwise than for profit: Local Government (Miscellaneous Provisions) Act 1976 s 19(3).

982. Management.

A local authority¹ may make such charges for the use of, or for admission to, any baths or washhouse under its management as it thinks fit².

Any statutory undertakers³ supplying water or electricity may supply water or electricity to any public baths, washhouse, swimming bath or bathing place, either without charge or on such other favourable terms as they think fit⁴.

Any baths, washhouse, swimming bath or bathing place under the management of a local authority are deemed to be public and open places for the purposes of enactments relating to offences against decency⁵.

A local authority may temporarily close to the public any swimming bath or bathing place under its management, and may⁶: (1) grant, either gratuitously or for payment, the exclusive use of it to a school or club, or to persons organising swimming practices or contests, aquatic sports or similar entertainments⁷; or (2) use it itself for such practices, contests, sports or entertainments⁸.

1 As to the meaning of 'local authority' see PARA 99.

2 Public Health Act 1936 s 222(1) (amended by the Local Government (Miscellaneous Provisions) Act 1976 s 19(6)). One month at least before fixing any charges to be made under the Public Health Act 1936 s 222, the local authority must publish by advertisement in a local newspaper circulating in its district a notice stating its intention to consider a proposed table of charges and naming a place where a copy of the proposed table may be inspected at all reasonable hours by any person free of charge: s 222(2).

3 The Environment Agency, every water undertaker and every sewerage undertaker are deemed to be statutory undertakers, and their undertakings statutory undertakings, for the purposes of the Public Health Act 1936: Water Act 1989 s 190(1), Sch 25 para 1(1), (2)(ii) (amended by SI 1996/593). As to the Environment Agency see PARA 68 et seq. As to water undertakers see **WATER AND WATERWAYS** vol 100 (2009) PARA 134 et seq; and as to sewerage undertakers see PARA 999. The holder of a licence under the Electricity Act 1989 s 6(1) (see **FUEL AND ENERGY** vol 19(2) (2007 Reissue) PARA 1065) is deemed to be a statutory undertaker, and his undertaking a statutory undertaking, for the purposes of the Public Health Act 1936: Electricity Act 1989 s 112(1), Sch 16 para 1(1)(ii).

4 Public Health Act 1936 s 229 (amended by the Gas Act 1995 Sch 4 para 3, Sch 6). A local authority may construct works to supply water for its own use even if there is already a statutory supply: see *West Surrey Water Co v Chertsey Union Guardians* [1894] 3 Ch 513; but see *Southport Corp'n v A-G* [1924] AC 909, HL.

983. Use of swimming baths in winter.

A local authority¹ may, during any period between 1 October and 30 April, close any swimming bath or bathing place under its management, and may, at any time when it is closed, use it, or allow it to be used, or let it, for such purposes and upon such conditions as the authority thinks fit, and may adapt it for the purpose of so using or letting it². The power of the local authority to make byelaws³ extends to the making of byelaws with respect to a swimming bath or bathing place when used for any authorised purpose⁴.

Nothing in the above provisions⁵ authorises the use of a swimming bath or bathing place for the provision of regulated entertainment (within the meaning of the Licensing Act 2003⁶), unless that activity is carried on under and in accordance with an authorisation under that Act⁷.

984. Byelaws as to baths etc.

A local authority¹ may make byelaws for the regulation of any baths, washhouses, swimming baths and bathing places under its management, and for the regulation of persons resorting to them, including the exclusion from them of undesirable persons². Any such byelaws may, in addition to providing for the imposition of penalties, empower any officer of the local authority to exclude or remove from any baths, washhouse, swimming bath or bathing place under the management of the authority any person contravening the byelaws applicable to the premises in question³.

1 As to the meaning of 'local authority' see PARA 99.

2 Public Health Act 1936 s 223(1). A printed copy or abstract of the byelaws relating to any baths, washhouse, swimming bath or bathing place must be exhibited in a conspicuous place in the premises: s 223(2). As to byelaws generally see **LOCAL GOVERNMENT** vol 69 (2009) PARA 553 et seq.

985. Byelaws as to public bathing.

A local authority¹ may make byelaws² with respect to public bathing, and may by such byelaws³:

- 2219 (1) regulate the areas in which⁴, and the hours during which, public bathing is permitted⁵;
- 2220 (2) prohibit or restrict public bathing at times when and places as respects which warning is given, by the display of flags or by other means specified in the byelaws, that bathing is dangerous⁶;
- 2221 (3) fix the places at which bathing huts or tents may be erected⁷;
- 2222 (4) regulate the manner in which huts or tents may be used, and the charges which may be made for the use of them⁸;
- 2223 (5) require persons providing accommodation for bathing to provide and maintain life-saving appliances or other means of protecting bathers from danger⁹; and,
- 2224 (6) regulate, for preventing danger to bathers, the navigation of vessels used for pleasure purposes within areas allotted for public bathing during the hours allowed for bathing¹⁰.

Where any part of the area of a local authority having power to make such byelaws¹¹ is bounded by or is to seaward of the low water mark, the authority may exercise that power as respects any area of the sea which is outside the area of the authority and within 1,000 metres to seaward of any place where that mark is within or on the boundary of the area of the authority¹². Any offence against the byelaws may be inquired into and dealt with as if committed within the area of the authority¹³.

A local authority may make byelaws with respect to swimming baths and bathing pools, whether open or covered, which are not under its management for¹⁴: (a) securing the purity of water in the bath or pool¹⁵; (b) ensuring the adequacy and cleanliness of accommodation there¹⁶; (c) regulating the conduct of persons resorting there¹⁷; and (d) the prevention of accidents¹⁸.

986. Provision of bathing huts and life-saving appliances.

A local authority¹ may provide huts or other conveniences for bathing on any land belonging to it or under its control, and may charge for their use². The authority may also provide life-saving appliances at such places, whether places used for bathing or not, as it thinks fit³.

(2) SANITARY CONVENIENCES

(i) Sanitary Conveniences for Buildings

987. General requirements.

There are detailed statutory provisions requiring new buildings to contain sufficient sanitary conveniences, and making requirements as to drainage and waste disposal¹. A local authority may by notice require an owner of a building to provide closets or additional closets, or in certain circumstances substituted closets, where the sanitary accommodation is insufficient or prejudicial to health².

Where a water closet is so constructed or repaired as to be prejudicial to health, or a nuisance, the person who undertook the construction or repair is guilty of an offence³.

A local authority may require an owner of a building to replace with water closets any closets which are not water closets⁴.

1 See the Building Regulations 2000, SI 2000/2531; and **BUILDING**.

2 See the Building Act 1984 s 64; and **BUILDING** vol 4(2) (2002 Reissue) PARA 387.

988. Sanitary conveniences used in common.

Where a sanitary convenience¹ is used in common by the members of two or more families², any person who injures or improperly fouls it, or anything used in connection with it, or wilfully or by negligence causes an obstruction in the drain³ from it, is liable to a penalty⁴. If such a convenience, or the approach to it, is, for want of proper cleansing or attention, in such a condition as to be insanitary, such of the persons having the use of it in common as are in default, or, in the absence of satisfactory proof as to which of them is in default, each of them, are liable to a penalty⁵.

1 'Sanitary conveniences' means closets and urinals, and 'closet' includes privy: Public Health Act 1936 s 90(1).

2 Public Health Act 1936 s 52.

3 As to the meaning of 'drain' see PARA 998.

4 Public Health Act 1936 s 52(a) (amended by virtue of the Criminal Law Act 1977 s 31(6); and the Criminal Justice Act 1982 s 46). The penalty is a fine not exceeding level 1 on the standard scale: see the Public Health Act 1936 s 52(a) (as so amended). As to the prosecution of offences see PARA 128. As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

The penalty is a fine not exceeding level 1 on the standard scale and, after conviction, a further fine not exceeding 25p for each day on which the offence continues: see the Public Health Act 1936 s 52(b) (as so amended).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/20. SANITATION/(2) SANITARY CONVENIENCES/(i) Sanitary Conveniences for Buildings/989. Loan of temporary sanitary conveniences.

989. Loan of temporary sanitary conveniences.

A local authority¹ may, at the request of the occupier of any premises connected with a cesspool, sewer or drain on which any work of maintenance, improvement or repair which necessitates the disconnection of the water closets or other sanitary conveniences provided for or in connection with the premises is to be carried out by the local authority or by the owner or occupier of the premises, supply on loan temporary sanitary conveniences in substitution for any water closets or other sanitary conveniences so disconnected².

990. Sanitary appliances at places of entertainment.

A local authority¹ (other than a county council and the Greater London Council) may, by a notice² served on an owner³ or occupier of a relevant place⁴ in its area⁵, require him: (1) to provide, before the expiration of a specified period and in such positions at the place as are specified, sanitary appliances⁶ of such kinds and numbers as are so specified⁷; (2) to maintain and keep clean the appliances to the authority's reasonable satisfaction⁸; (3) to provide and maintain a proper supply of such things for use in connection with the appliances as are so specified⁹; and (4) to make the appliances and things available for use by members of the public resorting to the place¹⁰.

Such a notice may require the provision of sanitary appliances on specified occasions, but if it does so it must not also require the provision of sanitary appliances in respect of unspecified occasions¹¹. The notice must not require the provision of a different kind of fixed sanitary appliance, or more numerous appliances, than could be required by building regulations if the building were being newly constructed¹², and may not require the provision of movable sanitary appliances at a betting office¹³. However, the notice must specify as the period before the expiration of which sanitary appliances are to be provided a period equal to or longer than that during which the recipient of the notice may appeal against it¹⁴. In complying with the notice the person on whom it is served must provide, so far as is practicable and reasonable, for the needs of persons frequenting the relevant place who are disabled¹⁵.

A person who without reasonable excuse fails to comply with a notice is guilty of an offence¹⁶ and is liable to a penalty¹⁷. If, after conviction, the failure in question continues, the person convicted is guilty of a further offence as respects each day on which it continues and is liable to a further penalty¹⁸.

Any person authorised in writing in that behalf by the local authority (other than a county council and the Greater London Council) may at any reasonable time, and on production, if required, of evidence of his authority, enter any relevant place for the purpose of determining whether such a notice should be served or of ascertaining whether the requirements of such a notice are being complied with; and a person wilfully obstructing another person acting in the exercise of such powers is guilty of an offence and liable to a penalty¹⁹.

1 As to the meaning of 'local authority' see PARA 99.

2 The notice may be served on an owner or occupier notwithstanding that he is for the time being required to comply with a previous such notice served on him in respect of the place (Local Government (Miscellaneous Provisions) Act 1976 s 20(4)(a)), and may require the provision at the place of appliances already provided there (s 20(4)(b)). The notice must draw the attention of the person on whom it is served to the Chronically Sick and Disabled Persons Act 1970 ss 6(1), 7 (see **SOCIAL SERVICES AND COMMUNITY CARE** vol 44(2) (Reissue) PARA 1067) and to the Code of Practice for Access for the Disabled to Buildings (ie BS 5810: 1979): Local Government (Miscellaneous Provisions) Act 1976 s 20(11), (12) (added by the Disabled Persons Act 1981 s 4).

3 'Owner', in relation to land, place or premises, means a person who, either on his own account or as agent or trustee for another person, is receiving the rackrent of the land, place or premises or would be entitled to receive it if the land, place or premises were let at a rackrent: Local Government (Miscellaneous Provisions) Act 1976 s 44(1).

4 'Relevant place' means: (1) a place normally used or proposed to be normally used for the holding of any entertainment, exhibition or sporting event to which members of the public are admitted either as spectators or

otherwise, or for the sale of food or drink to members of the public for consumption at the place; (2) a place used or proposed to be used on some occasion or occasions for any of those purposes; and (3) a betting office: Local Government (Miscellaneous Provisions) Act 1976 s 20(9). 'Betting office' means premises, other than a track within the meaning of the Gambling Act 2005, in respect of which a betting premises licence under Pt 8 (ss 150-213) (see **LICENSING AND GAMBLING** vol 67 (2008) PARA 460) has effect: Local Government (Miscellaneous Provisions) Act 1976 s 20(9) (definition substituted by the Gambling Act 2005 Sch 16 Pt 12 para 8).

5 Local Government (Miscellaneous Provisions) Act 1976 s 20(1).

6 'Sanitary appliances' means water closets, urinals and wash basins: Local Government (Miscellaneous Provisions) Act 1976 s 20(9).

8 Local Government (Miscellaneous Provisions) Act 1976 s 20(1)(b).

10 Local Government (Miscellaneous Provisions) Act 1976 s 20(1)(d). The notice may require such appliances to be made available free of charge: s 20(1)(d).

11 Local Government (Miscellaneous Provisions) Act 1976 s 20(2).

12 See the Local Government (Miscellaneous Provisions) Act 1976 s 20(3)(a). See the Building Regulations 2000, SI 2000/2531; and **BUILDING**.

13 Local Government (Miscellaneous Provisions) Act 1976 s 20(3)(b).

14 Local Government (Miscellaneous Provisions) Act 1976 s 20(3)(c). This does not apply if the notice is an occasional notice: s 20(3)(c). An 'occasional notice' means a notice requiring the provision of sanitary appliances on specified occasions: s 20(9). As to appeals see PARA 991.

15 Chronically Sick and Disabled Persons Act 1970 s 6(1) (amended by the Local Government (Miscellaneous Provisions) Act 1976 s 20(10)).

16 Local Government (Miscellaneous Provisions) Act 1976 s 20(6). It is a defence to prove that at the time of the failure the person served was neither an owner nor an occupier of the relevant place and that he did not cease to be an owner or occupier by reason of anything done or omitted by him or any other person with a view to avoiding compliance with the notice: s 20(7). Where an offence is alleged to have been committed on a particular day, it is a defence to prove that on that day the relevant place was closed to the public or was used neither as a betting office nor for any of the purposes mentioned in note 4 head (1): s 20(8). In proceedings for an offence of failing to comply with an occasional notice, it is a defence to prove that the alleged offence is in respect of a requirement of the notice which is unreasonable (s 20(8)(a)); or that it would have been fairer to serve the notice on a person, other than the defendant, who was an owner or occupier of the relevant place when the notice was served, and whose name and address were furnished by the defendant to the local authority before the expiration of the period specified in the notice in pursuance of s 20(1)(a) (see the text and note 7) (s 20(8)(b)).

17 Local Government (Miscellaneous Provisions) Act 1976 s 20(6) (amended by virtue of the Magistrates' Courts Act 1980 s 32(2), (9)). The penalty on summary conviction is a fine not exceeding the prescribed sum, and on conviction on indictment is a fine: see the Local Government (Miscellaneous Provisions) Act 1976 s 20(6) (as so amended). As to the prescribed sum see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 141.

18 Local Government (Miscellaneous Provisions) Act 1976 s 20(6) (as amended: see note 17). The penalty on summary conviction is a fine not exceeding £50, and on conviction on indictment is a fine: see s 20(6) (as so amended).

991. Appeals as to sanitary appliances at places of entertainment.

A person on whom a notice¹ relating to sanitary appliances at places of entertainment, other than an occasional notice², is served may appeal³ to the county court against the notice on one or both of the following grounds⁴: (1) that a requirement of the notice is unreasonable⁵; and (2) that it would have been fairer to serve the notice on another person who is an owner⁶ or occupier of the relevant place⁷ in question⁸. The court may quash the notice to which the appeal relates⁹, modify it so as to impose its requirements on another person who is the owner or occupier of the relevant place¹⁰, order that the appellant be entitled to recover from that other person a specified part of the expenses incurred by the appellant in complying with the notice¹¹, or dismiss the appeal¹².

Pending the determination of an appeal, the notice is of no effect¹³. Except where it quashes the notice, the court may extend the period specified¹⁴ in the notice¹⁵.

1 le a notice under the Local Government (Miscellaneous Provisions) Act 1976 s 20: see PARA 990.

2 As to the meaning of 'occasional notice' see PARA 990 note 14.

992. Sanitary conveniences in workplaces and for agricultural workers.

There are special statutory requirements as to the provision and maintenance of sanitary conveniences in workplaces¹.

Landlords and occupiers of agricultural land and agricultural contractors may be required to provide, maintain and keep clean sanitary conveniences for the use of agricultural workers and persons whose conditions of work are similar to those of agricultural workers².

993. Sanitary conveniences for the disabled.

Any person undertaking the provision of any building or premises to which the public is to be admitted, whether on payment or otherwise, must make provision, in the sanitary conveniences and parking facilities to be available, if any, in so far as it is both practicable and reasonable, for the needs of members of the public visiting the building or premises who are disabled¹.

Any person undertaking the provision of educational buildings, factories, offices, shops or railway premises, must make provision, in the sanitary conveniences to be available, for the needs of disabled persons in so far as it is both practicable and reasonable².

The Secretary of State must report to Parliament on his proposals for ensuring or facilitating the improvement of means of access for disabled persons to any such building or premises, and also to public and other sanitary conveniences³.

Where any local authority undertakes the provision of a public sanitary convenience it must make provision, in doing so, for the needs of disabled persons in so far as it is both practicable and reasonable⁴.

994. Care of closets.

The occupier of a building in or in connection with which a water closet¹ or an earth closet² is provided must, in the case of a water closet, cause the flushing apparatus to be kept supplied with water sufficient for flushing and, where necessary, to be properly protected against frost, and must, in the case of an earth closet, cause it to be kept supplied with dry earth or other suitable deodorising material³. A person who fails to comply with these provisions is liable to a penalty⁴.

1 'Water closet' means a closet which has a separate fixed receptacle connected to a drainage system and separate provision for flushing from a supply of clean water, either by the operation of mechanism or by automatic action; and 'closet' includes privy: Public Health Act 1936 s 90(1). In its application to Greater London, s 51 has effect as if any reference to a water closet included a reference to a urinal: London Government Act 1963 s 40(1), Sch 11 Pt I para 13.

2 'Earth closet' means a closet having a moveable receptacle for the reception of faecal matter and its deodorisation by the use of earth, ashes or chemicals, or by other methods: Public Health Act 1936 s 90(1).

3 Public Health Act 1936 s 51(1). In its application to Greater London, s 51 has effect as if it required the occupier of every building in or in connection with which a urinal is provided to cause the urinal to be supplied with flushing apparatus: London Government Act 1963 Sch 11 Pt I para 13.

4 Public Health Act 1936 s 51(2) (amended by virtue of the Criminal Law Act 1977 s 31(6); and the Criminal Justice Act 1982 s 46). The penalty is a fine not exceeding level 1 on the standard scale: see the Public Health Act 1936 s 51(2) (as so amended). (ii) Public Conveniences

995. Conveniences in or accessible from streets.

No public sanitary convenience may be erected in, or so as to be accessible from, any street without the consent of the local authority¹. The authority may by notice require the owner of a sanitary convenience erected in contravention of this provision to remove it, and may also by notice require the owner of a sanitary convenience which opens on a street and is so placed or constructed as to be a nuisance or offensive to public decency to remove or permanently to close it².

996. Provision of public conveniences.

A county council, local authority¹ or parish or community council may provide sanitary conveniences² in proper and convenient situations³, but must not do so in or under a highway or proposed highway for which it is not the highway authority without the consent of the highway authority⁴. Any such council or authority providing public sanitary conveniences may⁵: (1) make byelaws as to the conduct of persons using or entering them⁶; (2) let them for such term, at such rent and subject to such conditions as it thinks fit⁷; and (3) charge such fees for their use as it thinks fit⁸.

In providing public conveniences, provision must be made for the needs of disabled persons⁹.

1 As to the meaning of 'local authority' see PARA 99.

2 As to the meaning of 'sanitary conveniences' see PARA 988 note 1. In this context it includes lavatories: Public Health Act 1936 s 87(4).

3 Public Health Act 1936 s 87(1) (substituted by the Local Government Act 1972 Sch 14 para 9(1); and amended by the Local Government Act 1985 Sch 17). Turnstiles may not be erected at public lavatories: see PARA 997. Where incorporated in a local Act, the Towns Improvement Clauses Act 1847 s 93 gives an alternative power to erect urinals. Provisions of this kind give power to erect conveniences in a highway (see *Vernon v St James, Westminster, Vestry* (1880) 16 ChD 449 at 472, CA, per Lush LJ), but where the subsoil is not vested in the local authority it has been held that it had no power under a local Act to erect an underground lavatory under a street (*Tunbridge Wells Corpn v Baird* [1896] AC 434, HL). The choice of place for the convenience is discretionary, but the authority must act in good faith and not unreasonably so as to create a nuisance: *Biddulph v St George's, Hanover Square, Vestry* (1863) 3 De GJ & Sm 493; *Vernon v St James, Westminster, Vestry* above. In *Westminster Corpn v London and North Western Rly Co* [1905] AC 426, HL, it was found that the authority had acted in good faith in erecting conveniences under a street together with subway approaches, although the subway served as a way for pedestrians to pass under the street. If a nuisance is caused, it is no defence to show that the sanitary condition of the neighbourhood has been improved by the provision of a convenience: *Parish v City of London Corpn* (1901) 67 JP 55.

997. Turnstiles at public lavatories.

No turnstile may be installed in or in any entrance or exit of any public lavatory or public sanitary convenience¹ controlled or managed by a local authority². It is the duty of local authorities to ensure that this provision is complied with notwithstanding anything in any other Act, whether public or local³, and this duty is enforceable by mandatory order on the application of the Secretary of State⁴.

1 The power to provide sanitary conveniences (which includes lavatories) is conferred by the Public Health Act 1936 s 87: see PARA 996.

21. SEWERS AND DRAINS

(1) INTRODUCTION

998. Meanings of 'sewer', 'drain', etc.

Except where defined by statute¹, the terms 'sewers' and 'drains' have no special technical meanings in law; they are words in popular use of somewhat similar connotation, meaning channels by which liquid is carried off by gravity. In particular they mean artificial channels for draining water from land or for carrying away waste water and feculent and polluted matter from houses and other buildings².

In statutory definitions, however, a distinction is drawn between sewers and drains³. Furthermore, 'sewer' sometimes means more than the mere channel and includes the whole apparatus for drawing off and dealing with the water or other liquid⁴.

In the Public Health Act 1936 and the Water Industry Act 1991, 'drain' means a drain used for the drainage of one building⁵ or of any buildings or yards appurtenant to buildings within the same curtilage⁶; and 'sewer' does not include a drain as so defined, but otherwise includes all sewers and drains used for the drainage of buildings⁷ and yards appurtenant to buildings⁸.

In the provisions of the Building Act 1984 relating to sanitation and buildings⁹, 'drain' means a drain used for the drainage of one building or of buildings or yards appurtenant to buildings within the same curtilage, and includes any manholes, ventilating shafts, pumps or other accessories belonging to the drain¹⁰. 'Sewer' does not include a drain as so defined, but otherwise it includes all sewers and drains used for the drainage of buildings and yards appurtenant to buildings, and any manholes, ventilating shafts, pumps or other accessories belonging to the sewer¹¹.

A pipe or conduit, although it may be laid in private land, is thus a sewer so far as it drains more than one building or curtilage¹²; and an existing drain is converted into a sewer up to the point of connection when a second building is drained into it¹³. It seems that a pipe which terminates in a pit or cesspit and does not carry the effluent away is not a sewer even though it drains more than one building¹⁴; but if it has an outfall, albeit inefficient, it will be a sewer¹⁵. A natural watercourse cannot¹⁶ be turned into a sewer by the discharge of sewage into it¹⁷. On the other hand, a channel used merely to carry off water may be a sewer¹⁸ even if it is not clearly defined¹⁹, and a pipe used for temporary purposes may be a sewer²⁰.

In the Water Industry Act 1991, references to a pipe, including references to a main, a drain or a sewer, include references to a tunnel or conduit which serves or is to serve as the pipe in question and to any accessories for the pipe²¹; and references to any sewage disposal works include references to the machinery and equipment of those works and any necessary pumping stations and outfall pipes²². Accordingly, references to the laying of a pipe include references to the construction of such a tunnel or conduit, to the construction or installation of any such accessories and to the making of a connection between one pipe and another²³.

The sewers and drains that are the subject of this title are, primarily, those controlled by sewerage undertakers²⁴.

1 As to the statutory meanings of 'sewer' and 'drain' see the text and notes 5-11.

2 Apart from statutory definitions, 'sewer' and 'drain' would in law mean the same, for example when used in a conveyance: see *Pilbrow v St Leonard, Shoreditch, Vestry* [1895] 1 QB 433 at 441, CA, per Rigby LJ. See also *Doncaster Borough Council v Secretary of State for the Environment* [1996] 2 PLR 39, 74 P & CR 428, where the word 'sewer' was held to embrace a ditch. 'Sewer' in the common sense of the term means a large and generally (although not always) underground passage for fluid and feculent matter from a house or houses to some other locality, but does not comprise a cesspool for the purpose of retaining the sewage: *Sutton v Norwich Corp* (1858) 27 LJ Ch 739 at 742 per Kindersley V-C. In the fen districts 'drain' is applied to wide, canal-like navigable channels: see the Oxford English Dictionary; Johnson's Dictionary; and cf *Coulton v Ambler* (1844) 13 M & W 403 (where the Eau Brink Cut, used for drainage purposes and as a navigable river, was held not be a 'public or parish drain' within 4 Geo 4 c lv (1823) s 35).

3 See the text and notes 5-11.

4 A marsh wall or embankment to protect the drained land may be part of a sewer: *Poplar District Board of Works v Knight and Weitzell* (1858) EB & E 408. A manhole may be part of a sewer: *Swanston v Twickenham Local Board* (1879) 11 ChD 838, CA. In the circumstances of the case there had been insufficient change to a channel or the flow in it for it to be a sewer rather than a watercourse: *Raglan Housing Association Ltd v Southampton City Council* [2007] EWCA Civ 785, [2008] 2 All ER 44. As to the meaning of 'watercourse' see PARA 1004 note 4.

5 Whether two or more houses constitute one building for this purpose is a question of fact, and two semi-detached houses may, according to their construction, form one building (*Hedley v Webb* [1901] 2 Ch 126; *Cook v Minion* (1978) 37 P & CR 58) or two (*Humphery v Young* [1903] 1 KB 44, DC). Houses in terrace with a continuous roof but occupied as separate dwelling houses have been held to be separate buildings and not within the same curtilage: *Weaver v Family Housing Association (York) Ltd* (1975) 74 LGR 255, [1976] JPL 92, HL.

6 See the Public Health Act 1936 s 343(1); and the Water Industry Act 1991 s 219(1). See also the Water Industry Act 1991 s 219(2); and the text and notes 21-23. As to the meaning of 'lateral drain' see PARA 1003 note 2. The question of what is the curtilage does not depend upon conveyancing law, but on considerations relating to the mode of building, the object for which the buildings were erected and the manner in which they have been used: *Pilbrow v St Leonard, Shoreditch, Vestry* [1895] 1 QB 433, CA. In this case, two blocks of buildings let out in a number of separate tenements and standing in an inclosed yard were held to be within the same curtilage. However, separate houses abutting on and surrounding a private court have been held not to be so: *St Martin-in-the-Fields Vestry v Bird* [1896] 1 QB 428, CA (the Lowther Arcade); *Harris v Scurfield* (1904) 68 JP 516, DC. See also *Bromley London Borough Council v Morritt* (1999) 79 P & CR 536, [2000] EHLR 24, CA (as to whether a pipe is a public sewer for the purposes of the definition).

7 The words 'used for the drainage of buildings' connote the functions for which the pipe is constituted and not its actual use: *Blackdown Properties Ltd v Ministry of Housing and Local Government* [1967] Ch 115, [1965] 2 All ER 345. See also *British Railways Board v Tonbridge and Malling District Council* [1982] JPL 310, (1981) 79 LGR 565, CA.

8 See the Public Health Act 1936 s 343(1); and the Water Industry Act 1991 s 219(1). See also the Water Industry Act 1991 s 219(2); and the text and notes 21-23. A sewer as defined in the text is exempted from rates: see the Local Government Finance Act 1988 s 51, Sch 5 para 13; and **RATING AND COUNCIL TAX** vol 39(1B) (Reissue) PARA 50.

A pipe laid unlawfully by trespass is not a sewer unless the landlord afterwards consents: *Meador v West Cowes Local Board* [1892] 3 Ch 18, CA; *Hedley v Webb* [1901] 2 Ch 126; *Pakenham v Ticehurst RDC* (1903) 67 JP 448. A sewer does not automatically vest in the sewerage undertaker: see the Water Industry Act 1991 s 102; and PARA 1004. As to sewerage undertakers see PARA 999. A line of pipes laid in a street, or intended street, to take the sewage of the houses was a sewer within the Public Health Act 1875 s 4 (repealed), even though no buildings had been connected with them, or even built (*Acton Local Board v Batten* (1884) 28 ChD 283 at 286 per Kay J; *Beckenham UDC v Wood* above at 491 per Cave J; *Turner v Handsworth UDC* [1909] 1 Ch 381), but in that Act 'sewer' was not restricted to sewers and drains used for the drainage of buildings and yards, and, so far as is known, it was not specifically decided whether such a line of pipes to which one building only had been connected was a sewer or a drain. A pipe receiving the contents of a sewer is a sewer: *Wood Green UDC v Joseph* [1908] AC 419 at 423, HL, per Lord Ashbourne. Under the Public Health Acts

Amendment Act 1890 s 19 (repealed), a pipe draining more than one building or curtilage might be a 'single private drain', but it still remained a sewer within the meaning of the Public Health Act 1875 s 4 (repealed): *R v Hastings Corpn* [1897] 1 QB 46 DC; *Pemsel and Wilson v Tucker* above; *Wood Green UDC v Joseph* above; *Hill v Aldershot Corpn* above. See *Weaver v Family Housing Association (York) Ltd* (1975) 74 LGR 255, HL. 13 This is so even if the connection is made without the knowledge or consent of the local authority: *Kershaw v Taylor* [1895] 2 QB 471, CA; *Florence v Paddington Vestry* (1895) 12 TLR 30; *Holland v Lazarus* (1897) 66 LJQB 285; *Green v St Mary, Newington, Vestry* [1898] 2 QB 1, DC; *St Matthew, Bethnal Green, Vestry v London School Board* [1898] AC 190, HL; *Bullock v Reeve* (1900) 70 LJQB 42, DC; *Harvey v Busby* (1906) 95 LT 91, DC; *Harvey v Jaye* (1907) 97 LT 543, DC. Where the connection is made unlawfully, the wrongdoer, or his representative who is not a purchaser for value without notice, is estopped from alleging against the local authority that the pipe is then a sewer: *Gorringe v Shoreditch Corpn* (1902) 86 LT 592, DC, per Channell J; *Heaver v Fulham Borough Council* [1904] 2 KB 383. However, a change in the ownership of the houses does not alter the character of a pipe from a drain to a sewer: *Greater London Property Co Ltd v Foot* [1899] 1 QB 972 at 977, DC, per Darling J. Cutting off other drainage from a sewer so that it conveys the drainage from one house only does not convert it into a drain (*St Leonard, Shoreditch, Vestry v Phelan* [1896] 1 QB 533, DC); and in the case of a combined drain under the Public Health (London) Act 1936 Pt II (repealed), a mere deviation in the course of the combined drain did not convert it into a sewer (*Greater London Property Co v Foot* above); nor did the addition of drainage of other premises within the same curtilage (*Gorringe v Shoreditch Corpn* above). See also *Kershaw v Alfred John Smith & Co Ltd* [1913] 2 KB 455, DC (reinstatement according to the original plan).

16 Ie since 15 August 1876, the date of the passing of the Rivers Pollution Prevention Act 1876 (repealed). However, see *United Utilities Water Ltd v Sefton Metropolitan Borough Council* [2001] EWCA Civ 1284, [2001] All ER (D) 477 (Jul) (culverted watercourse could become a sewer within the meaning of the Public Health Act 1936). As to drainage of highways see **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 285. In the past, because the highway authority was in many cases the local authority for

sanitary purposes, roads and streets were commonly drained into the same sewers as were houses and buildings. This fact is of importance historically, but the sewerage authority is now the sewerage undertaker: see PARAS 999-1001. As to the power of a highway authority to use public sewers see PARA 1046. 999. Sewerage undertakers.

Following the reform and consolidation of the law relating to water¹, the functions of water authorities relating to the provision of sewerage services have been transferred to sewerage undertakers².

¹ See **WATER AND WATERWAYS** vol 100 (2009) PARA 413.

² As to the transfer of sewerage functions of the water authorities to sewerage undertakers see the Water Act 1989 s 4; and **WATER AND WATERWAYS** vol 100 (2009) PARA 108 et seq. See also s 69, Sch 8 (amended by the Water Consolidation (Consequential Provisions) Act 1991 Sch 3 Pt I). As to the transfer of sewers see PARA 1001. As to the appointment of sewerage undertakers see the Water Industry Act 1991 s 6; and **WATER AND WATERWAYS** vol 100 (2009) PARA 137.

Provisions of the Water Industry Act 1991 refer to the 'relevant undertaker', which means a water undertaker or a sewerage undertaker: see s 219(1); and **WATER AND WATERWAYS** vol 100 (2009) PARA 137. For the purposes of this title, the relevant undertaker is the sewerage undertaker.

1000. Public sewers.

'Public sewer' means a sewer¹ for the time being vested² in a sewerage undertaker³ in its capacity as such⁴.

1 As to the meaning of 'sewer' see PARA 998.

2 I.e. whether vested by virtue of a scheme under the Water Act 1989 s 4, Sch 2 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 108), or the Water Industry Act 1991 s 10, s 23, Sch 2 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 141), or under s 179 (see PARA 1003), or otherwise.

3 As to sewerage undertakers see PARA 999.

The latter definition is subject to the Water Industry Act 1991 s 106(1A): see PARA 1041. See also *Bromley London Borough Council v Morritt* [2000] EHLR 24, 79 P & CR 536, CA.

'Private sewer' is to be construed accordingly: Water Industry Act 1991 s 219(1). As to private sewers see PARA 1073 et seq.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(i) Vesting in Sewerage Undertakers/1001. Transfer of sewers to sewerage undertakers.

1001. Transfer of sewers to sewerage undertakers.

Certain categories of sewers¹ previously vested in local authorities² became vested in water authorities³ by virtue of the Local Government Act 1972⁴.

On the privatisation of the water industry⁵, the water authorities were abolished and their sewerage functions were transferred to sewerage undertakers⁶. All sewers which were on 1 September 1989 vested in one of the former water authorities⁷ vested on that date in the successor company appointed in each case to act as sewerage undertaker⁸.

1 The categories of sewers were:

165 (1) All sewers within the meaning of the Public Health Act 1875 which, by virtue of that Act, were, immediately before 1 October 1937 (ie the date on which the Public Health Act 1936 came into force: see s 347(1)), vested in a local authority, that is to say, sewers and drains of every description which existed on 11 August 1875 (ie the date of the passing of the Public Health Act 1875) or which were constructed after that date and before 1 October 1937, except: (a) drains as defined in that Act; (b) drains vested in or under the control of any authority having the management of roads and not being a local authority under that Act; (c) sewers made by any person for his own profit or by any company for the profit of the shareholders; (d) sewers made and used for the purpose of draining, preserving or improving land under any local or private Act (which included sewers constructed by a railway company whose special Act incorporated the Railways Clauses Consolidation Act 1845: *London and North Western Rly Co v Runcorn RDC* [1898] 1 Ch 561, CA), or for the purpose of irrigating land; (e) sewers under the authority of any commissioners of sewers appointed by the Crown; and (f) sewers vested in a sewage board or other authority empowered by statute to construct sewers: see the Public Health Act 1875 ss 4, 13 (both repealed). Sewers were vested thus in the local authority of the district in which they were situated, although sewers constructed by or transferred to some other local authority, or by or to a sewage board or other authority having power by statute to construct sewers, were, subject to any agreement to the contrary, vested in and under the control of the authority which had constructed them or to which they had been transferred: see s 13 (repealed). Future sewers after 1 October 1937 did not vest in a local authority unless they did so as public sewers under the Public Health Act 1936 s 20 (as originally enacted), or had been constructed by the local authority to drain its own property. A drain which was once within the exception in head (b) above did not become a sewer by reason that it subsequently became vested in any authority having the powers both of a sanitary authority and of a highway authority: *Williamson v Durham RDC* [1906] 2 KB 65, DC; *Irving v Carlisle RDC* (1907) 71 JP 212, DC. A highway drain vested in the county council did not become a sewer vested in the local authority when an unauthorised connection was made between a house and the drain (*Rickarby v New Forest RDC* (1910) 74 JP 441, DC), but a drain vested in a local authority and draining houses as well as the road was such a sewer (*Wilkinson v Llandaff and Dinas Powis RDC* [1903] 2 Ch 695, CA). In the Public Health Act 1875, 'drain' meant any drain of, and used for the drainage of, one building only, or premises within the same curtilage, and made merely for the purpose of communicating therefrom with a cesspool or other like receptacle for drainage or with a sewer into which the drainage of two or more buildings or premises occupied by different persons was conveyed: s 4 (repealed). As to the meanings of 'sewer' and 'drain' generally see PARA 998. In the Public Health Act 1875, 'local authority' meant an urban sanitary authority or a rural sanitary authority: s 4 (repealed). These were the authorities having jurisdiction in the urban and rural sanitary districts into which England, excluding the metropolis, was divided: s 5 (repealed). As to the subsequent development of local government organisation see **LOCAL GOVERNMENT** vol 69 (2009) PARA 3 et seq; **LONDON GOVERNMENT**. 'Profit' means some benefit more than, and independent of, the mere removal of sewage or liquid, although such benefit need not be of a pecuniary nature: *Acton Local Board v Batten* (1884) 28 ChD 283; *Pinnock v Waterworth* (1887) 3 TLR 563; *Bonella v Twickenham Local Board of Health*, *Holmes v Twickenham Local Board of Health* (1887) 20 QBD 63, CA; *Ferrand v Hallas Land and Building Co* [1893] 2 QB 135, CA; *Russell v Knight and M'Donald* (1894) Times, 9 May. Sewers merely constructed as part of the development of a

building estate are not made for profit (*Vowles v Colmer* (1895) 64 LJ Ch 414; *Southstrand Estate Development Co Ltd v East Preston RDC* [1934] Ch 254), even if a charge is made for connecting drains (*Vowles v Colmer* above; *Solihull RDC v Ford* (1931) 30 LGR 483), but if they were made by a person (other than the person developing an estate) with a view to making charges for the user they are made for profit (*Southstrand Estate Development Co Ltd v East Preston RDC* above). The question is one of fact: *Southstrand Estate Development Co Ltd v East Preston RDC*. Where sewers were made by a landowner for draining a town the greater part of which stood on his land, and rate was levied upon all persons connecting their drains to the sewers, the sewers were made for profit (*Minehead Local Board v Luttrell* [1894] 2 Ch 178); and so was a sewer made in a private road with the object of raising contributions from persons making connections with it, and obtaining an enhanced value for the owner when taken over by the local authority (*Vare v Joy* (1920) 124 LT 148). Sewers are made for profit if they are to convey water for cattle (*Croysdale v Sunbury-on-Thames UDC* [1898] 2 Ch 515), or to facilitate quarrying (*Sykes v Sowerby Urban Council* [1900] 1 QB 584, CA), or if they are made to increase the value of land for manufacturing purposes (*West Riding of Yorkshire Rivers Board v Linthwaite Urban Council (No 2)* (1915) 84 LJKB 1610, DC) or agricultural purposes (*Phillimore v Watford RDC* [1913] 2 Ch 434).

- 166 (2) All combined drains constructed before 1 October 1937 which, by virtue of the Public Health Act 1875, would, immediately before that date, have been vested in the local authority as sewers but for the provisions of some enactment or statutory scheme relating to the construction of combined drains, or of an order made under such an enactment or scheme: Public Health Act 1936 s 20(1)(a) (as originally enacted). The Public Health Acts Amendment Act 1890 s 19 (repealed) did not prevent the vesting of a sewer in a local authority: see *Pemsel and Wilson v Tucker* [1907] 2 Ch 191; and PARA 998 note 12.
- 167 (3) All combined drains constructed by a local authority at its expense before 1 April 1974 (ie the date on which the Public Health Act 1936 s 20 was substituted by the Water Act 1973 s 40(2), Sch 8 para 33: see s 39(1)), or acquired by it before that date, except those constructed by it after 1 October 1937 for the purpose only of draining property belonging to it which had not been declared to be public sewers: Public Health Act 1936 s 20(1)(b), (2) proviso (as originally enacted). Power to purchase or otherwise acquire sewers was given to local authorities by the Public Health Act 1875 s 14 (repealed). Any reference in the Public Health Act 1936 Pt II (ss 14-90) to the construction of a sewer was to be construed as including a reference to the extension of an existing sewer: s 90(5) (repealed). 'Acquired' embraced all forms of acquisition open to a local authority, including acquisition by operation of the maxim 'quidquid plantatur solo, solo credit', and is not limited to acquisition by agreement: *Royco Homes Ltd v Eatonwill Construction Ltd* [1979] Ch 276, [1978] 2 All ER 821 (where the sewer was laid in highway land belonging to the authority).
- 168 (4) All sewers constructed before 1 April 1974 under any enactment relating to the sewerage of private streets to the satisfaction of the council which carried that enactment into execution, except any such sewer which by virtue of the statutory provisions relating to county roads (ie the Highways, Streets and Bridges Act 1959 s 227 (repealed): see now the Highways Act 1980 s 264; and **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARAS 226, 821) vested in the county council: Public Health Act 1936 s 20(1)(c) (as originally enacted).
- 169 (5) All sewers with respect to which a declaration of vesting (see PARA 1004) had taken effect before 1 April 1974: s 20(1)(d) (as originally enacted).

2 le by the Public Health Act 1936 s 20 (as originally enacted). Section 20 was repealed by the Water Act 1989 Sch 8 para 2(5), Sch 27 Pt I. Prior to local government reorganisation in 1974, 'local authority', for the purposes of the Public Health Act 1936, meant the council of a borough, urban district or rural district: s 1(2) (as originally enacted).

3 As to the former water authorities see **WATER AND WATERWAYS** vol 100 (2009) PARAS 108, 134.

4 le by virtue of the Local Government Act 1972 s 68 or s 254 (see **LOCAL GOVERNMENT** vol 69 (2009) PARAS 16, 88), as either provision applies for the purposes of the Water Act 1973 (largely repealed).

5 See **WATER AND WATERWAYS** vol 100 (2009) PARA 108.

6 See PARA 999; and **WATER AND WATERWAYS** vol 100 (2009) PARA 137 et seq.

7 These comprised, in addition to the sewers which vested in a water authority by virtue of the Local Government Act 1972 (see note 1), the following categories of sewers: (1) all sewers constructed by the water authority at its expense, or vested in the authority in pursuance of arrangements under the Water Act 1973 s

15 (now repealed with savings), or otherwise acquired by the authority; (2) all sewers constructed under the Highways Act 1980 Pt XI (ss 203-237) (see **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 146 et seq), except sewers belonging to a road maintained by a highway authority; and (3) all sewers with respect to which a declaration of vesting (ie under the Public Health Act 1936 s 17 (now repealed)) had taken effect: Public Health Act 1936 s 20(1) (substituted by the Water Act 1973 Sch 8 para 33; and amended by the Highways Act 1980 Sch 24 para 4(a)). As to the repeal of the Public Health Act 1936 s 20 see note 2. As to roads maintained by highway authorities see **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 64 et seq. 1002. Effect of vesting.

The effect of the vesting of a sewer¹ in a sewerage undertaker² is to confer on the undertaker, so far as is requisite to enable it to control and maintain the sewer, an absolute property in the sewer and the space which it occupies³ together with a right of access⁴; but the property is subject to any prescriptive rights to use the sewer⁵. Where the sewerage undertaker acquires the land in or upon which its works lie, it obtains rights of support by virtue of common law⁶. Where, however, the sewer lies in land belonging to other persons, the undertaker does not obtain a common law right of support⁷; instead, a right of subjacent support for the sewer is implied by statute⁸.

1 As to the meaning of 'sewer' see PARA 998.

2 As to sewerage undertakers see PARA 999.

The interest in the sewer which is thus vested appears to be a legal estate in fee simple determinable when the pipe or conduit ceases to be a sewer, and, for the purposes of the Law of Property Act 1925, a fee simple absolute by virtue of s 7(1) (see **REAL PROPERTY** vol 39(2) (Reissue) PARA 91): *Tithe Redemption Commission v Runcorn UDC* [1954] Ch 383, [1954] 1 All ER 653, CA. No interest in the soil surrounding the sewer vests in the undertaker: *Newcastle-under-Lyme Corpn v Wolstanton Ltd* above. The vesting of a sewer constructed on private land is also a compulsory acquisition of land for the purposes of the Land Compensation Act 1961 s 39(1): see *Taylor v North West Water Ltd* [1995] RVR 83. SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(i) Vesting in Sewerage Undertakers/1003. Vesting of new public sewers.

1003. Vesting of new public sewers.

Provision is made for the vesting of new public sewers in sewerage undertakers¹. Every relevant pipe² which has been laid³ by a sewerage undertaker⁴ and every sewage disposal works constructed by a sewerage undertaker⁵ vests in the undertaker which laid the pipe or, as the case may be, the undertaker which constructed the works⁶. In addition, the following also vest in such an undertaker: (1) every sewer, lateral drain or sewage disposal works with respect to which a declaration of vesting made by that undertaker⁷ takes effect⁸; and (2) every sewer which is laid in the area of that undertaker under the statutory provisions relating to making up private streets⁹ and is not a sewer belonging to a road maintained by a highway authority¹⁰.

1 As to sewerage undertakers see PARA 999.

2 For these purposes, 'relevant pipe', in relation to a sewerage undertaker, means any sewer, lateral drain or disposal main: Water Industry Act 1991 s 179(7)(b). Subject to s 219(2) (see PARA 998), 'disposal main' means any outfall pipe or other pipe which: (1) is a pipe for the conveyance of effluent to or from any sewage disposal works, whether of a sewerage undertaker or of any other person; and (2) is not a public sewer: s 219(1). 'Effluent' means any liquid, including particles of matter and other substances in suspension in the liquid: s 219(1). 'Lateral drain' means: (a) that part of a drain which runs from the curtilage of a building (or buildings or yards within the same curtilage) to the sewer with which the drain communicates or is to communicate; or (b) (if different and the context so requires) the part of a drain identified in a declaration of vesting made under s 102 (see PARA 1004) or in an agreement made under s 104 (see PARA 1006): s 219(1) (definition added by the Water Act 2003 s 97(1), (9)(a)). As to the meaning of 'sewer' see PARA 998. As to the meaning of 'drain' see PARA 998. As to the meanings of 'pipe' and 'sewage disposal works' see PARA 998. As to sewage disposal see PARA 1069 et seq.

10 Water Industry Act 1991 s 179(2)(b). 'Highway authority' has the same meaning as in the Highways Act 1980 (see **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 49 et seq): Water Industry Act 1991 s 219(1).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/21. SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(i) Vesting in Sewerage Undertakers/1004. Adoption of sewers and disposal works.

1004. Adoption of sewers and disposal works.

A sewerage undertaker¹ may at any time declare that any sewer² which is situated within its area³ or which serves the whole or any part of that area⁴, any lateral drain⁵ which communicates or is to communicate with a public sewer which is so situated or serves the whole or any part of that area and is vested in that undertaker⁶, or any sewage disposal works⁷ which are so situated or which serve the whole or any part of that area⁸, is or are to become vested in it as from such a date as may be specified in the declaration⁹. However, such a declaration may not be made in respect of any sewer or works the construction¹⁰ of which was completed before 1 October 1937¹¹. A sewerage undertaker which proposes to make such a declaration must: (1) give notice of its proposal to the owner or owners of the sewer, lateral drain or works in question¹²; and (2) take no further action in the matter until two months have elapsed without an appeal against the proposal being lodged¹³ or, as the case may be, until any appeal so lodged has been determined¹⁴. The owner or any of the owners of any sewer, lateral drain or sewage disposal works with respect to which a sewerage undertaker might make a declaration may make an application to that undertaker requesting it to make a declaration with respect to the sewer, lateral drain or works¹⁵. Any person who immediately before the making of a declaration under these provisions was entitled to use the sewer or lateral drain in question is entitled to use it, or any sewer or lateral drain substituted for it, to the same extent as if the declaration had not been made¹⁶.

1 As to sewerage undertakers see PARA 999.

2 As to the meaning of 'sewer' see PARA 998. A declaration or application under the Water Industry Act 1991 s 102 may be made with respect to part only of a sewer: s 102(3). A declaration may also be made in respect of a length of sewer which has been sealed off as being unnecessary. The test is whether it has been constructed for the drainage of buildings, not whether it is actually so used: *Blackdown Properties Ltd v Ministry of Housing and Local Government* [1967] Ch 115, [1965] 2 All ER 345.

3 As to the areas of sewerage undertakers see **WATER AND WATERWAYS** vol 100 (2009) PARA 138.

4 Water Industry Act 1991 s 102(1)(a) (amended by the Water Act 2003 Sch 9 Pt 3). A sewerage undertaker must carry out its functions under the Water Industry Act 1991 s 102 so as not to create a nuisance: s 117(6). Nothing in s 102 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). 'Functions', in relation to a sewerage undertaker, means the functions of the undertaker under or by virtue of any enactment; and is to be construed subject to s 217 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 133): s 219(1). 'Contravention' includes a failure to comply; and cognate expressions are to be construed accordingly: s 219(1). 'Watercourse' includes all rivers, streams, ditches, drains, cuts, culverts, dykes, sluices, sewers and passages through which water flows except mains and other pipes which belong to the Environment Agency or a water undertaker or are used by a water undertaker or any other person for the purpose only of providing a supply of water to any premises: s 219(1) (definition amended by the Environment Act 1995 Sch 22 para 125). As to the meaning of 'drain' see PARA 998. As to the meaning of 'public sewer' see PARA 1000. As to the Environment Agency see PARA 68 et seq. As to water undertakers see **WATER AND WATERWAYS** vol 100 (2009) PARA 134 et seq. As to the possible difference between a watercourse and a sewer see *Raglan Housing Association Ltd v Southampton City Council* [2007] EWCA Civ 785, [2008] 2 All ER 44; and PARA 998 note 4.

The Secretary of State has power by regulations to provide for schemes for the adoption by sewerage undertakers of sewers, lateral drains and sewage disposal works of the descriptions set out in the Water Industry Act 1991 s 102(1)(a), s 102(1)(aa), and s 102(1)(b): see ss 105A, 105B, 105C (added by the Water Act

2003 s 98); and see further below. As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

The Secretary of State may by regulations provide for him to make schemes for the adoption by sewerage undertakers of sewers, lateral drains and sewage disposal works of the descriptions set out in the Water Industry Act 1991 s 102(1)(a), s 102(1)(aa), and s 102(1)(b): s 105A(1) (as so added). The regulations may require sewerage undertakers to prepare draft schemes and to submit them to the Secretary of State: s 105A(2) (as so added). Each scheme must relate to the area of a sewerage undertaker, or part or parts of it; or the areas of more than one sewerage undertaker, or part or parts of them: s 105A(3) (as so added). It is the duty of a sewerage undertaker, in specified circumstances, to exercise its powers under s 102 with a view to making the declaration referred to in s 102(1) in relation to sewers, lateral drains or sewage disposal works which fall within the area to which a scheme relates; and satisfy specified criteria: s 105A(4) (as so added). The circumstances and the criteria must each be specified in the regulations; or determined in accordance with the regulations and specified in the scheme: s 105A(5) (as so added). In relation to the exercise of those powers pursuant to that duty certain provisions have effect with appropriate modifications: see s 105A(6) (as so added). A duty imposed on a sewerage undertaker under s 105A(4) (see above) is enforceable by the Secretary of State under s 18 (see PARA 1010): s 105A(7) (as so added). A statutory instrument containing regulations under s 105A(1) (see above) must not be made unless a draft of the instrument has been laid before, and approved by a resolution of, each House of Parliament: s 105A(8) (as so added).

Any person falling within s 105B(2) (see below) may appeal to the Water Services Regulation Authority if he is aggrieved by (a) the proposal of a sewerage undertaker to make a declaration under s 102 in relation to a sewer, lateral drain or sewage disposal works, pursuant to the undertaker's duty to do so under s 105A(4) (see above) (the 'relevant duty'); or (b) the failure of a sewerage undertaker to make such a proposal pursuant to that duty: s 105B(1) (as so added). As to the Water Services Regulation Authority see **WATER AND WATERWAYS** vol 100 (2009) PARA 109 et seq; and see also the Authority's enforcement policy which appears on the relevant website which was, at the date at which this volume states the law, www.ofwat.gov.uk. In particular as to the Authority's duty not to impose or maintain unnecessary regulatory burdens see the Regulatory Enforcement and Sanctions Act 2008 ss 72, 73; and **WATER AND WATERWAYS** vol 100 (2009) PARA 110. The persons referred to are an owner of a sewer, lateral drain or sewage disposal works; any other person affected by the proposal, or the failure, in question: Water Industry Act 1991 s 105B(2) (as so added). The grounds upon which a person may appeal are in a s 105B(1)(a) case (see head (a) above), that the relevant duty is not owed in relation to the sewer, lateral drain or sewage disposal works, or that the making of the proposed declaration would be seriously detrimental to him; in a s 105B(1)(b) case (see head (b) above), that the relevant duty is owed in relation to the sewer, lateral drain or sewage disposal works; or any other prescribed ground: s 105B(3) (as so added). An appeal under s 105B(1)(a) (see head (a) above) must be made within two months after notice of the proposal is served on the owner of the sewer, lateral drain or sewage disposal works; or published in accordance with s 102(4) as modified by s 105A(6) (see above), or, if both occur, within two months after whichever is the later: s 105B(4) (as so added). An appeal under s 105B(1)(b) (see head (b) above) must be made within such period as is specified in the scheme (not being less than two months): s 105B(5) (as so added). On the hearing of an appeal under s 105B(1), the Authority may in a s 105(1)(a) case, allow or disallow the proposal of the sewerage undertaker; or in a s 105B(1)(b) case, determine that the undertaker was not under the relevant duty in relation to the sewer, lateral drain or sewage disposal works in question, or, in either case, make any declaration that the sewerage undertaker might have made, unless the proposal is disallowed: s 105B(6) (as so added). If, in a s 105B(1)(a) case, the Authority finds that the making of the proposed declaration would be seriously detrimental to the appellant, it must disregard any duty on the part of the sewerage undertaker to make the proposal for the purpose of determining whether to allow or disallow the proposal: s 105B(7) (as so added). If, in a s 105B(1)(a) case, the Authority disallows the proposal of the sewerage undertaker, the scheme pursuant to which it was made has effect as if there were no duty under s 105A(4) (see above) on the sewerage undertaker in relation to the sewer, lateral drain or sewage disposal works in question: s 105B(8) (as so added). Where the Authority makes a declaration under s 105B(6) (see above), it may, if it thinks fit specify conditions, including conditions as to the payment of compensation by the sewerage undertaker; and direct that its declaration not take effect unless any conditions so specified are accepted: s 105B(9) (as so added). A declaration made under s 105B(6) has the same effect as if it had been made by the undertaker: s 105B(10) (as so added). The Secretary of State may by regulations make further provision in connection with appeals under s 105B: s 105B(11) (as so added). The regulations may, in particular, require the Authority to have regard to prescribed matters when determining an appeal under s 105B: s 105B(12) (as so added).

The Secretary of State may vary any scheme, or revoke it: s 105C(1) (as so added). Before making regulations or any scheme under s 105A (see above), and before amending or revoking the regulations or varying or revoking a scheme, the Secretary of State must consult (i) each sewerage undertaker which would be affected; (ii) the Authority; (iii) the Consumer Council for Water; (iv) such other persons as the Secretary of State considers appropriate: s 105C(2) (as so added). The Secretary of State must publish each scheme he makes, and any such scheme as varied, in the way he considers best for the purpose of bringing it to the attention of those likely to be affected by it: s 105C(3) (as so added). As to the Consumer Council for Water see **WATER AND WATERWAYS** vol 100 (2009) PARA 115 et seq.

At the date at which this volume states the law no regulations had been made under ss 105A-105C.

5 As to the meaning of 'lateral drain' see PARA 1003 note 2.

6 Water Industry Act 1991 s 102(1)(aa) (added by the Water Act 2003 s 96(1)(a)). See note 4.

7 As to the meaning of 'sewage disposal works' see PARA 998. As to sewage disposal see PARA 1069 et seq.

8 Water Industry Act 1991 s 102(1)(b). See note 4.

9 Water Industry Act 1991 s 102(1). In deciding whether to make a declaration, the sewerage undertaker must have regard to all the circumstances of the case and in particular to the following considerations: (1) whether the sewer or works in question is or are adapted to or required for any general system of sewerage or sewage disposal which the undertaker has provided or proposes to provide for the whole or any part of its area; (2) whether the sewer or lateral drain is constructed under a highway or under land reserved by a planning scheme for a street; (3) the number of buildings which the sewer or lateral drain is intended to serve and whether, having regard to the proximity of other buildings, or the prospect of future development, it is likely to be required to serve additional buildings; (4) the method of construction and state of repair of the sewer, lateral drain or works; and (5) in a case where an owner objects, whether the making of the proposed declaration would be seriously detrimental to him: s 102(5) (amended by the Water Act 2003 s 96(1)(d)). The statutory considerations, however, are not paramount and can be outweighed by all the circumstances of the case: *R v Secretary of State for Wales* [1987] JPL 711. 'Street' means the whole or any part of any of the following, irrespective of whether it is a thoroughfare:

170 (a) any highway, road, lane, footway, alley or passage;

171 (b) any square or court; and

172 (c) any land laid out as a way whether it is for the time being formed as a way or not,

and where a street passes over a bridge or through a tunnel, references to a street include that bridge or tunnel: see the New Roads and Street Works Act 1991 s 48(1); and the Water Industry Act 1991 s 219(1). 'Owner', in relation to any premises, means the person who is for the time being receiving the rackrent of the premises, whether on his own account or as agent or trustee for another person, or who would receive the rackrent if the premises were let at a rackrent; and cognate expressions must be construed accordingly: s 219(1). 'Highway' has the same meaning as in the Highways Act 1980 (see **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 7): Water Industry Act 1991 s 219(1).

Where a sewerage undertaker is about to take into consideration the question of making a declaration under s 102 with respect to: (i) any sewer which is situated within the area of another sewerage undertaker or which, though situated within its own area, serves the whole or any part of the area of another sewerage undertaker; (ii) any lateral drain which is situated within the area of another sewerage undertaker or which, though situated within its own area, communicates or is to communicate with a public sewer which is situated within or serves the whole or any part of the area of another sewerage undertaker; or (iii) any sewage disposal works which are situated within the area of another sewerage undertaker or which, though situated within its own area, serve the whole or any part of the area of another sewerage undertaker, it must give notice to the other undertaker: s 103(1) (amended by the Water Act 2003 s 96(2)(a)). Where a sewerage undertaker is required to give such notice to another undertaker, no declaration under the Water Industry Act 1991 s 102 is to be made by the former undertaker until the other undertaker has consented to the declaration or the Secretary of State, on an application made to him, has dispensed with the necessity for such consent, either unconditionally or subject to such conditions as he may think fit to impose: s 103(2). As to the meaning of 'notice' see PARA 1037 note 2.

Where: (A) a sewer (or part of a sewer) or a lateral drain is vested, or any sewage disposal works are vested, in a relevant body; and (B) in the case of a sewer, part of a sewer, lateral drain or works vested in railway undertakers or dock undertakers, the sewer, part or lateral drain in question is, or the works are, situated in or on land belonging to those undertakers and held or used by them for the purposes of their undertaking, a sewerage undertaker must not make a declaration under s 102 with respect to the sewer, or part of it, or the lateral drain or the works (as the case may be), except on the application of the relevant body concerned: s 103(3) (substituted by the Water Act 2003 s 96(2)(b)). 'Relevant body' means any sewerage undertaker, any local authority or county council or any railway undertakers or dock undertakers: Water Industry Act 1991 s 103(5). As to the meaning of 'local authority' see PARA 99. 'Dock undertakers' means persons authorised by any enactment, or by any order, rule or regulation made under any enactment, to construct, work or carry on any dock, harbour, canal or inland navigation: ss 117(1), 184(4). 'Railway undertakers' means the British Railways Board, Transport for London or any subsidiary (within the meaning of the Greater London Authority Act 1999: see **LONDON GOVERNMENT** vol 29(2) (Reissue) PARA 287) of Transport for London, or any other person authorised by any enactment, or by any order, rule or regulation made under any enactment, to construct, work or carry on any railway: Water Industry Act 1991 s 219(1) (definition amended by SI 2003/1615). Functions, rights and liabilities of the British Railways Board were transferred to the Strategic Rail Authority which has been abolished and its functions transferred: see the Railways Act 2005 Pt 1 (ss 1-5); and the Railways (Abolition of the Strategic Rail Authority) Order 2006, SI 2006/2925. As to railway undertakers see generally **RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES** vol 39(1A) (Reissue) PARA 326.

Where a sewerage undertaker makes a declaration under the Water Industry Act 1991 s 102 with respect to a sewer or lateral drain which is situated within the area of another sewerage undertaker or with respect to any sewage disposal works which are so situated, it must give notice of the fact to that other undertaker: s 103(4) (amended by the Water Act 2003 s 96(2)(c)).

1005. Appeals in relation to adoption.

An owner¹ of any sewer², lateral drain³ or sewage disposal works⁴ may appeal to the Water Services Regulation Authority⁵ if: (1) he is aggrieved by the proposal of a sewerage undertaker to make a declaration as to the adoption of any sewer or sewage disposal works⁶; or (2) he is aggrieved by the refusal of a sewerage undertaker to make such a declaration⁷.

On the hearing of any such appeal, the Authority may allow or disallow the proposal of the sewerage undertaker or, as the case may be, make any declaration which the sewerage undertaker might have made⁸. Any such declaration has the same effect as if it had been made by the undertaker in question⁹. Where the Authority makes such a declaration, it may if it thinks fit specify conditions, including conditions as to the payment of compensation by the sewerage undertaker, and direct that its declaration is not to take effect unless any conditions so specified are accepted¹⁰.

A sewerage undertaker must carry out its functions under the Water Industry Act 1991 s 105 so as not to create a nuisance: s 117(6). Nothing in s 105 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). 6 Water Industry Act 1991 s 105(1)(a). The declaration referred to in the text is a declaration under s 102: see PARA 1004. The time for the making of an appeal under s 105(1)(a) by the owner of any sewer, lateral drain or sewage disposal works is any time within two months after notice of the proposal is served on that owner: s 105(3)(a) (s 105(3) amended by the Water Act 2003 s 96(5)(b)). As to the meaning of 'notice' see PARA 1037 note 2.

7 Water Industry Act 1991 s 105(1)(b). The time for the making of an appeal under s 105(1)(b) by the owner of any sewer, lateral drain or sewage disposal works is any time after receipt of notice of the undertaker's refusal or, if no such notice is given, at any time after the end of two months from the making of the application for the declaration: s 105(3)(b) (as amended: see note 6).

The Authority, in deciding, on an appeal under the Water Industry Act 1991 s 105, whether any declaration ought to be made, must have regard to all the circumstances of the case

and, in particular, to the considerations specified in s 102(5) (see PARA 1004): s 105(7) (amended by the Competition and Service (Utilities) Act 1992 s 35; and the Water Act 2003 s 36(2)).

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(i) Vesting in Sewerage Undertakers/1006. Agreement for adoption of future sewer.

1006. Agreement for adoption of future sewer.

A sewerage undertaker¹ may agree with: (1) any person constructing or proposing to construct any sewer², any drain³ intended to communicate with a public sewer vested in that undertaker⁴, or any sewage disposal works⁵; or (2) any person at whose expense the undertaker is, by virtue of an agreement⁶, to carry out work in connection with the construction of such a drain or sewer⁷, that, if the sewer, drain or sewage disposal works is or are constructed in accordance with the terms of the agreement, the undertaker will, upon the completion of the work, or at some specified date or on the happening of some future event, declare the sewer or such part of the drain as constitutes the lateral drain⁸ or works (as the case may be) to be vested in that undertaker⁹. Any such agreement is enforceable against the undertaker by the owner¹⁰ or occupier for the time being of any premises served by the sewer, lateral drain or works to which it relates¹¹.

A person mentioned in head (1) or head (2) above may make an application to a sewerage undertaker requesting the undertaker to make such an agreement¹². Any such application must be accompanied and supplemented by all such information¹³ as the undertaker may reasonably require; but a failure to provide information in pursuance of the obligation to supplement such an application does not invalidate the application¹⁴. Where: (a) a person who has made such an application to a sewerage undertaker has failed to comply with his obligation to supplement that application with information required by the undertaker¹⁵; and (b) that requirement was made by the undertaker at such a time before the end of the period within which the undertaker is required¹⁶ to respond to the application as gave that person a reasonable opportunity to provide the required information within that period¹⁷, the undertaker may delay its response to the application until a reasonable time after the required information is provided¹⁸.

A sewerage undertaker must not make an agreement with respect to: (i) a sewer, drain or sewage disposal works situated within the area of another sewerage undertaker¹⁹; or (ii) a drain which is intended to communicate with a sewer which is so situated or is vested in another sewerage undertaker, until one of the following conditions is satisfied²⁰. The conditions are: (A) that the other undertaker has consented to the making of the agreement²¹; or (B) that the Secretary of State²², on an application made to him, has dispensed with the necessity for such consent, either unconditionally or subject to such conditions as he may think fit to impose²³.

A sewerage undertaker must carry out its functions under s 104 so as not to create a nuisance: s 117(6). Nothing in s 104 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). 11 Water Industry Act 1991 s 104(5) (amended by the Water Act 2003 s 96(4)(c)).

Without limiting the terms which may be included in an agreement under the Water Industry Act 1991 s 104, the terms of an agreement which relates to a drain may include in particular: (1) identification of that part of the drain which constitutes the lateral drain for the purposes of the agreement and, in particular, the point or points of connection between that part and the remainder of the drain; (2) a requirement for the installation of an inspection chamber, at the expense of the person with whom the sewerage undertaker is to make the agreement, at a place specified in the agreement; (3) provision, if the inspection chamber is constructed in accordance with the terms of the agreement, for the undertaker to declare that the inspection chamber be vested in the undertaker at the same time as the lateral drain; and (4) provision for the lateral drain, once vested in the undertaker, to communicate with a public sewer at the place or places specified in the agreement: s 104(6A) (added by the Water Act 2003 s 96(4)(e)).

12 Water Industry Act 1991 s 104(2) (amended by the Water Act 2003 s 96(4)(b)).

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(i) Vesting in Sewerage Undertakers/1007. Appeal in relation to agreement for adoption.

1007. Appeal in relation to agreement for adoption.

A person constructing or proposing to construct a drain¹ or sewer² or any sewage disposal works³ may appeal to the Water Services Regulation Authority⁴ where a sewerage undertaker⁵: (1) has refused an application requesting an agreement by the undertaker to adopt a sewer⁶; (2) has offered to grant such an application on terms to which that person objects⁷; or (3) has failed, before the end of two months from the making of such an application, either to refuse the application or to give notice⁸ to the applicant of the terms on which it is prepared to grant the application⁹.

On the hearing of any such appeal, the Authority may uphold the refusal of the undertaker to grant the application or to modify the terms offered, or, on behalf of the undertaker, refuse the application or enter into any agreement into which the undertaker might have entered on the application¹⁰. Where the Authority makes such an agreement on behalf of a sewerage undertaker, it may do so on such terms as it considers reasonable or, as the case may be, on the terms offered by the undertaker subject to such modifications as it considers appropriate for ensuring that the terms of the agreement are reasonable¹¹.

A sewerage undertaker must carry out its functions under s 105 so as not to create a nuisance: s 117(6). Nothing in s 105 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). 105, whether any agreement ought to be made, must have regard to all the circumstances of the case and, in particular, to the considerations specified in s 102(5) (see PARA 1004): s 105(7) (amended by the Competition and Service (Utilities) Act 1992 s 35; and the Water Act 2003 s 36(2)). For the purposes of the Water Industry Act 1991 s 105(7), in its application in relation to an appeal under s 105(2) (see the text and notes 5-9), the provisions of s 102(5)(a)-(e) (see PARA 1004) have effect with the necessary modifications: s 105(7) (as so amended). 'Modifications' includes additions, alterations, and omissions; and cognate expressions are to be construed accordingly: s 219(1).

1008. Determination of disputes with respect to cross-boundary sewers.

Where any part of a sewer¹ is vested in a sewerage undertaker² by virtue of the provisions relating to the allocation of cross-boundary sewers³, the terms on which that part of that sewer: (1) communicates with such parts of that sewer or of any other sewer⁴; or (2) discharges into any such sewage disposal works⁵, as immediately before 1 September 1989⁶ were vested in the same water authority as that part of that sewer but are vested in another sewerage undertaker⁷ may be determined, in default of agreement, by the Water Services Regulation Authority⁸. Such a determination by the Authority has effect as an agreement between the sewerage undertakers in question but may be varied or revoked by a subsequent determination made by the Authority on the application of either of those undertakers, as well as by agreement between the undertakers⁹. In making such a determination, the Authority must have regard to the desirability of a sewerage undertaker's recovering the costs resulting from its allowing the sewers of other sewerage undertakers to communicate with its sewers or to discharge into its sewage disposal works and of its securing a reasonable return on its capital¹⁰.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(i) Vesting in Sewerage Undertakers/1009. Maps and records of public sewers.

1009. Maps and records of public sewers.

It is the duty of every sewerage undertaker¹ to keep records² of the location and other relevant particulars³: (1) of every public sewer⁴, lateral drain⁵ or disposal main which is vested in the undertaker⁶; (2) of every sewer or lateral drain in relation to which a declaration of vesting has been made by the undertaker⁷ but has not taken effect⁸; and (3) of every drain or sewer which is the subject of any agreement to make such a declaration which has been entered into by the undertaker⁹. Any such information¹⁰ which is required to be made available by a sewerage undertaker for inspection by the public must be made available in the form of a map¹¹.

It is also the duty of every sewerage undertaker to secure that the contents of all the records for the time being kept by it are available, at all reasonable times, for inspection by the public free of charge at an office of the undertaker¹². The records kept by a sewerage undertaker are to be kept separately in relation to the area of each local authority¹³ within whose area there is any drain, sewer or disposal main of which that undertaker is required to keep records and to whom the undertaker is required to provide copies of the contents of those records¹⁴.

For the purpose of determining whether any failure to make a modification of any records so kept constitutes a breach of the duty imposed¹⁵, that duty is taken to require any modification of the records to be made as soon as reasonably practicable after the completion of the works which make the modification necessary; and, where the records are modified, the date of the modification and of the completion of the works making the modification necessary is to be incorporated in the records¹⁶.

1 As to sewerage undertakers see PARA 999. The duties of a sewerage undertaker are enforceable under the Water Industry Act 1991 s 18 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 163) by the Secretary of State: s 199(9). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59.

3 Water Industry Act 1991 s 199(1). For the purposes of s 199, the relevant particulars of a drain, sewer or disposal main are (in addition to its location) particulars: (1) of whether it is a drain, sewer or disposal main and of the descriptions of effluent for the conveyance of which it is or is to be used; and (2) of whether it is vested in the undertaker or, if it is not, of whether it is a sewer in relation to which a declaration has been made under Pt IV Ch II (ss 98-117) or a drain or sewer which is the subject of an agreement under s 104 (see PARA 1006): s 199(2). As to the meanings of 'sewer' and 'drain' see PARA 998. As to the meanings of 'disposal main' and 'effluent' see PARA 1003 note 2.

Section 199(1) is expressed to be subject to s 199(6) (see the text and note 16) and s 199(8): see s 199(1).

Nothing in s 199 requires a sewerage undertaker to keep records of any particulars of a drain, sewer or disposal main laid before 1 September 1989 if: (a) the undertaker does not know of, or have reasonable grounds for suspecting, the existence of the drain, sewer or disposal main; or (b) it is not reasonably practicable for the undertaker to discover the course of the drain, sewer or disposal main and it has not done so: s 199(7). Nothing in s 199 required a sewerage undertaker, at any time before 1 September 1999, to keep records of any particulars of any such drain, sewer or disposal main laid before 1 September 1989 as would not be excluded from its records by virtue of s 199(7) unless: (i) those particulars were shown on 31 August 1989 on a map kept by a local authority under the Public Health Act 1936 s 32 (repealed); or (ii) it is a drain or sewer in relation to which a declaration of vesting, or an agreement to make such a declaration, has been made since 31 August 1989: s 199(8).

It is the duty of every sewerage undertaker so to provide local authorities, free of charge, with copies of the contents of records kept under s 199 and copies of any modifications of those records, as to ensure that every local authority to whose area any of those records relate is at all times informed of the contents for the time being of the records relating to its area: s 200(1). A local authority must secure that so much of any such information provided to it as consists in the contents for the time being of records kept by a sewerage undertaker under s 199 is available, at all reasonable times, for inspection by the public free of charge at an office of the authority: s 200(2). Any information which is required under s 200 to be provided to a local authority or to be made available by a local authority for inspection by the public must be so provided or made available in the form of a map: s 200(3). (ii) Provision of Public Sewers

1010. Duty to provide sewerage system.

It is the duty of every sewerage undertaker¹: (1) to provide, improve and extend such a system of public sewers² (whether inside its area³ or elsewhere) and so to cleanse and maintain those sewers and any lateral drains⁴ which belong to or vest in the undertaker as to ensure that that area is and continues to be effectually drained⁵; and (2) to make provision for the emptying of those sewers and such further provision (whether inside its area or elsewhere) for effectually dealing, by means of sewage disposal works⁶ or otherwise, with the contents of those sewers⁷. Such a duty is enforceable⁸ by the Secretary of State⁹ or, with the consent of or in accordance with a general authorisation given by the Secretary of State, by the Water Services Regulation Authority¹⁰. It is also the duty of a sewerage undertaker in performing its duty mentioned above to have regard to its existing and likely future obligations to allow for the discharge of trade effluent¹¹ into its public sewers and to the need to provide for the disposal of trade effluent which is so discharged¹².

5 Water Industry Act 1991 s 94(1)(a) (amended by the Water Act 2003 s 97(1), (3)). If independently of this provision the undertaker creates a nuisance it may be liable: see PARA 1069. It has been held that an obligation to repair a sewer does not involve reconstruction of a sewer originally defective: *R v Epsom Union Guardians* (1863) 2 New Rep 62. The duty does not extend to the maintenance of areas of land outside the sewer: see *Radstock Co-operative and Industrial Society Ltd v Norton-Radstock UDC* [1968] Ch 605, [1968] 2 All ER 59, CA. The obligations imposed on a sewerage undertaker by the Water Industry Act 1991 Pt IV Chs II-III (ss 98-141), and the remedies available in respect of contraventions of those obligations, are in addition to any duty imposed or remedy available by virtue of any provision of s 94 or s 95 and are not in any way qualified by any such provision: s 94(4).

Cases decided under predecessor provisions are superseded by the new enforcement procedure provided by s 18: see **WATER AND WATERWAYS** vol 100 (2009) PARA 163. Where any act or omission constitutes a contravention of a condition of an appointment under Pt II Ch I (ss 6-17) or of a condition of a licence under Pt II Ch 1A (ss 17A-17R) (see **WATER AND WATERWAYS** vol 100 (2009) PARA 152 et seq) or of a statutory or other requirement enforceable under s 18, or causes or contributes to a contravention of any such condition or requirement, the only remedies for, or for causing or contributing to, that contravention (apart from those available by virtue of s 18), are those for which express provision is made by or under any enactment and those that are available in respect of that act or omission otherwise than by virtue of its constituting, or causing or contributing to, such a contravention: s 18(8) (substituted by the Water Act 2003 Sch 8 paras 2, 4(1), (7)). See *Dear v Thames Water* (1993) 33 Con LR 43, where the equivalent provision in the Water Act 1989 was held to preclude an action in nuisance in respect of matters falling within the enforcement procedure. 11 For these purposes, 'trade effluent' has the same meaning as in the Water Industry Act 1991 Pt IV Ch III (ss 118-144) (see PARA 1047 note 3): s 94(5).

As from a day to be appointed, s 94(5) is amended so as to provide that s 139 (see PARA 1047) is to have effect for the purposes of s 94 as it has effect for the purposes of Pt IV Ch III: s 94(5) (prospectively amended by the Water Act 2003 s 88(2)). 1011. Factors to be considered in carrying out sewerage functions and enforcement.

In carrying out its functions, a sewerage undertaker¹ must exercise any power so as to further the conservation and enhancement of natural beauty and the conservation of flora, fauna, and geological or physiographical features of special interest². It must also have regard to the desirability of protecting buildings, sites and objects of archaeological, architectural or historic interest and take into account any effect which the proposals would have on the beauty or amenity of any rural or urban area or any such flora, fauna, features, buildings, sites or objects³. It is further required to have regard to the desirability of preserving for the public, and maintaining the availability to the public of, any freedom of access to places of natural beauty, and buildings and sites of archaeological, architectural or historic interest, and to take into account any effect the proposals would have on such access⁴. There is also a duty to take into account the needs of the chronically sick or disabled⁵. These duties are enforceable by the Secretary of State⁶ by a system of enforcement orders⁷. There are provisions for procedure for enforcement orders, including notifying the undertaker and any other persons likely to be affected by an order and considering any representations before confirming, finalising or revoking an order⁸. The undertaker may challenge the order on legal grounds in the High Court and the High Court may quash the order or any provisions of it⁹. Breach of an enforcement order is actionable at the suit of any person who sustains loss or damage as a result¹⁰, although it is a defence for the undertaker to show that it took all reasonable steps and exercised due diligence to avoid contravention¹¹. The order is separately enforceable by the relevant enforcement authority by injunction or other relief¹².

1012. Special administration orders.

The Secretary of State¹ or, with his consent, the Water Services Regulation Authority² may apply to the High Court in relation to any company holding an appointment as a sewerage undertaker³ and the court may make a special administration order⁴ on one or more of the following grounds⁵:

- 2225 (1) that there has been, is or is likely to be such a contravention⁶ by the company of any principal duty⁷, as is serious enough to make it inappropriate for the company to continue to hold its appointment⁸;
- 2226 (2) that there has been or is likely to be such a contravention of an enforcement order⁹ as is serious enough to make it inappropriate for the company to continue to hold its appointment¹⁰;
- 2227 (3) that the company is or is likely to be unable to pay its debts¹¹;
- 2228 (4) that, in a case where the Secretary of State has certified that it would be appropriate for him to petition for the winding up of the company¹², it would be just and equitable for the company to be wound up if it did not hold an appointment¹³;
- or
- 2229 (5) that the company is unable or unwilling adequately to participate in arrangements certified by the Secretary of State or the Authority to be necessary by reason of, or in connection with, a proposal for any appointment or variation replacing a company as a sewerage undertaker¹⁴.

The court must not make a winding up order or an administration order in relation to a company holding an appointment as a sewerage undertaker, and there are restrictions on the ability to enforce any security over the company's property¹⁵.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1013. Performance of sewerage undertaker's functions by local authorities etc.

1013. Performance of sewerage undertaker's functions by local authorities etc.

A relevant authority¹ may, in accordance with any arrangements which it has entered into for the purpose with any sewerage undertaker², carry out sewerage functions³ on that undertaker's behalf in relation to such area comprising the whole or any part of that authority's relevant area⁴, together (where that authority is a local authority or an urban development corporation and the arrangements so provide) with parts of any adjacent relevant areas of other relevant authorities, as may be specified in the arrangements⁵. Arrangements entered into for such purposes may contain any such provision as may be agreed between the relevant authority and the sewerage undertaker but do not affect the availability to any person, other than the relevant authority, of any remedy against the undertaker in respect of the carrying out of the undertaker's sewerage functions or of any failure to carry them out⁶. Where any such arrangements so provide, a relevant authority is entitled to exercise on behalf of a sewerage undertaker any power which by or under any enactment⁷ is exercisable by the undertaker for the purposes of, or in connection with, the carrying out of the undertaker's sewerage functions⁸.

Where such arrangements provide for a local authority to carry out the sewerage functions of a sewerage undertaker on the undertaker's behalf, the provision relating to the delegation of functions⁹, so far as it relates to the carrying out of functions by a committee, sub-committee or officer of a local authority, has effect in relation to those sewerage functions only in so far as the arrangements do not otherwise provide¹⁰.

1 'Relevant authority' means any of the following: (1) a local authority; (2) the new towns residuary body or a development corporation for a new town; (3) the urban development corporation for any urban development area: Water Industry Act 1991 s 97(5) (definition amended by the Government of Wales Act 1998 Sch 15 para 17(b); and the Housing and Regeneration Act 2008 Sch 8 paras 55, 57(b)). 'New towns residuary body' means (a) in relation to a new town in England, the Homes and Communities Agency so far as exercising functions in relation to anything transferred (or to be transferred) to it as mentioned in the Housing and Regeneration Act 2008 s 52(1)(a) or (b) (see **TOWN AND COUNTRY PLANNING**) (and references to the 'English new towns residuary body' are to be read accordingly); and (b) in relation to a new town in Wales, the Welsh Ministers so far as exercising functions in relation to anything transferred (or to be transferred) to them as mentioned in the New Towns Act 1981 s 36(1)(a)(i) or (ii) (see **TOWN AND COUNTRY PLANNING**) (and references to the 'Welsh new towns residuary body' are to be read accordingly): Water Industry Act 1991 s 219(1) (definition added by the Housing and Regeneration Act 2008 Sch 8 paras 55, 59). 'New town' has the same meaning as in the New Towns Act 1981 (see **TOWN AND COUNTRY PLANNING** vol 46(3) (Reissue) PARA 1315): Water Industry Act 1991 s 97(5). 'Urban development area' means any area so designated under the Local Government, Planning and Land Act 1980 Pt XVI (ss 134-172) (see **TOWN AND COUNTRY PLANNING** vol 46(3) (Reissue) PARA 1426 et seq): Water Industry Act 1991 s 97(5). As to the meaning of 'local authority' see PARA 99.

2 As to sewerage undertakers see PARA 999.

3 'Sewerage functions', in relation to a sewerage undertaker, means any of the functions of the undertaker by virtue of its appointment under the Water Industry Act 1991 Pt II Ch I (ss 6-17) (see **WATER AND WATERWAYS** vol 100 (2009) PARA 137 et seq) as a sewerage undertaker, other than its functions relating to sewage disposal and its functions by virtue of Pt IV Ch III (ss 118-141) (see PARA 1047 et seq): s 97(5).

4 'Relevant area': (1) in relation to a local authority, means the area of the authority and the whole of any new town or urban development area any part of which is situated within the area of the authority; (2) in relation to the English new towns residuary body, means any new town in England; (3) in relation to the Welsh new towns residuary body, means any new town in Wales; (4) in relation to the development corporation for any new town, means that new town; and (5) in relation to any urban development corporation for any urban development area, means that area: Water Industry Act 1991 s 97(5) (definition amended by the Government

of Wales Act 1998 Sch 15 para 17(a), Sch 18 Pt IV; and the Housing and Regeneration Act 2008 Sch 8 paras 55, 57(a)).

6 Water Industry Act 1991 s 97(2). For the effect of agency arrangements on liability of a sewerage undertaker in negligence see *King v Harrow London Borough Council* (1994) 39 Con LR 21.

7 'Enactment' includes an enactment contained in the Water Industry Act 1991 or in any Act passed after it: s 219(1).

8 Water Industry Act 1991 s 97(3).

9 le the Local Government Act 1972 s 101: see **LOCAL GOVERNMENT** vol 69 (2009) PARA 370.

10 Water Industry Act 1991 s 97(4).

Where arrangements entered into for the purposes of s 97 provide for a local authority which is operating executive arrangements to carry out the sewerage functions of a sewerage undertaker on that undertaker's behalf: (1) those sewerage functions are treated as functions of the authority for the purposes of the Local Government Act 2000 s 13 (see **LOCAL GOVERNMENT** vol 69 (2009) PARA 324); and (2) if or to the extent that those sewerage functions are the responsibility of the executive of that authority: (a) the Water Industry Act 1991 s 97(4) does not apply; and (b) the Local Government Act 2000 ss 14-16 and any regulations made under ss 17-20 (see **LOCAL GOVERNMENT** vol 69 (2009) PARA 357 et seq) apply in relation to those sewerage functions only in so far as the arrangements do not provide otherwise: Water Industry Act 1991 s 97(4A) (added by SI 2001/2237; and SI 2002/808). 'Executive' and 'executive arrangements' have the same meanings as in the Local Government Act 2000 Pt II (ss 10-48) (see **LOCAL GOVERNMENT** vol 69 (2009) PARA 303); Water Industry Act 1991 s 97(5) (definitions added by SI 2001/2237; and SI 2002/808).

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1014. Standards of performance in connection with provision of sewerage services.

1014. Standards of performance in connection with provision of sewerage services.

For the purpose: (1) of facilitating the determination of the extent to which breaches of certain obligations¹ are to amount to breaches of the general duty to provide a sewerage system²; or (2) of supplementing that duty by establishing overall standards of performance in relation to the provision of sewerage services by any sewerage undertaker³, the Secretary of State⁴ may by regulations⁵ provide for contraventions⁶ of such requirements as may be prescribed⁷ to be treated for the purposes of the Water Industry Act 1991 as breaches of that duty⁸.

The Secretary of State may also by regulations prescribe such standards of performance in connection with the provision of sewerage services⁹ as, in his opinion, ought to be achieved in individual cases¹⁰. Such regulations may provide that, if a sewerage undertaker fails to meet a prescribed standard, it must pay such amount as may be prescribed to any person who is affected by the failure and is of a prescribed description¹¹. The regulations may¹²:

- 2230 (a) include in a standard of performance a requirement for a sewerage undertaker, in prescribed circumstances, to inform a person of his rights by virtue of any such regulations¹³;
- 2231 (b) provide for any dispute under the regulations to be referred by either party to the dispute to the Water Services Regulation Authority¹⁴;
- 2232 (c) make provision for the procedure to be followed in connection with any such reference and for the Authority's determination on such a reference to be enforceable in such manner as may be prescribed¹⁵;
- 2233 (d) prescribe circumstances in which a sewerage undertaker is to be exempted from requirements of the regulations¹⁶.

Where the Authority determines any dispute in accordance with regulations made under these provisions it must, in such manner as may be specified in the regulations, give its reasons for reaching its decision with respect to the dispute¹⁷.

1 The obligations imposed by virtue of the Water Industry Act 1991 ss 95A-141.

2 Water Industry Act 1991 s 95(1)(a). The duty to provide a sewerage system is the duty under s 94 (see PARA 1010): see s 95(1)(a).

5 As to the procedure for making regulations see the Water Industry Act 1991 s 96; and PARA 1015. As to regulations made under s 95(2)-(4) see the Water Supply and Sewerage Services (Customer Service Standards) Regulations 2008, SI 2008/594, which set out the service standards that must be met by sewerage undertakers and provide for payments to be made to customers for failure to meet the prescribed standards. The 2008 Regulations revoke the previous Water Supply and Sewerage Services (Customer Service Standards) Regulations 1989, SI 1989/1159 (amended by SI 1989/1383, SI 1993/500, SI 1996/3065, SI 2000/2301) and provide a consolidated text, in revised language, of the revoked Regulations, but extend the rights of customers to payments for flooding of customers' land or property by sewer overflowing. In addition, the standards of performance to be met and the payments to be made by undertakers whose areas are wholly or mainly in England have also been applied to undertakers whose areas are wholly or mainly in Wales (formerly there were

different standards of performance for, and payments by, undertakers whose areas are wholly or mainly in Wales). As to exclusions see the Water Supply and Sewerage Services (Customer Service Standards) Regulations 2008, SI 2008/594, reg 5; as to keeping of appointments see reg 6; as to complaints, account queries and requests about payment arrangements see reg 7; as to notice of interruption of supply see reg 8; as to entitlement to payment or credit where supply not restored as promised see reg 9; as to pressure standard see reg 10; as to flooding from sewers see regs 11, 12; as to timing of payments see reg 13; as to means of payment see reg 14; as to payments not affecting other legal liabilities see reg 15; as to notice of rights to be given to customers see reg 16; and as to reference of disputes to the Authority see reg 17.

6 As to the meaning of 'contravention' see PARA 1004 note 4.

7 'Prescribed' means prescribed by regulations: Water Industry Act 1991 s 219(1). See note 5.

8 Water Industry Act 1991 s 95(1).

It is the duty of the Consumer Council for Water to publish, in such form and manner and with such frequency as it thinks appropriate, such statistical information as it considers appropriate relating to complaints made by consumers about any matter relating to the activities of sewerage undertakers and the handling of such complaints: s 95B(1) (s 95B added by the Water Act 2003 s 45(2)). For these purposes, 'complaints' includes complaints made directly to sewerage undertakers (or anyone carrying on activities on their behalf) and complaints to the Water Services Regulation Authority, the Consumer Council for Water, the Welsh Ministers or the Secretary of State: Water Industry Act 1991 s 95B(2) (as so added). As to the Consumer Council for Water see **WATER AND WATERWAYS** vol 100 (2009) PARA 115 et seq. As to the Water Services Regulation Authority see **WATER AND WATERWAYS** vol 100 (2009) PARA 109 et seq.

9 'Sewerage services' includes the disposal of sewage and any other services which are required to be provided by a sewerage undertaker for the purpose of carrying out its functions: Water Industry Act 1991 s 219(1). As to the meaning of 'functions' see PARA 1004 note 4.

1015. Procedure for making regulations prescribing standards of performance.

The Secretary of State¹ may make regulations² on an application by the Water Services Regulation Authority³, in accordance with heads (1) to (3) below⁴, or otherwise than on such an application, in accordance with heads (A) and (B) below⁵.

Where the Authority has made to the Secretary of State a written application⁶, the Secretary of State may make such regulations⁷ if:

- 2234 (1) he is satisfied that a copy of the application has been served by the Water Services Regulation Authority⁸: (a) on every sewerage undertaker specified in the application⁹; (b) on persons or bodies appearing to the Secretary of State to be representative of persons likely to be affected by the regulations¹⁰; (c) on the Consumer Council for Water¹¹; and (d) on such other persons or bodies as the Secretary of State may consider appropriate¹²;
- 2235 (2) such period as the Secretary of State considers appropriate has been allowed for the making¹³: (a) by the Authority¹⁴; and (b) by any affected sewerage undertaker or person or body on whom a copy of the application has been served¹⁵, of representations or objections with respect to the Authority's proposals and any modifications¹⁶ proposed by the Secretary of State¹⁷; and
- 2236 (3) the Secretary of State has considered the written summary of results of research¹⁸, the Authority's reasons for its proposals, and every representation or objection which has been duly made with respect to those proposals, or any proposed modifications of those proposals, and has not been withdrawn¹⁹.

The Secretary of State must not make any regulations prescribing standards of performance²⁰, on an application by the Authority²¹, except where: (i) the only provisions of the regulations are those which in the opinion of the Secretary of State give effect to the proposals set out in the Authority's application or to those proposals with such modifications as the Secretary of State considers appropriate²²; and (ii) each of the modifications (if any) of the Authority's proposals to which effect is given by the regulations is a modification the proposal to make which has been notified to the Authority, to any sewerage undertaker appearing to the Secretary of State to be likely to be affected by the modifications and to any person or body on whom a copy of the Authority's application was served²³.

Where no such application²⁴ has been made, the Secretary of State may make such regulations²⁵ only if he considers: (A) that the regulations will contribute towards the attainment of policies relating to public health or the environment²⁶; or (B) where he does not consider that they will so contribute, that there are exceptional reasons why it is otherwise in the public interest that the regulations should be made²⁷.

An application made by the Authority to the Secretary of State complies with the Water Industry Act 1991 s 96(2) if it: (1) sets out the Authority's proposals for the making of regulations under s 95 (see PARA 1014) (s 96(2)(a) (amended by the Water Act 2003 s 42(1), (4)(a))); (2) specifies the sewerage undertaker or undertakers in relation to which it is proposed the regulations should apply (Water Industry Act 1991 s 96(2)(b) (amended by the Water Act 2003 s 42(1), (4)(b))); (3) is accompanied by a written summary of the results of the research carried out in accordance with the Water Industry Act 1991 s 96(1A) (s 96(2)(bb) (added by the Competition and Service (Utilities) Act 1992 ss 30(1), (4))); and (4) summarises the Authority's reasons for its proposals (Water Industry Act 1991 s 96(2)(c) (amended by the Water Act 1993 s 36(2))). Before making regulations under the Water Industry Act 1991 s 95 (see PARA 1014) by virtue of s 96(4), the Secretary of State must: (1) give notice of his proposals; (2) consider the results of the research carried out in accordance with s 96(7); and (3) consider every representation or objection with respect to the proposals which has been duly made and not withdrawn: s 96(5) (as so added). A notice under head (1) above must: (a) summarise the Secretary of State's reasons for his proposals; (b) specify the sewerage undertaker or undertakers in relation to which it is proposed the regulations should apply; and (c) specify the period within which objections or representations with respect to the proposals may be made: s 96(6) (as so added). Before giving notice under head (1) above, the Secretary of State must arrange for such research as he considers appropriate with a view to discovering the views of a representative sample of persons likely to be affected: s 96(7) (as so added). Such a notice must be given by serving a copy on: (i) the Authority; (ii) the Consumer Council for Water; (iii) every sewerage undertaker to which the regulations will apply; (iv) persons or bodies appearing to the Secretary of State to be representative of persons likely to be affected by the regulations; and (iv) such other persons or bodies as the Secretary of State may consider appropriate: s 96(8) (as so added).

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1016. Information with regard to performance.

1016. Information with regard to performance.

The Water Services Regulation Authority¹ must from time to time collect information² with respect to the compensation paid³ by sewerage undertakers⁴, and the levels of overall performance achieved by sewerage undertakers in connection with the provision of sewerage services⁵.

At such times as the Authority may direct, each sewerage undertaker must give the following information to the Authority⁶: (1) as respects each prescribed standard of performance⁷, the number of cases in which compensation was paid and the aggregate amount or value of that compensation⁸; and (2) as respects each overall standard of performance that is established⁹, such information with respect to the level of performance achieved by the undertaker as may be specified¹⁰. A sewerage undertaker who without reasonable excuse fails to do anything required of it under these provisions is liable on summary conviction to a penalty¹¹.

The Authority must, at least once in every year, arrange for the publication, in such form and in such manner as it considers appropriate, of such of the information collected by or given to it as may appear to it expedient to give to customers or potential customers¹² of sewerage undertakers¹³. In arranging for the publication of any such information, the Authority must have regard to the need for excluding, so far as practicable¹⁴: (a) any matter which relates to the affairs of an individual, where publication of that matter would or might, in the opinion of the Authority, seriously and prejudicially affect the interests of that individual¹⁵; and (b) any matter which relates specifically to the affairs of a particular body of persons, whether corporate or unincorporate, where publication of that matter would or might, in the opinion of the Authority, seriously and prejudicially affect the interests of that body¹⁶.

Each sewerage undertaker must, in such form and manner and with such frequency as the Authority may direct, take steps to inform its customers¹⁷ of: (i) the standards of overall performance¹⁸ which are applicable to that undertaker¹⁹; and (ii) that undertaker's level of performance as respects each of those standards²⁰. In giving any such direction, the Authority must not specify a frequency of less than once in every period of 12 months²¹.

1017. Procedure for dealing with complaints.

Each sewerage undertaker¹ must establish a procedure for dealing with complaints made by its customers or potential customers² in connection with the provision of sewerage services³. No such procedure is to be established, and no modification⁴ of such a procedure is to be made, unless the sewerage undertaker has consulted the regional committee to which it has been allocated, and the proposed procedure or modification has been approved by the Water Services Regulation Authority⁵.

The sewerage undertaker must publicise the procedure in such manner as may be approved by the Authority and send a description of the procedure, free of charge, to any person who asks for one⁶. The Authority may give a direction to a sewerage undertaker requiring the undertaker to review its procedure or the manner in which the procedure operates⁷. Such a direction⁸: (1) may specify the manner in which the review is to be conducted⁹; and (2) must require a written report of the review to be made to the Authority¹⁰. Where the Authority receives such a report it may, after consulting the sewerage undertaker, direct the undertaker to make such modifications of the procedure, or the manner in which the procedure operates, as may be specified in the direction¹¹.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1018. Duty to comply with sewer requisition.

1018. Duty to comply with sewer requisition.

It is the duty of a sewerage undertaker¹ to provide a public sewer² to be used for the drainage for domestic purposes³ of premises in a particular locality in its area⁴ if: (1) the undertaker is required to provide the sewer⁵ by a notice⁶ served on the undertaker by one or more of the persons who are entitled to require the provision of the sewer for that locality⁷; (2) the premises in that locality the drainage of which would be by means of that sewer are premises on which there are buildings or premises on which there will be buildings when proposals made by any person for the erection of any buildings are carried out⁸; and (3) certain conditions are satisfied in relation to that requirement⁹.

It is the duty of a sewerage undertaker¹⁰ to provide a lateral drain¹¹ to communicate with a public sewer and to be used for the drainage for domestic purposes of premises in its area if: (a) the undertaker is required to provide the lateral drain by a notice served on the undertaker by one or more of the persons who are entitled to require the provision of the lateral drain¹²; (b) the premises the drainage of which would be by means of that lateral drain are premises on which there are buildings or premises on which there will be buildings when proposals made by any person for the erection of any buildings are carried out¹³; and (c) certain conditions are satisfied in relation to that requirement¹⁴.

The duty of a sewerage undertaker to provide a public sewer or, as the case may be, a lateral drain, is owed to the person who requires the provision of the sewer or lateral drain or, as the case may be, to each of the persons who joins in doing so¹⁵. Where such a duty is owed to any person, any breach of that duty which causes that person to sustain loss or damage¹⁶ is actionable at the suit of that person; but, in any proceedings so brought against a sewerage undertaker, it is a defence for the undertaker to show that it took all reasonable steps and exercised all due diligence to avoid the breach¹⁷.

A sewerage undertaker is not in breach of its above duty to comply with a sewer requisition¹⁸ in relation to any locality or (in the case of a lateral drain) in relation to any premises unless¹⁹: (i) the period of six months beginning with the relevant day²⁰ has expired²¹; and (ii) the sewerage undertaker has not, before the end of that period, so laid (as the case may be) the public sewer to be provided as to enable drains²² and private sewers²³ to be used for the drainage of premises in the locality to communicate with the public sewer, or the lateral drain to be provided as to enable the drain to be used for the drainage of premises to communicate with a public sewer vested in that undertaker, at certain places²⁴.

² As to the meaning of 'public sewer' see PARA 1000.

³ The reference to domestic purposes, in relation to the drainage of premises to which a requirement under the Water Industry Act 1991 s 98 relates, is a reference: (1) where there are buildings on those premises, to such domestic sewerage purposes as are specified in relation to those buildings in the requirement; and (2) where any person is proposing to erect buildings on those premises, to such domestic sewerage purposes as are so specified in relation to the buildings and to times after the erection of the buildings: s 98(5) (amended by the Water Act 2003 s 95(1), (5)(b)). 'Domestic sewerage purposes', in relation to any premises, means any one or more of the following purposes:

173 (a) the removal, from buildings on the premises and from land occupied with and appurtenant to the buildings, of the contents of lavatories;

174 (b) the removal, from such buildings and from such land, of water which has been used for cooking or washing; and

175 (c) the removal, from such buildings and such land, of surface water,

but does not, by virtue of head (b) above, include the removal of any water used for the business of a laundry or for a business of preparing food or drink for consumption otherwise than on the premises: Water Industry Act 1991 s 117(1). 'Surface water' includes water from roofs: s 219(1).

20 For these purposes, 'relevant day', in relation to a requirement to provide a public sewer for any locality or, as the case may be, a lateral drain, means the day after whichever is the later of the following: (1) the day on which the conditions specified in the Water Industry Act 1991 s 99 (see PARA 1019) are satisfied in relation to the requirement; and (2) the day on which the place or places where (as the case may be) drains or private sewers to be used for the drainage of premises in that locality will communicate with the public sewer, or the lateral drain will communicate with a public sewer and the remainder of the drain will connect with the lateral drain, are determined under s 101(3) (see note 24): s 101(5) (as substituted: see note 19).

21 Water Industry Act 1991 s 101(1)(a) (as substituted: see note 19). The period may be extended: (1) by agreement between the undertaker and the person or persons who required the provision of the public sewer or, as the case may be, lateral drain; or (2) where there is a dispute as to whether the period should be extended, by the Water Services Regulation Authority on a reference under s 101(4): s 101(2) (as so substituted). SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1019. Financial conditions of compliance with sewer requisition.

1019. Financial conditions of compliance with sewer requisition.

The conditions¹ are satisfied in relation to a requirement for the provision of a public sewer² or (as the case may be) lateral drain³ by a sewerage undertaker⁴ if: (1) such undertakings as the undertaker may have reasonably required⁵ have been given by the person or persons who have required the provision of the sewer or (as the case may be) lateral drain⁶; and (2) such security as the undertaker may have reasonably required has been provided for the discharge of any obligations imposed by those undertakings on any person who may be required to secure his undertakings⁷.

The undertakings which a sewerage undertaker may require⁸ in respect of any public sewer are undertakings which⁹: (a) bind the person or persons mentioned to pay to the undertaker either (at the election of such person or persons), in respect of each of the 12 years following the provision of the sewer, an amount not exceeding the relevant deficit¹⁰ (if any) for that year on that sewer, or, following the provision of the sewer, a single amount not exceeding the discounted aggregate deficit¹¹ on that sewer¹²; and (b) in the case of undertakings binding two or more persons, bind them either jointly and severally or with liability to pay apportioned in such manner as they may agree¹³.

The undertakings which a sewerage undertaker may require¹⁴ in respect of any lateral drain are undertakings¹⁵ which: (i) bind the person or persons mentioned to pay to the undertaker, following provision of the lateral drain, on such terms as may be specified in the undertaking, an amount not exceeding the costs reasonably incurred in or in connection with the provision of the lateral drain¹⁶; and (ii) in the case of undertakings binding two or more persons, bind them either jointly and severally or with liability apportioned in such manner as they may agree¹⁷.

Any dispute between a sewerage undertaker and any other person¹⁸ as to: (A) the undertakings or security required by the undertaker for these purposes¹⁹; or (B) the amount required to be paid in pursuance of any such undertaking²⁰, may be referred to the Water Services Regulation Authority for determination²¹ by either party to the dispute²².

'Public authority' means any Minister of the Crown or government department, the Environment Agency, any local authority or county council or any person certified by the Secretary of State to

be a public authority for the purposes of the Water Industry Act 1991: s 219(1) (definition amended by the Environment Act 1995 Sch 22 para 125). As to the meaning of 'local authority' see PARA 99. As to the Environment Agency see PARA 68 et seq. As to the Secretary of State see PARA 58. Where, for the purposes of the Water Industry Act 1991 s 99(1)(b), any sums have been deposited with a sewerage undertaker by way of security for the discharge of any obligation, the undertaker must pay interest at such rate as may be determined either by the undertaker with the approval of the Water Services Regulation Authority, or in default of such a determination, by the Authority, on every sum of 50p so deposited for every three months during which it remains in the hands of the undertaker: s 99(4) (amended by the Water Act 2003 s 36(2)). An approval or determination given or made by the Authority for these purposes may be given or made in relation to the provision of a particular public sewer or (as the case may be) lateral drain, in relation to the provision of sewers or lateral drains of a particular description or in relation to the provision of public sewers or lateral drains generally, and may be revoked at any time: Water Industry Act 1991 s 99(5) (amended by the Water Act 2003 ss 36(2), 95(6)(d)). SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1020. Calculation of relevant deficit and discounted aggregate deficit.

1020. Calculation of relevant deficit and discounted aggregate deficit.

The relevant deficit¹ for any year on a public sewer² is the amount (if any) by which the drainage charges payable for the use during that year of that sewer³ are exceeded by the annual borrowing costs of a loan of the amount required for the provision of that sewer⁴. The annual borrowing costs of a loan of the amount required for the provision of a public sewer is the aggregate amount which would fall to be paid in any year by way of payments of interest and repayments of capital if an amount equal to so much of the costs reasonably incurred in providing that sewer⁵ as were not incurred in the provision of additional capacity⁶ had been borrowed, by the sewerage undertaker providing the sewer, on terms requiring interest to be paid and capital to be repaid in 12 equal annual instalments and providing for the amount of the interest to be calculated at such rate, and in accordance with such other provision, as may have been determined for these purposes⁷. Such a determination must be made either by the undertaker with the approval of the Water Services Regulation Authority⁸ or, in default of such a determination, by the Authority⁹. An approval or determination given or made by the Authority¹⁰: (1) may be given or made in relation to the provision of a particular public sewer, in relation to the provision of sewers of a particular description or in relation to the provision of public sewers generally¹¹; and (2) may be revoked at any time except in relation to a public sewer in respect of which the conditions¹² have already been satisfied¹³.

The discounted aggregate deficit¹⁴ on a public sewer is the amount equal to the sum of the estimated relevant deficits¹⁵ for each of the 12 years following the provision of the sewer, in each case discounted in order to determine its net present value by applying such factor, and in accordance with such other provision, as may be determined by the Authority¹⁶.

1 le the relevant deficit for the purposes of the Water Industry Act 1991 s 99: see PARA 1019.

2 As to the meaning of 'public sewer' see PARA 1000.

3 Any reference to the drainage charges payable for the use during any year of any sewer provided by a sewerage undertaker is a reference to so much of the aggregate of any charges payable to the sewerage undertaker in respect of services provided in the course of that year as represents charges which: (1) have been imposed by the undertaker in relation to such of the premises connected with that sewer as are premises where there are buildings; and (2) are reasonably attributable to the use of that sewer for the drainage for domestic sewerage purposes of those premises or to the disposal of effluent drained for any such purpose from those premises: Water Industry Act 1991 s 100(7). 'Services' includes facilities: s 219(1). As to the meaning of 'domestic sewerage purposes' see PARA 1018 note 3. As to the meaning of 'effluent' see PARA 1003 note 2. As to sewerage undertakers see PARA 999.

4 Water Industry Act 1991 s 100(1).

5 Costs reasonably incurred in providing a public sewer (the 'new sewer') include: (1) the costs reasonably incurred in providing such other public sewers and such pumping stations as it is necessary to provide in consequence of the provision of the new sewer; and (2) such proportion (if any) as is reasonable of the costs reasonably incurred in providing any such additional capacity in an earlier public sewer as falls to be used in consequence of the provision of the new sewer: Water Industry Act 1991 s 100(4). The reference to an earlier public sewer, in relation to the new sewer, is a reference to any public sewer which: (a) has been provided in the period of 12 years immediately before the provision of the new sewer; and (b) was so provided in pursuance of a public sewer requisition: s 100(5). 'Public sewer requisition' means: (i) a requirement under s 98 (see PARA 1018) (including, by virtue of the Water Consolidation (Consequential Provisions) Act 1991 s 2, Sch 2 para 1, a requirement under the Water Act 1989 s 71 (repealed)); (ii) a requirement under the provisions of the Water Act 1973 s 16 (repealed) (sewer requisitions); or (iii) a requirement under any local statutory provision

corresponding to the Water Industry Act 1991 s 98 or to any of the provisions of the Water Act 1973 s 16 (repealed); Water Industry Act 1991 s 100(9). 'Local statutory provision' means: (A) a provision of a local Act (including an Act confirming a provisional order); (B) a provision of so much of any public general Act as has effect with respect to a particular area, with respect to particular persons or works or with respect to particular provisions falling within this definition; (C) a provision of an instrument made under any provision falling within head (A) or head (B) above; or (D) a provision of any other instrument which is in the nature of a local enactment: s 219(1).

6 Any reference to the provision of additional capacity in a public sewer provided in pursuance of a requirement under any enactment is a reference to such works carried out or other things done in connection with the provision of that sewer as are carried out or done for the purpose of enabling that sewer to be used for purposes in addition to those for which it is necessary to provide the sewer in order to comply with the requirement: Water Industry Act 1991 s 100(6). As to the meaning of 'enactment' see PARA 1013 note 7.

13 Water Industry Act 1991 s 100(8)(b).

14 Ie the discounted aggregate deficit for the purposes of the Water Industry Act 1991 s 99: see PARA 1019.

15 The estimated relevant deficit (see the text and notes 1-13) for any year is the amount (if any) by which the estimated drainage charges payable for the use during that year of that sewer would be exceeded by the annual borrowing costs of a loan of the amount required for the provision of that sewer: Water Industry Act 1991 s 100A(2) (s 100A added by the Water Act 2003 s 93(3)). Any reference in the Water Industry Act 1991 s 100A to the estimated drainage charges payable for the use during any year of any sewer is a reference to so much of the aggregate of any charges expected to be payable to the sewerage undertaker for the provision of services in the course of that year as would represent charges: (1) imposed by the undertaker in relation to such of the premises with which the sewer is expected to be connected as are premises where there are buildings; and (2) reasonably attributable to the use of that sewer for the drainage for domestic sewerage purposes of those premises or to the disposal of effluent drained for any such purposes from those premises: s 100A(4) (as so added). For the purposes of s 100A(4), a thing is expected to be the case if, at the time the relevant calculation is made, it is reasonably likely to occur: s 100A(5) (as so added).

The provisions of s 100(2)-(6), (8) and s 100(9) (see the text and notes 5-13) (which relate to the annual borrowing costs of a loan of the amount required for the provision of a public sewer) apply for the purposes of s 100A as they apply for the purposes of s 100: s 100A(3) (as so added).

16 Water Industry Act 1991 s 100A(1), (6) (as added: see note 15).

A determination made by the Authority for the purposes of s 100A(6): (1) may be made in relation to the provision of a particular public sewer or in relation to the provision of public sewers generally; and (2) may be revoked at any time except in relation to a public sewer in respect of which the conditions referred to in s 99(1) (see PARA 1019) have already been satisfied: s 100A(7) (as so added).

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/21. SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1021. Provision of public sewers otherwise than by requisition.

1021. Provision of public sewers otherwise than by requisition.

It is the duty of a sewerage undertaker¹ to provide a public sewer² to be used for the drainage for domestic sewerage purposes³ of premises in a particular locality in its area if certain conditions are satisfied⁴. The conditions are⁵:

- 2237 (1) that the premises in question, or any of those premises, are premises on which there are buildings⁶;
- 2238 (2) that the drains or sewers⁷ used for the drainage for domestic sewerage purposes of the premises in question do not, either directly or through an intermediate drain or sewer, connect with a public sewer⁸; and
- 2239 (3) that the drainage of any of the premises in question is giving, or is likely to give, rise to such adverse effects to the environment or amenity that it is appropriate, having regard to any guidance issued by the Secretary of State and all other relevant considerations, to provide a public sewer for the drainage for domestic sewerage purposes of the premises in question⁹.

A sewerage undertaker is only to be taken to be in breach of its duty to provide a public sewer to be used for the drainage for domestic sewerage purposes of premises in a particular locality in its area¹⁰ where, and to the extent that, it has accepted, or the Environment Agency has determined, that it is under such a duty and where any time accepted by it, or determined by the Environment Agency, as the time by which the duty is to that extent to be performed has passed¹¹.

Any dispute between a sewerage undertaker and an owner¹² or occupier of any premises in its area¹³ as to: (a) whether the undertaker is under a duty¹⁴ to provide a public sewer to be used for any such drainage of certain premises¹⁵; (b) the domestic sewerage purposes for which any such sewer ought to be provided¹⁶; or (c) the time by which any such duty of the undertaker ought to be performed¹⁷, is to be determined by the Environment Agency; and it may be referred to the Environment Agency for determination by either of the parties to the dispute¹⁸. The Environment Agency must notify the parties of the reasons for its decision on any dispute so referred to it, and may make any such recommendations, or give any such guidance, relating to or in connection with the drainage of the premises or locality in question as it considers appropriate¹⁹. The decision of the Environment Agency on any dispute so referred to it is final²⁰.

Subject to s 101A(7)-(10), the duty of a sewerage undertaker by virtue of s 101A(1) is enforceable under s 18 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 163) by the Secretary of State or, with the consent of or in accordance with a general authorisation given by the Secretary of State, by the Water Services Regulation Authority: s 101A(6) (as so added; and amended by the Water Act 2003 s 36(2)). 9 Water Industry Act 1991 s 101A(2)(c) (as added (see note 4); and amended by the Water Act 2003 s 94(b), Sch 9 Pt 3). Without prejudice to the generality of the Water Industry Act 1991 s 101A(2)(c), regard must be had to the following considerations, so far as relevant, in determining whether it is appropriate for any sewer to be provided by virtue of s 101A:

186 (1) the geology of the locality in question or of any other locality (s 101A(3)(a) (as so added));

187 (2) the number of premises, being premises on which there are buildings, which might reasonably be expected to be drained by means of that sewer (s 101A(3)(b) (as so added));

188 (3) the costs of providing that sewer (s 101A(3)(c) (as so added));

189 (4) the nature and extent of any adverse effects to the environment or amenity arising, or likely to arise, as a result of the premises or, as the case may be, the locality in question not being drained by means of a public sewer (s 101A(3)(d) (as so added)); and

190 (5) the extent to which it is practicable for those effects to be overcome otherwise than by the provision (whether by virtue of s 101A or otherwise) of public sewers, and the costs of so overcoming those effects (s 101A(3)(e) (as so added)).

Guidance issued by the Secretary of State under the Water Industry Act 1991 s 101A may:

191 (a) relate to how regard is to be had to the considerations mentioned in heads (1)-(5) above (s 101A(4)(a) (as so added));

192 (b) relate to any other matter which the Secretary of State considers may be a relevant consideration in any case and to how regard is to be had to any such matter (s 101A(4)(b) (as so added));

193 (c) set out considerations, other than those mentioned in heads (1)-(5) above, to which (so far as relevant) regard must be had in determining whether it is appropriate for any sewer to be provided by virtue of s 101A (s 101A(4)(c) (as so added));

194 (d) relate to how regard is to be had to any such consideration as is mentioned in head (c) above (s 101A(4)(d) (as so added));

195 (e) without prejudice to heads (a)-(d) above, relate to how a sewerage undertaker is to discharge its functions under s 101A (s 101A(4)(e) (as so added)).

As to the meaning of 'functions' see PARA 1004 note 4. Before issuing guidance, the Secretary of State must consult the Environment Agency, the Authority, and such other bodies or persons as he considers appropriate; and the Secretary of State must arrange for any guidance issued by him to be published in such manner as he considers appropriate: s 101A(5) (as so added; and amended by the Water Act 2003 s 36(2)). SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1022. Power to construct lateral drains following provision of public sewers.

1022. Power to construct lateral drains following provision of public sewers.

Where a sewerage undertaker¹ provides a public sewer² pursuant to a duty to do so³, the undertaker may, at the request of certain persons⁴, also provide at the same time one or more lateral drains⁵ to be used for the drainage for domestic purposes of premises in its area and to communicate with that sewer⁶.

The person making the above request must pay to the water undertaker⁷, following provision of the lateral drain, the costs reasonably incurred in or in connection with providing that drain⁸.

Any dispute between the sewerage undertaker and the person making the request as to: (1) whether a lateral drain should be provided pursuant to the request⁹; or (2) the costs reasonably incurred in the provision of a lateral drain¹⁰, may be referred by either party to the dispute to the Water Services Regulation Authority¹¹ for determination¹².

4 Such a request (ie under the Water Industry Act 1991 s 101B(1)) may be made:

196 (1) in the case of a public sewer to be provided under s 98 (see PARA 1018), by the person who requires the provision of the sewer under that provision (s 101B(2)(a) (s 101B added by the Water Act 2003 s 95(9))); and

197 (2) in the case of a public sewer to be provided under the Water Industry Act 1991 s 101A (see PARA 1021), by the owner or occupier of any premises in respect of which the duty to provide the sewer arises under that provision (but any request may only be for the provision of a lateral drain to his premises) (s 101B(2)(b) (as so added)).

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1023. New connections with public sewers.

1023. New connections with public sewers.

Where, on the application of any qualifying person¹: (1) it appears to the Water Services Regulation Authority² that it is necessary or expedient for the purposes of the provisions relating to sewerage services³ that the sewerage undertaker specified in the application (the 'established undertaker') ought to permit a main connection⁴ into his sewerage system⁵; and (2) the Authority is satisfied that the making of such a connection cannot be secured by agreement⁶, the Authority may by order⁷ require the established undertaker to allow the connection for such period and on such terms and conditions as may be provided in the order⁸.

Where the application is made by a person who is not a sewerage undertaker at the time when the application is made, an order made requiring the established undertaker to allow the connection⁹ in response to that application must be expressed not to come into force until the applicant becomes a sewerage undertaker for the area specified in the order, or for an area which includes that area¹⁰. Such an order has effect as an agreement between the established undertaker and the applicant but may be varied or revoked by a subsequent order made by the Authority on the application of either party to the agreement, as well as by agreement between the parties¹¹.

The Authority may not make an order unless it has first consulted the Environment Agency¹². In exercising its functions under these provisions¹³, the Authority must have regard to the desirability of:

- 2240 (a) facilitating effective competition within the sewerage services industry¹⁴;
- 2241 (b) the existing undertaker's recovering the expenses of complying with its obligations by virtue of these provisions¹⁵ and securing a reasonable return on its capital¹⁶;
- 2242 (c) the existing undertaker's being able to meet its existing obligations, and likely future obligations, to provide sewerage services without having to incur unreasonable expenditure in carrying out works¹⁷;
- 2243 (d) not putting at risk the ability of the existing undertaker to meet its existing obligations, or likely future obligations, to provide such services¹⁸.

1 'Qualifying person' means: (1) a sewerage undertaker; or (2) a person who has made an application for an appointment or variation under the Water Industry Act 1991 s 8 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 139) which has not been determined: s 110A(2) (s 110A added by the Competition and Service (Utilities) Act 1992 s 45). 1026. Power to deal with foul water and pollution.

A sewerage undertaker¹ has the power to carry out in a street² works requisite for securing that the water in any relevant waterworks³ is not polluted or otherwise contaminated and to carry out incidental works, which include the breaking open of a street, tunnelling or boring under a street, breaking up or opening a sewer, drain⁴ or tunnel and moving or removing earth and other materials⁵. This power applies also in relation to land not in, under or over a street⁶. The provisions relating to pipe-laying⁷, so far as applicable, have effect in relation to these powers⁸.

1027. Powers of entry.

A person designated in writing by a sewerage undertaker¹ may enter premises for the purposes of the carrying out of any survey or tests to determine whether it is appropriate and practicable for the undertaker to exercise any relevant works power² or how such power ought to be exercised or for the exercise of such a power³.

Any person designated in writing for the purpose by a sewerage undertaker, on producing any duly authenticated document showing his authority, has a right to enter any premises at all reasonable hours⁴:

- 2244 (1) for the purpose of ascertaining whether there is or has been, on or in connection with the premises, any contravention of any of the relevant sewerage provisions⁵ which it is the function of the undertaker to enforce⁶;
- 2245 (2) for the purpose of ascertaining whether or not circumstances exist which would authorise or require the undertaker to take any action or carry out any works under any of the relevant sewerage provisions⁷;
- 2246 (3) for the purpose of taking action or carrying out any works authorised by or under any of the relevant sewerage provisions to be taken or carried out by the undertaker⁸;
- 2247 (4) generally for the purpose of carrying out the undertaker's functions⁹ under the relevant sewerage provisions¹⁰.

Any person so designated by a sewerage undertaker for the purpose of exercising any power of entry for sewerage purposes¹¹ for the purposes of the provisions relating to trade effluent¹² may, on any occasion on which he so exercises that power in relation to any premises, obtain and take away any sample of any trade effluent which is passing (either directly or through a drain or private sewer¹³) from those premises¹⁴ into any of the undertaker's public sewers¹⁵.

A person who, without having been designated or authorised for the purpose by a relevant undertaker, purports to be entitled to enter any premises or vessel in exercise of a power exercisable in pursuance of any such designation or authorisation is guilty of an offence¹⁶.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1028. Complaints in respect of works on private land.

1028. Complaints in respect of works on private land.

Where a sewerage undertaker¹ exercises any powers to do works on private land², complaints arising may be made to the Water Services Regulation Authority³ which must investigate them unless they appear to it to be vexatious or frivolous, or it is not satisfied that they have been brought to the undertaker's attention and a reasonable opportunity of investigating and dealing with them given, or the complaint is more than 12 months old⁴. Where satisfied that there has been a failure by the undertaker adequately to consult the complainant in the exercise of the powers and that the complainant has suffered loss, damage or inconvenience as a result, the Authority may direct the undertaker to pay compensation⁵.

A sewerage undertaker is obliged to submit to the Secretary of State⁶ for his approval a code of practice with respect to the exercise of its powers to work on private land⁷, or any modifications to a code of practice⁸. The Secretary of State may approve the code of practice, or approve any modifications which have been submitted, or withdraw his approval of any such code or modification⁹.

A contravention of a code of practice, while not affecting the powers conferred on the sewerage undertaker¹⁰, or by itself entitling any person to a payment in respect of a complaint¹¹, or giving rise to any criminal or civil liability, is to be taken into account by the Authority in considering whether to give a direction to the sewerage undertaker to pay compensation¹².

1029. Obstruction of sewerage works etc.

A person who wilfully obstructs any person acting in the execution of any of the relevant sewerage provisions¹ is guilty of an offence². If, on a complaint made by the owner³ of any premises, it appears to a magistrates' court that the occupier of those premises is preventing the owner of those premises from carrying out any work which he is required to carry out by or under any of the relevant sewerage provisions, the court may order the occupier to permit the carrying out of the work⁴.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(ii) Provision of Public Sewers/1030. Compensation and protective provisions.

1030. Compensation and protective provisions.

There are provisions protecting persons carrying on certain undertakings¹.

A sewerage undertaker² must make full compensation to any person who has sustained damage by reason of the exercise by the undertaker, in relation to a matter as to which that person has not himself been in default, of any of its powers under the relevant sewerage provisions³. Any dispute arising as to the fact of damage, or as to the amount of compensation, must be referred to the arbitration of a single arbitrator appointed by agreement between the parties to the dispute or, in default of agreement, by the Water Services Regulation Authority⁴. No person is entitled by virtue of these provisions to claim compensation on the ground that a sewerage undertaker has, in the exercise of its powers under the relevant sewerage provisions, declared any sewer⁵, lateral drain⁶ or sewage disposal works⁷, whether belonging to that person or not, to be vested in the undertaker⁸.

If the compensation claimed under the Water Industry Act 1991 Sch 12 para 4 in any case does not exceed £5,000, all questions as to the fact of damage, liability to pay compensation and the amount of compensation may be referred to the Authority for determination under s 30A (see **WATER AND WATERWAYS** vol 100 (2009) PARA 131) by either party: Sch 12 para 4(3) (amended by the Competition and Service (Utilities) Act 1992 Sch 1 paras 29-31, Sch 2; and the Water Act 2003 s 36(2)). 1031. Compulsory purchase.

A sewerage undertaker¹ may be authorised by the Secretary of State² to purchase compulsorily land in England and Wales which is required for the purpose of, or in connection with, the carrying out of its functions³. Such authorisation may include the creation of new interests in and rights over land and the extinguishment of pre-existing rights⁴. The land so acquired may include land which is or will be required for the purpose of being given in exchange for, or for any right over, any other land which for the purposes of the Acquisition of Land Act 1981 is, or forms part of, a common or open space or a fuel or field garden allotment⁵.

A sewerage undertaker¹ may not dispose of any of its protected land², or of any interest or right in or over any of that land, except with the consent of, or in accordance with a general authorisation given by, the Secretary of State³, which may be given on such conditions as the Secretary of State considers appropriate⁴.

Where an undertaker is proposing to dispose of, or of any interest or right in or over, any of its protected land, it may enter into a covenant with the Secretary of State by virtue of which it accepts obligations in respect of freedom of access to the land and its use and management; and such covenants bind all persons deriving title from or under the undertaker and are enforceable by the Secretary of State⁵.

1 As to sewerage undertakers see PARA 999.

2 'Protected land', in relation to a company holding an appointment under the Water Industry Act 1991 Pt II Ch I (ss 6-17), means any land which, or any interest or right in or over which: (1) was transferred to that company in accordance with a scheme under the Water Act 1989 Sch 2 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 108) or, where that company is a statutory water company, was held by that company at any time during the financial year ending with 31 March 1990; (2) is or has at any time on or after 1 September 1989 been held by that company for purposes connected with the carrying out of its functions as a sewerage undertaker (including any functions which for the purposes for which the Water Industry Act 1991 s 218 has effect are taken to be such functions by virtue of s 218(6) or s 218(7) (see **WATER AND WATERWAYS** vol 100 (2009) PARA 334)); or (3) has been transferred to that company in accordance with a scheme under the Water Act 1989 Sch 2 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 108) from another company in relation to which that land was protected land when the other company held an appointment under Pt II Ch I (s 219(1)). 1034. Precautions against accidents and nuisances.

The statutory provisions¹ as to precautions to be taken by persons executing works in streets in the exercise of a power conferred by any enactment apply in the case of a sewerage undertaker² exercising its powers³ for the construction of any sewer or drain⁴.

1035. Private street works.

The sewerage of a street is included in the street works¹ which may be executed in private streets² at the expense of the frontagers under the statutory provisions relating to the making up of private streets³; but once a sewer has been constructed under those provisions to the satisfaction of the relevant council it vests in the sewerage undertaker or highway authority⁴ and the sewerage undertaker or highway authority cannot again impose a liability in respect of it upon the frontagers⁵.

1 'Street works' means any works for the sewerage, levelling, paving, metalling, flagging, channelling and making good of a street, and includes the provision of proper means for lighting a street: see the Highways Act 1980 s 203(3); and **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 146.

(iv) Alteration and Maintenance

1036. Closure or restriction of use of public sewer.

A sewerage undertaker¹ may discontinue and prohibit the use of any public sewer² which is vested in it³. Such a discontinuance or prohibition may be for all purposes, for the purpose of foul water drainage, or for the purpose of surface water drainage⁴. Before any person who is lawfully using the sewer for any purpose is deprived by the undertaker of the use of the sewer for that purpose, the undertaker must⁵: (1) provide a sewer which is equally effective for his use for that purpose⁶; and (2) at the undertaker's expense, carry out any work necessary to make that person's drains or sewers communicate with the sewer so provided⁷.

1 As to sewerage undertakers see PARA 999.

2 As to the meaning of 'public sewer' see PARA 1000. See also PARA 1041 note 7.

3 Water Industry Act 1991 s 116(1). This provision is expressed to be subject to s 116(3) (see the text and notes 5-7): s 116(1). A sewerage undertaker must carry out its functions under s 116 so as not to create a nuisance: s 117(6). Nothing in s 116 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). As to the meaning of 'functions' see PARA 1004 note 4. As to the meanings of 'sewer' and 'drain' see PARA 998. As to the meaning of 'contravention' see PARA 1004 note 4. As to the meaning of 'watercourse' see PARA 1004 note 4. It appears that when a sewer is discontinued, the space occupied by it reverts to the owner of the soil: see *Rolls v St George the Martyr, Southwark, Vestry* (1880) 14 ChD 785 at 797, CA, per James LJ.

6 Water Industry Act 1991 s 116(3)(a). Any dispute arising under s 116(3)(a) between a sewerage undertaker and any other person as to the effectiveness of any sewer provided by the undertaker for that person's use may be referred to the Water Services Regulation Authority for determination under s 30A (see **WATER AND WATERWAYS** vol 100 (2009) PARA 131) by either party to the dispute: s 116(4) (added by the Competition and Service (Utilities) Act 1992 s 35(1), (12); and amended by the Water Act 2003 s 36(2)). 1037. Alteration of sewers.

Certain undertakers¹ may, after giving reasonable notice² to the sewerage undertaker³ concerned, at their own expense and on substituting an equivalent, take up, divert or alter the level of certain sewers, drains, culverts or other pipes⁴. An 'equivalent', in relation to any sewers, drains, culverts or pipes, means other sewers, drains, culverts or pipes which will be equally effectual and will entail no additional expense for the sewerage undertaker in question⁵. Any difference of opinion which arises under these provisions⁶ between a sewerage undertaker and any person as to whether any sewers, drains, culverts or pipes substituted or proposed to be substituted for sewers, drains, culverts or pipes of that undertaker are or will be equally effectual or entail or will entail additional expense for the sewerage undertaker, may, at the option of the party complaining, be referred to a single arbitrator appointed by agreement between the parties or, in default of agreement, by the President of the Institution of Civil Engineers⁷.

1 Ie the Environment Agency or the Civil Aviation Authority or any internal drainage board, dock undertakers, railway undertakers, airport operator or licence holder: Water Industry Act 1991 s 184(1) (amended by the Environment Act 1995 Sch 22 para 119; and SI 2001/4050). 'Airport operator' means the person who is the airport operator for the purposes of the Airports Act 1986 Pt V (ss 57-62) in relation to an airport to which Pt V applies (see **AIR LAW** vol 2 (2008) PARA 183); 'licence holder' means a person who holds a licence under the Transport Act 2000 Pt I Ch I (ss 1-40) (see **AIR LAW** vol 2 (2008) PARA 139 et seq); and 'licence' is to be construed accordingly: Water Industry Act 1991 s 184(4) (amended by SI 2001/4050). 2 'Notice' means notice in writing: Water Industry Act 1991 s 219(1).

3 As to sewerage undertakers see PARA 999.

4 Water Industry Act 1991 s 184(1) (as amended: see note 1). The sewers, drains, culverts and other pipes mentioned in the text are those which: (1) are vested in the undertaker; and (2) pass under or interfere with, or interfere with the alteration or improvement of, as the case may be: (a) any watercourse or other works vested in or under the control of the Environment Agency or internal drainage board; (b) any property of the Civil Aviation Authority; (c) any river, canal towing path or works forming part of the undertaking of the dock undertakers; (d) the railway of the railway undertakers; (e) the airport in question; or (f) any property of a licence holder which is used by the licence holder for the purpose of carrying out activities authorised by the licence: s 184(1) (as so amended). As to the meanings of 'sewer' and 'drain' see PARA 998. As to the meaning of 'pipe' see PARA 998. As to the meaning of 'watercourse' see PARA 1004 note 4.

In relation to sewers not vested in sewerage undertakers see the Public Health Act 1936 s 330. Section 330 has ceased to apply in relation to sewers, drains, culverts or pipes vested in a sewerage undertaker: see the Water Consolidation (Consequential Provisions) Act 1991 s 2(1), Sch 1 para 2. SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(iv) Alteration and Maintenance/1038. Charging for the provision of sewerage services.

1038. Charging for the provision of sewerage services.

A sewerage undertaker¹ is empowered to fix charges for any services² provided in the course of carrying out its functions³, including its trade effluent⁴ functions and to demand and recover charges so fixed from any persons to whom it provides services or in relation to whom it carries out trade effluent functions⁵. Charges may be fixed in accordance with a statutory scheme⁶ or in accordance with agreements with the persons to be charged⁷. A charges scheme, which has effect in relation to a specified period of 12 months, may do one or more of the following⁸:

- 2248 (1) fix the charges to be paid for any services provided by the undertaker in the course of carrying out its functions⁹;
- 2249 (2) in the case of a sewerage undertaker, require such charges as may be fixed by the scheme to be paid to the undertaker where, in the circumstances set out in the scheme: (a) a notice¹⁰ containing an application for consent is served on the undertaker¹¹; (b) such a consent as is necessary in connection with trade effluent is given¹²; or (c) a discharge is made pursuant to such consent¹³; and
- 2250 (3) make provision with respect to the times and methods of payment of the charges fixed by the scheme¹⁴.

As to the liability of occupiers for charges see s 144; and **WATER AND WATERWAYS** vol 100 (2009) PARA 422. Sewerage services provided by a sewerage undertaker are treated for the purposes of Pt V Ch I (ss 142-150B) as provided to the occupiers for the time being of any premises which: (1) are drained by a sewer or drain connecting, either directly or through an intermediate sewer or drain, with such a public sewer of the undertaker as is provided for foul water or surface water or both; or (2) are premises the occupiers of which have, in respect of the premises, the benefit of facilities which drain to a sewer or drain so connecting: s 144(1) (b). 13 Water Industry Act 1991 s 143(1)(b). The persons who may be required by a charges scheme to pay any charge fixed by virtue of s 143(1)(b) are: the person who serves the notice, the person to whom the consent is given or, as the case may be, any person who makes a discharge in pursuance of the consent at any time during the period to which, in accordance with the scheme, the charge relates: s 143(2). A charges scheme which requires the payment of charges where a discharge has been made in pursuance of such a consent as is mentioned in s 143(1)(b) may impose: (1) a single charge in respect of the whole period for which the consent is in force; (2) separate charges in respect of different parts of that period; or (3) both such a single charge and such separate charges: s 143(3). A sewerage undertaker is under a duty to ensure that any charges scheme made by the undertaker, so far as having effect to recover the undertaker's costs of providing a sewer by virtue of its duty under s 101A(1) (see PARA 1021), causes those costs to be borne by the undertaker's customers generally: s 143(3A) (added by the Environment Act 1995 Sch 22 para 115). A sewerage undertaker's duty under the Water Industry Act 1991 s 143(3A) is enforceable under s 18 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 163) by the Secretary of State or, with the consent of or in accordance with a general authorisation given by the Secretary of State, by the Water Services Regulation Authority: s 143(3A) (as so added; and amended by the Water Act 2003 s 36(2)). 1039. Connection charges and charges for highway drainage.

A sewerage undertaker¹ is not entitled to fix, demand, or recover an initial charge for its becoming, or for its taking the steps to becoming, the person who provides sewerage services² for the purposes of the drainage for domestic sewerage purposes of any premises³. However, it is not prohibited from fixing, demanding or recovering a charge for the connection to a public sewer⁴ of premises which have never at any previous time been connected to a sewer used for the drainage for domestic sewerage purposes of those premises by a sewerage undertaker or by any other authority or body which at that time provided sewerage services in the course of carrying out functions⁵ under any enactment⁶.

A sewerage undertaker is not authorised⁷ to require any payment to be made to the undertaker in respect of the making by the undertaker of any declaration of vesting⁸ or in respect of any agreement to make such a declaration⁹, nor is it authorised¹⁰ to require any payment to be made to the undertaker by a highway authority¹¹ in respect of the drainage of any highway¹² or the disposal of the contents of any drain or sewer¹³ used for draining any highway¹⁴.

1040. Charging by volume.

The Secretary of State¹ may by regulations² make provision with respect to the installation of meters³, with respect to the connection, disconnection, use, maintenance, authentication and testing of meters and with respect to any related matters⁴. Where any meter capable of being used in determining the amount of any charges is installed at the request of a sewerage undertaker⁵, the undertaker must bear the expenses of installing, connecting, maintaining, repairing, disconnecting or removing the meter⁶. Disputes as to expenses are referred to the arbitration of a single arbitrator appointed by agreement between the parties or, in default of agreement, by the Water Services Regulation Authority⁷. Where an undertaker has fixed charges in relation to any premises by volume⁸, and has given notice⁹ of its intention to fix charges and there is a drain or private sewer¹⁰ connecting those premises with a public sewer¹¹, the undertaker may do works of installation, connection, maintenance, repair, disconnection or removal of any meter, pipes or apparatus installed for use in determining the amount of any charges which have been or may be fixed in relation to the premises¹². In these circumstances, a designated person may enter the premises or any land occupied with them for specified purposes¹³. It is an offence to tamper with a meter, although not in relation to anything done with the appropriate consent¹⁴.

2 At the date at which this volume states the law no such regulations had been made under the Water Industry Act 1991 s 149 but, by virtue of the Water Act 1989 s 190(2), Sch 26 para 16(6) (repealed) and the Water Consolidation (Consequential Provisions) Act 1991 s 2(2), Sch 2 Pt I para 1(1), (2), the Water (Meters) Regulations 1988, SI 1988/1048 (amended by SI 1988/1288) have effect as if so made.

3 'Meter' means any apparatus for measuring or showing the volume of water supplied to, or of effluent discharged from, any premises: Water Industry Act 1991 s 219(1). As to the meaning of 'effluent' see PARA 1003 note 2.

The Water Industry Act 1991 s 148(1) does not require a sewerage undertaker to bear, or prevent any such undertaker from recovering from any other person, any expenses incurred in relation to a meter which is or is to be used in determining the amount of: (1) any charges which are to be paid in connection with the carrying out of a sewerage undertaker's functions under Pt IV Ch III (ss 118-141) (see PARA 1047 et seq); or (2) any charges provision for which is contained in an agreement entered into in accordance with s 129 (see PARA 1053): s 148(2)(d). See also **WATER AND WATERWAYS** vol 100 (2009) PARA 436. As to the meaning of 'functions' see PARA 1004 note 4. In addition, s 148(1) does not require a sewerage undertaker to bear, or prevent any such undertaker from recovering from any other person, in the case of premises which do not consist of or include any building or part of a building which is occupied as a private dwelling-house, any expenses incurred in consequence of the exercise by the consumer of any option to be charged by the undertaker in relation to those premises by reference to volume rather than by reference to other matters: s 148(2)(e) (substituted by the Water Industry Act 1999 s 9(b)). The occupier of any premises where a sewerage undertaker installs or has installed a meter must also bear so much of the expenses referred to in the Water Industry Act 1991 s 148(1) as is attributable to compliance with a request made by him for the positioning, in a place other than that reasonably proposed by the undertaker, either of the meter or of any pipe or apparatus installed for the purpose of facilitating the use of the meter: see s 148(4); and **WATER AND WATERWAYS** vol 100 (2009) PARA 436. 1041. Right to drain into public sewers.

The owner¹ or occupier of any premises, or the owner of any private sewer² which drains premises, is entitled to have his drains or sewer³ communicate with the public sewer⁴ of any sewerage undertaker⁵, and thereby to discharge foul water and surface water⁶ from the premises or that private sewer⁷. However, subject to certain provisions⁸, this does not entitle any person⁹:

- 2251 (1) to discharge directly or indirectly into any public sewer: (a) any liquid from a factory¹⁰, other than domestic sewage or surface or storm water, or any liquid from a manufacturing process¹¹; or (b) any liquid or other matter the discharge of which into public sewers is prohibited by or under any enactment¹²;
- 2252 (2) where separate public sewers are provided for foul water and for surface water, to discharge directly or indirectly, foul water into a sewer provided for surface water or, except with the approval of the sewerage undertaker, surface water into a sewer provided for foul water¹³; or
- 2253 (3) to have his drains or sewer made to communicate directly with a storm-water overflow sewer¹⁴.

1041 Right to drain into public sewers

NOTE 7--*Barratt Homes*, cited, reported at [2010] PTSR 651.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/21. SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(v) Drainage into Public Sewers/1042. Exercise of right to drain into public sewer.

1042. Exercise of right to drain into public sewer.

A person desirous of availing himself of his entitlement to have his drains or sewer¹ communicate with the public sewer² must give notice³ of his proposals to the sewerage undertaker in question⁴. At any time within 21 days after a sewerage undertaker receives such a notice, the undertaker may, by notice to the person who gave the notice of proposals⁵, refuse to permit the communication to be made, if it appears to the undertaker that the mode of construction or condition of the drain or sewer does not satisfy the standards reasonably required by the undertaker, or is such that the making of the communication would be prejudicial to the undertaker's sewerage system⁶. For the purpose of examining the mode of construction and condition of a drain or sewer to which a notice of proposals relates, a sewerage undertaker may, if necessary, require it to be laid open for inspection⁷. Any question arising⁸ between a sewerage undertaker and a person proposing to make a communication as to the reasonableness of the undertaker's refusal to permit a communication to be made or as to the reasonableness of certain requirements⁹ may, on the application of that person to make the communication, be determined by the Water Services Regulation Authority¹⁰.

Any person who causes a drain or sewer to communicate with a public sewer in contravention of certain provisions¹¹, or before the end of the 21 day period after a sewerage undertaker receives a notice of proposals from a person desirous of availing himself of his entitlement to have his drains or sewer communicate with a public sewer¹², is guilty of an offence and liable on summary conviction to a penalty¹³.

6 Water Industry Act 1991 s 106(4) (amended by the Water Act 2003 s 99(1), (3)). As to references to the construction of a sewer see PARA 1004 note 10. See also *Smeaton v Ilford Corp* [1954] Ch 450, [1954] 1 All ER 923.

Where the sewer or drain satisfies the standards reasonably required by it, a sewerage undertaker may, as a condition of permitting the communication to be made, require that the sewer or that part of the drain forming the lateral drain be vested in it by virtue of a declaration under the Water Industry Act 1991 s 102 (see PARA 1004): s 106(5A) (added by the Water Act 2003 s 99(1), (4)).

The Water Industry Act 1991 s 106 conferred no express right on a sewerage undertaker to select the point of connection of a private drain or sewer with a public sewer or to refuse permission to make the communication on the ground that the point of connection proposed by the developer was open to objection: see *Barratt Homes Ltd v DWR Cymru Cyfygedig (Welsh Water)* [2009] UKSC 13, [2009] All ER (D) 80 (Dec).

Accordingly the Water Industry Act 1991 s 105 (see PARAS 1005, 1007) does not apply to any requirement under s 106(5A) (see note 6): see s 106(6) (as so amended). As to the determination see s 30A; and **WATER AND WATERWAYS** vol 100 (2009) PARA 131. As to the Water Services Regulation Authority see **WATER AND WATERWAYS** vol 100 (2009) PARA 109 et seq.

Where a person proposes under s 106 to make a communication between a drain or sewer and such a public sewer in Greater London as is used for the general reception of sewage from other public sewers and is not substantially used for the reception of sewage from private sewers and drains: (1) the grounds on which a sewerage undertaker may refuse to permit the communication are such grounds as the undertaker thinks fit; and (2) no application to the Authority may be made under s 106(6) in respect of any refusal under s 106(8): see s 106(8) (amended by the Competition and Service (Utilities) Act 1992 s 35(1), (8); and the Water Act 2003 s 36(2)).

11 Ie the Water Industry Act 1991 s 106 (see the text and notes 1-10; and PARA 1041) and s 108 (see PARA 1044). As to the meaning of 'contravention' see PARA 1004 note 4.

13 Water Industry Act 1991 s 109(1). The penalty is a fine not exceeding level 4 on the standard scale: s 109(1). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

Whether proceedings have or have not been taken by a sewerage undertaker in respect of an offence under s 109, that undertaker may close any communication made in contravention of any of the provisions of s 106 (see the text and notes 1-10; and PARA 1041) or s 108 (see PARA 1044), and recover from the offender any expenses reasonably incurred by the undertaker in so doing: s 109(2). The Public Health Act 1936 ss 291, 293, 294 (see PARAS 122-123) apply in relation to the recovery by a sewerage undertaker of any sums under the Water Industry Act 1991 s 109 as they apply in relation to the recovery of expenses under the Public Health Act 1936 by a local authority: Water Industry Act 1991 s 109(3). As to the meaning of 'local authority' see PARA 99. As to the prosecution of offences see PARA 128. As to the recovery of expenses see PARA 122.

Nothing in s 109 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). As to the meaning of 'watercourse' see PARA 1004 note 4.

1042 Exercise of right to drain into public sewer

NOTE 6--*Barratt Homes*, cited, reported at [2010] PTSR 651.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/21. SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(v) Drainage into Public Sewers/1043. Right of sewerage undertaker to undertake the making of communications with public sewers.

1043. Right of sewerage undertaker to undertake the making of communications with public sewers.

Where a person gives to a sewerage undertaker¹ notice of his proposal to have his drains or sewer made to communicate with a public sewer of that undertaker², the undertaker may give notice to that person that the undertaker intends itself to make the communication³. If, after such a notice has been given to any person, that person proceeds himself to make the communication, he is guilty of an offence and liable on summary conviction to a penalty⁴.

Where a sewerage undertaker has given such a notice⁵, the undertaker has all such rights in respect of the making of the communication as the person desiring it to be made would have⁶, but it is not obligatory on the undertaker to make the communication until either⁷: (1) there has been paid to the sewerage undertaker any such sum, not exceeding the undertaker's reasonable estimate of the cost of the work, as the undertaker may have required to be paid to it⁸; or (2) there has been given to the undertaker such security for the payment of the cost of the work as it may reasonably have required⁹.

1 As to sewerage undertakers see PARA 999.

2 I.e. a notice under the Water Industry Act 1991 s 106: see PARAS 1041-1042. As to the meaning of 'notice' see PARA 1037 note 2. As to the meanings of 'drain' and 'sewer' see PARA 998. As to the meaning of 'public sewer' see PARA 1000. See also PARA 1041 note 7.

3 Water Industry Act 1991 s 107(1) (amended by the Competition and Service (Utilities) Act 1992 s 35(1), (9)). The undertaker may give such a notice within 14 days after the receipt of the notice of proposals or, if any question arising under the notice requires to be determined by the Water Services Regulation Authority, within 14 days after the determination of that question: Water Industry Act 1991 s 107(1) (as so amended; and further amended by the Water Act 2003 s 36(2)). As to the Water Services Regulation Authority see **WATER AND WATERWAYS** vol 100 (2009) PARA 109 et seq. The making of the communication between a drain or private sewer and a public sewer includes all such work as involves the breaking open of a street: Water Industry Act 1991 s 107(6). As to the meaning of 'street' see PARA 1004 note 9.

Nothing in s 107 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). 9 Water Industry Act 1991 s 107(3)(b)(ii). If any payment made to a sewerage undertaker under s 107(3) exceeds the expenses reasonably incurred by it in the carrying out of the work in question, the excess must be repaid by the undertaker; and, if and so far as those expenses are not covered by such a payment, the undertaker may recover the expenses, or the balance of them, from the person for whom the work was done: s 107(4). Any dispute between a sewerage undertaker and any other person as to: (1) whether the undertaker's estimate of the cost of works given under s 107(3)(b)(i) (see the text and note 8) is reasonable; (2) whether any requirement of security for the payment of the cost of works was reasonably made by the undertaker; or (3) whether any excess is repayable or any expenses are recoverable by the undertaker under s 107(4), or the amount of any such excess or expenses, may be referred to the Authority for determination under s 30A (see **WATER AND WATERWAYS** vol 100 (2009) PARA 131) by either party to the dispute: s 107(4A) (added by the Competition and Service (Utilities) Act 1992 s 35(1), (9); and amended by the Water Act 2003 s 36(2)). The Public Health Act 1936 ss 291, 293, 294 (see PARAS 122-123) apply in relation to the recovery by a sewerage undertaker of any sums under the Water Industry Act 1991 s 107 as they apply in relation to the recovery of expenses under the Public Health Act 1936 by a local authority: Water Industry Act 1991 s 107(5). SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(v) Drainage into Public Sewers/1044. Communication works by person entitled to communication.

1044. Communication works by person entitled to communication.

Where a sewerage undertaker¹ does not elect itself² to make a communication to which a person is entitled³, the person making it must⁴: (1) before commencing the work, give reasonable notice⁵ to any person directed by the undertaker to superintend the carrying out of the work⁶; and (2) afford any such person all reasonable facilities for superintending the carrying out of the work⁷. For the purpose of exercising his rights to have his drains or sewer communicate with the public sewer⁸, or of examining, repairing or renewing any drain or private sewer⁹ draining his premises into a public sewer, the owner¹⁰ or occupier of any premises is entitled to exercise the same powers as, for the purpose of carrying out its functions, are conferred on a sewerage undertaker to lay pipes in streets¹¹ and to deal with foul water and pollution¹².

1045. Nuisance.

A person unlawfully making a connection with a sewer¹ is liable to other persons injured by a nuisance due to the sewer discharging the sewage from his drain, and may be restrained by injunction². However, if the communication has been made with the sanction or acquiescence of the sewerage undertaker³, or if the right to discharge into the sewer has been acquired by prescription, he cannot be cut off by the undertaker until some new arrangement is made, even though the discharge from the sewer may be causing a nuisance⁴.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(v) Drainage into Public Sewers/1046. Use of public sewers for road drainage.

1046. Use of public sewers for road drainage.

A relevant authority¹ and a sewerage undertaker² may agree that³: (1) any drain or sewer which is vested in the authority in its capacity as a highway authority⁴ may, upon such terms as may be agreed, be used by the undertaker for the purpose of conveying surface water⁵ from premises or streets⁶; (2) any public sewer vested in the undertaker may, upon such terms as may be agreed, be used by the authority for conveying surface water from roads repairable by the authority⁷.

Where a sewer or drain with respect to which a relevant authority and a sewerage undertaker propose to make such an agreement discharges, whether directly or indirectly, into the sewers or sewage disposal works⁸ of another sewerage undertaker, the agreement must not be made without the consent of that other undertaker⁹. Such a consent given by a sewerage undertaker may be given on such terms as that undertaker thinks fit¹⁰. Neither a relevant authority nor a sewerage undertaker may unreasonably refuse to enter into an agreement or insist unreasonably upon terms unacceptable to the other party, and a sewerage undertaker must not unreasonably refuse to consent to the making of such an agreement or insist unreasonably upon terms unacceptable to either party¹¹. Any question arising as to whether or not any authority or undertaker is acting unreasonably may be referred to the Secretary of State¹², whose decision is final¹³.

1 'Relevant authority' means a county council or any local authority except a non-metropolitan district council: Water Industry Act 1991 s 115(9). As to the meaning of 'local authority' see PARA 99. The Public Health Act 1936 Pt XII (ss 275-347) applies for the purposes of the provisions of the Water Industry Act 1991 s 115 which confer functions on relevant authorities as it applies for the purposes of the provisions of the Public Health Act 1936: Water Industry Act 1991 s 115(8). As to the meaning of 'functions' see PARA 1004 note 4.

2 As to sewerage undertakers see PARA 999.

3 Water Industry Act 1991 s 115(1). The provisions of s 115 are subject to the provisions of s 146(4) (see PARA 1039): s 115(10). Nothing in s 115 is to be construed as limiting the rights of a relevant authority under the Highways Act 1980 s 264 (vesting of drains etc of certain roads) (see **HIGHWAYS, STREETS AND BRIDGES** vol 21 (2004 Reissue) PARA 226): Water Industry Act 1991 s 115(7). A sewerage undertaker must carry out its functions under s 115 so as not to create a nuisance: s 117(6). Nothing in s 115 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). (vi) Trade Effluent and Special Category Effluent

A. TRADE EFFLUENT

1047. Discharge of trade effluent into public sewers.

The occupier of any trade premises¹ in the area of a sewerage undertaker² may discharge any trade effluent³ proceeding from those premises into the undertaker's public sewers if he does so with the undertaker's consent⁴. An application to a sewerage undertaker for such a consent to discharge trade effluent must be by notice⁵ served on the undertaker by the owner⁶ or occupier of the premises⁷. Such an application with respect to a proposed discharge of any such effluent must state the nature or composition of the trade effluent, the maximum quantity of the trade effluent which it is proposed to discharge on any one day, and the highest rate at which it is proposed to discharge the trade effluent⁸.

If, in the case of any trade premises, any trade effluent is discharged without such consent or other authorisation as is necessary⁹, the occupier of the premises is guilty of an offence and liable to a penalty¹⁰.

1 'Trade premises' means any premises used or intended to be used for carrying on any trade or industry: Water Industry Act 1991 s 141(1). For the purposes of Pt IV Ch III (ss 118-141), any land or premises used or intended for use (in whole or in part and whether or not for profit) for agricultural or horticultural purposes or for the purposes of fish farming, or for scientific research or experiment are deemed to be premises used for carrying on a trade or industry: s 142(2).

2 As to sewerage undertakers see PARA 999.

3 For the purposes of the Water Industry Act 1991 Pt IV Ch III, 'trade effluent': (1) means any liquid, either with or without particles of matter in suspension in the liquid, which is wholly or partly produced in the course of any trade or industry carried on at trade premises; and (2) in relation to any trade premises, means any such liquid which is so produced in the course of any trade or industry carried on at those premises, but does not include domestic sewage: s 141(1). References to a trade or industry in the definition of 'trade effluent' in s 141(1) include references to agriculture, horticulture, fish farming and scientific research or experiment: s 142(2).

See also *Yorkshire Dyeing and Proofing Co Ltd v Middleton Borough Council* [1953] 1 All ER 540, [1953] 1 WLR 393, DC (effluent discharging from other premises). See further *Thames Water Authority v Blue and White Launderettes Ltd* [1980] 1 WLR 700, 124 Sol Jo 100, CA, where it was held that domestic sewage was related to household or domestic activities carried on at trade premises as distinct from business activities, and that washing machines in a launderette were part of the business activity. No account may be taken for these purposes of any radioactivity possessed by any substance or article or by any part of any premises: see the Radioactive Substances Act 1993 s 40(1), (2), Sch 3 para 8; and **FUEL AND ENERGY** vol 19(3) (2007 Reissue) PARA 1463 et seq.

The Secretary of State may by order provide that, subject to the Water Industry Act 1991 s 138(5) (prospectively repealed) (see PARA 1059), Pt IV Ch III is to apply in relation to liquid or other matter of any description specified in the order which is discharged into public sewers as it applies in relation to trade effluent: s 139(1). Such orders, being local in nature, are not set out in this work. An order applying the provisions of Pt IV Ch III in relation to liquid or other matter of any description may provide for it to so apply subject to such modifications (if any) as may be specified in the order and, in particular, subject to any such modification of the meaning for the purposes of Pt IV Ch III of the expression 'trade premises' (see note 1) as may be so specified: s 139(2). The Secretary of State may include in an order under s 139 such provisions as appear to him expedient for modifying any enactment relating to sewage as that enactment applies in relation

to the discharge into sewers of any liquid or other matter to which any provisions of Pt IV Ch III are applied by an order under s 139: s 139(3). The Secretary of State may include in an order under s 139 such other supplemental, incidental and transitional provision as appears to him to be expedient: s 139(4). The power to make an order under s 139 is exercisable by statutory instrument, and no order may be made unless a draft of it has been laid before, and approved by a resolution of, each House of Parliament: s 139(5). As to the meaning of 'modifications' see PARA 1007 note 10. As to the meaning of 'enactment' see PARA 1013 note 7. As to the meaning of 'public sewer' see PARA 1000. See also PARA 1041 note 7. As to the meaning of 'sewer' see PARA 998. As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59. As from a day to be appointed, s 139 is substituted by the Water Act 2003 s 105(3), (5). At the date at which this volume states the law no such day had been appointed.

4 Water Industry Act 1991 s 118(1). This is expressed to be subject to Pt IV Ch III: s 118(1). As to when consent is unnecessary see PARA 1051. Nothing in Pt IV Ch III authorises the discharge of any effluent into a public sewer otherwise than by means of a drain or sewer: s 118(2). Section 111(1)(a), (b) (see PARA 1068), and the restrictions imposed by s 106(2)(a), (b) (see PARA 1041) do not apply to any discharge of trade effluent which is lawfully made by virtue of Pt IV Ch III: s 141(3). Section 106(3)-(6), (8) (see PARA 1042), s 108 (see PARA 1044) and s 109 (see PARA 1042) have effect in relation to communication with a sewer for the purpose of making any discharge which is lawfully made by virtue of Pt IV Ch III as they have effect in relation to communication with a sewer for the purpose of making discharges which are authorised by s 106(1) (see PARA 1041): s 118(4). As to the meaning of 'drain' see PARA 998.

It is the duty of every sewerage undertaker, the Water Services Regulation Authority, and the Secretary of State, in exercising their functions under Pt IV Ch III with respect to any discharge of industrial waste water, to secure that the requirements of the Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, reg 7, Sch 4 are met in respect of that discharge: reg 7(1) (amended by SI 2005/2035). The Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, Sch 4 provides that industrial waste water entering collecting systems and urban waste water treatment plants are to be subject to such pre-treatment as is required in order to: (1) protect the health of staff working in collecting systems and treatment plants; (2) ensure that collecting systems, waste water treatment plants and associated equipment are not damaged; (3) ensure that the operation of the waste water treatment plant and the treatment of sludge are not impeded; (4) ensure that discharges from the treatment plants do not adversely affect the environment, or prevent receiving water from complying with other Community Directives; (5) ensure that sludge can be disposed of safely in an environmentally acceptable manner. The duty imposed on sewerage undertakers by reg 7 is enforceable under the Water Industry Act 1991 s 18 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 163) by the Water Services Regulation Authority: Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, reg 7(7) (amended by SI 2005/2035). 'Industrial waste water' means any waste water which is discharged from premises used for carrying on any trade or industry, other than domestic waste water and run-off rain water: Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, reg 2(1). 'Domestic waste water' means waste water from residential settlements and services which originates predominantly from the human metabolism and from household activities: reg 2(1). 'Collecting system' means a system of conduits which collects and conducts urban waste water: reg 2(1). 'Urban waste water' means domestic waste water or the mixture of domestic waste water with industrial waste water and with run-off rain water or with run-off rain water: reg 2(1). 'Sludge' means residual sludge, whether treated or untreated, from urban waste water treatment plants: reg 2(1). As to the Water Services Regulation Authority see **WATER AND WATERWAYS** vol 100 (2009) PARA 109 et seq.

Nothing in the Water Industry Act 1991 s 121(1), (2) (see PARA 1049) may be construed as restricting the power of a sewerage undertaker to impose in any consent under Pt IV Ch III such conditions as are necessary to comply with the Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, reg 7(1): reg 7(2). Nothing in any agreement entered into between a sewerage undertaker or its predecessor and the owner or occupier of premises used for carrying on any trade or industry may be treated as a consent or authorisation for the purposes of the Water Industry Act 1991 Pt IV Ch III unless the terms of that agreement are such as will secure that the requirements of the Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, Sch 4 are met in respect of any discharge to which the agreement relates: reg 7(3). Sewerage undertakers must review, and if necessary modify, the consents or authorisations granted or deemed to be granted under the Water Industry Act 1991 Pt IV Ch III at regular intervals: Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, reg 7(4).

For the purposes of complying with reg 7(1), a sewerage undertaker may vary any agreement under the Water Industry Act 1991 s 129 (see PARA 1053) which provides for the discharge of industrial waste water to an urban waste water treatment plant without first entering a public sewer; and any such agreement is not enforceable if and to the extent that it permits any discharge of industrial waste water in respect of which the requirements of the Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, Sch 4 are not met: reg 7(5). Nothing in the Water Industry Act 1991 Pt IV Ch III may restrict the power of a sewerage undertaker or the Secretary of State to vary a consent or authorisation in pursuance of the duty imposed by the Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, reg 7, or render a sewerage undertaker or the Secretary of State liable to pay compensation as a consequence of any such variation made in pursuance of that duty: reg 7(6).

As to the Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, see further PARA 30.

5 As to the meaning of 'notice' see PARA 1037 note 2.

6 As to the meaning of 'owner' see PARA 1004 note 9.

7 Water Industry Act 1991 s 119(1). Every application or consent made or given under Pt IV Ch III must be made or given in writing: s 141(3).

8 Water Industry Act 1991 s 119(2). As from a day to be appointed, s 119(2) is amended so as to also require the application to state what steps are proposed to be taken for minimising the polluting effects of the discharge on any controlled waters and the impact of the discharge on sewerage services: see s 119(2) (prospectively amended by the Water Act 2003 s 89(1)(a)). For these purposes, 'controlled waters' has the meaning given by the Water Resources Act 1991 s 104 (see PARA 289): see the Water Industry Act 1991 s 119(3) (prospectively added by the Water Act 2003 s 89(1)(b)). At the date at which this volume states the law no such day had been appointed.

9 It is necessary for the purposes of the Water Industry Act 1991 Pt IV Ch III.

10 Water Industry Act 1991 s 118(5). This applies to a discharge indirectly into the public sewers; it is therefore an offence to discharge trade effluents by way of other trade premises without serving a trade effluent notice, although a similar discharge from the latter premises would be lawful: *Yorkshire Dyeing and Proofing Co Ltd v Middleton Borough Council* [1953] 1 All ER 540, [1953] 1 WLR 393, DC. See also *United Utilities Water plc v Moss Rose Piggeries Ltd* [2006] EWHC 2169 (Admin), [2006] All ER (D) 338 (Jun).

The penalty on summary conviction is a fine not exceeding the statutory maximum, and on conviction on indictment is a fine: see the Water Industry Act 1991 s 118(5). As to the statutory maximum see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 140.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(vi) Trade Effluent and Special Category Effluent/A. TRADE EFFLUENT/1048. Appeals.

1048. Appeals.

Any person aggrieved by¹: (1) the refusal of a sewerage undertaker² to give a consent for which application has been duly made to the undertaker³; (2) the failure of a sewerage undertaker to give such a consent within the period of two months beginning with the day after service of the notice containing the application⁴; or (3) any condition attached by a sewerage undertaker to such a consent, may appeal to the Water Services Regulation Authority⁵.

On such an appeal in respect of a refusal or failure to give a consent, the Authority may give the necessary consent, either unconditionally or subject to such conditions as it thinks fit to impose for determining any of the matters as respects which the undertaker has power to impose conditions⁶. On an appeal in respect of a condition attached to a consent, the Authority may take into review all the conditions attached to the consent, whether appealed against or not, and may substitute for them any other set of conditions, whether more or less favourable to the appellant, or annul any of the conditions⁷. On any appeal⁸, the Authority may give a direction that the trade effluent⁹ in question must not be discharged until a specified date¹⁰.

1 Water Industry Act 1991 s 122(1). As to the person aggrieved see **ADMINISTRATIVE LAW** vol 1(1) (2001 Reissue) PARA 66.

2 As to sewerage undertakers see PARA 999.

3 Water Industry Act 1991 s 122(1)(a). The application referred to in the text is an application under s 119 (see PARA 1047): see s 122(1)(a).

4 Water Industry Act 1991 s 122(1)(b).

5 Water Industry Act 1991 s 122(1) (amended by the Water Act 2003 s 36(2)). As to the Water Services Regulation Authority see **WATER AND WATERWAYS** vol 100 (2009) PARA 109 et seq.

At any stage of the proceedings on an appeal under the Water Industry Act 1991 s 122, the Authority may, and if so directed by the High Court must, state in the form of a special case for the decision of the High Court any question of law arising in those proceedings: s 137(1) (amended by the Water Act 2003 s 36(2)). The decision of the High Court on a special case under the Water Industry Act 1991 s 122 is deemed to be a judgment of the court within the meaning of the Senior Courts Act 1981 s 16 (see **COURTS** vol 10 (Reissue) PARA 639); but no appeal to the Court of Appeal may be brought by virtue of the Water Industry Act 1991 s 137(2) except with the leave of the High Court or of the Court of Appeal: s 137(2) (amended by the Constitutional Reform Act 2005 Sch 11 Pt 1 para 1(2)).

6 Water Industry Act 1991 s 122(2). The undertaker has power to impose conditions under s 121 (see PARA 1049): s 122(2). Any consent given or conditions imposed by the Authority under s 122 in respect of discharges of trade effluent have effect for the purposes of Pt IV Ch III (ss 118-141) as if given or imposed by the sewerage undertaker in question: s 122(6) (amended by the Water Act 2003 s 36(2)).

The powers of the Authority under the Water Industry Act 1991 s 122 are subject to the provisions of s 123 (see PARA 1060), s 128 (see PARA 1052), s 133 (see PARA 1065), s 135 (see PARA 1056) and s 137 (see note 5): see s 122(7) (amended by the Water Act 2003 s 36(2)).

7 Water Industry Act 1991 s 122(3) (amended by the Water Act 2003 s 36(2)). The Authority may, under the Water Industry Act 1991 s 122(3), include provision as to the charges to be made in pursuance of any condition attached to a consent for any period before the determination of the appeal: s 122(4) (amended by the Water Act 2003 s 36(2)).

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(vi) Trade Effluent and Special Category Effluent/A. TRADE EFFLUENT/1049. Conditions imposed by sewerage undertakers.

1049. Conditions imposed by sewerage undertakers.

The power of a sewerage undertaker¹ to give a consent with respect to the discharge of any trade effluent² is a power to give a consent either unconditionally or subject to such conditions as the sewerage undertaker thinks fit to impose³ with respect to: (1) the sewer or sewers⁴ into which the trade effluent may be discharged⁵; (2) the nature or composition of the trade effluent which may be discharged⁶; (3) the maximum quantity of trade effluent which may be discharged on any one day, either generally or into a particular sewer⁷; and (4) the highest rate at which trade effluent may be discharged, either generally or into a particular sewer⁸.

Conditions with respect to all or any of the following matters may also be attached to a consent to the discharge of trade effluent from any trade premises⁹:

- 2254 (a) the period or periods of the day during which the trade effluent may be discharged from the trade premises into the sewer¹⁰;
- 2255 (b) the exclusion from the trade effluent of all condensing water¹¹;
- 2256 (c) the elimination or diminution, in certain cases¹², of any specified constituent of the trade effluent, before it enters the sewer¹³;
- 2257 (d) the temperature of the trade effluent at the time when it is discharged into the sewer, and its acidity or alkalinity at that time¹⁴;
- 2258 (e) the payment by the occupier of the trade premises to the undertaker of charges for the reception of the trade effluent into the sewer and for the disposal of the effluent¹⁵;
- 2259 (f) the provision and maintenance of such an inspection chamber or manhole as will enable a person readily to take samples, at any time, of what is passing into the sewer from the trade premises¹⁶;
- 2260 (g) the provision, testing and maintenance of such meters¹⁷ as may be required to measure the volume and rate of discharge of any trade effluent being discharged from the trade premises into the sewer¹⁸;
- 2261 (h) the provision, testing and maintenance of apparatus for determining the nature and composition of any trade effluent being discharged from the premises into the sewer¹⁹;
- 2262 (i) the keeping of records of the volume, rate of discharge, nature and composition of any trade effluent being discharged and, in particular, the keeping of records of readings of meters and other recording apparatus provided in compliance with any other condition attached to the consent²⁰; and
- 2263 (j) the making of returns and giving of other information to the sewerage undertaker concerning the volume, rate of discharge, nature and composition of any trade effluent discharged from the trade premises into the sewer²¹.

If, in the case of any trade premises, a condition so imposed is contravened, the occupier of the premises is guilty of an offence and liable to a penalty²².

A case falls within s 121(3) where the sewerage undertaker is satisfied that the constituent in question, either alone or in combination with any matter with which it is likely to come into contact while passing through any sewers: (1) would injure or obstruct those sewers, or make the treatment or disposal of the sewage from those sewers specially difficult or expensive; or (2) in the case of trade effluent which is to be or is discharged into a sewer having an outfall in any harbour or tidal water, or into a sewer which connects directly or indirectly with a sewer or sewage disposal works having such an outfall, would cause or tend to cause injury or obstruction to the navigation on, or the use of, the harbour or tidal water: s 121(3). As to the meaning of 'sewage disposal works' see PARA 998. 'Harbour' has the same meaning as in the Merchant Shipping Act 1995 (see **PORTS AND HARBOURS** vol 36(1) (2007 Reissue) PARA 611): Water Industry Act 1991 s 121(6) (amended by the Merchant Shipping Act 1995 Sch 13 para 89(a)). SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(vi) Trade Effluent and Special Category Effluent/A. TRADE EFFLUENT/1050. Variation of conditions and appeals with respect to variations of consent.

1050. Variation of conditions and appeals with respect to variations of consent.

A sewerage undertaker¹ may from time to time give a direction varying the conditions² which have been attached to any of its consents³ to the discharge of trade effluent into a public sewer⁴. No such direction may be given within two years from the date of the consent, or, where a previous direction has been given⁵ with respect to that consent, within two years from the date on which notice was given of that direction⁶, but this does not prevent a direction being given before the time so specified if it is given with the consent of the owner⁷ and occupier of the trade premises in question⁸. The sewerage undertaker must give to the owner and occupier of the trade premises to which a consent⁹ relates notice of any direction with respect to that consent¹⁰.

A sewerage undertaker may give a direction varying the conditions¹¹ before the specified time¹² and without the required consent¹³ if it considers it necessary to do so in order to provide proper protection for persons likely to be affected by the discharges which could lawfully be made apart from the direction¹⁴. Where a sewerage undertaker gives such a direction, the undertaker is liable to pay compensation to the owner and occupier of the trade premises to which the direction relates, unless the undertaker is of the opinion that the direction is required¹⁵: (1) in consequence of a change of circumstances which has occurred since the beginning of the period of two years in question, and could not reasonably have been foreseen at the beginning of that period¹⁶; and (2) otherwise than in consequence of consents for discharges given after the beginning of that period¹⁷. Where an undertaker gives such a direction and is of such an opinion, it is the duty of the undertaker to give notice of the reasons for its opinion to the owner and occupier of the premises in question¹⁸.

The owner or occupier of any trade premises may within two months of the giving to him of a notice of a direction varying conditions attached to consents¹⁹, or with the written permission of the Water Services Regulation Authority at any later time, appeal to the Authority against the direction²⁰. On such an appeal, the Authority has the power to annul the direction given by the sewerage undertaker, and to substitute for it any other direction, whether more or less favourable to the appellant²¹. Any direction given by the Authority may include provision as to the charges to be made for any period between the giving of the notice by the sewerage undertaker and the determination of the appeal²². Any consent given or conditions imposed by the Authority in respect of discharges of trade effluent have effect²³ as if given or imposed by the sewerage undertaker in question²⁴.

18 Water Industry Act 1991 s 125(3). A person to whom notice is given in pursuance of s 125(3) may, in accordance with regulations, appeal to the Water Services Regulation Authority against the notice on the ground that compensation ought to be paid in consequence of the direction to which the notice relates: s 126(5) (amended by the Water Act 2003 s 36(2)). On such an appeal, the Authority may direct that the Water Industry Act 1991 s 125 has effect as if the sewerage undertaker in question were not of the opinion to which the notice relates: s 126(6) (amended by the Water Act 2003 s 36(2)). 20 Water Industry Act 1991 s 126(1) (amended by the Water Act 2003 s 36(2)). Subject to the Water Industry Act 1991 s 126(3), if an appeal against a direction is brought under s 126(1) before the date specified under s 124(6)(b) (see note 10) in the notice of the direction, the direction does not take effect until the appeal is withdrawn or finally disposed of: s 126(2). In so far as the direction which is the subject of an appeal relates to the making of charges payable by the occupier of any trade premises, it may take effect on any date after the giving of the notice: s 126(3).

The powers of the Authority under s 126 are subject to the provisions of s 133 (see PARA 1065), s 135 (see PARA 1056) and s 137: s 126(8) (amended by the Water Act 2003 s 36(2)).

At any stage of the proceedings on an appeal under the Water Industry Act 1991 s 126(1), the Authority may, and if so directed by the High Court must, state in the form of a special case for the decision of the High Court any question of law arising in those proceedings: s 137(1) (amended by the Water Act 2003 s 36(2)). The decision of the High Court on such a special case is deemed to be a judgment of the court within the meaning of the Senior Courts Act 1981 s 16 (see **COURTS** vol 10 (Reissue) PARA 639); but no appeal to the Court of Appeal may be brought by virtue of the Water Industry Act 1991 s 137(2) except with the leave of the High Court or of the Court of Appeal: s 137(2) (amended by the Constitutional Reform Act 2005 Sch 11 Pt 1 para 1(2)).

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(vi) Trade Effluent and Special Category Effluent/A. TRADE EFFLUENT/1051. When consent is unnecessary.

1051. When consent is unnecessary.

Where there was, immediately before 1 December 1991¹, a deemed consent for discharge of trade effluent², it has effect as a deemed consent for the purposes of the provisions of the Water Industry Act 1991 relating to trade effluent³. However, the sewerage undertaker may at any time, and must if requested to do so by any person entitled to make a discharge in pursuance of the deemed consent, by notice⁴ served on the owner⁵ and any occupier of the premises in question cancel the deemed consent and give its actual consent for such discharges as were authorised by the deemed consent⁶.

A person on whom such a notice is served may, in accordance with regulations⁷, appeal to the Water Services Regulation Authority⁸. On such an appeal, the Authority may give the sewerage undertaker in question any such direction as it thinks fit with respect to the notice; and it is the duty of the undertaker to comply with the direction⁹.

Any dispute in so far as it¹⁰: (1) arises after 1 December 1991 and relates to a deemed consent in respect of discharges previously authorised¹¹; and (2) is a dispute: (a) as to the nature or composition of any trade effluent discharged from any trade premises¹² into a sewer¹³ during any period; (b) as to the quantity of trade effluent so discharged on any one day during any period; or (c) as to the rate of trade effluent so discharged during any period¹⁴, must, unless the parties otherwise agree, be referred to the Authority for determination¹⁵. On such a reference, the Authority may make such order in the matter as it thinks just¹⁶.

Regulations¹⁷ may make provision with respect to consents and the conditions of consents for discharges of trade effluent into the sewer of a sewerage undertaker through a drain¹⁸ or sewer provided in pursuance of the provisions relating to alteration of a drainage system¹⁹.

For certain purposes under the Radioactive Substances Act 1993 no account is taken of radioactivity possessed by any substances, articles or premises²⁰.

An actual consent so given is given either conditionally or subject to any conditions which may be attached to consents by virtue of s 121 (see PARA 1049): Sch 8 para 2(3). The provisions of Pt IV Ch III with respect to the variation of conditions of a consent apply in relation to an actual consent under Sch 8 para 2(2) as they apply in relation to any other actual consent under Pt IV Ch III: Sch 8 para 2(4). A notice signifying an actual consent under Sch 8 para 2(2) must indicate that a right of appeal is conferred under Sch 8 para 3 (see the text and notes 8-9) in respect of the notice: Sch 8 para 2(5).

1052. Variation of right to discharge in special cases.

If, after a direction has been given¹ requiring that trade effluent² is not to be discharged until a specified date, it appears to the sewerage undertaker³ in question that in consequence of a failure to complete any works required in connection with the reception and disposal of the trade effluent, or of any other exceptional circumstances, a later date ought to be substituted for the date specified in the direction, the undertaker may apply to the Water Services Regulation Authority⁴ for such a substitution⁵. The Authority has power, on such an application, to vary the direction so as to extend the period during which the trade effluent may not be discharged until the date specified in the application or, if it thinks fit, any earlier date⁶.

Not less than one month before making an application, a sewerage undertaker must give notice⁷ of its intention to the owner⁸ and occupier of the trade premises⁹ from which the trade effluent is to be discharged¹⁰.

The Authority, before varying a direction on an application, must take into account any representations made to it by the owner or occupier of the trade premises in question¹¹.

A sewerage undertaker¹ may enter into and carry into effect: (1) an agreement with the owner² or occupier of any trade premises³ within its area for the reception and disposal by the undertaker of any trade effluent⁴ produced on those premises⁵; (2) an agreement with the owner or occupier of any such premises under which it undertakes, on such terms as may be specified in the agreement, to remove and dispose of substances produced in the course of treating any trade effluent on or in connection with those premises⁶. The power of a sewerage undertaker to enter into such an agreement includes a power, by that agreement, to authorise such a discharge as apart from the agreement would require a consent⁷.

Without prejudice to the generality of s 129(1), an agreement under s 129(1)(a) may, in particular, provide: (1) for the construction or extension by the sewerage undertaker of such works as may be required for the reception or disposal of the trade effluent; and (2) for the repayment by the owner or occupier, as the case may be, of the whole or part of the expenses incurred by the undertaker in carrying out its obligations under the agreement: s 129(2).

For the purposes of complying with the Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, reg 7(1) (see PARA 1047 note 4), a sewerage undertaker may vary any agreement under the Water Industry Act 1991 s 129 which provides for the discharge of industrial waste water to an urban waste water treatment plant without first entering a public sewer; and any such agreement is not enforceable if and to the extent that it permits any discharge of industrial waste water in respect of which the requirements of the Urban Waste Water Treatment (England and Wales) Regulations 1994, SI 1994/2841, Sch 4 (see PARA 1047 note 4) are not met: reg 7(5). 1056. Restrictions on power to fix charges.

On any appeal to the Water Services Regulation Authority¹ with respect to decisions on applications² or any appeal with respect to variations of consent³, conditions providing for the payment of charges to the sewerage undertaker⁴ in question may not be determined by the Authority except in so far as no provision is in force by virtue of a charges scheme⁵ in respect of any such receptions, discharges, removals or disposals of effluent or substances⁶ as are of the same description as the reception, discharge, removal or disposal which is the subject-matter of the appeal⁷. In so far as any such conditions⁸ do fall to be determined by the Authority, they must be determined having regard to the desirability of that undertaker's recovering the expenses of complying with its obligations in consequence of the consent or agreement to which the conditions relate, and securing a reasonable return on its capital⁹. To the extent that the restrictions on the power to fix charges¹⁰ exclude any charges from a determination on an appeal those charges may be fixed from time to time by a charges scheme¹¹ but not otherwise¹².

Subject to any provision to the contrary¹, nothing in any local statutory provision² passed or made before 1 September 1989³ may be construed as relieving any sewerage undertaker⁴ from any liability arising by virtue of the Water Industry Act 1991 in respect of any act or omission occurring on or after that date⁵.

B. SPECIAL CATEGORY EFFLUENT

1059. Applications for the discharge of special category effluent.

Where a notice¹ containing an application for consent to discharge trade effluent² is served on a sewerage undertaker³ with respect to discharges of any special category effluent⁴, it is the duty of the undertaker to refer to the Environment Agency⁵ the questions whether the discharges to which the notice relates ought to be prohibited and whether, if they are not prohibited, any requirements ought to be imposed as to the conditions on which they are made⁶. Such a reference which is required to be made by a sewerage undertaker must be made before the end of the period of two months beginning with the day after the notice containing the application is served on the undertaker⁷. If a sewerage undertaker fails, within such a period, to refer to the Agency any question which it is required⁸ to refer to the Agency, the undertaker is guilty of an offence⁹.

It is the duty of a sewerage undertaker where it has made a reference not to give any consent, or enter into any agreement, with respect to the discharges to which the reference relates at any time before the Agency serves notice on the undertaker of the determination on the reference¹⁰. Every reference must be made in writing and must be accompanied by a copy of the notice containing the application in respect of which it is made¹¹. It is the duty of a sewerage undertaker, on making a reference, to serve a copy of the reference on the owner or the occupier of the trade premises in question, according to whether the discharges to which the reference relates are to be by the owner or by the occupier¹².

1 As to the meaning of 'notice' see PARA 1037 note 2.

2 I.e. under the Water Industry Act 1991 s 119: see PARA 1047.

3 As to sewerage undertakers see PARA 999.

4 Subject to the Water Industry Act 1991 s 138(1A) and s 138(2), trade effluent is special category effluent for the purposes of Pt IV Ch III (ss 118-141) if: (1) such substances as may be prescribed under the Water Industry Act 1991 are present in the effluent or are present in the effluent in prescribed concentrations; or (2) the effluent derives from any such process as may be so prescribed or from a process involving the use of prescribed substances or the use of such substances in quantities which exceed the prescribed amounts: s 138(1) (amended by SI 2000/1973). 'Prescribed' means prescribed by regulations: Water Industry Act 1991 s 219(1). As to prescribed processes and substances see the Trade Effluents (Prescribed Processes and Substances) Regulations 1992, SI 1992/339. By virtue of the Water Consolidation (Consequential Provisions) Act 1991 s 2(2), Sch 2 Pt I para 1(1), (2), the Trade Effluents (Prescribed Processes and Substances) Regulations 1989, SI 1989/1156 (amended by SI 1990/1629) have effect as if made under the Water Industry Act 1991 s 138. As to the meaning of 'trade effluent' see PARA 1047 note 3.

If trade effluent is produced, or to be produced, by operating any Part A installation or Part A mobile plant or otherwise carrying on any Part A activity, the operation or carrying on of which requires a permit, that effluent is not special category effluent for the purposes of the Water Industry Act 1991 Pt IV Ch III as from the determination date relating to the installation, plant or activity in question: s 138(1A) (s 138(1A), (1B) added by SI 2000/1973; and the Water Industry Act 1991 s 138(1A) amended by SI 2007/3538). 'Determination date', in relation to an installation, plant or activity, means: (a) in the case of an installation, plant or activity in relation to which a permit is granted, the date on which it is granted, whether in pursuance of the application, or on an appeal, of a direction to grant it; (b) in the case of an installation, plant or activity in relation to which the grant of a permit is refused, the date of refusal or, on appeal, of the affirmation of the refusal, and in heads (a) and

(b) above the references to an appeal are references to an appeal under regulations under the Environmental Permitting (England and Wales) Regulations 2007, SI 2007/3538 (see PARA 662 et seq, in particular PARA 667); and 'permit' means a permit granted under the 2007 Regulations: Water Industry Act 1991 s 138(1B)(a), (b) (as so added; and amended by SI 2007/3538). As to the meanings of the expressions 'Part A activity', 'Part A installation' and 'Part A mobile plant' see PARA 663 note 1; definitions applied by the Water Industry Act 1991 s 138(1B)(aa) (s 138(1B) as so added; and s 138(1B)(aa) added by SI 2007/3538).

Trade effluent is not special category effluent for the purposes of the Water Industry Act 1991 Pt IV Ch III if it is produced, or to be produced, in any process which is a prescribed process designated for central control as from the date which is the determination date for that process: s 138(2). 'Determination date', in relation to a prescribed process, means: (i) in the case of a process for which authorisation is granted, the date on which the enforcing authority grants it, whether in pursuance of the application or, on an appeal, of a direction to grant it; (ii) in the case of a process for which authorisation is refused, the date of refusal or, on appeal, of the affirmation of the refusal: s 138(3). In s 138(2), (3), 'authorisation', 'enforcing authority' and 'prescribed process' have the meanings given by Environmental Protection Act 1990 s 1 (see PARAS 159, 161); and the references to designation for central control and to an appeal are references, respectively, to designation under s 4 (see PARA 161) and to an appeal under s 15 (see PARA 176): Water Industry Act 1991 s 138(4) (amended by SI 2000/1973). As from a day to be appointed, the provisions of the Water Industry Act 1991 s 138(2)-(4) are repealed by the Pollution Prevention and Control Act 1999 Sch 3. At the date at which this volume states the law no such day had been appointed. As to the prospective repeal of the Environmental Protection Act 1990 Pt I (ss 1-28) see PARA 159 note 2.

Without prejudice to the power in the Water Industry Act 1991 s 139(3) (see PARA 1047), nothing in Pt IV Ch III enables regulations under s 138 to prescribe as special category effluent any liquid or matter which is not trade effluent but falls to be treated as such for the purposes of Pt IV Ch III by virtue of an order under s 139: s 138(5). This provision is repealed by the Water Act 2003 s 88(3), Sch 9 Pt 3 as from a day to be appointed under s 105. At the date at which this volume states the law no such day had been appointed.

6 Water Industry Act 1991 s 120(1) (amended by the Environment Act 1995 Sch 22 para 105). This provision is subject to the Water Industry Act 1991 s 120(3) (see note 7): see s 120(1) (as so amended).

7 Water Industry Act 1991 s 120(2). There is no obligation on a sewerage undertaker to make a reference under s 120 in respect of any application if, before the end of the period mentioned in s 120(2), there is a refusal by the undertaker to give any consent on the application: s 120(3).

8 le required by the Water Industry Act 1991 s 120(1).

9 Water Industry Act 1991 s 120(9) (s 120(9), (10) added by the Environment Act 1995 Sch 22 para 105). A sewerage undertaker that is guilty of an offence is liable: (1) on summary conviction, to a fine not exceeding the statutory maximum; (2) on conviction on indictment, to a fine: Water Industry Act 1991 s 120(9) (as so added). As to the statutory maximum see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 140. If the Environment Agency becomes aware of any such failure, it may: (a) if a consent under Pt IV Ch III to make discharges of any special category effluent has been granted on the application in question, exercise its powers of review under s 127 (see PARA 1061) or s 131 (see PARA 1063), notwithstanding anything in s 127(2) or s 131(2); or (b) in any other case, proceed as if the reference required by s 120 had been made: s 120(10) (as so added).

Appeals with respect to the discharge of special category effluent.

1060. Appeals with respect to the discharge of special category effluent.

Specific provisions apply in relation to appeals concerning special category effluent¹. Where a reference is made to the Environment Agency², the period³ does not begin to run in relation to an appeal against non-determination by the sewerage undertaker⁴ until the beginning of the day after the Agency serves notice⁵ on the sewerage undertaker in question of the determination on the reference⁶. If, on an appeal⁷, it appears to the Water Services Regulation Authority that the case is one in which the sewerage undertaker in question is required to make a reference⁸ before giving a consent and that the undertaker has not made such a reference⁹, the Authority is not entitled to determine the appeal, otherwise than by upholding a refusal, except where certain conditions are satisfied¹⁰. The conditions are satisfied if the Authority has itself referred the questions relating to the discharge of special category effluent¹¹ to the Agency and has been sent a copy of the notice of the Agency's determination on the reference¹².

Every reference under the Water Industry Act 1991 s 123 must be made in writing and be accompanied by a copy of the notice containing the application in respect of which the appeal and reference is made: s 123(4). It is the duty of the Water Services Regulation Authority, on making a reference under s 123, to serve a copy of the reference on the owner or the occupier of the trade premises in question, according to whether the discharges to which the reference relates are to be by the owner or by the occupier, and on the sewerage undertaker in question: s 123(5) (amended by the Water Act 2003 s 36(2)). Review by the Environment Agency of consents relating to special category effluent.

1061. Review by the Environment Agency of consents relating to special category effluent.

Where any person, as the owner¹ or occupier of any trade premises², is for the time being authorised³ by virtue of a consent⁴ to make discharges of any special category effluent⁵ from those premises into a sewerage undertaker's public sewer⁶, the Environment Agency⁷ may review the questions whether the discharges authorised by the consent ought to be prohibited and whether, if they are not prohibited, any requirements ought to be imposed as to the conditions on which they are made⁸.

The Agency may not review any such question unless⁹:

- 2267 (1) the consent or variation by virtue of which the discharges in question are made has not previously been the subject-matter of a review and was given or made before 1 September 1989¹⁰ or in contravention¹¹ of the duty to give effect to a determination by the Agency on a reference or review¹²;
- 2268 (2) a period of more than two years has elapsed since the time, or last time, when notice of the Agency's determination on any reference or review relating to that consent or the consent to which that variation relates was served¹³ on the owner or occupier of the trade premises in question¹⁴; or
- 2269 (3) there has, since the time, or last time, when such a notice was so served, been a contravention of any provision which was included in compliance with a requirement of a notice relating to discharge¹⁵ in the consent or variation by virtue of which the discharges in question are made¹⁶.

These provisions¹⁷ do not apply if the review is carried out: (a) for the purpose of enabling Her Majesty's government in the United Kingdom¹⁸ to give effect to any European Union obligation or to any international agreement to which the United Kingdom is for the time being a party¹⁹; or (b) for the protection of public health or of flora and fauna dependent on an aquatic environment²⁰.

Reference to the Environment Agency of agreements relating to special category effluent.

1062. Reference to the Environment Agency of agreements relating to special category effluent.

Where a sewerage undertaker¹ and the owner² or occupier of any trade premises³ are proposing to enter into an agreement with respect to, or to any matter connected with, the reception or disposal of any special category effluent⁴, it is the duty of the undertaker to refer to the Environment Agency⁵ the questions⁶: (1) whether the operations which would, for the purposes of or in connection with the reception or disposal of that effluent, be carried out in pursuance of the proposed agreement ought to be prohibited⁷; and (2) whether, if they are not prohibited, any requirements ought to be imposed as to the conditions on which they are carried out⁸.

It is the duty of a sewerage undertaker where it has made a reference not to give any consent or enter into any agreement with respect to any such operations as are mentioned in head (1) above at any time before the Agency serves notice⁹ on the undertaker of the determination on the reference¹⁰.

If a sewerage undertaker fails, before giving any consent or entering into any agreement with respect to any such operations as are mentioned in head (1) above, to refer to the Agency any question which it is required to refer to the Agency¹¹, the undertaker is guilty of an offence¹².

If the Agency becomes aware: (a) that a sewerage undertaker and the owner or occupier of any trade premises are proposing to enter into an agreement¹³; and (b) that the sewerage undertaker has not referred to the Agency any question which it is required to refer to the Agency¹⁴, it may proceed as if the required reference had been made¹⁵. If the Agency becomes aware that any consent has been given or agreement entered into with respect to any such operations as are mentioned in head (1) above without the sewerage undertaker in question having referred to the Agency any question which it is required to refer¹⁶, the Agency may exercise its powers of review¹⁷.

Review by the Environment Agency of agreements relating to special category effluent.

1063. Review by the Environment Agency of agreements relating to special category effluent.

Where any person, as the owner¹ or occupier of any trade premises², is for the time being³ a party to any agreement⁴ with respect to, or to any matter connected with, the reception or disposal of special category effluent⁵, the Environment Agency⁶ may review the questions⁷: (1) whether the operations which, for the purposes of or in connection with the reception or disposal of that effluent, are carried out in pursuance of the agreement ought to be prohibited⁸; and (2) whether, if they are not prohibited, any requirements ought to be imposed as to the conditions on which they are carried out⁹.

The Agency may not review any such question unless¹⁰:

- 2270 (a) the agreement by virtue of which the operations in question are carried out has not previously been the subject-matter of a review and was entered into before 1 September 1989¹¹ or in contravention¹² of the duty to give effect to a determination by the Agency on a reference or review¹³;
- 2271 (b) a period of more than two years has elapsed since the time, or last time, when notice of the Agency's determination on any reference or review relating to that agreement was served¹⁴ on the owner or occupier of the trade premises in question¹⁵; or
- 2272 (c) there has, since the time, or last time, when such a notice was so served, been a contravention of any provision which was included in compliance with a requirement of a notice relating to discharge¹⁶ in the agreement by virtue of which the operations in question are carried out¹⁷.

These provisions¹⁸ do not apply if the review is carried out: (i) for the purpose of enabling Her Majesty's government in the United Kingdom to give effect to any European Union obligation or to any international agreement to which the United Kingdom¹⁹ is for the time being a party²⁰; or (ii) for the protection of public health or of flora and fauna dependent on an aquatic environment²¹.

References and reviews relating to special category effluent.

1064. References and reviews relating to special category effluent.

On a reference to the Environment Agency¹ or a review by the Agency² in relation to special category effluent³, it is the duty of the Agency before determining the questions which are the subject-matter of the reference or review⁴:

- 2273 (1) to give an opportunity of making representations or objections to the Agency: (a) to the sewerage undertaker⁵ in question; and (b) to the owner⁶ or the occupier of the trade premises⁷ in question, according to whether it is the owner or the occupier of those premises who is proposing to be, or is, the person making the discharges or, as the case may be, a party to the agreement⁸; and
- 2274 (2) to consider any representations or objections which are duly made to the Agency with respect to those questions by a person to whom the Agency is required to give such an opportunity and which are not withdrawn⁹.

On determining any question on a reference¹⁰ or review¹¹, the Agency must serve notice¹² on the sewerage undertaker in question and on the person specified in head (1)(b) above¹³. Such a notice must state, according to what has been determined:

- 2275 (i) that the discharges or operations to which, or to the proposals for which, the reference or review relates, or such of them as are specified in the notice, are to be prohibited¹⁴; or
- 2276 (ii) that those discharges or operations, or such of them as are so specified, are to be prohibited except in so far as they are made or carried out in accordance with conditions which consist in or include conditions so specified¹⁵; or
- 2277 (iii) that the Agency has no objection to those discharges or operations and does not intend to impose any requirements as to the conditions on which they are made or carried out¹⁶.

Such a notice, in addition to containing such provision as is specified in heads (i) to (iii) above, may do one or both of the following¹⁷: (A) vary or revoke the provisions of a previous notice with respect to the discharges or operations in question¹⁸; and (B) for the purpose of giving effect to any prohibition or other requirement contained in the notice, vary or revoke any consent¹⁹ or any agreement²⁰.

Effect of determination on reference or review and compensation in respect of determinations.

1065. Effect of determination on reference or review and compensation in respect of determinations.

Where, on a reference or review, a notice of determination¹ has been served by the Environment Agency² on a sewerage undertaker³, it is the duty of the undertaker and, in relation to that undertaker, of the Water Services Regulation Authority⁴, so to exercise certain powers⁵ as to secure compliance with the provisions of the notice⁶. A sewerage undertaker which fails to perform such a duty is guilty of an offence⁷. The Agency may, for the purpose of securing compliance with the provisions of a notice⁸, by serving notice on the sewerage undertaker in question and on the specified person⁹, vary or revoke any consent to make discharges of any special category effluent¹⁰, or any agreement with respect to the disposal of trade effluent¹¹.

The Agency is liable to pay compensation to the relevant person¹² in respect of any loss or damage¹³ sustained by that person as a result of any notice¹⁴ containing the Agency's determination on a review which has been carried out for the protection of public health or of flora and fauna dependent on an aquatic environment and which, but for being so carried out, would have been prohibited¹⁵. However, the Agency is not required to pay any such compensation if the determination in question is shown to have been given¹⁶ in consequence of: (1) a change of circumstances which could not reasonably have been foreseen at the time when the specified period began to run¹⁷; or (2) consideration of material information which was not reasonably available to the Agency at that time¹⁸.

5 I.e the following powers: (1) in relation to a sewerage undertaker, its power to give a consent under the Water Industry Act 1991 Pt IV Ch III (ss 118-141), any of its powers under s 121 (see PARA 1049) or s 124 (see PARA 1050) and any power to enter into or vary an agreement under s 129 (see PARA 1053); and (2) in relation to the Authority, any of its powers under Pt IV Ch III: s 133(2) (s 133(1), (2) amended by the Water Act 2003 s 36(2)). Nothing in the Water Industry Act 1991 s 121(1) or s 121(2) (see PARA 1049) may be construed as restricting the power of a sewerage undertaker, for the purpose of complying with s 133, to impose any condition specified in a notice under s 132 (see PARA 1064): s 133(3).

6 Water Industry Act 1991 s 133(1) (as amended: see note 5). No person is entitled to any compensation under s 125 (see PARA 1050) in respect of anything done in pursuance of s 133: s 134(3).

7 Water Industry Act 1991 s 133(5) (s 133(5), (6) added by the Environment Act 1995 Sch 22 para 111). A sewerage undertaker that is guilty of an offence is liable: (1) on summary conviction, to a fine not exceeding the statutory maximum; (2) on conviction on indictment, to a fine: Water Industry Act 1991 s 133(5) (as so added). 1066. Power of the Environment Agency to acquire information for the purpose of its functions in relation to special category effluent.

For the purpose of the discharge of its functions under Part IV Chapter III of the Water Industry Act 1991¹ in relation to special category effluent², the Environment Agency³ may, by notice⁴ in writing served on any person, require that person to furnish such information⁵ specified in the notice as the Agency reasonably considers it needs, in such form and within such period following service of the notice, or at such time, as is so specified⁶.

A person who: (1) fails, without reasonable excuse, to comply with a requirement so imposed⁷; or (2) in furnishing any information in compliance with such a requirement, makes any statement which he knows to be false or misleading in a material particular, or recklessly makes a statement which is false or misleading in a material particular⁸, is guilty of an offence⁹.

(vii) Protection of Public Sewers

1067. Protection of sewers generally.

The general protection afforded by law to property protects public sewers from criminal damage¹, from damage by excessively heavy vehicles², and from negligent acts³.

Special provision has been made for the protection of sewers in connection with the construction of the Channel Tunnel⁴.

SEWERS AND DRAINS/(2) PUBLIC SEWERS AND DRAINS AND SEWAGE DISPOSAL/(vii) Protection of Public Sewers/1068. Passing of injurious matter into public sewers.

1068. Passing of injurious matter into public sewers.

No person may throw, empty or turn, or suffer or permit to be thrown or emptied or to pass, into any public sewer¹, or into any drain or sewer² communicating with a public sewer³: (1) any matter likely to injure the sewer or drain, to interfere with the free flow of its contents, or to affect prejudicially the treatment and disposal of its contents⁴; or (2) any such chemical refuse or waste steam, or any such liquid of a temperature higher than 43° Celsius, as is a prohibited substance⁵; or (3) any petroleum spirit or carbide of calcium⁶. A person who contravenes any of these provision⁷ is guilty of an offence⁸.

For the purpose of the operation and enforcement of these provisions, no account is to be taken of any radioactivity possessed by any substance⁹.

3 Water Industry Act 1991 s 111(1). This provision is expressed to be subject to the provisions of Pt IV Ch III (ss 118-141): see s 111(1). Nothing in s 111 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). 5 Water Industry Act 1991 s 111(1)(b) (amended by the Water Act 2003 Sch 7 Pt 3 para 39(1), (2)(a)).

For these purposes, chemical refuse, waste steam or a liquid of a temperature higher than that mentioned in the Water Industry Act 1991 s 111(1) is a prohibited substance if (either alone or in combination with the contents of the sewer or drain in question) it is or, in the case of the liquid, is when so heated: (1) dangerous; (2) the cause of a nuisance; or (3) injurious, or likely to cause injury, to health: s 111(2).

198 (1) crude petroleum;

199 (2) oil made from petroleum or from coal, shale, peat or other bituminous substances; or

200 (3) product of petroleum or mixture containing petroleum,

as, when tested in the manner prescribed by or under the Petroleum (Consolidation) Act 1928 (see **FUEL AND ENERGY** vol 19(3) (2007 Reissue) PARAS 1625-1626), gives off an inflammable vapour at a temperature of less than 23° Celsius: Water Industry Act 1991 s 111(5) (amended by the Water Act 2003 Sch 7 Pt 3 para 39(1), (2)(b)).

8 Water Industry Act 1991 s 111(3). A person guilty of an offence is liable: (1) on summary conviction, to a fine not exceeding the statutory maximum and to a further fine not exceeding £50 for each day on which the offence continues after conviction; (2) on conviction on indictment, to imprisonment for a term not exceeding

two years or to a fine or to both: s 111(3). As to the statutory maximum see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 140. For the purposes of so much of s 111(3) as makes provision for the imposition of a daily penalty: (a) the court by which a person is convicted of the original offence may fix a reasonable date from the date of conviction for compliance by the defendant with any directions given by the court; and (b) where a court has fixed such a period, the daily penalty must not be imposed in respect of any day before the end of that period: s 111(4).

(viii) Sewage Disposal

1069. Duty not to create a nuisance.

A sewerage undertaker¹ must so discharge its functions² in relation to the adoption of sewers³ and disposal works, requirements as to proposed sewers and drains⁴, use of highway drains as sewers, and closure or restriction on use of public sewers⁵, as not to create a nuisance⁶. If the sewerage undertaker is responsible for creating or continuing a nuisance which is actionable independently of this provision, it is liable for it, and it is no defence to show that it is performing those statutory functions⁷. The sewerage undertaker is not responsible for creating or continuing a nuisance which it cannot prevent without constructing new sewers if the nuisance is caused by the discharge by other persons of sewage into the sewers and not by the construction or maintenance of the sewers by the undertaker; for example, if the nuisance is caused, without any fault of the undertaker, by the exercise of prescriptive rights to drain through the sewer into a stream, or by a sewer that has become inadequate because of increased building in the district which the undertaker cannot control⁸. Nor is it responsible to a member of the public who suffers damage through the exercise of his right to use the sewer⁹.

Where the sewerage undertaker is not responsible for creating or continuing a nuisance, it is not liable to a claim in respect of its statutory functions relating to sewerage unless it is guilty of negligence¹⁰; thus it is not liable for involuntary escapes (as opposed to discharges) of sewage unless either it is liable in nuisance or is guilty of negligence¹¹.

Works which will be a nuisance may be restrained by injunction even if without them a large population will suffer by lack of drainage (*A-G v Birmingham Borough Council* (1858) 4 K & J 528), but an injunction cannot be obtained if a trifling inconvenience is suffered (*Lillywhite v Trimmer* (1867) 36 LJ Ch 525). Although the undertaker is unprotected in respect of the nuisance, the statutory authority to construct and maintain the works is not eliminated: *R v Parlby* (1889) 22 QBD 520 at 523, DC, per Wills J. The exclusion of claims in nuisance does not apply to claims in negligence and such claims must encompass remedies for breaches of human rights obligations: see *Dobson v Thames Water Utilities Ltd* [2009] EWCA Civ 28, [2009] 3 All ER 319; and PARA 1010. The undertaker is not liable in nuisance for damage caused by the presence of a sewer properly laid across a river bed which has since eroded: see *Radstock Co-operative and Industrial Society Ltd v Norton-Radstock UDC* [1968] Ch 605, [1968] 2 All ER 59, CA. See also *Papworth v Battersea Borough Council* [1916] 1 KB 583, CA. See further **NUISANCE** vol 78 (2010) PARA 173 et seq.

The common law of nuisance should not be used to impose on a sewerage undertaker obligations which are inconsistent with the duties already imposed on it under the Water Act 1991: *Marcic v Thames Water Utilities Ltd* [2003] UKHL 66, [2004] 2 AC 42, [2004] 1 All ER 135. A sewerage undertaker may be liable for discharging sewage into a stream if the inhabitants' right is merely to drain into the sewer and not into the stream (*Jones v Llanrwst UDC* [1911] 1 Ch 393), if the sewage can be so discharged as not to be a nuisance (*Hobart v Southend-on-Sea Corp* (1906) 75 LJKB 305 at 309 per Buckley J), or if the nuisance can be abated by stopping up a connection through which foul water is unlawfully passed (*Charles v Finchley Local Board* (1883) 23 ChD 767).

9 Eg where sewage from the sewer is forced back through the connecting pipe into the claimant's premises, the sewerage undertaker is not liable unless it is guilty of negligence: *Stretton's Derby Brewery Co Ltd v Derby Corp* [1894] 1 Ch 431. 1070. Purification of foul water.

A sewerage undertaker¹ is not authorised by the statutory provisions relating to adoption of sewers² and disposal works, communication with public sewers³, protection of the sewerage system, and use of pipes⁴ for sewerage purposes⁵, to construct or use any public or other sewer, or any drain⁶ or outfall for the purpose of conveying foul water⁷ into any natural or artificial stream, watercourse⁸, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake⁹.

1 As to sewerage undertakers see PARA 999.

3 As to the meaning of 'public sewer' see PARA 1000.

4 As to the meaning of 'pipe' see PARA 998.

5 As to the provisions of the Water Industry Act 1991 ss 102-109 (see PARAS 1004-1007, 1041-1044), and ss 111-116 (see PARAS 1036, 1046, 1068, 1074, 1080-1081).

6 As to the meaning of 'drain' see PARA 998.

7 Water containing tar acid from a road has been held to be 'filthy water' and its discharge not justified under a similar provision: *Dell v Chesham UDC* [1921] 3 KB 427.

8 As to the meaning of 'watercourse' see PARA 1004 note 4.

9 Water Industry Act 1991 s 117(5). This implies a power to discharge a surface water sewer into a watercourse so long as the purity and quality are not affected: *Durrant v Branksome UDC* [1897] 2 Ch 291, CA; *Maxwell Willshire v Bromley RDC* (1917) 87 LJ Ch 241. The sewerage undertaker may be restrained if the purity of the stream is affected merely at the point of discharge: *A-G v Ringwood RDC* (1928) 92 JP 65. See also PARA 282; **ADMINISTRATIVE LAW** vol 1(1) (2001 Reissue) PARA 195. Nothing in the relevant sewerage provisions authorises a sewerage undertaker injuriously to affect: (1) any reservoir, canal, watercourse, river or stream, or any feeder thereof; or (2) the supply, quality or fall of water contained in, or in any feeder of, any reservoir, canal, watercourse, river or stream, without the consent of any person who would, apart from the Water Industry Act 1991, have been entitled by law to prevent, or be relieved against, the injurious affection of, or of the supply, quality or fall of water contained in, that reservoir, canal, watercourse, river, stream or feeder: s 186(3). As to the meaning of 'relevant sewerage provisions' see PARA 1027 note 5.

There are also offences of polluting controlled waters, including allowing poisonous, noxious or polluting matter or any solid waste matter or trade effluent or sewage effluent to enter controlled waters: see the Water Resources Act 1991 s 85; and PARA 291. See also *Environment Agency (formerly National Rivers Authority) v Empress Car Co (Abertillery) Ltd* [1999] 2 AC 22, sub nom *Empress Car Co (Abertillery) Ltd v National Rivers Authority* [1998] 1 All ER 481, HL (effect of third party actions in the context of causing pollution); and see *Alphacell Ltd v Woodward* [1972] AC 824, [1972] 2 All ER 475, HL. As to controlled waters see PARA 289.

As to the defence under the Water Resources Act 1991 s 87 that the breach was caused by an illegal discharge to the sewer that the sewerage undertaker could not reasonably have been expected to prevent see PARA 296.

1071. Sewage disposal works.

On the privatisation of the water industry¹, sewage disposal works² vested in sewerage undertakers³. Also vested are sewage disposal works constructed by the sewerage undertaker⁴ or vested in it in pursuance of arrangements with a relevant authority⁵ and sewage disposal works with respect to which a vesting declaration⁶ has taken effect⁷. The sewerage undertaker has wide powers to provide a sewerage system⁸ which may include the construction of sewage disposal works⁹, the acquisition by purchase, lease or otherwise of any sewage disposal works¹⁰, or the adoption or agreement to adopt sewage disposal works¹¹.

1072. Use of sludge on agricultural land.

Sludge¹ from sewerage plants may be used² on agricultural land, subject to provisions as to its treatment and application³. Any occupier of agricultural land where sludge has been used, other than by the sludge producer, must furnish certain information as to its use to the sludge producer⁴ and the sludge producer must keep a register containing records as to quantity, composition and destination of sludge⁵ and make the register available for inspection by the Environment Agency at all reasonable times⁶. Any person who contravenes any of these provisions is guilty of an offence⁷.

1 'Sludge' means residual sludge from sewage plants treating domestic or urban waste waters and from other sewage plants treating waste waters of a composition similar to domestic and urban waste waters: Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 2(1). See also generally **AGRICULTURAL PRODUCTION AND MARKETING** vol 1 (2008) PARA 969 et seq.

2 'Use' means spreading on the soil or any other application on or in the soil; and 'used' is to be construed accordingly: Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 2(1).

3 See the Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 3. The sludge must be tested before it may be used: see reg 3(2), Sch 1. The sludge producer must provide details of the analysis made under Sch 1 to all persons to whom he supplies sludge: reg 7(2). The soil on the land must also be tested and assessed before any sludge is used: see reg 3(2), Sch 2 (amended by SI 1996/593; SI 1996/973). 'Sludge producer' means any person who manages a plant at which sludge is produced for disposal: Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 2(1). As to the precautions to be taken after sludge is used see reg 4 (amended by SI 1990/880). There are additional provisions in relation to the use of sludge on dedicated sites: Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 8 (amended by SI 1990/880; SI 1996/593; SI 1996/973; SI 2000/62). 'Dedicated site' means an area of agricultural land which on 17 June 1986 was dedicated to the disposal of sludge but on which commercial food crops were being grown exclusively for animal consumption: Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 2(1).

4 See the Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 5 (amended by SI 1990/880).

5 See the Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 6 (amended by SI 1990/880).

6 See the Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 7(1) (amended by SI 1996/593; SI 1996/973). As to the Environment Agency see PARA 68 et seq.

7 See the Sludge (Use in Agriculture) Regulations 1989, SI 1989/1263, reg 9. A person guilty of an offence is liable on summary conviction to a fine not exceeding level 5 on the standard scale: reg 9. As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

Provisions relating to the drainage of buildings, yards and passages are dealt with elsewhere in this work¹.

1074. Power to investigate defective drain or sewer.

Where it appears to a sewerage undertaker¹ that there are reasonable grounds for believing: (1) that any drain² connecting with a public sewer³, or any private sewer⁴ so connecting, is in such a condition as to be injurious or likely to cause injury to health or as to be a nuisance⁵; or (2) that any such drain or private sewer is so defective as to admit subsoil water⁶, the undertaker may examine the condition of the drain or sewer⁷ and, for that purpose, may apply any test, other than a test by water under pressure and, if the undertaker deems it necessary, open the ground⁸. If on examination the drain or sewer is found to be in proper condition, the undertaker must, as soon as possible, reinstate any ground which has been opened by it and make good any damage done by the undertaker⁹.

Nothing in the Water Industry Act 1991 s 114 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). 1075. Notice to remedy stopped-up drain etc.

If it appears to a local authority¹ that on any premises² a drain³, private sewer⁴, water closet⁵, waste pipe or soil pipe is stopped up, it may by notice in writing require the owner⁶ or occupier of the premises to remedy the defect within 48 hours from the service of the notice⁷. If a notice is not complied with, the local authority may itself carry out the work necessary to remedy the defect and may recover the expenses reasonably incurred in so doing from the person on whom the notice was served⁸.

In proceedings to recover the expenses under these provisions, the court may inquire: (1) whether any requirement contained in a notice served⁹ was reasonable¹⁰; and (2) whether the expenses ought to be borne wholly or in part by some person other than the defendant in the proceedings¹¹. The court may make such order concerning the expenses or their apportionment as appears to the court to be just¹². The court may not revise an apportionment unless it is satisfied that all persons affected by the apportionment or by an order made by virtue of head (2) above have had notice of the proceedings and an opportunity of being heard¹³.

1 As to the meaning of 'local authority' see PARA 99.

2 As to the meaning of 'premises' see PARA 1 note 34; definition applied by virtue of the Public Health Act 1961 s 1(1).

3 As to the meaning of 'drain' see PARA 998; definition applied by virtue of the Public Health Act 1961 s 1(1).

4 'Private sewer' means a sewer which is not a public sewer: Public Health Act 1936 s 343(1); definition applied by virtue of the Public Health Act 1961 s 1(1). 'Public sewer' means a sewer for the time being vested in a sewerage undertaker in its capacity as such, whether vested in that undertaker by virtue of a scheme under the Water Act 1989 s 4, Sch 2 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 108) or the Water Industry Act 1991 Sch 2 (see **WATER AND WATERWAYS** vol 100 (2009) PARA 141) or under s 179 (see PARA 1003) or otherwise: Public Health Act 1936 s 343(1) (definition substituted by the Water Consolidation (Consequential Provisions) Act 1991 Sch 1 para 4).

5 'Water closet' means a closet which has a separate fixed receptacle connected to a drainage system and separate provision for flushing from a supply of clean water either by the operation of mechanism or by automatic action: Public Health Act 1936 s 90(1); definition applied by virtue of the Public Health Act 1961 s 1(1).

6 As to the meaning of 'owner' see PARA 116; definition applied by virtue of the Public Health Act 1961 s 1(1).

7 Public Health Act 1961 s 17(3) (s 17 substituted by the Local Government (Miscellaneous Provisions) Act 1982 s 27(1)). The Public Health Act 1961 s 17 is expressed to be without prejudice to the Building Act 1984 s 59 (see **BUILDING** vol 4(2) (2002 Reissue) PARA 382) which empowers a local authority to serve notices as regards defective drains: Public Health Act 1961 s 17(15) (as so substituted; and amended by the Building Act 1984 Sch 6 para 8). As to the power of the local authority to undertake, at the request of the owner or occupier, the cleaning or repair of drains etc see the Public Health Act 1961 s 22; and PARA 1078. 8 Public Health Act 1961 s 17(4) (as substituted: see note 7). This provision is expressed to be subject to s 17(7) (see note 12) and s 17(8) (see PARA 1078): see s 17(4) (as so substituted).

Where the expenses recoverable by a local authority under s 17(4) do not exceed £10, the local authority may, if it thinks fit, remit the payment of the expenses: s 17(5) (as so substituted). The Secretary of State may by order made by statutory instrument increase any amount specified in s 17: s 17(12) (as so substituted). Nothing

in such an order applies to a notice given under s 17 before the commencement of the order: s 17(13) (as so substituted). A statutory instrument containing an order under s 17(12) is subject to annulment in pursuance of a resolution of either House of Parliament: s 17(14) (as so substituted). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59. At the date at which this volume states the law no such statutory instrument had been made.

The expenses are recoverable as a simple contract debt: see the Public Health Act 1936 s 293(1) (amended by the Local Government (Miscellaneous Provisions) Act 1976 s 27(3), Sch 2); Public Health Act 1961 s 1(1). See also PARA 122. It should be noted that, as the expenses are recoverable from the person on whom the notice was served and not from the owner as such, the various powers under the Public Health Act 1936 s 291 (see PARA 123) are not available.

1076. Notice to remove obstruction from private sewer.

If a private sewer¹ is obstructed at a point within the area of a local authority² (other than a county council in England), the authority may serve on each of the persons who is an owner³ or occupier of premises⁴ served by the sewer, or on each of such of those persons as the authority thinks fit, a notice⁵ requiring the recipients⁶ to remove the obstruction before a specified⁷ time⁸. If an obstruction in respect of which such notices have been served by an authority is not removed within the period specified in the notices, the authority may remove it⁹.

Where an authority has reasonably incurred expenses in removing an obstruction, it may serve on each of the persons on whom it served notice in respect of the obstruction a further notice¹⁰: (1) requiring him to pay to the authority a sum equal to so much of the expenses as is specified in the further notice¹¹; and (2) specifying the other persons on whom notices have been or are to be served in respect of the expenses and the amount specified or to be specified in each of those notices¹². It is the duty of the authority, in determining what amounts to specify in notices to be served by the authority in respect of any expenses, to have regard to any matters which appear to the authority to indicate the cause of the obstruction and, so far as the authority is aware of the obligations, to any obligations to remove the obstruction which arose under agreements between persons on whom the notices are to be served¹³.

Where a local authority has served a notice in relation to expenses incurred in removing an obstruction¹⁴, then: (a) if the person has not appealed against the notice¹⁵ within the specified period, the authority is entitled after the expiration of that period to recover from him the sum specified in the notice¹⁶; and (b) if he has so appealed within that period and the court has not reduced to nil the sum specified in the notice, the authority is entitled after the determination of the appeal to recover from him the sum specified in the notice or, if the court has reduced that sum to a smaller sum, the smaller sum¹⁷.

4 As to the meaning of 'premises' see PARA 1 note 34; definition applied by the Local Government (Miscellaneous Provisions) Act 1976 s 35(7).

5 'Notice' means notice in writing: Local Government (Miscellaneous Provisions) Act 1976 s 44(1).

6 I.e. the recipients of notices in pursuance of the Local Government (Miscellaneous Provisions) Act 1976 s 35(1): see the text and note 8.

7 The time must be not earlier than 48 hours after the service of the notice or, if different notices in respect of the same obstruction are served in pursuance of the Local Government (Miscellaneous Provisions) Act 1976 s 35(1) at different times, not earlier than 48 hours after the latest of those times: s 35(1).

8 Local Government (Miscellaneous Provisions) Act 1976 s 35(1) (amended by the Local Government Act 1985 Sch 17; and SI 1996/3071). As notices may be served on owners and occupiers of premises served by the sewer and not merely the owner and occupier of the premises where the blockage occurs, the use of this power

can provide a simpler and fairer method of apportioning the expenses than the use of the Public Health Act 1961 s 17 (see PARA 1075), in relation to a private sewer: see Department of the Environment Circular 9/77.

1077. Appeal as to expenses of removing obstruction.

A person on whom a notice¹ is served by a local authority² requiring the payment of the expenses of removing an obstruction from a private sewer³ may, within the period of six weeks beginning with the date of service of the notice, appeal to the county court against the notice on the ground that it would be reasonable for the whole or part of the sum specified in the notice to be paid by some other person who is an owner⁴ or occupier of premises⁵ served by the sewer in question⁶.

On such an appeal against a notice, the court must either dismiss the appeal or order that the whole or part of the sum specified in the notice is to be paid to the authority which served the notice by⁷: (1) a person, other than the appellant, who is an owner or occupier of premises served by the sewer in question⁸; or (2) persons, other than the appellant, each of whom is such an owner or occupier, in such proportions as are specified in the order⁹, and the sum specified in the notice may be reduced accordingly¹⁰. However, the court may not order any payment by a person other than the appellant unless that person has, not later than the beginning of the period of eight days ending with that on which the hearing of the appeal is begun, been made a respondent to the appeal in accordance with rules of court¹¹.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/21. SEWERS AND DRAINS/(3) PRIVATE SEWERS AND DRAINS/1078. Repair etc of drains and private sewers.

1078. Repair etc of drains and private sewers.

If it appears to a local authority¹ that a drain², private sewer³, water closet⁴, waste pipe or soil pipe: (1) is not sufficiently maintained and kept in good repair⁵; and (2) can be sufficiently repaired at a cost not exceeding £250⁶, the local authority may, after giving not less than seven days' notice to the person or persons concerned⁷, cause the drain, private sewer, water closet or pipe to be repaired and recover the expenses reasonably incurred in so doing, so far as they do not exceed £250, from the person or persons concerned, in such proportions, if there is more than one such person, as the local authority may determine⁸. These provisions do not authorise a local authority to carry out works on land which belongs to any statutory undertaker⁹ and is held or used by it for the purposes of its undertaking¹⁰.

In proceedings to recover expenses, the court: (a) must inquire whether the local authority was justified in concluding that the drain, private sewer, water closet, waste pipe or soil pipe was not sufficiently maintained and kept in good repair¹¹; and (b) may inquire whether any apportionment of expenses by the local authority was fair¹². The court may make such order concerning the expenses or their apportionment as appears to the court to be just¹³.

A local authority may, on the application of the owner or occupier of any premises, undertake the cleansing or repair of any drains, water closets, sinks or gullies in or connected with the premises; and it may recover from the applicant such reasonable charge, if any, for so doing as it thinks fit¹⁴.

1 As to the meaning of 'local authority' see PARA 99.

2 As to the meaning of 'drain' see PARA 998; definition applied by virtue of the Public Health Act 1961 s 1(1).

3 As to the meaning of 'private sewer' see PARA 1075 note 4; definition applied by virtue of the Public Health Act 1961 s 1(1).

4 As to the meaning of 'water closet' see PARA 1075 note 5; definition applied by virtue of the Public Health Act 1961 s 1(1).

5 Public Health Act 1961 s 17(1)(a) (s 17 substituted by the Local Government (Miscellaneous Provisions) Act 1982 s 27(1)). As to the repair of underground drains see the Building Act 1984 s 61; and **BUILDING** vol 4(2) (2002 Reissue) PARA 384. As to the disconnection and sealing of disused drains see s 62; and **BUILDING** vol 4(2) (2002 Reissue) PARA 385.

6 Public Health Act 1961 s 17(1)(b) (as substituted: see note 5).

7 'Person concerned' means: (1) in relation to a water closet, waste pipe or soil pipe, the owner or occupier of the premises on which it is situated; and (2) in relation to a drain or private sewer, any person owning any premises drained by means of it and also, in the case of a sewer, the owner of the sewer: Public Health Act 1961 s 17(2) (as substituted: see note 5). As to the meaning of 'premises' see PARA 1 note 34; definition applied by virtue of s 1(1). As to the meaning of 'owner' see PARA 116; definition applied by virtue of s 1(1).

8 Public Health Act 1961 s 17(1) (as substituted: see note 5). This provision is expressed to be subject to s 17(7) (see the text and note 13) and s 17(8) (see note 11): see s 17(1) (as so substituted).

Section 17 is expressed to be without prejudice to the Building Act 1984 s 59 (see **BUILDING** vol 4(2) (2002 Reissue) PARA 382), which empowers a local authority to serve notices as regards defective drains: see the Public Health Act 1961 s 17(15) (as so substituted; and amended by the Building Act 1984 Sch 6 para 8).

Where the expenses recoverable by a local authority under the Public Health Act 1961 s 17(1) do not exceed £10, the local authority may, if it thinks fit, remit the payment of the expenses: s 17(5) (as so substituted). The

Secretary of State may by order made by statutory instrument increase any amount specified in s 17: s 17(12) (as so substituted). Nothing in such an order applies to a notice given under s 17 before the commencement of the order: s 17(13) (as so substituted). A statutory instrument containing an order under s 17(12) is subject to annulment in pursuance of a resolution of either House of Parliament: s 17(14) (as so substituted). As to the Secretary of State see PARA 58. As to the transfer of functions of the Secretary of State, so far as exercisable in relation to Wales, to the Welsh Ministers see PARA 59. At the date at which this volume states the law no such statutory instrument had been made. As to the recovery of expenses generally see PARAS 122-123.

9 'Statutory undertakers' means any persons authorised by an enactment or statutory order to construct, work or carry on any railway, canal, inland navigation, dock, harbour, tramway, or other public undertaking: Public Health Act 1936 s 343(1) (amended by the Gas Act 1986 Sch 9 Pt I; the Water Act 1989 Sch 27 Pt I; and the Electricity Act 1989 Sch 18); definition applied by virtue of the Public Health Act 1961 s 1(1).

10 Public Health Act 1961 s 17(10) (as substituted: see note 5). This exemption does not apply to houses, or to buildings used as offices or showrooms, other than buildings so used which form part of a railway station: s 17(11) (as so substituted). As to the meaning of 'house' see PARA 1 note 34; definition applied by virtue of s 1(1).

11 Public Health Act 1961 s 17(6)(a)(i) (as substituted: see note 5). Where the court determines that the local authority was not justified in concluding that a drain, private sewer, water closet, waste pipe or soil pipe was not sufficiently maintained and kept in good repair, the local authority may not recover expenses incurred by it under s 17(1): s 17(8) (as so substituted).

12 Public Health Act 1961 s 17(6)(a)(ii) (as substituted: see note 5). The court may not revise an apportionment unless it is satisfied that all persons affected by the apportionment or by an order made by virtue of s 17(6)(b)(ii) (see PARA 1075) have had notice of the proceedings and an opportunity of being heard: s 17(9) (as so substituted).

13 Public Health Act 1961 s 17(7) (as substituted: see note 5). This provision is expressed to be subject to s 17(8) (see note 11); see s 17(7).

14 Public Health Act 1961 s 22.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/21. SEWERS AND DRAINS/(3) PRIVATE SEWERS AND DRAINS/1079. Overflowing or leaking cesspools.

1079. Overflowing or leaking cesspools.

If the contents of any cesspool¹ soak away or overflow, the local authority² may by notice require the person by whose act, default or sufferance the soakage or overflow occurred or continued to execute such works, or to take such steps by periodically emptying the cesspool or otherwise, as may be necessary for preventing the soakage or overflow³. In so far as such a notice requires a person to take any steps other than the execution of works, he is, if he fails to comply with the notice, liable to a penalty⁴. However, in any proceedings it is open to the defendant to question the reasonableness of the authority's requirements⁵.

1 'Cesspool' includes a settlement tank or other tank for the reception or disposal of foul matter from buildings: Public Health Act 1936 s 90(1).

2 As to the meaning of 'local authority' see PARA 99.

3 Public Health Act 1936 s 50(1). This provision does not apply in relation to the effluent from a properly constructed tank for the reception and treatment of sewage if the effluent is of such a character, and is so conveyed away and disposed of, as not to be prejudicial to health or a nuisance: s 50(1) proviso. As to the meaning of 'prejudicial to health' see **NUISANCE** vol 78 (2010) PARA 158. In so far as a notice under s 50 requires a person to execute works, the provisions of Pt XII (ss 275-347) with respect to appeals against, and the enforcement of, notices requiring the execution of works apply in relation to the notice: s 50(2).

4 Public Health Act 1936 s 50(3). The penalty is a fine not exceeding level 1 on the standard scale and a further fine not exceeding £2 for each day on which the offence continues after conviction: see s 50(3) (amended by virtue of the Criminal Justice Act 1982 s 46; and the Decimal Currency Act 1969 s 10(1)). As to the standard scale see **SENTENCING AND DISPOSITION OF OFFENDERS** vol 92 (2010) PARA 142.

5 Public Health Act 1936 s 50(3) proviso.

Halsbury's Laws of England/ENVIRONMENTAL QUALITY AND PUBLIC HEALTH (VOLUME 45 (2010) 5TH EDITION, PARAS 1-575; VOLUME 46 (2010) 5TH EDITION, PARAS 576-1081)/21. SEWERS AND DRAINS/(3) PRIVATE SEWERS AND DRAINS/1080. Construction of sewers and drains by private persons.

1080. Construction of sewers and drains by private persons.

The power to construct sewers and drains¹ is incident to the ordinary ownership of land², but where: (1) a person proposes to construct a drain or sewer³; and (2) a sewerage undertaker⁴ considers that the proposed drain or sewer is or is likely to be needed to form part of a general sewerage system which that undertaker provides or proposes to provide⁵, the undertaker may require that person to construct the drain or sewer in a manner differing, as regards material or size of pipes⁶, depth, fall, direction or outfall, or otherwise, from the manner in which that person proposes, or could otherwise be required by the undertaker, to construct it⁷. It is the duty of a person on whom requirements are imposed by a sewerage undertaker to comply with those requirements⁸. The duty is owed to the undertaker; and any breach of the duty which causes the undertaker to sustain loss or damage is actionable at the suit of the undertaker⁹. If any person on whom requirements are imposed by a sewerage undertaker is aggrieved by the requirements, he may within 28 days appeal to the Water Services Regulation Authority¹⁰, which may disallow the requirements or allow them with or without modification¹¹.

A sewerage undertaker which exercises the powers conferred on it¹² must: (a) repay to the person constructing the sewer or drain the expenses reasonably incurred by that person in complying with the undertaker's requirements¹³; and (b) until the drain or sewer becomes a public sewer, from time to time repay to that person so much of any expenses reasonably incurred by him in repairing or maintaining the drain or sewer as may be attributable to the undertaker's requirements having been imposed and complied with¹⁴.

These provisions do not apply in relation to so much of any drain or sewer as is proposed to be constructed by any railway undertakers¹⁵ or dock undertakers¹⁶ in or on land which belongs to them and is held or used by them for the purposes of their undertaking¹⁷.

A sewerage undertaker must carry out its functions under s 112 so as not to create a nuisance: s 117(6). Nothing in s 112 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5). 1081. Alteration of drains by sewerage undertaker.

Where any premises have a drain or sewer¹ communicating with a public sewer² or a cesspool³, but that system of drainage, though sufficient for the effectual drainage of the premises, is not adapted to the general sewerage system of the area, or is, in the opinion of the sewerage undertaker for the area⁴, otherwise objectionable, that undertaker may, at its own expense, close the existing drain or sewer and fill up the cesspool, and do any work necessary for that purpose⁵. Such a power conferred on a sewerage undertaker is exercisable on condition only that the undertaker first provides, in a position equally convenient to the owner⁶ of the premises in question, a drain or sewer which is equally effectual for the drainage of the premises and communicates with a public sewer⁷.

A sewerage undertaker which proposes to carry out such work must give notice⁸ of its proposals to the owner of the premises in question⁹, who may, if he is aggrieved by the proposals, whether as regards the position or sufficiency of the sewer or drain proposed to be provided for the drainage of the premises, refer the matter to the Water Services Regulation Authority for determination¹⁰.

The Secretary of State¹¹ may by regulations¹² make provision with respect to consents and the conditions of consents for discharges of trade effluent¹³ into the sewer of a sewerage undertaker through a drain or sewer provided in pursuance of these provisions¹⁴.

5 Water Industry Act 1991 s 113(1). Nothing in s 113 is to be construed as authorising a sewerage undertaker to construct or use any public or other sewer, or any drain or outfall: (1) in contravention of any applicable provision of the Water Resources Act 1991 (see **WATER AND WATERWAYS**); or (2) for the purpose of conveying foul water into any natural or artificial stream, watercourse, canal, pond or lake, without the water having been so treated as not to affect prejudicially the purity and quality of the water in the stream, watercourse, canal, pond or lake: Water Industry Act 1991 s 117(5).
